Supplementary Material #1 - Stratigraphic sections
Figure S1 - Stratigraphic sketch of Cava Pompi archaeological section. Original photograph taken by author I. Biddittu. In red, $^{40}$Ar/$^{39}$Ar age performed for the present study.
Figure S2 - Stratigraphic sketch of the composite Colle Avarone geological section. Photographs taken by author F. Marra.
Figure S3 - Stratigraphic sketch of Isoletta geologic section. Photograph by author I. Biddittu.

Figure S4 - Stratigraphic sketch of Lademagne geological section.
Figure S5 - Photograph taken by author I. Biddittu of the Pontecorvo outcrop showing occurrence of several tephra layers (arrow) intercalated in the Lower lacustrine succession. Two of these tephra layers were dated by K/Ar method.
