Corrigendum

Use of nonsteroidal anti-inflammatory drugs and risk of oral cancer: a cohort study

S Friis, A Poulsen, L Pedersen, JA Baron and HT Sørensen

Correction to: British Journal of Cancer (2006) 95, 363–365.
doi:10.1038/sj.bjc.6603250

Owing to an author error, there was a mistake in the presentation of results in Table 1 in the above paper. All figures in the table were correct, but the number of cases, person-years and rate ratios presented for NSAID users with 2–9 prescriptions were those pertaining to NSAID users with 10+ prescriptions, and vice versa. Correction of this interchange of results has no implications for the presentation of results in the article text, and conclusions and abstract remain the same. The correct Table 1 is shown below.

| Table 1 | Age- and gender-standardized rate ratios for oral cancer among NSAID users in North Jutland County, Denmark, 1991–2002 |
|---------|-------------------------------------------------------------------------------------------------------------|
|          | No. of cases | Person-years | Standardised rate ratio (95% CI) |
| All      |              |              |                                  |
| No prescriptions | 110 | 2 521 145 | Reference |
| 2+ prescriptions | 75 | 977 627 | 1.2 (1.0–1.6) |
| 2–9 prescriptions | 58 | 785 386 | 1.3 (1.0–1.6) |
| 10+ prescriptions | 17 | 192 241 | 1.0 (0.6–1.6) |

| No chronic obstructive pulmonary disease* |
| No prescriptions | 102 | 2 436 925 | Reference |
| 2+ prescriptions | 66 | 919 129 | 1.2 (0.9–1.5) |
| 2–9 prescriptions | 53 | 744 208 | 1.3 (1.0–1.7) |
| 10+ prescriptions | 13 | 174 921 | 0.9 (0.5–1.6) |

| Chronic obstructive pulmonary disease |
| No prescriptions | 8 | 84 220 | Reference |
| 2+ prescriptions | 9 | 58 499 | 0.9 (0.4–1.7) |
| 2–9 prescriptions | 5 | 41 179 | 0.8 (0.2–1.8) |
| 10+ prescriptions | 4 | 17 320 | 1.2 (0.3–3.1) |

*No hospitalisation for chronic obstructive pulmonary disease.
