| Topic                          | Item | Checklist item description                                                                 | Reported on Line |
|-------------------------------|------|--------------------------------------------------------------------------------------------|------------------|
| Title                         | 1    | The diagnosis or intervention of primary focus followed by the words “case report”.           | page1 paragraph1-2 |
| Key Words                     | 2    | 2 to 5 key words that identify diagnoses or interventions in this case report, including "case report" | page2 paragraph3 |
| Abstract (no references)      | 3a   | Introduction: What is unique about this case and what does it add to the scientific literature? | page1 background  |
|                               | 3b   | Main symptoms and/or important clinical findings                                            | page1 case presentaion |
|                               | 3c   | The main diagnoses, therapeutic interventions, and outcomes                                 | page1 case presentaion |
|                               | 3d   | Conclusion—What is the main “take-away” lesson(s) from this case?                           | page2 conclusion |
| Introduction                  | 4    | One or two paragraphs summarizing why this case is unique (may include references)           | page5 paragraph2-3 |
| Patient Information           | 5a   | De-identified patient specific information.                                                  | page2 case presentaion |
|                               | 5b   | Primary concerns and symptoms of the patient.                                                | page2 case presentaion |
|                               | 5c   | Medical, family, and psycho-social history including relevant genetic information             | N/A               |
|                               | 5d   | Relevant past interventions with outcomes                                                    | N/A               |
| Clinical Findings             | 6    | Describe significant physical examination (PE) and important clinical findings.              | page2 case presentaion |
| Timeline                      | 7    | Historical and current information from this episode of care organized as a timeline         | N/A               |
| Diagnostic Assessment         | 8a   | Diagnostic testing (such as PE, laboratory testing, imaging, surveys).                       | page3 case presentaion |
|                               | 8b   | Diagnostic challenges (such as access to testing, financial, or cultural)                    | page3 case presentaion |
|                               | 8c   | Diagnosis (including other diagnoses considered)                                              | page4 case presentaion |
|                               | 8d   | Prognosis (such as staging in oncology) where applicable                                     | page4 case presentaion |
| Therapeutic Intervention      | 9a   | Types of therapeutic intervention (such as pharmacologic, surgical, preventive, self-care)   | page4 case presentaion |
|                               | 9b   | Administration of therapeutic intervention (such as dosage, strength, duration)              | page4 case presentaion |
|                               | 9c   | Changes in therapeutic intervention (with rationale)                                         | page4 case presentaion |
| Follow-up and Outcomes        | 10a  | Clinician and patient-assessed outcomes (if available)                                       | page4 case presentaion |
|                               | 10b  | Important follow-up diagnostic and other test results                                        | page4 case presentaion |
|                               | 10c  | Intervention adherence and tolerability (How was this assessed?)                              | N/A               |
|                               | 10d  | Adverse and unanticipated events                                                             | N/A               |
| Discussion                    | 11a  | A scientific discussion of the strengths AND limitations associated with this case report    | page6 paragraph1-3 |
|                               | 11b  | Discussion of the relevant medical literature with references                                | page5-6          |
|                               | 11c  | The scientific rationale for any conclusions (including assessment of possible causes)       | N/A               |
|                               | 11d  | The primary “take-away” lessons of this case report (without references) in a one paragraph conclusion | page6 paragraph3 |
| Patient Perspective           | 12   | The patient should share their perspective in one to two paragraphs on the treatment(s) they received | Yes ☑ No ☐ |
| Informed Consent              | 13   | Did the patient give informed consent? Please provide if requested                           | Yes ☑ No ☐ |
