## Data Sharing Statement

| Item | Question                                                                 | Authors’ Response                                                                 |
|------|--------------------------------------------------------------------------|-----------------------------------------------------------------------------------|
| 1    | Would you like to share data collected for your study to others?         | Yes                                                                               |
| 2    | If not, would you like to share the reason for your decision?            | -                                                                                 |
| 3    | What data in particular will be shared?                                  | All                                                                               |
| 4    | Any other documents will be shared? Such as study protocol, statistical  | Statistical analysis plan, informed consent form, and clinical study report will   |
|      |   analysis plan, informed consent form, clinical study report, analytic  | also be shared if requested.                                                       |
|      |   code.                                                                  |                                                                                   |
| 5    | When will data availability begin?                                       | From the publication date.                                                        |
| 6    | When will data availability end?                                         | Two years within the publication date, since the technique may be updated over     |
|      |                                                                          | time.                                                                            |
| 7    | To whom will you share the data?                                        | Prenatal ultrasound physicians who are interested in studies of fetal facial      |
|      |                                                                          | profile markers during the first trimester of pregnancy.                          |
| 8    | For what type of analysis or purpose?                                    | For analysis the diagnosis rate of facial abnormalities in early pregnancy.        |
| 9    | How or where can the data/documents be obtained?                         | Emails could be sent to the address below to obtain the shared data: jinian54@163.com. |
| 10   | Any other restrictions?                                                  | We may balance the potential benefits and risks for each request and then provide  |
|      |                                                                          | the data that could be shared.                                                    |
