Funding patterns for biomedical research in Gabon: an example of research partnership in global health and an exploration of infectious diseases burden

Questionnaire to health research institutions in Gabon
Questionnaire on data related to biomedical research funding in Gabon.

This survey is carried out within the framework of our study which explores the funding patterns for biomedical research and infectious disease burden in Gabon. The questionnaire is designed to collect health research financial data from biomedical research institutions.

We guarantee the security and confidentiality of your data and assure you they will appear only in the aggregated results of our research work.

The questionnaire includes six sections as follows:

I. Characteristics of the institution;
II. Funding amount and sources;
III. Funding by research topic;
IV. Funding by activity type
V. Funding by research type;
VI. Funding by funder type.

Please, add as many pages, columns, and lines as you would need to answer this questionnaire.
I. Characteristics of the institution

Name of the institution:

Year of creation:

Sector the institution belongs to:
☐ Public  ☐ Private non for-profit  ☐ Para public  ☐ Private for-profit  ☐ Other

Type of institution:
☐ Government agency  ☐ Hospital  ☐ Health center  ☐ University/Health school  ☐ Private biomedical research institution  ☐ Other

Primary function:
☐ Biomedical research  ☐ Healthcare  ☐ Academy  ☐ Other
II. Total funding amount and sources

Monetary Unit:

NB: The amounts must be expressed in the same monetary unit.

| Year | Internal | External | Other (Specify) | Total |
|------|----------|----------|-----------------|-------|
|      |          |          |                 |       |
|      |          |          |                 |       |
|      |          |          |                 |       |
|      |          |          |                 |       |
|      |          |          |                 |       |
|      |          |          |                 |       |
| Total|          |          |                 |       |
III. Funding by research topic

Monetary Unit:

NB: The amounts must be expressed in the same monetary unit.

| Year | Malaria | Tuberculosis | HIV/AIDS | Helminths | Dengue | Ebola | Other (Specify) |
|------|---------|--------------|----------|-----------|--------|-------|----------------|
|      |         |              |          |           |        |       |                |
|      |         |              |          |           |        |       |                |
|      |         |              |          |           |        |       |                |
|      |         |              |          |           |        |       |                |
|      |         |              |          |           |        |       |                |
|      |         |              |          |           |        |       |                |
|      |         |              |          |           |        |       |                |
|      |         |              |          |           |        |       |                |
| Total|         |              |          |           |        |       |                |
IV. Funding by activity type

Monetary Unit:

NB: The amounts must be expressed in the same monetary unit.

| Year | Prevention | Treatment | Social science | Ethics | Other (Specify) |
|------|------------|-----------|----------------|--------|-----------------|
|      |            |           |                |        |                 |
|      |            |           |                |        |                 |
|      |            |           |                |        |                 |
|      |            |           |                |        |                 |
|      |            |           |                |        |                 |
|      |            |           |                |        |                 |
|      |            |           |                |        |                 |
|      |            |           |                |        |                 |
|      |            |           |                |        |                 |
|      |            |           |                |        |                 |
|      |            |           |                |        |                 |
|      |            |           |                |        |                 |

Total
V. Funding by research types

Monetary Unit:

NB: The amounts must be expressed in the same monetary unit.

| Year | Clinical trial | Epidemiology | Immunology | Capacity building | Nested to clinical trial | Other (Specify) |
|------|----------------|--------------|------------|------------------|--------------------------|----------------|
|      |                |              |            |                  |                          |                |
|      |                |              |            |                  |                          |                |
|      |                |              |            |                  |                          |                |
|      |                |              |            |                  |                          |                |
|      |                |              |            |                  |                          |                |
| Total|                |              |            |                  |                          |                |
VI. Funding by funder type

Monetary Unit:

NB: The amounts must be expressed in the same monetary unit.

| Year | Public sector | Private sector | philanthropic sector | Other (Specify) |
|------|---------------|---------------|---------------------|----------------|
|      |               |               |                     |                |
|      |               |               |                     |                |
|      |               |               |                     |                |
|      |               |               |                     |                |
|      |               |               |                     |                |
|      |               |               |                     |                |
|      |               |               |                     |                |
|      |               |               |                     |                |
|      |               |               |                     |                |
|      |               |               |                     |                |
| Total|               |               |                     |                |
