APPENDIX

Table of Contents:

Appendix Figure S1
Appendix Figure S1: **Additional RNA-seq analysis**

(A) z-score hierarchical clustering for each sample in *Fibcd1* KO vs WT, WT*CSPG* vs WT and KO*CSPG* vs KO. Colours represent scaled expression values, with blue for low and red for high expression levels. Z-score is indicated in the legend. (B) Volcano plot depicting DEGs at DIV2 hippocampal cultures, comparing *Fibcd1* KO vs WT, showing significantly upregulated (red) and downregulated (blue) genes. Top 20 DEGs are labelled. (C) Volcano plot depicting DEGs at DIV2 hippocampal cultures comparing WT*CSPG* vs WT, all genes that fall into “integrin binding” GO term category are labelled.
