Erratum to:
Chapter “Free-Rider Episode Screening via Dual Partition Model” in: J. Pei et al. (Eds.): Database Systems for Advanced Applications, LNCS 10827
https://doi.org/10.1007/978-3-319-91452-7_43

The original version of this chapter contained the following three mistakes:

1. In table 1, row 2, column 3, the average occurrence per event on STK dataset was “1.037”. It should be “1,037”.
2. The last model name in the legend of Figure 3 was “EIP”. It should be “EDP”.
3. In the experiment part the stock symbols and their companies were confused.

In the updated version these mistakes were corrected.

The updated online version of this chapter can be found at https://doi.org/10.1007/978-3-319-91452-7_43
