Erratum to: Long-term monitoring of opioid, sedative and anti-inflammatory drugs in horse hair using a selective and sensitive LC-MS/MS procedure

Milena M. Madry1*, Barbara S. Spycher2, Jacqueline Kupper3, Anton Fuerst4, Markus R. Baumgartner1, Thomas Kraemer2 and Hanspeter Naegeli3*

Erratum
Unfortunately, after publication of this article [1], it was noticed that the axis numbering of Fig. 4 was switched. The numbering of the x-axis should be on the y-axis and vice versa. The corrected figure can be seen below.

Fig. 4 Drug localization in horse hair as a function of the time of documented drug administrations. This graph shows the median distance from skin and range of segments with clearly increased drug incorporation. The slope of the resulting linear relationship is consistent with an average growth rate of 1.84 cm per month.
