QUASI–INVARIANT CONVERGENCE FOR DOUBLE SEQUENCE

ALAUDDIN DAFADAR* AND D. K. GANGULY

Abstract. In this paper we introduce the concept of quasi-invariant convergence and quasi-invariant statistical convergence of double sequence in a normed space and we shall present a characterization of a bounded sequence to be quasi-invariant convergent.

Mathematics subject classification (2010): 40B05, 40A05.
Keywords and phrases: Invariant mean, Banach limit, invariant limit, quasi invariant convergent, quasi invariant statistical convergent.
