| Group     | Strain                          | Source       | PCR result |
|-----------|---------------------------------|--------------|------------|
| Virus     | Dengue virus type 2             | ATCC VR-1584 | Negative   |
|           | Dengue virus type 4             | ATCC VR-1490 | Negative   |
|           | Herpes virus type 2             | ATCC-VR-734  | Negative   |
|           | Echovirus 30                    | KBPV-VR-25   | Negative   |
|           | Human Adenovirus type 40        | ATCC VR-931  | Negative   |
|           | Human Parvovirus-B19            | NIBSC-12/208 | Negative   |
|           | BK virus                        | ATCC VR-837  | Negative   |
|           | Coxsackie virus B3              | ATCC VR-30   | Negative   |
|           | Coxsackie virus B5              | ATCC VR-185  | Negative   |
| Bacteria  | Enterococcus faecium            | KCTC-13225   | Negative   |
|           | Enterococcus faecalis           | KCTC-5290    | Negative   |
|           | Staphylococcus Saprophyticus    | KCTC-3345    | Negative   |
|           | Streptococcus agalactiae        | ATCC-12928   | Negative   |
|           | Klebsiella quasipneumoniae sub  | ATCC-700603  | Negative   |
|           | Lactobasillus jensenii          | ATCC-25258   | Negative   |
|           | Lactobasillus gasseri           | ATCC-33323   | Negative   |
|           | Lactobasillus crispatus         | ATCC-33820   | Negative   |
|           | Proteus mirabilis               | ATCC-29906   | Negative   |
|           | Haemophilus ducreyi             | ATCC-33940   | Negative   |
