Since January 2020 Elsevier has created a COVID-19 resource centre with free information in English and Mandarin on the novel coronavirus COVID-19. The COVID-19 resource centre is hosted on Elsevier Connect, the company's public news and information website.

Elsevier hereby grants permission to make all its COVID-19-related research that is available on the COVID-19 resource centre - including this research content - immediately available in PubMed Central and other publicly funded repositories, such as the WHO COVID database with rights for unrestricted research re-use and analyses in any form or by any means with acknowledgement of the original source. These permissions are granted for free by Elsevier for as long as the COVID-19 resource centre remains active.
RESEARCH ARTICLES

Portal vein recanalisation alone to treat severe portal hypertension in non-cirrhotic patients with chronic extrahepatic portal vein obstruction
F. Atre, N. Vietti-Violi, C. Sempoux, J. Viera Barbosa, F. Becce, N. Sah, A. Marot, P. Deltenne, E. Moschouri, M. Fraga, A. Hocquelet, R. Duran, D. Moradpour, P-E. Rautou and A. Benys 100511

Hyperammonaemia induces mitochondrial dysfunction and neuronal cell death
PR. Angelova, A.J.C. Kerbert, A. Habtesion, A. Hall, A.Y. Abramov and R. Jalan 100510

High childhood serum triglyceride concentrations associate with hepatocellular adenoma development in patients with glycogen storage disease type Ia
M.P.D. Haring, F. Peeks, M.H. Oosterveer, M.C.G.J. Brouwers, C.E.M. Hollak, M.C.H. Janssen, J.G. Langendonk, A.J.M. Rennings, M.A.E.M. Wagenmakers, H.J. Verkade, T.G.J. Derks and V.E. de Meijer 100512

Risk of further decompensation/mortality in patients with cirrhosis and ascites as the first single decompensation event
L. Balcar, M. Tonon, G. Semmler, V. Calvino, L. Hartl, S. Incicco, M. Jachs, D. Bauer, B.S. Hofer, C.G. Gambino, A. Accetta, A. Brocca, M. Trauner, M. Mandorfer, S. Piano, T. Reiberger and Baveno Cooperation: an EASL consortium 100513

Registration of Clinical Trials

JHEP Reports endorses the policy of the WHO and the International Committee of Medical Journal Editors (ICMJE) on the registration of clinical trials. Therefore, any trial that starts recruiting on or after July 1, 2005 should be registered in a publicly owned, publicly accessible registry and should satisfy a minimal standard dataset. Trials that started recruiting before that date will be considered for publication if registered before September 13, 2005.

More detailed information regarding clinical trials and registration can be found in New Engl J Med 2004;351:1250–1251 and New Engl J Med 2005;352:2437–2438.

Abnormal brain oxygen homeostasis in an animal model of liver disease
A. Hadjihambi, C. Cudalbu, K. Pierzchala, D. Simicic, C. Donnelly, C. Konstantinou, N. Davies, A. Habtesion, A.V. Gourine, R. Jalan and P.S. Hosford 100509

REVIEWS

Understanding the cellular interactome of non-alcoholic fatty liver disease
S.J. Wallace, F. Tacke, R.F. Schwabe and N.C. Henderson 100524

Stereotactic body radiation therapy for hepatocellular carcinoma: From infancy to ongoing maturity
