Since January 2020 Elsevier has created a COVID-19 resource centre with free information in English and Mandarin on the novel coronavirus COVID-19. The COVID-19 resource centre is hosted on Elsevier Connect, the company's public news and information website.

Elsevier hereby grants permission to make all its COVID-19-related research that is available on the COVID-19 resource centre - including this research content - immediately available in PubMed Central and other publicly funded repositories, such as the WHO COVID database with rights for unrestricted research re-use and analyses in any form or by any means with acknowledgement of the original source. These permissions are granted for free by Elsevier for as long as the COVID-19 resource centre remains active.
The First Year of the COVID-19 Pandemic: Changes in Preventive Services in Community Health Centers

Jessica Star, MA, MPH, Xuesong Han, PhD, Laura A. Makaroff, DO, Adair K. Minihan, MPH, Ahmedin Jemal, DVM, PhD, Priti Bandi, PhD

(see page 184)

This article has been chosen to participate in the AJPM CME program. Please read and follow the instructions below:

Educational objectives
After reading this article, the learner should be able to:
1. Readers should be able to identify which particular preventive services had the largest declines during the COVID-19 pandemic in community health centers.
2. Readers should be able to define a community health center, along with the role community health centers play in providing care to at-risk groups.
3. Readers should be able to prioritize areas of improvement for preventive services within community health centers and by sociodemographic clinical factors.

Accreditation Statement
This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME). The American College of Preventive Medicine is accredited by the ACCME to provide continuing medical education for physicians.

Credit Designation
ACPM designates this enduring material for a maximum of 1 AMA PRA Category 1™ Credit per exam. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

ACPM is not accredited to offer credit to non-physicians. To determine if activities designated for AMA PRA Category 1™ Credit are acceptable for your licensing or certification needs, please contact your credentialing body directly.

Disclosures
In accordance with the disclosure policy of the American College of Preventive Medicine (ACPM) and the American Journal of Preventive Medicine (AJPM), as well as the standards set forth by the Accreditation Council of Continuing Medical Education (ACCME), authors and any individuals in a position to control the content of a CME activity are required to disclose relevant financial relationships in any amount with commercial interests (within the past 12 months).

The following authors have disclosed relevant relationships:
XH has received a grant from AstraZeneca for research outside of this study. No other financial disclosures were reported.

Term of approval
February 2, 2022—February 2, 2025
Estimated time to complete this activity is 1 hour.

Instructions to receive CME credit
Once you have read the CME article, please visit www.ajpmonline.org/cme to complete the CME exam (with a score of at least 70%) and the CME evaluation survey. You will be able to download your CME certificate and will also receive an email with a link to your certificate. CME credit is free to AJPM subscribers, including members of ACPM and APTR. Non-members and non-subscribers can purchase a CME certificate upon successful completion of the CME test.

Privacy policy
ACPM collects personal information from participants in this online activity for purposes of assigning CME credit only. We will not share or sell your contact information, and your answers to quizzes and feedback forms will be kept confidential.
