My hospital experience

Room with a view
Thank you for participating in this study!

This study is part of the research project “Room with a View”. Room with a View aims at designing the ideal patient room for optimal patient well-being and experience. To do so, we aim to understand how patients and healthy volunteers experience an admission in the hospital.

We would like to ask you to reply to the questions in this booklet. All answers are right, you cannot provide wrong answers. Try to describe your own experiences. You do not need to reply to questions for which you cannot provide an answer.

In case of questions, you can always contact us.
