April 2016

| Title                                                                 | Authors                                                                 |
|----------------------------------------------------------------------|------------------------------------------------------------------------|
| Biophysical Evaluation of the Vadose Zone at a Landfill Site in the Niger Delta, Nigeria | A. C. Tse, L. O. Odokuma ......................................................................33 |
| Drinking Water Quality in the Sagarmatha National Park, Nepal         | K. Nicholson, E. Hayes, K. Neumann, C. Dowling, S. Sharma ..................43 |
| Flood Hazard Mapping of Lower Indus Basin Using Multi-Criteria Analysis | S. Zehra, S. Afsar ..................................................................................54 |
| Optimizing Tillage and Irrigation Requirements of Sorghum in Sorghum-Pigeonpea Intercrop in Hamelmalo Region of Eritrea | T. Weldeslassie, R. P. Tripathi, W. Ogbazghi ........................................63 |
| Investigation the Risk of Spontaneous Combustion in Barapukuria Coal Mine, Dinajpur, Bangladesh | S. Ahamed, M. U. Monir, P. K. Biswas, A. A. Khan ..................................74 |
| Irrigation and Nitrogen Requirements of Wheat under Shallow Water Table Conditions of Asmara, Eritrea | F. Tesfamichael, R. P. Tripathi, M. Tesfai ............................................80 |
| Hydrogeochemistry and Groundwater Quality Assessment of Rapur Area, Andhra Pradesh, South India | A. Nagaraju, P. Muralidhar, Y. Sreedhar ..................................................88 |
| Environmental Water Price Based on Water Environment Capacity and Ecological Water Consumption: A Case Study of Hefei | Y. Z. Duan, G. J. Liu, C. Ren, X. B. Peng .............................................100 |
| Application of Multivariate Geostatistics in Environmental Epidemiology: Case Study from Houston, Texas | F. Anderson ................................................................................................110 |
| Effect of Sea Level Rise and Groundwater Withdrawal on Seawater Intrusion in the Gulf Coast Aquifer: Implications for Agriculture | F. Anderson, N. Al-Thani ............................................................................116 |
| Triangles Technique for Time and Location Finding of the Lightning Discharge in Spherical Model of the Earth | A. Lozbin, Y. Shpadi, A. Inchin ................................................................125 |
An Assessment of an Urban Development-Flood-Impact Relationship in a Near Millionaire City of Cameroon (Bamenda)

Z. N. Fogwe

Intelligent Seismic-Acoustic System for Identifying the Location of the Areas of an Expected Earthquake

T. A. Aliev, G. A. Guluyev, F. H. Pashayev, U. E. Sattarova, N. E. Rzaeva

Study of VD$_3$-$\beta$-Clodextrin Inclusion Complex

Y. Liu, H. Y. Zhang

The figure on the front cover is from the article published in Journal of Geoscience and Environment Protection, 2016, Vol. 4, No. 4, pp. 54-62 by Saba Zehra, Sheeba Afsar.
Journal of Geoscience and Environment Protection (GEP) is an international journal dedicated to the latest advancement of Geoscience and Environment Protection. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of Geoscience and Environment Protection. All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process.

Subject Coverage

This journal invites original research and review papers that address the following issues. Topics of interest include, but are not limited to:

- Environmental Protection
  - Air Pollution
  - Chemical Pollution
  - Climate Change
  - Disasters Management
  - Environmental Earth Sciences
  - Environmental Geology and Rehabilitation
  - Environmental Law and Policies
  - Environmental Risk
  - Global Environmental Protection Technology
  - Global Warming
  - Landfill Waste Management
  - Mineral Processing, Waste Management and Recycling
  - Nuclear Energy and Environmental Protection
  - Pollution Control and Technologies
  - Soil Environment and Soil Science in Other Disciplines
  - Sustainability of Resources and Environment
  - Waste Water Management and Aquaculture
  - Water Engineering

- Water Resources Management and Water Quality

- Geoscience
  - BioGeomarkers and Their Significance for Astrogology and Astrobiology
  - Crystallography and Mineralogy
  - Education and Capacity Building in Geosciences
  - Endogenous, Exogenous Petrology and Geochemistry
  - Energy and Mineral Deposits
  - Geodynamics
  - Geothics
  - Geographic Information Science
  - Geological Collections and Museology
  - Hydrology and Hydrogeology
  - International Partnership in Geosciences
  - Medical and Forensic Geology
  - Meteorites and Planetary Geology
  - Natural Hazards
  - Paleontology
  - Stratigraphy and Sedimentology

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the GEP.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

Website and E-Mail

http://www.scirp.org/journal/gep   E-mail: gep@scirp.org
What is SCIRP?
Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?
All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
