Online Resource 2 Prevalence (95% CI) of TRD among patients with MDD by type of site of care

| Site of Care                             | Prevalence        |
|-----------------------------------------|-------------------|
| General hospital                         | 95/158 (60.1%)    |
| General psychiatric hospital             | 14/40 (35.0%)     |
| Private clinical site                    | 90/412 (21.8%)    |
| Private psychiatric clinical site        | 82/270 (30.4%)    |
| Private psychiatric institution          | 26/46 (56.5%)     |
| Public hospital                          | 48/212 (22.6%)    |
| Public psychiatric clinical site         | 13/68 (19.1%)     |
| Public psychiatric hospital              | 61/269 (22.7%)    |

CI, confidence interval; TRD, treatment-resistant depression; MDD, major depressive disorder.
