

TRAINING  
DATA

# BODY MEASUREMENTS DATASET

How were the measurements  
taken (proofs folder)

# ABOUT US

Training Data is an expert in data collection and labeling. We are certified partners of crowdsourcing platforms. The founders of the company provide consulting services to startups and ML corporate teams, deliver speeches at industry conferences, and conduct training sessions at universities.

We have been providing data labeling services since 2016. Today, our team comprises 35 project managers, 85 experts from 12 industries, and over 1200 data labeling specialists.
