Life and death of a cardiac calcium spark
Michael D. Stern, Eduardo Ríos, and Victor A. Maltsev
Volume 142, No. 3, September 2, 2013. Pages 257–274.

In the Results, in the second paragraph of the section “A toy model of the couplon” (page 261), the sentence “With these simple assumptions, the couplon becomes a deterministic...” should not have included the hyphenated phrase “two-state,” as $n_{opn}$ and $ca_{op}$ are not two-state variables. The correct sentence is “With these simple assumptions, the couplon becomes a deterministic dynamical system with two state variables, $n_{opn}$ and $ca_{op}$, governed by a pair of differential equations that appear rather daunting once all the simple pieces above have been assembled.”
