The number of galled trees for sample size 50 was reported inaccurately. The correct number of galled trees for recombination rate 1 is 198 instead of 161, for recombination rate 2 it is 15 instead of 5, and for recombination rate 4 it is 1 instead of 0. This should be corrected in Table 2, and it does not affect the conclusions.

| Network Class | Recombination Rate | 0 | 1 | 2 | 4 | 8 | 16 | 32 |
|---------------|--------------------|---|---|---|---|---|----|----|
| Regular       | 1,000              | 57 | 1 | 0 | 0 | 0 | 0  | 0  |
| Tree sibling  | 1,000              | 784 | 469 | 101 | 2 | 0 | 0  | 0  |
| Tree child    | 1,000              | 463 | 126 | 9  | 0 | 0 | 0  | 0  |
| Galled trees  | 1,000              | 198 | 15 | 1  | 0 | 0 | 0  | 0  |
| Trees         | 1,000              | 34  | 0  | 0  | 0 | 0 | 0  | 0  |
