Table S3. List of Antibodies used for immunofluorescence, immunohistochemistry and western blot

| Antibody Name          | Company                                      |
|------------------------|----------------------------------------------|
| **Primary antibodies** |                                              |
| p62                    | Progen; #GP62-C, Heidelberg, Germany         |
| K8                     | Progen; #Ks 8.7, Heidelberg, Germany         |
| K8                     | abcam; #ab53280, Cambridge, UK              |
| K18                    | Progen; #Ks 18.04, Heidelberg, Germany       |
| K18                    | abcam; #ab53118, Cambridge, UK              |
| Ubiquitin              | Cell Signalling; #3933S, Austria            |
| Ubiquitin              | Sigma Aldrich; #GW10073F, Vienna, Austria   |
| NBR1                   | Novus; #NBP171703, Oxon, UK                 |
| Mx120-1                | neat; (3)                                    |
| LC3                    | Novus; #NB100-2200, Oxon, UK                |
| Desmoplakin            | abcam; #ab16434, Cambridge, UK              |
| **Secondary antibodies** |                                              |
| Alexa fluor goat anti rabbit IgG 488nm | Life technologies; #A11034, Vienna, Austria |
| Alexa fluor goat anti rabbit IgG 594nm | Life technologies; #A11012, Vienna, Austria |
| Alexa fluor goat anti mouse IgM 488nm | Life technologies; #A21042, Vienna, Austria |
| Alexa fluor goat anti mouse IgM 594nm | Life technologies; #A21044, Vienna, Austria |
| Alexa fluor goat anti chicken IgM 647nm | Life technologies; #A21449, Vienna, Austria |
| Goat anti-guineapig IgG HRP | DAKO; #P0141, Glostrup, Denmark           |
| Goat anti-mouse IgG HRP   | DAKO; #P0260, Glostrup, Denmark           |
