Data Sharing Statement

Pitt; FIDELIO-DKD and FIGARO-DKD Investigators. Association of Finerenone Use With Reduction in Treatment-Emergent Pneumonia and COVID-19 Adverse Events Among Patients With Type 2 Diabetes and Chronic Kidney Disease. JAMA Netw Open. Published October 26, 2022. doi:10.1001/jamanetworkopen.2022.36123

Data
Data available: Yes
Data types: Deidentified participant data
Data dictionary
How to access data: With publication
When available: With publication

Supporting Documents
Document types: None

Additional Information
Who can access the data: qualified scientific and medical researchers for conducting legitimate research
Types of analyses: To process related scientific research requests researchers can use www.clinicalstudydatarequest.com to request access to anonymized patient-level data and supporting documents from clinical studies to conduct further research that can help advance medical science or improve patient care. Data access will be granted to anonymized patient-level data, protocols and clinical study reports after approval by an independent scientific review panel.
Mechanisms of data availability: approval by an independent scientific review panel
