Origami 5: Fifth International Meeting of Origami Science, Mathematics, and Education

Origami 5 continues in the excellent tradition of its four previous incarnations, documenting work presented at an extraordinary series of meetings that explored the connections between origami, mathematics, science, technology, education, and other academic fields.

The fifth such meeting, 5OSME (July 13–17, 2010, Singapore Management University) followed the precedent previous meetings to explore the interdisciplinary connections between origami and the real world. This book begins with a section on origami history, art, and design. It is followed by sections on origami in education and origami science, engineering, and technology, and culminates with a section on origami mathematics—the pairing that inspired the original meeting.

Within this one volume, you will find a broad selection of historical information, artists’ descriptions of their processes, various perspectives and approaches to the use of origami in education, mathematical tools for origami design, applications of folding in engineering and technology, as well as original and cutting-edge research on the mathematical underpinnings of origami.

From reader reviews:

Brett Munoz:
Information is provisions for folks to get better life, information nowadays can get by anyone on everywhere. The information can be a information or any news even a concern. What people must be consider whenever those information which is inside former life are challenging be find than now is taking seriously which one would work to believe or which one typically the resource are convinced. If you have the unstable resource then you have it as your main information we will see huge disadvantage for you. All of those possibilities will not happen with you if you take Origami 5: Fifth International Meeting of Origami Science, Mathematics, and Education as your daily resource information.

Nathaniel Marvel:
Reading a e-book tends to be new life style with this era globalization. With looking at you can get a lot of information that could give you benefit in your life. Together with book everyone in this world can certainly share their idea. Textbooks can also inspire a lot of people. A great deal of author can inspire their reader with their story or maybe their experience. Not only the storyplot that share in the guides. But also they write about the data about something that you need example. How to get the good score toefl, or how to teach your children, there are many kinds of book which exist now. The authors these days always try to improve their ability in writing, they also doing some study before they write with their book. One of them is this Origami 5: Fifth International Meeting of Origami Science, Mathematics, and Education.

Marian Dyer:
Playing with family in a park, coming to see the ocean world or hanging out with good friends is thing that usually you have done when you have spare time, in that case why you don't try matter that really opposite from that. 1 activity that make you not feeling tired but still relaxing, trilling like on roller coaster you are ride on and with addition of knowledge. Even you love Origami 5: Fifth International Meeting of Origami Science, Mathematics, and Education, you may enjoy both. It is excellent combination right, you still would like to miss it? What kind of hang-out type is it? Oh can happen its mind hangout folks. What? Still don't buy it, oh come on its known as reading friends.

Richard Taylor:
What is your hobby? Have you heard that question when you got scholars? We believe that that concern was given by teacher on their students. Many kinds of hobby, All people has different hobby. Therefore you know that little person such as reading or as examining become their hobby. You should know that reading is very important and also book as to be the thing. Book is important thing to incorporate you knowledge, except your teacher or lecturer. You discover good news or update concerning something by book. Different categories of books that can you choose to adopt be your object. One of them is niagra Origami 5: Fifth International Meeting of Origami Science, Mathematics, and Education.
