Dear Dr. Engler-Stringer,

On behalf of the Canadian Institutes of Health Research (CIHR), I am pleased to inform you that your application entitled “Improving School Food: Universal Integrated Healthy Lunch Intervention Research”, submitted to the Project Grant: Fall 2019 competition, has been approved for funding.

Your application reviews and competition results are available through ResearchNet. If you are unable to view these documents, please contact us at support-soutien@cihr-irsc.gc.ca. Your Authorization for Funding will follow in the mail.

Of note, the number of approved applications (as indicated in the Notice of Decision) includes applications that fell above the funding cutoff for the committee and, if applicable, any Early Career Researcher (ECR) application(s) that fell below the funding cutoff but were fully funded through the funds allotted specifically for equalization of success rates of ECRs. Through this equalization process, CIHR ensures that funding of ECRs is at an equal proportion as ECR applicants within the Project Grant competition, or, in other words, that ECR applicants have similar success rate as mid-career or senior applicants.

As CIHR does not notify co-applicants of the decision, we ask that you inform those individuals involved, along with their research institutions (if different from your own) of the outcome of this application.

Should you have any questions, please do not hesitate to communicate with a Processing Officer in the Contact Centre at 613-954-1968 or by e-mail at support-soutien@cihr-irsc.gc.ca.

Congratulations on your success in this competition.

Sincerely,

Chaidwick Leneïs  
Manager, Program Design and Delivery
