Control when you need it most

ClearCorrect, a Straumann Group brand, is proud to introduce ClearPilot 3.0 software, which boasts of three new features designed to further empower clinicians every step of the treatment journey. With the Individual Tooth Movement feature, clinicians can make adjustments to the desired final position on the 3D model, including intrusion and extrusion, crown tipping, crown torque and rotation.

Clinicians can also request new engager sizes – 2 mm, 3 mm and 4 mm – so treatment can be individualised to suit your patient’s needs. Plus, with a new and improved user interface, the treatment planning experience is made even more efficient, with benefits including: tooth transparency, customisable colour preference, improved interface for photos and x-rays, among many more.

To discover more, visit the website or get in touch with the team today. For more information, visit www.clearcorrect-uk.com.

Learn from the best

Professor Cemal Ucer is a highly regarded authority on implant education – why not learn from the best? If you’re hoping to advance into implantology, it’s important to get off to a great start. The Postgraduate Certificate (PG Cert) in Implant Dentistry is designed to teach clinicians the core knowledge and skills they need to provide implants with confidence.

The course will also enable you to develop skills in using the full digital workflow from interpreting CBCT scans to using intra-oral scanners and this can all be done at the ICE Dental School with patients provided by ICE Hospital. This course truly encompasses everything you need to gain skills, knowledge, and put them into practice. What could be better than that?

Sign up today and embark on your implantology journey!

For more information on the PG Cert in Implant Dentistry from Ucer Education – supported by Geistlich, Megagen, Neoss, Implants and General Medical – visit www.ucer.education and ucer-clinic.dental or call Prof Ucer on 07767 645331; email ucer@oral-implants.com.

Unbeatable imaging

When looking for an imaging solution that can do it all, you can’t go wrong with the CS 9600 CBCT system from Carestream Dental. The world’s most intelligent CBCT system, the CS 9600 seamlessly meets the needs of any specialty. Fourteen fields of view ensure that you can perform all diagnostic examinations with ease, while innovative 3D facial scans, AI-assisted patient positioning and opportunity-creating software ensure that the system supports you in every indication.

Plus, super-speed cephalometric images can take as little as three seconds to perform, streamlining diagnoses and heightening patient comfort.

To find out more, contact Carestream Dental today.

Why wait to whiten when you can straighten and brighten together

SDI have launched new Pola for Aligners, an innovative whitening treatment suitable for any clear aligner system, allowing patients to brighten as they straighten their teeth.

Building on the success of an award-winning at-home whitening range, Pola for Aligners uses SDI’s Pola Night gel with a formulation that delivers exceptional results without the chairtime, and with minimal sensitivity. Pola for Aligner’s benefits include:

- An easy-to-use, 4-syringe take-home kit prescribed by a dentist
- A versatile treatment safe for overnight wear, or for a couple of hours, between meals, depending on patient preference
- The greatest patient comfort thanks to a formulation with potassium nitrate and fluoride, making it ideal for long-term use
- A high viscosity gel that stays in place in the clear aligner tray
- Added 10% carbamide peroxide, an active recognised as the gold standard in teeth whitening for its optimal results and patient safety and comfort.

Dentist recommended and with proven efficacy, Pola for Aligners harnesses the best in whitening technology to safeguard patient comfort and create an ultra-convenient and effective at-home whitening treatment.

For more information about Pola for Aligners visit https://sdipola.co.uk/products/pola-for-aligners/ and to take advantage of the latest offer, 2+1 on Pola for Aligners, go to https://sdipola.co.uk/offers/.
