| Accession      | Description                                                        | Max fold change |
|---------------|--------------------------------------------------------------------|-----------------|
| CO8A1_HUMAN   | Collagen alpha-1(VIII) chain                                        | 15.4            |
| GPNMB_HUMAN   | Transmembrane glycoprotein NMB                                      | 13.4            |
| HPLN1_HUMAN   | Hyaluronan and proteoglycan link protein 1                          | 12.2            |
| NET1_HUMAN    | Netrin-1                                                           | 11.4            |
| TGBR3_HUMAN   | Transforming growth factor beta receptor type 3                     | 7.1             |
| CADH6_HUMAN   | Cadherin-6                                                         | 6.7             |
| TGBZ2_HUMAN   | Transforming growth factor beta-2                                   | 6.5             |
| GREM1_HUMAN   | Gremlin-1                                                          | 5.6             |
| MASP1_HUMAN   | Mannan-binding lectin serine protease 1                             | 4.4             |
| NPC2_HUMAN    | Epithelial secretory protein E1                                     | 4.3             |
| MRC2_HUMAN    | C-type mannose receptor 2                                           | 4.2             |
| PTN_HUMAN     | Pleiotrophin                                                       | 4.1             |
| CCD80_HUMAN   | Coiled-coil domain-containing protein 80                           | 4.0             |
| ANGL2_HUMAN   | Angiopoietin-related protein 2                                      | 3.9             |
| DBAS5_HUMAN   | Putative uncharacterized protein OBSCN-AS1                          | 3.9             |
| SFRP_HUMAN    | Prolyl endopeptidase FAP                                            | 3.9             |
| QSOX1_HUMAN   | Sulfhydryl oxidase 1                                                | 3.8             |
| PTPRS_HUMAN   | Receptor-type tyrosine-protein phosphatase 5                        | 3.8             |
| DKK3_HUMAN    | Dickkopf-related protein 3                                          | 3.8             |
| IBP7_HUMAN    | Insulin-like growth factor-binding protein 7                        | 3.6             |
| TSP2_HUMAN    | Thrombospondin-2                                                   | 3.5             |
| DPP2_HUMAN    | Dipeptidyl peptidase 2                                             | 3.5             |
| GN5_HUMAN     | N-acetylglycosamine-6-sulfatase                                     | 3.3             |
| NID2_HUMAN    | Nidogen-2                                                          | 3.2             |
| STC1_HUMAN    | Stanniocalcin-1                                                    | 3.2             |
| PDGD_F_HUMAN  | Platelet-derived growth factor D                                    | 3.2             |
| SRPX_HUMAN    | Sushi repeat-containing protein SRPX                                 | 3.0             |
| PTK7_HUMAN    | Inactive tyrosine-protein kinase 7                                  | 3.0             |
| I43F_HUMAN    | 14-3-3 protein eta                                                 | 2.9             |
| HEXB_HUMAN    | Beta-hexosaminidase subunit beta                                    | 2.9             |
| TFRC_HUMAN    | Transferrin receptor protein 1                                      | 2.9             |
| TB182_HUMAN   | 182 kDa tankyrase-1-binding protein                                | 2.9             |
| TIMP2_HUMAN   | Metalloproteinase inhibitor 2                                       | 2.8             |
| MMP2_HUMAN    | 72 kDa type IV collagenase                                          | 2.8             |
| TFP1_HUMAN    | Tripeptideyl-peptidase 1                                            | 2.8             |
| BAGT1_HUMAN   | Beta-1,4-galactosyltransferase 1                                    | 2.7             |
| PTPR6_K_HUMAN | Receptor-type tyrosine-protein phosphatase kappa                    | 2.7             |
| SFRP1_HUMAN   | Sushi, von Willebrand factor type A, EGF and pentraxin-domain-containing protein | 2.7             |
| CDGA2_HUMAN   | Collagen alpha-2(VI) chain                                          | 2.7             |
| CDGA3_HUMAN   | Collagen alpha-3(VI) chain                                          | 2.7             |
| EDIL3_HUMAN   | EGF-like repeat and disocadoin-I-like domain-containing protein 3   | 2.7             |
| NTRI_HUMAN    | Neurotrimin                                                        | 2.6             |
| CALU_HUMAN    | Calumenin                                                          | 2.6             |
| COEA1_HUMAN   | Collagen alpha-1(XIV) chain                                        | 2.5             |
| CEMP_HUMAN    | Cell migration-inducing and hyaluronan-binding protein              | 2.5             |
| CD109_HUMAN   | CD109 antigen                                                      | 2.4             |
| NUCK5_HUMAN   | Nuclear ubiquitous casein and cyclin-dependent kinase substrate 1  | 2.4             |
| SPHW_HUMAN    | N-sulphoglucosamine sulphohydrolase                                | 2.3             |
| PGP9_HUMAN    | Lysosomal protective protein                                        | 2.3             |
| CATZ_HUMAN    | Cathepsin Z                                                        | 2.2             |
| FINC_HUMAN    | Fibronectin                                                        | 2.2             |
| PRC_HUMAN     | Peptidyl-prolyl cis-trans isomerase C                               | 2.2             |
| PGLB_HUMAN    | Basement membrane-specific heparan sulfate proteoglycan core protein| 2.2             |
| AMD_HUMAN     | Peptidyl-glycine alpha-amidating monoxygenase                      | 2.2             |
| CBPQ_HUMAN    | Carboxypeptidase Q                                                 | 2.1             |
| 4F2_HUMAN     | 4F2 cell-surface antigen heavy chain                               | 2.1             |
| DAG1_HUMAN    | Dystroglycan                                                       | 2.1             |
| LUM_HUMAN     | Lumican                                                            | 2.1             |
| ASAH1_HUMAN   | Acid ceramidase                                                    | 2.0             |
| PGS2_HUMAN    | Decorin                                                            | 2.0             |
| CSTM3_HUMAN   | Calcyntenin-1                                                      | 1.9             |
| PEDF_HUMAN    | Pigment epithelium-derived factor                                  | 1.9             |
| BTO_HUMAN     | Biotinidase                                                        | 1.9             |
| RENR_HUMAN    | Renin receptor                                                     | 1.9             |
| PLOD3_HUMAN   | Procollagen-lysine,2-oxoglutarate 5-dioxygenase 3                  | 1.8             |
| BMP3_HUMAN    | Bone morphogenetic protein                                         | 1.7             |
| TUT7_HUMAN    | Terminal uridylyltransferase 7                                     | 1.7             |
| NFCB1_HUMAN   | Nucleobindin-1                                                     | 1.6             |
| PLOD1_HUMAN   | Procollagen-lysine,2-oxoglutarate 5-dioxygenase 1                  | 1.5             |
