Ethical Clearance Approval Form

Applicant’s Name: Minichil Liyi

| Research Title | Prevalence of intestinal parasites associated risk factors and its association with anaemia among pregnant women attending antenatal care in Yifag Heath Center |
|----------------|----------------------------------------------------------------------------------------------------------------------------------|
| Researcher (s) Name (s) | Minichil Liyi |

Thank you for submitting your application for ethical clearance, which was considered at the College of Science Research Ethics Committee meeting on 17 March 2020. The committee has reviewed your ethical application, issues pertaining to participants, consent form, debriefing, and relevant questionnaires.

The researcher should keep the confidentiality of the identity of research participants and data that will be obtained from them. Any serious adverse events or significant changes which occur in connection with this study and/or which may alter its ethical consideration must be reported immediately to the committee for a possible ethical amendment.

We are therefore pleased to inform you that the College’s Ethical Clearance Committee has approved your study from an ethical point of view.

With kind regards

Dr. Tesfaye Menga College
P.G.A.G.S. Vice Dean
