Corrigendum

In L. Telesca (2010), A non-extensive approach in investigating the seismicity of L’Aquila area (central Italy), struck by the 6 April 2009 earthquake ($M_L = 5.8$), the following time periods were represented in error.

1) On page 92, the sentence “The event that occurred on 30 March 2009 with $M_L = 4.1$ breaks the magnitude pattern characterizing the Period 1 spanning for about 7 years from January 2002 and …”

Should have read: “The event that occurred on 30 March 2009 with $M_L = 4.1$ breaks the magnitude pattern characterizing the Period 1 spanning for about 5 years from April 2005 and …”

2) On page 92, the sentence “An analysis of 2002-2009 L’Aquila seismicity …”

Should have read: “An analysis of 2005-2009 L’Aquila seismicity …”

The publisher and author apologize for these errors and any confusion they may have caused.
