Description of Additional Supplementary Files

File name: Supplementary Data 1
Description: Antibodies and reagents for Flow Cytometry

File name: Supplementary Data 2
Description: Primer information used for RT-qPCR

File name: Supplementary Data 3
Description: Enriched GO terms of biological processes in each macrophage subpopulation (Pre-SPMs)

File name: Supplementary Data 4
Description: Enriched GSEA terms of biological processes in macrophages between treatments (overlaps of ELL/sham and ELL_N/ELL)

File name: Supplementary Data 5
Description: Genes and GO biological processes affected by in silico knockout of Retnla, Cfb and Timd4. (GO biological processes, Timd4 KO)

File name: Supplementary Data 6
Description: Enriched GSEA terms of biological processes in B cells between treatments (overlaps between ELL/sham and ELL_N/ELL)
