Erratum

High-pressure high-temperature synthesis and structure of \( \alpha \)-tetragonal boron
Evgeny A Ekimov and Igor P Zibrov 2011 *Sci. Technol. Adv. Mater.* 12 055009

Received 5 October 2011
Published 18 November 2011

The publisher regrets that there is a typographical error on page 2 of this article. The fourth sentence of section 3 should read as follows:
The lines characteristic of B–H–B (1700–2000 cm\(^{-1}\)) and B–H (2550–2650 cm\(^{-1}\)) bonds of decaborane were not found in the Raman spectra of the crystals (figure 3) that confirms the complete decomposition of decaborane [19, 20].
