PUBLISHER: Society for Indonesian Biodiversity

CO-PUBLISHER: School of Graduates, Sebelas Maret University, Surakarta

FIRST PUBLISHED: 2009

ADDRESS:
Bioscience Program, School of Graduates, Sebelas Maret University
Jl. Ir. Sutami 36A Surakarta 57126, Indonesia. Tel. & Fax.: +62-271-663375, email: nusbiosci@gmail.com

ONLINE:
biosains.mipa.uns.ac.id/nusbioscience
Characterization and clustering of agronomic characters of several soybean genotypes
M. MUCHLISH ADIE, AYDA KRISNAWATI
237-242

The effect of growing season on growth rate, pod partitioning, phenology and yield variations of mungbean varieties
HERDINA PRATIWI, AGUSTINA ASRI RAHMIANNA
243-250

Assessment of the successfulness of mangrove plantation program through the use of open source software and freely available satellite images
ILYAS NURSAMI, WULAN RATNA KOMALA
251-259

Development of shrimp shells-based compost and plant-based pesticide using bio-activators from Golden Apple Snails and their effects on the kenaf plant growth and pest population
RUSMINI, RIAMA RITA MANULLANG, DARYONO
260-267

The appearance of rabbit skin tissue (Oryctolagus cuniculus) after supplementation of Aloe vera and Spirulina fusiformis
YASMI PURNAMASARI KUNTANA, HUSMY YURMIATI, ASRI PENI WULANDARI, FARIDA SYAFITRI, RUHYAT PARTASASMITA
268-274

Evaluation of orange-fleshed sweetpotato genotypes for yield and yield contributing parameters in two environments
WIWIT RAHAJENG, ST. A. RAHAYUNINGSIH
275-281

Isolation of anti-idiotypic minor capsid Human papillomavirus type 16 (HPV 16 L2) IgY from egg yolk as immunogen of HPV vaccine
EK NONENG NAWANGSIH, SAYU PUTU UNYI PARYATI, JUSUF S. EFFENDY, SUNARJATI SUDIGDOADI, EDHYANA SAHIRATMAJA, DIKI HILMI, EVI SOVIA
282-287

Yield and Zn content of biofortified rice genotypes in an Indonesian rice agro-ecosystem
UNTUNG SUSANTO, UMI BAROKAH, AKHMAD HIDAYATULLAH, SATOTO, MALIKARJUNA SWAMY
288-294

Short Communication: Augmentation of cardioprotective effect of captopril by Costus speciosus against isoproterenol induced myocardial toxicity in rats
ABDULRAHMAN A.I. AL-YAHYA, MOHAMMED ASAD, ABDULMONIEM SADABY, KHALID ELFAKKI IBRAHIM
295-299

Microbe-enriched compost application on germination substrates of Beilschmiedia roxburghiana, Bouea oppositifolia and Syzygium polycephalum
HENDRA HELMANTO, FRISCA DAMAYANTI, DIAN LATIFAH
300-305

Topical treatment of ointment containing ethanol extract of Archidendron pauciflorum fruit peel for the wound healing of streptozotocin-induced diabetic mice
DESAK MADE MALINI, MADIHAH, FITRI KAMILAWATI, NINING RATNINGSIH, KARTIAWATI ALIPIN, JOHAN ISKANDAR
306-311

Kidney histology in streptozotocin-induced diabetic male Wistar rats treated with combined extract of temulawak rhizome and belimbing wuluh fruit
KARTIAWATI ALIPIN, EMA PURNAMA SARI, MADIHAH, TIA SETIAWATI, NINING RATNINGSIH, DESAK MADE MALINI
312-317
Short Communication: Infraspecific variations in essential oil compositions of *Nepeta fissa* from Iran
SEYED MEHDI TALEBI, MAJID GHORBANI NOHOOJI, MAHBOOBEH YARMOHAMMADI

Visual symptoms and control of the Red Palm Weevil (*Rhynchophorus ferrugineus*) in the Gaza Strip, Palestine
ABDEL FATTAH N. ABD RABOU, Eقبال S. RADWAN

Growth, biomass production and nutrient accumulation of *Macaranga gigantea* in response to NPK fertilizer application
DWI SUSANTO, SRI MULYATI, HERI PURNOMO, DADDY RUHIYAT, RUDIANTO AMIRTA
Guidance for Authors

Aims and Scope Nusantara Bioscience (Nusantara Biosci) encourages submission of manuscripts dealing with all aspects of biological sciences that emphasize issues germane to biological and nature conservation, including agriculture and forestry, animal science, biochemistry and pharmacology, biomedical science, ecology and environmental science, ethnomedicine, genetics and evolutionary biology, marine and freshwater biology, microbiology, molecular biology, physiology, and plant science.

Article Types The journal seeks original full-length research papers, short research papers (short communication), reviews, monograph and letters to the editor about material previously published; especially for the research conducted in the Islands of the Southeast Asian region or Nusantara, but also from around the world.

Submission The journal only accepts online submission, through e-mail to the editor at unsjournals@gmail.com. The manuscript must be accompanied with a cover letter containing the article title, the first name and last name of all the authors, a paragraph describing the claimed novelty of the findings versus current knowledge, and a list of five suggested international reviewers (title, name, postage address, email address). Reviewers must not be subject to a conflict of interest involving the author(s) or manuscript(s). The editor is not obligated to use any reviewer suggested by the author(s).

Acceptance The acceptance of a paper implies that it has been reviewed and recommended by at least two reviewers, one of whom is usually from the Editorial Advisory Board. Authors will generally be notified of acceptance, rejection, or need for revision within 1 to 2 months of receipt. Manuscript is rejected, if the content is not in line with the journal scope, does not meet the ethical standards (i.e. false authorship, plagiarism, duplicate publication, fabrication of data and citation manipulation), does not meet the required quality, written in inappropriate format, has incorrect grammar, or ignores correspondence in three months. The primary criteria for publication are scientific quality and biological or natural conservation significance. The accepted papers will be published in a chronological order. This journal is published in May and November. However, online publication was done previously.

Ethics Author(s) must obey the law and/or ethics in treating the object of research and pay attention to the legality of material sources and intellectual property rights. Author(s) needs to adhere to the ethical standards as determined by the Committee on Publication Ethics (COPE).

Copyright Submission of a manuscript implies that the submitted work has not been published before (except as part of a thesis or report, or abstract); that it is not under consideration for publication elsewhere; that it has been approved by all co-authors. If and when the manuscript is accepted for publication, the author(s) agree to transfer copyright of the accepted manuscript to Nusantara Bioscience. Authors shall no longer be allowed to publish manuscript without permission. Authors or others are allowed to multiply article as long as not for commercial purposes. For the new invention, authors are suggested to manage its patent before published.

Open access The journal is committed to free-open access that does not charge readers or their institutions for access. Users are entitled to read, download, copy, distribute, print, search, or link to the full texts of articles, as long as not for commercial purposes.

Preparing the Manuscript Please make sure before submitting that: The manuscript is proofread several times by the author(s); and is criticized by some colleagues. The language is revised by a professional science editor or a native English speaker. The structure of the manuscript follows the guidelines (sections, references, quality of the figures, etc). Abstract provides a clear view of the content of the paper and attracts potential readers. The number of cited references complies with the limits set by Nusantara Biosci (around 20 for research papers). All manuscripts must be written in clear and grammatically correct English (U.S.).

Microsoft Word files are required for all manuscripts. The manuscript should be as short as possible, and no longer than 8000 words (except for review), with the abstract 200 words. For research paper, the manuscript should be arranged in the following sections and appear in order: Title, Abstract, Key words (arranged from A to Z), Running title (Heading), Introduction, Materials and Methods, Results and Discussion, Conclusion, Acknowledgements, and References. Scientific language, nomenclature and standard international units should be used. The title page should include: title of the article, full name(s), institution(s) and address(es) of author(s); the corresponding authors detailed postage and e-mail addresses, and phone and fax numbers.

References Author-year citations are required. In the text give the authors name followed by the year of publication and arrange from oldest to newest and from A to Z. In citing an article written by two authors, both of them should be mentioned, however, for three and more authors only the first author is mentioned followed by et al., for example: Saharjo and Nurhayati (2006) or (Boonkerd 2003a, b; Sugiyarto 2004; El-Bana and Nijs 2005; Balagadde et al. 2008; Webb et al. 2008). Extent citation as shown with word “cit” should be avoided. Reference to unpublished data and personal communication should not appear in the list but should be cited in the text only (e.g., Rifai MA 2007, personal communication; Setyawan AD 2007, unpublished data). In the reference list, the references should be listed in an alphabetical order. Names of journals should be abbreviated. Always use the standard abbreviation of a journal’s name according to the ISSN List of Title Word Abbreviations (www.issn.org/2-22661-LTWA-online.php). The following examples are for guidance.

Journal: Saharjo BH, Nurhayati AD. 2006. Domination and composition structure change at hemic peat natural regeneration following burning; a case study in Pelalawan, Riau Province. Biodiversitas?: 154-158.

The usage of “et al.” in long author lists will also be accepted:

Smith J, Jones M Jr, Houghton L et al. 1999. Future of health insurance. N Engl J Med 965: 325–329

Article by DOI: Slika MK, Whitton JL. 2000. Clinical implications of dysregulated cytokine production. J Mol Med. DOI:10.1007/s0010900000086

Book Chapter: Webb CO, Cannon CH, Davies SJ. 2008. Ecological organization, biogeography, and the phylogenetic structure of rainforest tree communities. In: Carson W, Schnitzer S (eds).Tropical Forest Community Ecology. Wiley-Blackwell, New York.

Abstract: Assael AM. 2007. Seed production and dispersal of Bhazya stricta. The 50th Annual Symposium of the International Association for Vegetation Science, Swansea, UK, 23-27 July 2007.

Proceeding: Alkiodra HS. 2000. Biodiversity for development of local autonomous government. In: Setyawan AD, Sutarno (eds).Toward Mount Lawu National Park: Proceeding of National Seminar and Workshop on Biodiversity Conservation to Protect and Save Germplasm in Java Island. Sebelas Maret University, Surakarta, 17-20 July 2000. [Indonesian]

Thesis, Dissertation: Sugiyarto. 2004. Soil Macro-invertebrates Diversity and Inter-cropping Plants Productivity in Agroforestry System based on Sengon. [Dissertation]. Brawijaya University, Malang. [Indonesian]

Online document: Balagadde FK, Song H, Ozaki J, Collins CH, Barnet M, Arnold FH, Quake SR, You L. 2008. A synthetic Escherichia coli predator-prey ecosystem. Mol Syst Biol 4: 187. www.molecular-systemsbiology.com

Tables should be numbered consecutively and accompanied by a title at the top. Illustrations Do not use figures that duplicate matter in tables. Figures can be supplied in digital format, or photographs and drawings, which can be ready for reproduction. Label each figure with figure number consecutively.

Uncorrected proofs will be sent to the corresponding author by e-mail as doc or .rtf files for checking and correcting of typographical errors. To avoid delay in publication, proofs should be returned in 7 days.

A charge There is free of charge for members of Society for Indonesian Biodiversity (SIB) and/or non-Indonesian author(s). But, the cost of each manuscript (arranged from A to Z). Running title (Heading), Introduction, Materials and Methods, Results and Discussion, Conclusion, Acknowledgements, and References. Scientific language, nomenclature and standard international units should be used. The title page should include: title of the article, full name(s), institution(s) and address(es) of author(s); the corresponding authors detailed postage and e-mail addresses, and phone and fax numbers.

NOTIFICATION: All communications are strongly recommended to be undertaken through email.
