Erratum

Occupational exposure to asbestos and mortality among asbestos removal workers: a Poisson regression analysis

G Frost, A-H Harding, A Darnton, D McElvenny and D Morgan

Correction to: British Journal of Cancer (2008) 99, 822–829, doi:10.1038/sj.bjc.6604564

Owing to an error during typesetting, there were some mistakes introduced into the layouts of Tables 2 and 3 in the above paper when first published in the British Journal of Cancer in September 2008. The presentation of the tables as such may have led to misinterpretation of data; indeed, some data were presented incorrectly in Table 3.

The tables are now reproduced, as the author intended, on the following pages.

The publishers would like to apologise for these errors.
Table 2  Standardised mortality ratios (SMR) for all asbestos removal workers in the survey and for those included in the analysis (1971–2005)

| Cause of death                                      | Deaths | SMR (95% CI) | All removal workers | SMR (95% CI) | Analysed workers |
|-----------------------------------------------------|--------|--------------|---------------------|--------------|------------------|
| All causes                                          | 3165   | 122.9**      | (118.7–127.3)       | 985          | 111.3**          | (104.4–118.4)    |
