Erratum: Uniting old stellar systems: from globular clusters to giant ellipticals

by Duncan A. Forbes,* Paul Lasky, Alister W. Graham and Lee Spitler

Key words: errata, addenda – globular clusters: general – galaxies: dwarf – galaxies: elliptical and lenticular, cD – galaxies: fundamental parameters – galaxies: general – galaxies: kinematics and dynamics.

The paper ‘Uniting old stellar systems: from globular clusters to giant ellipticals’ was published in Mon. Not. R. Astron. Soc. 389, 1924–1936 (2008).

The online Table 1 accompanying the paper contained incorrect values for the elliptical galaxies. A full corrected version of the online table is available with the Supporting Information for the paper. The plots and results used the correct values and hence the conclusions of the paper are unchanged. The authors regret any inconvenience caused.
