## Supplemental Table 2. Cut Slide Age (antigen stability) for c-MET

| Tissue                  | Time point | Score Results for each Condition |          |          |          |
|-------------------------|------------|---------------------------------|----------|----------|----------|
|                         |            | Room Temp (15-30°C)              | 15-30°C Desiccator | -20°C Freezer |
| Lung MTB T1 and T2      | Day 0      | PASS                            | N/A      | N/A      |
|                         | Day 7      | PASS                            | N/A      | N/A      |
|                         | Day 14     | PASS                            | N/A      | N/A      |
|                         | Day 21     | PASS                            | N/A      | N/A      |
|                         | Month 1    | PASS                            | PASS     | PASS     |
|                         | Day 45     | PASS                            | PASS     | PASS     |
| Lung MTB T1             | Month 2    | PASS                            | PASS     | PASS     |
|                         | Month 3    | PASS                            | PASS     | PASS     |
|                         | Month 4    | PASS                            | PASS     | PASS     |
|                         | Month 5    | PASS                            | PASS     | PASS     |
|                         | Month 6    | FAIL: 3+ tissue dropped to 2+    | PASS     | PASS     |
|                         | Month 7    | FAIL: 3+ tissue dropped to 2+. 2+ tissue dropped to 1+ | PASS     | PASS     |
| Lung MTB T1 and T2      | Month 9    | Start MTB T2 slides: T2 slides = FAIL. MTB T1 Slides depleted. | MTB T1 tissue = Fail | MTB T1 tissue = Fail. | Pathologist notes |
| Tissue | Time point | Room Temp (15-30°C) | 15-30°C Desiccator | -20°C Freezer |
|--------|------------|---------------------|---------------------|--------------|
| Lung MTB T2 | Month 12 | 3+ tissue dropped to 2+. 2+ tissue dropped to 1+. 1+ tissue lighter than Day 0 | 3+ tissue dropped to 2+. 2+ tissue dropped to 1+. 1+ tissue lighter than Day 0 | 3+ tissue dropped to 2+. 2+ tissue dropped to 1+. 1+ tissue lighter than Day 0 |
|        | FAIL       | FAIL                | FAIL                | FAIL         |
|        | Pathologist notes |                     |                     |              |
|        | Month 14 | 3+ tissue dropped to 2+. 2+ tissue dropped to 1+. 1+ tissue lighter than Day 0 | 3+ tissue dropped to 2+. 2+ tissue dropped to 1+. 1+ tissue lighter than Day 0 | 3+ tissue dropped to 2+. 2+ tissue dropped to 1+. 1+ tissue lighter than Day 0 |
|        | FAIL       | FAIL                | FAIL                | FAIL         |
|        | Pathologist notes |                     |                     |              |
