S4 Fig: Proportion of emergency-to-total admissions in each quintile of the Welsh Index of Multiple Deprivation (WIMD) 2011 in the study cohort

Proportion of emergency-to-total admissions in each quintile of the Welsh Index of Multiple Deprivation (WIMD) 2011 in the study cohort. Although the most deprived areas had the highest rate of asthma admissions, these areas had the highest proportion of non-emergency to total asthma admissions.
