Description of Additional Supplementary Files

File Name: Supplementary Movie 1  
Description: Confocal Z stack of the vasculature of Hs578T control xenografts at 4dpi. DAPI in blue, tumor cells in red (DiI) and vasculature in green Tg(fli1:eGFP).

File Name: Supplementary Movie 2  
Description: Confocal Z stack of Hs578T xenografts at 4dpi, treated with bevacizumab, see reduction of infiltrated vessels. DAPI in blue, tumor cells in red (DiI) and vasculature in green Tg(fli1:eGFP).

File Name: Supplementary Movie 3  
Description: Confocal Z stack of HT29 control xenografts at 4dpi in Tg(fli1:eGFP) hosts. DAPI in blue, tumor cells in red (DiI) and vasculature in green Tg(fli1:eGFP).

File Name: Supplementary Movie 4  
Description: Confocal Z stack of HT29 tumors at 4dpi, treated with bevacizumab. DAPI in blue, tumor cells in red (DiI) and vasculature in green Tg(fli1:eGFP).

File Name: Supplementary Data 1  
Description: All source data underlying the graphs presented in the main figures, each sheet has the raw data corresponds to each main figure.
