a   As at 31 December 2021.
b   Relative to 2019, we expect our hydrocarbon production to be around 40% lower by 2030, reflecting active management and high-grading of the portfolio, including divestment of non-core assets. We will not undertake exploration activity in new countries.
c   This represents reported incidents occurring within bp's operational HSSE reporting boundary. That boundary includes bp's own operated facilities and certain other locations or situations.
d   The majority of this related to investments in offshore wind, electric vehicle charging infrastructure and solar.
e   Includes bp Foundation spend.
