| Section and Topic | Item # | Checklist item                                                                 | Location where item is reported |
|-------------------|--------|-------------------------------------------------------------------------------|---------------------------------|
| TITLE             | 1      | Identify the report as a systematic review.                                  | p.1                             |
| ABSTRACT          | 2      | See the PRISMA 2020 for Abstracts checklist.                                 | Additional file 1                |
| INTRODUCTION      | 3      | Describe the rationale for the review in the context of existing knowledge.  | p.1-3                           |
|                   | 4      | Provide an explicit statement of the objective(s) or question(s) the review addresses. | p.3                             |
| METHODS           | 5      | Specify the inclusion and exclusion criteria for the review and how studies were grouped for the syntheses. | p.3 & p.4-5                     |
|                   | 6      | Specify all databases, registers, websites, organisations, reference lists and other sources searched or consulted to identify studies. Specify the date when each source was last searched or consulted. | p.3 and Additional file 3        |
|                   | 7      | Present the full search strategies for all databases, registers and websites, including any filters and limits used. | Additional file 3                |
|                   | 8      | Specify the methods used to decide whether a study met the inclusion criteria of the review, including how many reviewers screened each record and each report retrieved, whether they worked independently, and if applicable, details of automation tools used in the process. | p.3                             |
|                   | 9      | Specify the methods used to collect data from reports, including how many reviewers collected data from each report, whether they worked independently, any processes for obtaining or confirming data from study investigators, and if applicable, details of automation tools used in the process. | p.3-4                           |
|                   | 10a    | List and define all outcomes for which data were sought. Specify whether all results that were compatible with each outcome domain in each study were sought (e.g. for all measures, time points, analyses), and if not, the methods used to decide which results to collect. | p.3-4                           |
|                   | 10b    | List and define all other variables for which data were sought (e.g. participant and intervention characteristics, funding sources). Describe any assumptions made about any missing or unclear information. | p.3-4                           |
|                   | 11     | Specify the methods used to assess risk of bias in the included studies, including details of the tool(s) used, how many reviewers assessed each study and whether they worked independently, and if applicable, details of automation tools used in the process. | p.4                             |
|                   | 12     | Specify for each outcome the effect measure(s) (e.g. risk ratio, mean difference) used in the synthesis or presentation of results. | Table 5 and 6                   |
|                   | 13a    | Describe the processes used to decide which studies were eligible for each synthesis (e.g. tabulating the study intervention characteristics and comparing against the planned groups for each synthesis (item #5)). | p.4-5                           |
|                   | 13b    | Describe any methods required to prepare the data for presentation or synthesis, such as handling of missing summary statistics, or data conversions. | p.4-5                           |
|                   | 13c    | Describe any methods used to tabulate or visually display results of individual studies and syntheses. | p.4-5                           |
|                   | 13d    | Describe any methods used to synthesize results and provide a rationale for the choice(s). If meta-analysis was performed, describe the model(s), method(s) to identify the presence and extent of statistical heterogeneity, and software package(s) used. | p.4-5                           |
|                   | 13e    | Describe any methods used to explore possible causes of heterogeneity among study results (e.g. subgroup analysis, meta-regression). | p.5                             |
|                   | 13f    | Describe any sensitivity analyses conducted to assess robustness of the synthesized results. | p. 5                            |
| Reporting bias    | 14     | Describe any methods used to assess risk of bias due to missing results in a synthesis (arising from reporting biases). | p.4                             |
### Additional file 1 PRISMA 2020 Checklists

| Section and Topic | Item # | Checklist item | Location where item is reported |
|-------------------|--------|----------------|---------------------------------|
| **Certainty assessment** | 15 | Describe any methods used to assess certainty (or confidence) in the body of evidence for an outcome. | N/A |
| **RESULTS** | | | |
| Study selection | 16a | Describe the results of the search and selection process, from the number of records identified in the search to the number of studies included in the review, ideally using a flow diagram. | Figure 1 |
| | 16b | Cite studies that might appear to meet the inclusion criteria, but which were excluded, and explain why they were excluded. | Additional file 4 |
| Study characteristics | 17 | Cite each included study and present its characteristics. | Table 2 and Table 3 |
| Risk of bias | 18 | Present assessments of risk of bias for each included study. | Additional file 5 |
| Results of individual studies | 19 | For all outcomes, present, for each study: (a) summary statistics for each group (where appropriate) and (b) an effect estimate and its precision (e.g. confidence/credible interval), ideally using structured tables or plots. | Table 4, 5, & 6 |
| Results of syntheses | 20a | For each synthesis, briefly summarise the characteristics and risk of bias among contributing studies. | p.5 |
| | 20b | Present results of all statistical syntheses conducted. If meta-analysis was done, present for each the summary estimate and its precision (e.g. confidence/credible interval) and measures of statistical heterogeneity. If comparing groups, describe the direction of the effect. | Table 1; Table 4, 5, 6 |
| | 20c | Present results of all investigations of possible causes of heterogeneity among study results. | Table 5 and Table 6 |
| | 20d | Present results of all sensitivity analyses conducted to assess the robustness of the synthesized results. | p.5 |
| Reporting biases | 21 | Present assessments of risk of bias due to missing results (arising from reporting biases) for each synthesis assessed. | Additional file 5 |
| Certainty of evidence | 22 | Present assessments of certainty (or confidence) in the body of evidence for each outcome assessed. | N/A |
| **DISCUSSION** | | | |
| Discussion | 23a | Provide a general interpretation of the results in the context of other evidence. | p.41-45 |
| | 23b | Discuss any limitations of the evidence included in the review. | p.45-46 |
| | 23c | Discuss any limitations of the review processes used. | p.45-46 |
| | 23d | Discuss implications of the results for practice, policy, and future research. | p.45 |
| **OTHER INFORMATION** | | | |
| Registration and protocol | 24a | Provide registration information for the review, including register name and registration number, or state that the review was not registered. | p.1 and p.3 |
| | 24b | Indicate where the review protocol can be accessed, or state that a protocol was not prepared. | p.1 |
| | 24c | Describe and explain any amendments to information provided at registration or in the protocol. | N/A |
| Support | 25 | Describe sources of financial or non-financial support for the review, and the role of the funders or sponsors in the review. | p.46 |
| Competing interests | 26 | Declare any competing interests of review authors. | p.46 |
### Additional file 1 PRISMA 2020 Checklists

| Section and Topic | Item # | Checklist item                                                                 | Location where item is reported |
|-------------------|--------|--------------------------------------------------------------------------------|--------------------------------|
| Availability of data, code and other materials | 27     | Report which of the following are publicly available and where they can be found: template data collection forms; data extracted from included studies; data used for all analyses; analytic code; any other materials used in the review. | p.68                           |

# PRISMA 2020 for Abstracts Checklist

| Section and Topic | Item # | Checklist item                                                                 | Reported (Yes/No) |
|-------------------|--------|------------------------------------------------------------------------------|-------------------|
| **TITLE**         | 1      | Identify the report as a systematic review.                                  | Yes               |
| **BACKGROUND**    | 2      | Provide an explicit statement of the main objective(s) or question(s) the review addresses. | Yes               |
| **METHODS**       | 3      | Specify the inclusion and exclusion criteria for the review.                 | Yes               |
|                   | 4      | Specify the information sources (e.g. databases, registers) used to identify studies and the date when each was last searched. | Yes               |
|                   | 5      | Specify the methods used to assess risk of bias in the included studies.     | Yes               |
|                   | 6      | Specify the methods used to present and synthesise results.                 | Yes               |
| **RESULTS**       | 7      | Give the total number of included studies and participants and summarise relevant characteristics of studies. | Yes               |
|                   | 8      | Present results for main outcomes, preferably indicating the number of included studies and participants for each. If meta-analysis was done, report the summary estimate and confidence/credible interval. If comparing groups, indicate the direction of the effect (i.e. which group is favoured). | Yes               |
| **DISCUSSION**    | 9      | Provide a brief summary of the limitations of the evidence included in the review (e.g. study risk of bias, inconsistency and imprecision). | Yes               |
|                   | 10     | Provide a general interpretation of the results and important implications.  | Yes               |
| **OTHER**         | 11     | Specify the primary source of funding for the review.                       | No (Outlined in declarations section). |
|                   | 12     | Provide the register name and registration number.                           | Yes               |

## PRISMA-S Checklist

| Section/topic                      | # | Checklist item                                                                                                                                                                                                                                                                                                                                 | Location(s) Reported                  |
|-----------------------------------|---|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------|
| **INFORMATION SOURCES AND METHODS** |   |                                                                                                                                                                                                                                                                                                                                                                                                         |                                        |
| Database name                     | 1 | Name each individual database searched, stating the platform for each.                                                                                                                                                                                                                                                                      | p. 3 and Additional File 3            |
| Multi-database searching          | 2 | If databases were searched simultaneously on a single platform, state the name of the platform, listing all of the databases searched.                                                                                                                                                                                                   | p. 3 and Additional File 3            |
| Study registries                  | 3 | List any study registries searched.                                                                                                                                                                                                                                                                                                        | Not performed                         |
| Online resources and browsing     | 4 | Describe any online or print source purposefully searched or browsed (e.g., tables of contents, print conference proceedings, web sites), and how this was done.                                                                                                                                                                                       | Not performed                         |
| Citation searching                | 5 | Indicate whether cited references or citing references were examined, and describe any methods used for locating cited/citing references (e.g., browsing reference lists, using a citation index, setting up email alerts for references citing included studies).                                                                                                                                 | p.3                                   |
| Contacts                          | 6 | Indicate whether additional studies or data were sought by contacting authors, experts, manufacturers, or others.                                                                                                                                                                                                                           | p.4                                   |
| Other methods                     | 7 | Describe any additional information sources or search methods used.                                                                                                                                                                                                                                                                       | p.3 (forward citation)                |
| **SEARCH STRATEGIES**             |   |                                                                                                                                                                                                                                                                                                                                                                                                         |                                        |
| Full search strategies            | 8 | Include the search strategies for each database and information source, copied and pasted exactly as run.                                                                                                                                                                                                                                 | Additional File 3                     |
| Limits and restrictions           | 9 | Specify that no limits were used, or describe any limits or restrictions applied to a search (e.g., date or time period, language, study design) and provide justification for their use.                                                                                                                          | Additional File 3                     |
| Search filters | 10 | Indicate whether published search filters were used (as originally designed or modified), and if so, cite the filter(s) used. | Additional File 3 |
|----------------|----|----------------------------------------------------------------------------------------------------------------------------------|------------------|
| Prior work     | 11 | Indicate when search strategies from other literature reviews were adapted or reused for a substantive part or all of the search, citing the previous review(s). | Not applicable |
| Updates        | 12 | Report the methods used to update the search(es) (e.g., rerunning searches, email alerts). | Not applicable |
| Dates of searches | 13 | For each search strategy, provide the date when the last search occurred. | Additional File 3 |
| **PEER REVIEW**|    |                                                                                                                                  |                  |
| Peer review    | 14 | Describe any search peer review process.                                                                                          | p.3 and Additional file 3 |
| **MANAGING RECORDS**|   |                                                                                                                                  |                  |
| Total Records  | 15 | Document the total number of records identified from each database and other information sources.                               | Additional File 3 |
| Deduplication  | 16 | Describe the processes and any software used to deduplicate records from multiple database searches and other information sources. | p.3 |

PRISMA-S: An Extension to the PRISMA Statement for Reporting Literature Searches in Systematic Reviews  
Rethlefsen ML, Kirtley S, Waffenschmidt S, Ayala AP, Moher D, Page MJ, Koffel JB, PRISMA-S Group.
