Supplementary Materials

Supplementary figure 1. Verification of antibody against SOX30 by western blot. SOX30 detected by western blot in CRC and adjacent tissues. T represented tumor tissue and N represented adjacent tissues (A). Correlation of SOX30 protein expression detected by western blot and SOX30 IHC score in tumor tissues (B) and adjacent tissues (C).
Supplementary figure 2. Prognostic value of SOX30 mRNA expression verified by data from public database. Correlation between SOX30 mRNA expression and accumulating OS by data from The Human Protein Atlas (derived from The Cancer Genome Atlas (TCGA) (A) and GEPIA (B).
