Erratum: This erratum is being published to correct the printing error on page 125 of the article entitled 'In Vitro Evaluation of Allergen Potencies of Commercial House Dust Mite Sublingual Immunotherapy Reagents' by Kyung Hee Park, Mina Son, Soo-Young Choi, Hey Jung Park, Jae-Hyun Lee, Kyoungh Yong Jeong, Joo-Shil Lee, Jung-Won Park in Allergy Asthma Immunol Res. 2015 March;7(2):124-129, http://dx.doi.org/10.4168/aair.2015.7.2.124 as follows.

Corrections for Table 1 in page 125 are needed. We apologize for any inconvenience that this may have caused.

Before correction

|                  | Allergen potency | Recommended administration volume | Maintenance dosage |
|------------------|------------------|-----------------------------------|--------------------|
| Staloral®        | 300 IR/mL        | 400 µL (4 droplets)               | 120 IR             |
| SLITone®         | 1,000 STU/mL     | 200 µL (vial)                     | 200 STU            |
| Wolwopharma®     | 100 µg/mL (protein concentration) | 200 µL (4 droplets) | 20 µg               |

IR, index of reactivity; STU, standard therapeutic unit.

After correction

|                  | Allergen potency | Recommended administration volume | Maintenance dosage |
|------------------|------------------|-----------------------------------|--------------------|
| Staloral®        | 300 IR/mL        | 400 µL (4 droplets)               | 120 IR             |
| SLITone®         | 1,000 STU/mL     | 200 µL (vial)                     | 200 STU            |
| Wolwopharma®     | 1,000 mcg/mL (protein concentration) | 200 µL (4 droplets) | 20 µg               |

IR, index of reactivity; STU, standard therapeutic unit.
