Supplementary information, Fig. S7. Single-particle cryo-EM analysis of the MACOM/MAC complex.  
a Representative motion-corrected cryo-EM micrograph.  
b Reference-free 2D class averages.  
c Workflow of the data processing.  
d Gold standard FSC plots calculated in cryoSPARC.  
e Euler angle distribution of the particle images.  
f Resolution map for the final 3D reconstruction at high and low threshold levels.
