Correction to “Molecular Caging of Graphene with Cyclohexane: Transfer and Electrical Transport”

Liubov A. Belyaeva, Wangyang Fu, Hadi Arjmandi-Tash, and Grégory F. Schneider*

Faculty of Science, Leiden Institute of Chemistry, Leiden University, Einsteinweg 55, 2333CC Leiden, The Netherlands

ACS Cent. Sci. 2016, 2, 904−909. DOI: 10.1021/acscentsci.6b00236

Supporting Information

After publication of the original manuscript we further elaborated the method and optimized several steps. Videotaped instructions (now provided as a Supporting Information file) depict step by step the transfer process highlighting the most crucial handling details. We made it to address several questions that followed the publication of our work. The publication of this video does not affect any of the conclusions of the original paper. Instead it provides a hands-on approach to provide the reader with a didactic protocol to handle graphene using molecular caging with cyclohexane.
