| Topic                  | Item No | Checklist item description                                                                 | Reported on Page Number/Line Number | Reported on Section/Paragraph |
|------------------------|---------|---------------------------------------------------------------------------------------------|------------------------------------|------------------------------|
| Title                  | 1       | The diagnosis or intervention of primary focus followed by the words "case report"           |                                    |                              |
| Key Words              | 2       | 2 to 5 key words that identify diagnoses or interventions in this case report, including "case report" |                                    |                              |
| Abstract (no references)| 3a      | Introduction: What is unique about this case and what does it add to the scientific literature? |                                    |                              |
|                        | 3b      | Main symptoms and/or important clinical findings                                             |                                    |                              |
|                        | 3c      | The main diagnoses, therapeutic interventions, and outcomes                                 |                                    |                              |
|                        | 3d      | Conclusion—What is the main “take-away” lesson(s) from this case?                           |                                    |                              |
| Introduction           | 4       | One or two paragraphs summarizing why this case is unique (may include references)          |                                    |                              |
| Patient Information    | 5a      | De-identified patient specific information                                                    |                                    |                              |
|                        | 5b      | Primary concerns and symptoms of the patient                                                  |                                    |                              |
|                        | 5c      | Medical, family, and psycho-social history including relevant genetic information             |                                    |                              |
|                        | 5d      | Relevant past interventions with outcomes                                                     |                                    |                              |
| Clinical Findings      | 6       | Describe significant physical examination (PE) and important clinical findings               |                                    |                              |
| Timeline               | 7       | Historical and current information from this episode of care organized as a timeline        |                                    |                              |
| Diagnostic Assessment  | 8a      | Diagnostic testing (such as PE, laboratory testing, imaging, surveys).                       |                                    |                              |
|                        | 8b      | Diagnostic challenges (such as access to testing, financial, or cultural)                    |                                    |                              |
|                        | 8c      | Diagnosis (including other diagnoses considered)                                             |                                    |                              |
|                        | 8d      | Prognosis (such as staging in oncology) where applicable                                    |                                    |                              |
| Therapeutic Intervention| 9a     | Types of therapeutic intervention (such as pharmacologic, surgical, preventive, self-care) |                                    |                              |
|                        | 9b      | Administration of therapeutic intervention (such as dosage, strength, duration)              |                                    |                              |
|                        | 9c      | Changes in therapeutic intervention (with rationale)                                         |                                    |                              |
| Follow-up and Outcomes | 10a | Clinician and patient-assessed outcomes (if available) |
|-----------------------|-----|-----------------------------------------------------|
|                       | 10b | Important follow-up diagnostic and other test results |
|                       | 10c | Intervention adherence and tolerability (How was this assessed?) |
|                       | 10d | Adverse and unanticipated events |
| Discussion            | 11a | A scientific discussion of the strengths AND limitations associated with this case report |
|                       | 11b | Discussion of the relevant medical literature with references |
|                       | 11c | The scientific rationale for any conclusions (including assessment of possible causes) |
|                       | 11d | The primary “take-away” lessons of this case report (without references) in a one paragraph conclusion |
| Patient Perspective   | 12  | The patient should share their perspective in one to two paragraphs on the treatment(s) they received |
| Informed Consent      | 13  | Did the patient give informed consent? Please provide if requested | Yes | No |
