# Data Sharing Statement

| Item | Question                                                                 | Authors’ Response (place “-” if not applicable) |
|------|---------------------------------------------------------------------------|--------------------------------------------------|
| 1    | Would you like to share data collected for your study to others?          | Yes.                                             |
| 2    | If not, would you like to share the reason for your decision?             | -                                                |
| 3    | What data in particular will be shared?                                   | The laboratory indexes and X-ray/CT images will be shared. |
| 4    | Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code. | Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested. |
| 5    | When will data availability begin?                                        | From the publication date.                       |
| 6    | When will data availability end?                                          | Two years within the publication date, since the technique or survival date may be updated over time. |
| 7    | To whom will you share the data?                                         | Thoracic surgeons, anesthetic doctors who are interested in our study. |
| 8    | For what type of analysis or purpose?                                    | For analysis to evaluate the feasibility or advantage of SV-VATS. |
| 9    | How or where can the data/documents be obtained?                          | Emails could be sent to the address below to obtain the shared data: 389647518@qq.com |
| 10   | Any other restrictions?                                                  | We may balance the potential benefits and risks for each request and then provide the data that could be shared. |
