Table S2. Proteins (n=474) identified in the analysis of non fractionated and immunodepleted individual patient samples.

| IPI             | Protein Name                                      | Gene Symbol | Swiss Prot ID |
|-----------------|---------------------------------------------------|-------------|--------------|
| IPI00000044     | Platelet-derived growth factor B chain precursor  | PDGFB       | P01127       |
| IPI00000130     | Somatostatin precursor                            | SST         | P61278       |
| IPI00000513     | E-cadherin                                        | CDH1        |              |
| IPI00000779     | Isoform 1 of ADAM 22 precursor                    | ADAM22      | Q9P0K1-1     |
| IPI00000828     | Proenkephalin A precursor                         | PENK        | P01210       |
| IPI00000874     | Peroxiredoxin-1                                   | PRDX1       | Q06830       |
| IPI00000877     | Hypoxia up-regulated protein 1 precursor          | HYOU1       | Q9Y4L1       |
| IPI00000977     | Tyrosine-protein kinase Tec                        | TEC         | P42680       |
| IPI00001477     | Mitogen-activated protein kinase kinase 11        | MAP3K11     | Q16584       |
| IPI00001506     | Neuropeptide Y precursor                          | NPY         | P01303       |
| IPI00001593     | Lysosomal Pro-X carboxypeptidase precursor        | PRCP        | P01344-1     |
| IPI00001611     | Isoform 1 of Insulin-like growth factor II precursor | IGF2     | P01344-1     |
| IPI00001633     | Leucine-rich repeat transmembrane protein FLRT2 precursor | FLRT2    | O43155       |
| IPI00001662     | Opioid-binding protein/cell adhesion molecule precursor | OPCML    | Q14982       |
| IPI00001753     | Myosin-4                                          | MYH4        | Q9Y623       |
| IPI00001872     | Isoform 1 of Protocadherin gamma C3 precursor     | PCDHGC3     | Q9UN70-1     |
| IPI00001893     | Isoform A of Protocadherin-7 precursor            | PCDH7       | O60245-1     |
| IPI00001895     | Isoform 1 of Protocadherin-8 precursor            | PCDH8       | O95206-1     |
| IPI00001952     | Endonuclease domain-containing 1 protein precursor | ENDOD1     | O94919       |
| IPI00002147     | Chitinase-3-like protein 1 precursor              | CHI3L1      | P36222       |
| IPI00002280     | ProSAAS precursor                                 | PCSK1N      | Q9UHG2       |
| IPI00002714     | Dickkopf-related protein 3 precursor              | DKK3        | Q9UBP4       |
| IPI00002745     | Cathepsin Z precursor                             | CTSZ        | Q9UBR2       |
| IPI00002925     | Cocaine- and amphetamine-regulated transcript protein precursor | CARTPT     | Q16568       |
| IPI00003176     | Serine protease HTRA1 precursor                   | HTRA1       | Q92743       |
| IPI00003351     | Extracellular matrix protein 1 precursor          | ECM1        | Q16610       |
| IPI00003590     | Isoform 1 of Sulphydryl oxidase 1 precursor       | QSOX1       | O00391-1     |
| IPI00003802     | Alpha-mannosidase 2                               | MAN2A1      | Q16706       |
| IPI00003813     | Isoform 1 of Cell adhesion molecule 1 precursor   | CADM1       | Q9BY67-1     |
| IPI00003865     | Isoform 1 of Heat shock cognate 71 kDa protein    | HSPA8       | P11142-1     |
| IPI00003928     | Dual specificity protein phosphatase 1            | DUSP1       | P28562       |
| IPI00004346     | C-C chemokine receptor type 10                    | CCR10       | P46092       |
Table S2. Proteins (n=474) identified in the analysis of non fractionated and immunodepleted individual patient samples.

| IPI           | protein name                                              | Gene symbol | Swiss Prot ID |
|---------------|-----------------------------------------------------------|-------------|---------------|
| IPI00004440   | Receptor-type tyrosine-protein phosphatase-like N precursor | PTPRN       | Q16849        |
| IPI00004671   | Golgin subfamily B member 1                               | GOLGB1      | Q14789        |
| IPI00004798   | cDNA FLJ75207                                            | CRISP3      | P54108        |
| IPI00005102   | Spermine synthase                                         | SMS         | P52788        |
| IPI00005222   | Ephrin type-B receptor 6 precursor                        | EPHB6       | O15197        |
| IPI00005517   | Ephrin-A5 precursor                                       | EFNA5       | P52803        |
| IPI00005607   | Isoform 1 of Deleted in bladder cancer protein 1 precursor | DBC1        | O60477-1      |
| IPI00005708   | Heparan sulfate glucosamine 3-O-sulfotransferase 3B1      | HS3ST3B1    | Q9Y662        |
| IPI00005774   | Isoform 1 of Low-density lipoprotein receptor-related protein 8 precursor | LRP8    | Q14114-1      |
| IPI00006114   | Pigment epithelium-derived factor precursor                | SERPINF1    | P36955        |
| IPI00006166   | Probable G-protein coupled receptor 37 precursor          | GPR37       | O15354        |
| IPI00006482   | Isoform Long of Sodium/potassium-transporting ATPase subunit alpha-1 precursor | ATP1A1 | P05023-1      |
| IPI00006601   | Secretogranin-1 precursor                                 | CHGB        | P05060        |
| IPI00006608   | Isoform APP770 of Amyloid beta A4 protein precursor (Fragment) | APP      | P05067-1      |
| IPI00006662   | Apolipoprotein D precursor                                | APOD        | P05090        |
| IPI00007082   | Interleukin-5 precursor                                   | IL5         | P05113        |
| IPI00007257   | calsyntenin 1 isoform 2                                    | CLSTN1      |               |
| IPI00007334   | Isoform 1 of Apoptotic chromatin condensation inducer in the nucleus | ACIN1 | Q9UKV3-1      |
| IPI00007425   | desmocollin 1 isoform Dsc1b preproprotein                | DSC1        |               |
| IPI00007914   | TTLL5 protein                                             | TTLL5       |               |
| IPI00007921   | Isoform 1 of Neurexin-2-alpha precursor                    | NRXN2       | Q9P2S2-1      |
| IPI00008085   | Zinc transporter ZIP10 precursor                           | SLC39A10    | Q9ULF5        |
| IPI00008087   | Follistatin-related protein 5 precursor                    | FSTL5       | Q8N475        |
| IPI00008107   | Leucine-rich repeat and fibronectin type-III domain-containing protein 2 precursor | LRFN2 | Q9ULH4      |
| IPI00008318   | Ephrin type-A receptor 4 precursor                         | EPHA4       | P54764        |
| IPI00008586   | Isoform 1 of Chondroitin sulfate proteoglycan 5 precursor  | CSPG5       | O95196-1      |
| IPI00008860   | Isoform 1 of Complement C1q tumor necrosis factor-related protein 3 precursor | C1QTNF3   | Q9BXJ4-1      |
| IPI00008944   | Isoform 1 of Neuroendocrine protein 7B2 precursor          | SCG5        | P05408-1      |
| IPI00008994   | Isoform 1 of Protein NDRG2                                | NDRG2       | Q9UN36-1      |
| IPI00009028   | Tetranection protein                                       | CLEC3B      | P05452        |
Table S2. Proteins (n=474) identified in the analysis of non fractionated and immunodepleted individual patient samples.

| IPI              | protein name                                         | Gene symbol | Swiss Prot ID |
|------------------|------------------------------------------------------|-------------|---------------|
| IPI00009030      | Isoform LAMP-2A of Lysosome-associated membrane glycoprotein 2 precursor | LAMP2       | P13473-1      |
| IPI00009066      | similar to protein tyrosine phosphatase, receptor type, Q isoform 1 precursor | PTPRQ       |               |
| IPI00009362      | Secretogranin-2 precursor                           | SCG2        | P13521        |
| IPI00009477      | Intercellular adhesion molecule 2 precursor         | ICAM2       | P13598        |
| IPI00009619      | Isoform 2 of Cell adhesion molecule 3 precursor     | CADM3       | Q8N126-2      |
| IPI00009865      | Keratin, type I cytoskeletal 10                     | KRT10       | P13645        |
| IPI00009950      | Vesicular integral-membrane protein VIP36 precursor  | LMAN2       | Q12907        |
| IPI00009960      | Isoform 1 of Mitochondrial inner membrane protein   | IMMT        | Q16891-1      |
| IPI00009997      | N-acetyllactosaminidase beta-1,3-N-acetylglucosaminyltransferase | B3GNT1     | O43505        |
| IPI00010136      | Isoform 2 of C-terminal-binding protein 2            | CTBP2       | P56545-2      |
| IPI00010317      | Isoform 1 of Ras-related GTP-binding protein B       | RRAGB       | Q5VZM2-1      |
| IPI00010402      | Putative uncharacterized protein                     | SH3BGRL3    |               |
| IPI00010586      | TATA element modulatory factor                       | TMF1        | P82094        |
| IPI00011140      | Protein NOV homolog precursor                       | NOV         | P48745        |
| IPI00011218      | Macrophage colony-stimulating factor 1 receptor precursor | CSF1R      | P07333        |
| IPI00011229      | Cathepsin D precursor                               | CTSD        | P07339        |
| IPI00011261      | Complement component C8 gamma chain precursor       | C8G         | P07360        |
| IPI00011302      | CD59 glycoprotein precursor                         | CD59        | P13987        |
| IPI00011454      | Isoform 2 of Neutral alpha-glucosidase AB precursor | GANAB       | Q14697-2      |
| IPI00011694      | Trypsin-1 precursor                                 | PRSS1       | P07477        |
| IPI00012119      | Isoform A of Decorin precursor                      | DCN         | P07585-1      |
| IPI00012386      | Cochlin precursor                                   | COCH        | O43405        |
| IPI00012503      | Isoform Sap-mu-0 of Proactivator polypeptide precursor | PSAP        | P07602-1      |
| IPI00012545      | Isoform TGN51 of Trans-Golgi network integral membrane protein 2 precursor | TGOLN2     | O43493-1      |
| IPI00012837      | Kinesin heavy chain                                 | KIF5B       | P33176        |
| IPI00012887      | Cathepsin L1 precursor                              | CTSL1       | P07711        |
| IPI00013179      | Prostaglandin-H2 D-isomerase precursor              | PTGDS       | P41222        |
| IPI00013205      | Isoform 1 of JmjC domain-containing histone demethylation protein 3B | JMJD2B     | O94953-1      |
| IPI00013299      | Neuroblastoma, suppression of tumorigenicity 1       | NBL1        |               |
Table S2. Proteins (n=474) identified in the analysis of non fractionated and immunodepleted individual patient samples.

| IPI          | protein name                                      | Gene symbol | Swiss Prot ID |
|--------------|---------------------------------------------------|-------------|---------------|
| IPI00013303  | Limbic system-associated membrane protein precursor | LSAMP       | Q13449        |
| IPI00014048  | Ribonuclease pancreatic precursor                 | RNASE1      | P07998        |
| IPI00014439  | Dihydropteridine reductase                        | QDPR        | P09417        |
| IPI00014572  | SPARC precursor                                   | SPARC       | P09486        |
| IPI00014826  | Isoform 2 of Zinc finger protein basonuclin-2     | BNC2        | Q6ZN30-2      |
| IPI00014964  | Lymphocyte antigen 6H precursor                   | LY6H        | O94772        |
| IPI00015102  | Isoform 1 of CD166 antigen precursor              | ALCAM       | Q13740-1      |
| IPI00015260  | Protein kinase C-binding protein NELL2 precursor  | NELL2       | Q99435        |
| IPI00015881  | Isoform 1 of Macrophage colony-stimulating factor 1 precursor | CSF1       | P09603-1      |
| IPI00016150  | Neuroserpin precursor                             | SERPINI1    | Q99574        |
| IPI00016334  | Isoform 1 of Cell surface glycoprotein MUC18 precursor | MCAM     | P43121-1      |
| IPI00016645  | Isoform 1 of Ephrin type-A receptor 7 precursor   | EPHA7       | Q15375-1      |
| IPI00016679  | SLIT and NTRK-like protein 5 precursor            | SLITRK5     | O94991        |
| IPI00016915  | Insulin-like growth factor-binding protein 7 precursor | IGFBP7   | Q16270        |
| IPI00017569  | Fas apoptotic inhibitory molecule 2               | FAIM2       | Q9BWQ8        |
| IPI00017601  | Ceruloplasmin precursor                           | CP          | P00450        |
| IPI00017696  | Complement C1s subcomponent precursor             | C1S         | P09871        |
| IPI00018136  | Isoform 1 of Vascular cell adhesion protein 1 precursor | VCAM1   | P19320-1      |
| IPI00018236  | Ganglioside GM2 activator precursor               | GM2A        | P17900        |
| IPI00019158  | ADAM metallopeptidase domain 8 precursor          | ADAM8       | P78325        |
| IPI00019176  | Retinoic acid receptor responder protein 2 precursor | RARRES2   | Q99969        |
| IPI00019372  | Serglycin precursor                               | SRGN        | P10124        |
| IPI00019568  | Prothrombin precursor (Fragment)                  | F2          | P00734        |
| IPI00019580  | Plasminogen precursor                             | PLG         | P00747        |
| IPI00019581  | Coagulation factor XII precursor                  | F12         | P00748        |
| IPI00019591  | Isoform 1 of Complement factor B precursor (Fragment) | CFB       | P00751-1      |
| IPI00019771  | Fractalkine precursor                             | CX3CL1      | P78423        |
| IPI00019943  | Afamin precursor                                  | AFM         | P43652        |
| IPI00020091  | Alpha-1-acid glycoprotein 2 precursor             | ORM2        | P19652        |
| IPI00020557  | Prolow-density lipoprotein receptor-related protein 1 precursor | LRP1   | Q07954        |
| IPI00020879  | Chloride channel protein CIC-Ka                   | CLCNKA      | P51800        |
| IPI00020986  | Lumican precursor                                 | LUM         | P51884        |
Table S2. Proteins (n=474) identified in the analysis of non fractionated and immunodepleted individual patient samples.

| IPI         | Protein name                                           | Gene symbol | Swiss Prot ID |
|-------------|--------------------------------------------------------|-------------|---------------|
| IPI00020990 | Osteomodulin precursor                                 | OMD         | Q99983        |
| IPI00021304 | Keratin, type II cytoskeletal 2 epidermal              | KRT2        | P35908        |
| IPI00021485 | Leucine-rich repeat neuronal protein 1 precursor       | LRRN1       | Q6UXK5        |
| IPI00021733 | Bifunctional heparan sulfate N-deacetylase/N-sulfotransferase 4 | NDST4 | Q9H3R1        |
| IPI00021841 | Apolipoprotein A-I precursor                           | APOA1       | P02647        |
| IPI00021842 | Apolipoprotein E precursor                             | APOE        | P02649        |
| IPI00021854 | Apolipoprotein A-II precursor                          | APOA2       | P02652        |
| IPI00021855 | Apolipoprotein C-I precursor                           | APOC1       | P02654        |
| IPI00021857 | Apolipoprotein C-III precursor                         | APOC3       | P02656        |
| IPI00021885 | Isoform 1 of Fibrinogen alpha chain precursor          | FGA         | P02671-1      |
| IPI00021891 | Isoform Gamma-B of Fibrinogen gamma chain precursor   | FGG         | P02679-1      |
| IPI00021903 | Isoform Alpha of ADAM 23 precursor                     | ADAM23      | O75077-1      |
| IPI00021997 | Protein CREG1 precursor                                | CREG1       | O75629        |
| IPI00022200 | Alpha 3 type VI collagen isoform 1 precursor           | COL6A3      | P12111-1      |
| IPI00022284 | Major prion protein precursor                          | PRNP        | P04156        |
| IPI00022331 | Phosphatidylcholine-sterol acyltransferase precursor  | LCAT        | P04180        |
| IPI00022371 | Histidine-rich glycoprotein precursor                  | HRG         | P04196        |
| IPI00022392 | Complement C1q subcomponent subunit A precursor       | C1QA        | P02745        |
| IPI00022394 | Complement C1q subcomponent subunit C precursor       | C1QC        | P02747        |
| IPI00022395 | Complement component C9 precursor                     | C9          | P02748        |
| IPI00022417 | Leucine-rich alpha-2-glycoprotein precursor            | LRG1        | P02750        |
| IPI00022418 | Isoform 1 of Fibronectin precursor                     | FN1         | P02751-1      |
| IPI00022420 | Plasma retinol-binding protein precursor               | RBP4        | P02753        |
| IPI00022426 | AMBP protein precursor                                 | AMBP        | P02760        |
| IPI00022429 | Alpha-1-acid glycoprotein 1 precursor                 | ORM1        | P02763        |
| IPI00022431 | Alpha-2-HS-glycoprotein precursor                     | AHSG        | P02765        |
| IPI00022432 | Transthyretin precursor                               | TTR         | P02766        |
| IPI00022463 | Serotransferrin precursor                             | TF          | P02787        |
| IPI00022488 | Hemopexin precursor                                   | HPX         | P02790        |
| IPI00022542 | Rho-associated protein kinase 1                       | ROCK1       | Q13464        |
| IPI00022792 | Microfibril-associated glycoprotein 4 precursor       | MFAP4       | P55083        |
| IPI00022892 | Thy-1 membrane glycoprotein precursor                 | THY1        | P04216        |
| IPI00022895 | Alpha-1B-glycoprotein precursor                       | A1BG        | P04217        |
| IPI00022937 | Coagulation factor V                                  | F5          |               |
| IPI          | protein name                                                                 | Gene symbol | Swiss Prot ID |
|-------------|------------------------------------------------------------------------------|-------------|---------------|
| IPI00023555 | Isoform 1a of Oxysterol-binding protein-related protein 3                    | OSBPL3      | Q9H4L5-1      |
| IPI00023608 | Fanconi anemia group C protein                                               | FANCC       | Q00597        |
| IPI00023648 | Immunoglobulin superfamily containing leucine-rich repeat protein precursor  | ISLR        | O14498        |
| IPI00023673 | Galectin-3-binding protein precursor                                         | LGALS3BP    | Q08380        |
| IPI00023814 | Isoform 1 of Neogenin precursor                                              | NEO1        | Q92859-1      |
| IPI00023845 | Kallikrein-6 precursor                                                      | KLK6        | Q92876        |
| IPI00024046 | Cadherin-13 precursor                                                       | CDH13       | P55290        |
| IPI00024284 | Basement membrane-specific heparan sulfate proteoglycan core protein precursor | HSPG2       | P98160        |
| IPI00024966 | Contactin-2 precursor                                                       | CNTN2       | Q02246        |
| IPI00025257 | Semaphorin-7A precursor                                                      | SEMA7A      | O75326        |
| IPI00025465 | Mimecan precursor                                                           | OGN         | P20774        |
| IPI00025732 | Latent transforming growth factor-beta binding protein 4                     | LTBP4       |               |
| IPI00026174 | Cholecystokinin precursor                                                    | CCK         | P06307        |
| IPI00026197 | Similar to Ig kappa chain V-IV region precursor                             | IGKV4-1     | P06312        |
| IPI00026199 | Glutathione peroxidase 3 precursor                                           | GPX3        | P22352        |
| IPI00026314 | Isoform 1 of Gelsolin precursor                                              | GSN         | P06396-1      |
| IPI00026800 | Scrapie-responsive protein 1 precursor                                       | SCRG1       | O75711        |
| IPI00027038 | Isoform 1 of V-set and immunoglobulin domain-containing protein 4 precursor | VSIG4       | Q9Y279-1      |
| IPI00027139 | Inositol polyphosphate 1-phosphatase                                         | INPP1       | P49441        |
| IPI00027166 | Metalloproteinase inhibitor 2 precursor                                      | TIMP2       | P16035        |
| IPI00027228 | Probable glutamyl-tRNA(Gln) amidotransferase subunit B, mitochondrial precursor | PET112L     | O75879        |
| IPI00027235 | Isoform 1 of Attractin precursor                                             | ATRN        | O75882-1      |
| IPI00027377 | aggregan isoform 2 precursor                                                | ACAN        | P16112-1      |
| IPI00027482 | Corticosteroid-binding globulin precursor                                    | SERPINA6    | P08185        |
| IPI00027827 | Extracellular superoxide dismutase [Cu-Zn] precursor                        | SOD3        | P08294        |
| IPI00027848 | Macrophage mannose receptor 1 precursor                                      | MRC1        | P22897        |
| IPI00027851 | Beta-hexosaminidase alpha chain precursor                                    | HEXA        | P06865        |
| IPI00028318 | Isoform 1 of Phosphatase and actin regulator 1                               | PHACTR1     | Q9C0D0-1      |
| IPI00028344 | Isoform 3 of BR serine/threonine-protein kinase 2                            | BRSK2       | Q8IWQ3-3      |
| IPI00028908 | Nidogen-2 precursor                                                          | NID2        | Q14112        |
| IPI00028911 | Dystroglycan precursor                                                      | DAG1        | Q14118        |
Table S2. Proteins (n=474) identified in the analysis of non fractionated and immunodepleted individual patient samples.

| IPI          | protein name                                             | Gene symbol | Swiss Prot ID |
|--------------|-----------------------------------------------------------|-------------|---------------|
| IPI00029061 | Selenoprotein P precursor                                 | SEPP1       | P49908        |
| IPI00029235 | Insulin-like growth factor-binding protein 6 precursor   | IGFBP6      | P24592        |
| IPI00029260 | Monocyte differentiation antigen CD14 precursor           | CD14        | P08571        |
| IPI00029658 | Isoform 1 of EGF-containing fibulin-like extracellular matrix protein 1 precursor | EFEMP1      | Q12805-1      |
| IPI00029700 | Isoform Long of Down syndrome cell adhesion molecule precursor | DSCAM       | O60469-1      |
| IPI00029739 | Isoform 1 of Complement factor H precursor                | CFH         | P08603-1      |
| IPI00029751 | Isoform 1 of Contactin-1 precursor                        | CNTN1       | Q12860-1      |
| IPI00029863 | SERPINF2 protein                                          | SERPINF2    |               |
| IPI00029997 | 6-phosphogluconolactonase                                 | PGLS        | O95336        |
| IPI00030255 | Procollagen-lysine,2-oxoglutarate 5-dioxygenase 3 precursor | PLOD3       | O60568        |
| IPI00030648 | Isoform 1 of Zinc finger FYVE domain-containing protein 9 | ZFYVE9      | O95405-1      |
| IPI00030783 | Signal transducer and activator of transcription 5A      | STAT5A      | P42229        |
| IPI00031030 | Isoform 1 of Amyloid-like protein 2 precursor             | APLP2       | Q06481-1      |
| IPI00031121 | Carboxypeptidase E precursor                              | CPE         | P16870        |
| IPI00031461 | Rab GDP dissociation inhibitor beta                        | GDI2        | P50395        |
| IPI00031545 | Isoform Long of Inositol 1,4,5-trisphosphate receptor type 2 | ITPR2       | Q14571-1      |
| IPI00031769 | Esophageal cancer-related gene 4 protein precursor        | C2orf40     | Q9H1Z8        |
| IPI00031821 | Integral membrane protein 2B                              | ITM2B       | Q9Y287        |
| IPI00032158 | Isoform 2 of NMDA receptor-regulated protein 1            | NARG1       | Q9B6X9-4      |
| IPI00032179 | Antithrombin III variant                                  | SERPINC1    | P01008        |
| IPI00032220 | Angiotensinogen precursor                                 | AGT         | P01019        |
| IPI00032291 | Complement C5 precursor                                   | C5          | P01031        |
| IPI00032292 | Metalloproteinase inhibitor 1 precursor                  | TIMP1       | P01033        |
| IPI00032293 | Cystatin-C precursor                                      | CST3        | P01034        |
| IPI00033466 | C-type lectin domain family 11 member A precursor        | CLEC11A     | Q9Y240        |
| IPI00034319 | Isoform A of Protein CutA precursor                       | CUTA        | O60888-2      |
| IPI00034558 | Neurexin-3-beta precursor                                 | NRXN3       | Q9HDB5        |
| IPI00042444 | Zinc finger, C2H2-type domain containing protein          | ZNF799      |               |
| IPI00044369 | Isoform 1 of Plexin domain-containing protein 2 precursor | PLXDC2      | Q6UX71-1      |
Table S2. Proteins (n=474) identified in the analysis of non fractionated and immunodepleted individual patient samples.

| IPI               | protein name                                                                 | Gene symbol | Swiss Prot ID |
|-------------------|------------------------------------------------------------------------------|-------------|---------------|
| IPI00056478       | Isoform 1 of Immunoglobulin superfamily member 8 precursor                  | IGSF8       | Q969P0-1      |
| IPI00062511       | Isoform 1 of Tubulin polyglutamylase complex subunit 1                     | C19orf20    | Q6ZTW0-1      |
| IPI00063048       | Isoform 2 of Beta-galactoside alpha-2,6-sialyltransferase 2                | ST6GAL2     | Q96JF0-2      |
| IPI00064158       | Isoform 1 of Tau-tubulin kinase 1                                           | TTBK1       | Q5TCY1-1      |
| IPI00064655       | Cytochrome c oxidase subunit 4 isoform 2, mitochondrial precursor           | COX4I2      | Q96KJ9        |
| IPI00064667       | Beta-Ala-His dipeptidase precursor                                          | CNDP1       | Q96KN2        |

| IPI00216704   | Isoform 2 of Spectrin beta chain, erythrocyte         | SPTB        | P11277-2      |
| IPI00216990   | Hypothetical protein LOC158358                        | KIAA2026    |               |
| IPI00217269   | Guanine nucleotide-binding protein G(t) subunit alpha-2| GNAT2       | P19087        |
| IPI00217519   | Ras-related protein Ral-A precursor                   | RALA        | P11233        |
| IPI00217778   | Isoform 2 of Phospholipid transfer protein precursor   | PLTP        | P55058-2      |
| IPI00217787   | Isoform 1 of Uncharacterized protein C12orf53 precursor| C12orf53    | Q8IYJ0-1      |
| IPI00217966   | Isoform 1 of L-lactate dehydrogenase A chain          | LDHA        | P00338-1      |
| IPI00218075   | Protein FAM9B                                          | FAM9B       | Q8IZU0        |
| IPI00218192   | Isoform 2 of Inter-alpha-trypsin inhibitor heavy chain H4 precursor | ITIH4 | Q14624-2 |
| IPI00218413   | Biotinidase precursor                                  | BTD         | P43251        |
| IPI00218732   | Serum paraoxonase/arylesterase 1                       | PON1        | P27169        |
| IPI00218733   | Superoxide dismutase                                   | SOD1        | P00441        |
| IPI00218823   | Isoform 1 of WW domain-binding protein 7              | MLL4        | Q9UMN6-1      |
| IPI00219018   | Glyceraldehyde-3-phosphate dehydrogenase              | GAPDH       | P04406        |
| IPI00219217   | L-lactate dehydrogenase B chain                       | LDHB        | P07195        |
| IPI00219219   | Galectin-1                                             | LGALS1      | P09382        |
| IPI00219446   | Phosphatidylethanolamine-binding protein 1            | PEBP1       | P30086        |
| IPI00219798   | Isoform 1 of Roundabout homolog 1 precursor           | ROBO1       | Q9Y6N7-1      |
| IPI00219910   | 22 kDa protein                                         |             |               |
| IPI00220117   | Uncharacterized protein CD99                          | CD99        | P14209-2      |
| IPI00220327   | Keratin, type II cytoskeletal 1                        | KRT1        | P04264        |
**Table S2.** Proteins (n=474) identified in the analysis of non fractionated and immunodepleted individual patient samples.

| IPI            | protein name                                                                 | Gene symbol | Swiss Prot ID |
|----------------|------------------------------------------------------------------------------|-------------|---------------|
| IPI00220334    | Isoform 3 of Seizure 6-like protein precursor                               | SEZ6L       | Q9BYH1-4      |
| IPI00220562    | Neuronal pentraxin-1 precursor                                              | NPTX1       | Q15818        |
| IPI00220644    | Isoform M1 of Pyruvate kinase isozymes M1/M2                                | PKM2        | P14618-2      |
| IPI00221088    | 40S ribosomal protein S9                                                    | RPS9        | P46781        |
| IPI00221224    | Aminopeptidase N                                                            | ANPEP       | P15144        |
| IPI00235647    | similar to fibrillarin                                                       | LOC345630   |               |
| IPI00241562    | reelin isoform a                                                            | RELN        | P78509-2      |
| IPI00242956    | IgGFc-binding protein precursor                                             | FCGBP       | Q9Y6R7        |
| IPI00243221    | nardilysin (N-arginine dibasic convertase) isoform a                        | NRD1        | O43847-2      |
| IPI00247243    | 31 kDa protein                                                              | -           |               |
| IPI00289058    | Ly-6/neurotoxin-like protein 1 precursor                                    | LYNX1       | Q9BZG9        |
| IPI00289275    | Cartilage intermediate layer protein 1 precursor                            | CILP        | O75339        |
| IPI00290085    | Cadherin-2 precursor                                                        | CDH2        | P19022        |
| IPI00290315    | Chromogranin-A precursor                                                    | CHGA        | P10645        |
| IPI00291136    | Collagen alpha-1(Ⅵ) chain precursor                                       | COL6A1      | P12109        |
| IPI00291262    | Clusterin precursor                                                         | CLU         | P10909        |
| IPI00291866    | Plasma protease C1 inhibitor precursor                                      | SERPING1    | P05155        |
| IPI00292071    | Secretogranin-3 precursor                                                  | SCG3        | QSWXD2        |
| IPI00292181    | Mitogen-activated protein kinase kinase 12                                  | MAP3K12     | Q12852        |
| IPI00292300    | contactin associated protein-like 5                                         | CNTNAP5     |               |
| IPI00292530    | Inter-alpha-trypsin inhibitor heavy chain H1 precursor                      | ITIH1       | P19827        |
| IPI00292567    | Protein O-linked mannose beta1,2-N-acetylglucosaminyltransferase            | POMGNT1     |               |
| IPI00292946    | Thyroxine-binding globulin precursor                                        | SERPINA7    | P05543        |
| IPI00292950    | Serpin peptidase inhibitor, clade D (Heparin cofactor), member 1            | SERPIND1    |               |
| IPI00293057    | Isoform 2 of Carboxypeptidase B2 precursor                                  | CPB2        | Q96IY4-2      |
| IPI00293533    | Nuclear pore glycoprotein p62                                               | NUP62       | P37198        |
| IPI00293539    | Isoform 2 of Cadherin-11 precursor                                          | CDH11       | P55287-2      |
| IPI00293665    | Keratin, type II cytoskeletal 6B                                            | KRT6B       | P04259        |
| IPI00293836    | Isoform 3 of Cell adhesion molecule 2 precursor                            | CADM2       | Q8N3J6-3      |
| IPI00294004    | Vitamin K-dependent protein S precursor                                     | PROS1       | P07225        |
| IPI00295414    | Collagen alpha-1(ⅩV) chain precursor                                       | COL15A1     | P39059        |
| IPI00295542    | Nucleobindin-1 precursor                                                   | NUCB1       | Q02818        |
| IPI00295741    | Cathepsin B precursor                                                       | CTSB        | P07858        |
| IPI00295832    | Oligodendrocyte-myelin glycoprotein precursor                               | OMG         | P23515        |

| IPI              | protein name                                      | Gene symbol | Swiss Prot ID |
|------------------|---------------------------------------------------|-------------|---------------|
| IPI00296141      | Dipeptidyl-peptidase 2 precursor                  | DPP7        | Q9UHL4        |
| IPI00296165      | Complement C1r subcomponent precursor             | C1R         | P00736        |
| IPI00296534      | Isoform D of Fibulin-1 precursor                  | FBLN1       | P23142-1      |
| IPI00296537      | Isoform C of Fibulin-1 precursor                  | FBLN1       | P23142-4      |
| IPI00296608      | Complement component C7 precursor                 | C7          | P10643        |
| IPI00296777      | SPARC-like protein 1 precursor                    | SPARCL1     | Q14515        |
| IPI00297124      | Isoform 1 of Interleukin-6 receptor subunit beta  | IL6ST       | P40189-1      |
| IPI00297160      | Isoform 12 of CD44 antigen precursor              | CD44        | P16070-12     |
| IPI00297188      | Brain-specific angiogenesis inhibitor 2 precursor | BAI2        | O60241        |
| IPI00297224      | Sushi domain-containing protein 5                 | SUSD5       | O60279        |
| IPI00297252      | Isoform 1 of Extracellular sulfatase Sulf-2 precursor | SULF2     | Q8IWU5-1      |
| IPI00297284      | Insulin-like growth factor-binding protein 2 precursor | IGFBP2   | P18065        |
| IPI00297646      | Collagen alpha-1(I) chain precursor               | COL1A1      | P02452        |
| IPI00298237      | Isoform 1 of Tripeptidyl-peptidase 1 precursor    | TPP1        | O14773-1      |
| IPI00298281      | Laminin subunit gamma-1 precursor                 | LAMC1       | P11047        |
| IPI00298388      | Isoform 1 of Phosphoinositide-3-kinase-interacting protein 1 precursor | PIK3IP1 | Q96FE7-1      |
| IPI00298497      | Fibrinogen beta chain precursor                   | FGB         | P02675        |
| IPI00298547      | Protein DJ-1                                       | PARK7       | Q99497        |
| IPI00298793      | Beta-mannosidase precursor                        | MANBA       | O00462        |
| IPI00298828      | Beta-2-glycoprotein 1 precursor                   | APOH        | P02749        |
| IPI00298971      | Vitronectin precursor                             | VTN         | P04004        |
| IPI00299059      | Isoform 2 of Neural cell adhesion molecule L1-like protein precursor | CHL1      | O00533-2      |
| IPI00299699      | Neural proliferation differentiation and control protein 1 precursor | NPDC1 | Q9NQX5        |
| IPI00299738      | Procollagen C-endopeptidase enhancer 1 precursor  | PCOLCE      | Q15113        |
| IPI00301143      | Isoform 1 of Peptidase inhibitor 16 precursor     | PI16        | Q6UXB8-1      |
| IPI00301494      | Carbohydrate sulfotransferase 4                   | CHST4       | Q8NCG5        |
| IPI00301579      | Epididymal secretory protein E1 precursor         | NPC2        | P61916        |
| IPI00301743      | Putative uncharacterized protein DKFZp434P055     | FLJ39660    | Q9NQX5        |
| IPI00301865      | Isoform 1 of Transmembrane protein 132A precursor | TMEM132A   | Q24JP5-1      |
| IPI00302592      | filamin A, alpha isoform 1                        | FLNA        | P06727        |
| IPI00304273      | Apolipoprotein A-IV precursor                     | APOA4       | O94782        |
| IPI00304379      | Ubiquitin carboxyl-terminal hydrolase 1           | USP1        | P08123        |
| IPI00304962      | Collagen alpha-2(I) chain precursor               | COL1A2      | P08123        |
Table S2. Proteins (n=474) identified in the analysis of non fractionated and immunodepleted individual patient samples.

| IPI              | protein name                                                                 | Gene symbol | Swiss Prot ID |
|------------------|------------------------------------------------------------------------------|-------------|---------------|
| IPI00305380      | Insulin-like growth factor-binding protein 4 precursor                       | IGFBP4      | P22692        |
| IPI00305461      | Inter-alpha-trypsin inhibitor heavy chain H2 precursor                       | ITIH2       | P19823        |
| IPI00306339      | secreted phosphoprotein 1 isoform b                                          | SPP1        |               |
| IPI00307591      | Zinc finger protein 609                                                      | ZNF609      | O15014        |
| IPI00328243      | Phospholipase D3                                                             | PLD3        | Q8IV08        |
| IPI00328609      | Kallistatin precursor                                                        | SERPINA4    | P29622        |
| IPI00329688      | Protein YIPF3                                                                | YIPF3       | Q9GZM5        |
| IPI00332887      | signal-regulatory protein alpha precursor                                    | SIRPA       | P78324-3      |
| IPI00333140      | Delta and Notch-like epidermal growth factor-related receptor precursor      | DNER        | Q8NFT8        |
| IPI00333776      | Isoform 1 of Neuronal cell adhesion molecule precursor                       | NRCAM       | Q92823-1      |
| IPI00334238      | neuronal pentraxin receptor                                                   | NPTXR       | O95502        |
| IPI00334282      | Protein FAM3C precursor                                                      | FAM3C       | Q92520        |
| IPI00334666      | Isoform 1 of Receptor-type tyrosine-protein phosphatase N2 precursor         | PTPRN2      | Q92932-1      |
| IPI00335343      | similar to Dynein heavy chain at 36C CG5526-PA                               | DNAH14      |               |
| IPI00337307      | Isoform 1 of HpaII tiny fragments locus 9c protein (Fragment)                | HTF9C       | Q8IZ69-1      |
| IPI003374065     | similar to melanoma inhibitory activity 3 isoform 1                          | MIA3        |               |
| IPI003374563     | Agrin precursor                                                              | AGRN        | O00468        |
| IPI003374914     | hypothetical protein                                                         | LOC401115   |               |
| IPI003376427     | Neural cell adhesion molecule 2 precursor                                    | NCAM2       | O15394        |
| IPI003376436     | Isoform 4 of Vacuolar protein sorting-associated protein 13B                 | VPS13B      | Q7Z7G8-4      |
| IPI00382471      | Ig heavy chain V-I region WOL                                                | -           | P01760        |
| IPI00382748      | Isoform 3 of Putative hydroxypyruvate isomerase                              | HYI         | Q5T013-3      |
| IPI00384697      | Isoform 2 of Serum albumin precursor                                         | ALB         | P02768-2      |
| IPI00386879      | CDNA FLJ14473 ffs, clone MAMMA1001080, highly similar to Homo sapiens SNC73 protein (SNC73) mRNA | IGHV3OR16-13 |               |
| IPI00386946      | CDNA FLJ11786 ffs, clone HEMBA1006036                                       | CCDC90A     |               |
| IPI00387113      | Ig kappa chain V-III region B6                                               | -           | P01619        |
| IPI00395667      | Interferon-related IFRD2 (PC4-B) protein                                     | NAT6        | Q12894        |
| IPI00396423      | Alcadein beta                                                               | CLSTN3      |               |
| IPI00396439      | Uncharacterized protein C6orf168                                            | C6orf168    | Q5TG10        |
| IPI00398007      | ubiquitin specific protease 40                                              | USP40       | Q9NVE5-1      |
| IPI00399180      | Serine/threonine-protein kinase SBK1                                         | SBK1        | Q52WX2        |
| IPI00401283      | Multiple epidermal growth factor-like domains 9 precursor                   | MEGF9       | Q9H1U4        |
Table S2. Proteins (n=474) identified in the analysis of non fractionated and immunodepleted individual patient samples.

| IPI          | protein name                                      | Gene symbol | Swiss Prot ID |

| IPI00477992    | complement component 1, q subcomponent, B chain precursor                   | C1QB        | P02746        |
| IPI00478003    | Alpha-2-macroglobulin precursor                                             | A2M         | P01023        |
| IPI00514676    | myelin oligodendrocyte glycoprotein isoform beta2 precursor                 | MOG         |               |
| IPI00550162    | IGLV3-25 protein                                                            | IGLV3-25    |               |
| IPI00550991    | Alpha-1-antichymotrypsin precursor                                          | SERPINA3    | P01011-2      |
| IPI00552771    | V-2-11 protein                                                              | IGLV3-16    |               |
| IPI00552905    | Isoform 1 of Proline-rich transmembrane protein 3 precursor                | PRRT3       | Q5FWE3-1      |
| IPI00553177    | Isoform 1 of Alpha-1-antitrypsin precursor                                 | SERPINA1    | P01009-1      |
| IPI00555812    | Vitamin D-binding protein precursor                                         | GC          | P02774        |
| IPI00607580    | multiple EGF-like-domains 8                                                | MEGF8       | Q7Z7M0-2      |
| IPI00607600    | amyloid precursor-like protein 1 isoform 1 precursor                        | APLP1       |               |
| IPI00640703    | Isoform 1 of Exportin-5                                                     | XPO5        | Q9HAV4-1      |
| IPI00641737    | Haptoglobin precursor                                                       | HP          | P00738        |
| IPI00642632    | C7 protein                                                                  | -           |               |
| IPI00643920    | Transketolase                                                               | TKT         | P29401        |
| IPI00646328    | FERM and PDZ domain-containing protein 1                                   | FRMPD1      | Q5SYB0        |
| IPI00654755    | Hemoglobin subunit beta                                                     | HBB         | P68871        |
| IPI00654875    | Complement C4-B precursor                                                   | C4B         | P0C0L5        |
| IPI00654888    | Plasma kallikrein precursor                                                 | KLKB1       | P03952        |
| IPI00656087    | Isoform 1 of Tyrosine-protein phosphatase non-receptor type substrate 1 precursor | SIRPA     | P78324-1      |
| IPI00657936    | collagen, type XXVIII precursor                                             | COL28A1     |               |
| IPI00735451    | Uncharacterized protein ENSP00000375035                                    | -           |               |
| IPI00741266    | similar to MEGF11 protein                                                    | LOC645302   |               |
| IPI00742696    | vitamin D-binding protein precursor                                         | GC          |               |
| IPI00744070    | RING finger protein 43 precursor                                            | RNF43       | Q68DV7        |
| IPI00745833    | similar to Doublecortin domain-containing protein 2                         | LOC728597   |               |
| IPI00746623    | Hyalurroman-binding protein 2 precursor                                      | HABP2       | Q14520        |
| IPI00748265    | Rheumatoid factor RF-ET13                                                   | -           |               |
| IPI00748312    | protein tyrosine phosphatase, receptor-type, zeta1 precursor                | PTPRZ1      | P23471-1      |
| IPI00783399    | Isoform 1 of Transmembrane protein 132D precursor                          | TMEM132D    | Q14C87-1      |
| IPI00783987    | Complement C3 precursor (Fragment)                                          | C3          | P01024        |
| IPI00784119    | Vacuolar ATP synthase subunit S1 precursor                                  | ATP6AP1     | Q15904        |
| IPI00784430    | Similar to Ig kappa chain V-III region VG precursor                         | IGKV3D-11   | P04433        |
Table S2. Proteins (n=474) identified in the analysis of non fractionated and immunodepleted individual patient samples.

| IPI            | Protein name                                            | Gene symbol   | Swiss Prot ID |
|----------------|---------------------------------------------------------|---------------|---------------|
| IPI00784519    | Putative uncharacterized protein                        | -             |               |
| IPI00784589    | Putative uncharacterized protein DKFZp781M0386          | -             |               |
| IPI00784828    | Putative uncharacterized protein DKFZp686C11235         | -             |               |
| IPI00786880    | Myosin-XVB                                              | -             | Q96JP2        |
| IPI00786926    | Myosin-reactive immunoglobulin heavy chain variable region (Fragment) | IGHV1-69 |               |
| IPI00787641    | similar to zinc finger protein 586                      | LOC729943     |               |
| IPI00787853    | Inositol monophosphatase 3                              | IMPAD1        | Q9NX62        |
| IPI00789234    | Immunoglobulin V-set domain containing protein          | VSTM2A        | Q8TAG5        |
| IPI00790257    | 5 kDa protein                                           | C3orf65       |               |
| IPI00792115    | Putative uncharacterized protein DKFZp686H17246         | CLEC3B        |               |
| IPI00794070    | CFI protein                                             | CFI           |               |
| IPI00794237    | Protein                                                 | CALR          |               |
| IPI00796379    | B2M protein                                             | B2M           |               |
| IPI00798235    | Isoform 32 of Voltage-dependent L-type calcium channel subunit alpha-1C | CACNA1C   | Q13936-32     |
| IPI00798430    | Transferrin variant (Fragment)                          | TF            |               |
| IPI00829740    | V2-6 protein                                            | -             |               |
| IPI00829841    | 13 kDa protein                                          | -             |               |
| IPI00844156    | SERPINC1 protein                                        | SERPINC1      |               |
| IPI00845354    | IGKC protein                                            | IGKC          |               |
| IPI00852898    | Isoform 4 of Uncharacterized protein C14orf138          | C14orf138     | Q9H867-4      |
| IPI00853369    | Plexin-B2 precursor                                     | PLXNB2        | O15031        |
| IPI00854644    | Uncharacterized protein ENSP00000374805                 | -             |               |
| IPI00855918    | mucin 5, subtype B, tracheobronchial                    | MUC5B         | Q9HC84        |
| IPI00873544    | Uncharacterized protein ENSP00000380627 (Fragment)      | -             |               |
| IPI00877800    | 32 kDa protein                                          | -             |               |
| IPI00879442    | 29 kDa protein                                          | KLHL22        |               |
| IPI00884080    | Similar to Immunglobulin heavy chain variable region    | -             |               |
