Erratum
Unfortunately, the original version of this article [1] contained an error within Fig. 5. For testing Sema4D protein expression in PaTu8988 cells with/out SAHA treatment, the protein samples of Fig. 2D were re-tested by Western blot assay using Sema4D antibody (Fig. 5E). The correct version of Fig. 5E can be found below. This does not alter the conclusion of the result.
