The original version of this article unfortunately contained an error, and it has been corrected with this erratum.

The ∂x term in Eq. 33 is not a function of x and t, hence the correct expression for Eq. 33 is as follows:

\[ \frac{\partial c(x, t)}{\partial t} = - \frac{\partial j_c(x, t)}{\partial x} + g_c(x, t) - r_c(x, t) \]  (33)
