This article [J. of Biomedical Optics 23(11), 116501 (2018), doi: 10.1117/1.JBO.23.11.116501] was originally published online on 8 November 2018 with an error in Sec. 2.2, where the value of $\tau$ was misrepresented.

In the original version, $\tau$ is squared prior to substitution into Eq. (1):

Let $\tau = \left(\frac{t - t}{\theta}\right)^2$.

In the corrected version, $\tau$ is not squared:

Let $\tau = \frac{(t - \bar{t})}{\theta}$.

The error did not affect Eq. (1) or Eq. (2), or any of the results presented in the article. The article was corrected online on 17 September 2019.
