Saturday, 20 October 2018

Master Class
08:30 - 10:15  
Stockholm

**EDIC I Refresher course: Cardiovascular**

#LIVES2018

Chair: Jean-Louis Teboul (Kremlin-Bicetre, France)
Chair: Frantisek Duska (Prague, Czech Republic)

**Introduction**
Speaker: Pascale Gruber (London, United Kingdom)

**Managing the failing heart**
Speaker: Michael Pinsky (Pittsburgh, United States)

**Discussion**

**Haemodynamic monitoring**
Speaker: Bernd Saugel (Hamburg, Germany)

**Discussion**

**Pulmonary hypertension**
Speaker: Marco Maggiorini (Zurich, Switzerland)

**Discussion**

**Challenge yourself: CVS MCQs with interactive discussion and voting**
Speaker: Jerome Cockings (Reading, United Kingdom)

Master Class
08:30 - 10:50  
BM1

**ICM Research: Everything you need for a cracking start! - Defining the study question**

#ESICMNEXT

**Defining the hypothesis (literature search and critical analysis)**
Speaker: Hannah Wunsch (Toronto, Canada)

**Study design**
Speaker: Harald Herkner (Vienna, Austria)

**Meta-analyses in Critical Care**
Speaker: Harald Herkner (Vienna, Austria)

**Which control group?**
Speaker: Hannah Wunsch (Toronto, Canada)

**Discussion / Coffee break**
31st Annual Congress of the European Society of Intensive Care Medicine,  
20 - 24 October 2018,  
Paris, France

**Scientific Programme**

Master Class  
08:45 - 10:00  
Lisbon I

**Antibiotic PK/PD in ICU clinical practice: Basics of antimicrobial use**  
#micro

**Principles of PK/PD: The basics**  
Speaker: Jan De Waele (Ghent, Belgium)  
08:45

**PK/PD changes in the critically ill patient**  
Speaker: Barbara Borgatta (Oxford, United Kingdom)  
09:10

**How to read a PK/PD paper**  
Speaker: Barbara Borgatta (Oxford, United Kingdom)  
09:35

Master Class  
09:00 - 10:30  
Lisbon II

**Metabolism, nutrition: Challenges at the bedside - Nutrition at the basic level**  
#metabolic

**Energy needs and nutritional status**  
Speaker: Heleen Oudemans-van Straaten (Amsterdam, Netherlands)  
09:00

**Gastrointestinal dysfunction**  
Speaker: Annika Reintam Blaser (Tartu, Estonia)  
09:20

**How to monitor nutrition?**  
Speaker: Jan Wernerman (Stockholm, Sweden)  
09:40

**Advantages of enteral vs parenteral nutrition**  
Speaker: Arthur van Zanten (Ede, Netherlands)  
10:10

Master Class  
09:00 - 10:30  
Athens

**Basic course in echocardiography**  
#cardio

**Basic competences in GCCUS: What should every intensivist know?**  
Speaker: Bernard Cholley (Paris, France)  
09:00

**Basic competences in echocardiography: What should every intensivist know?**  
Speaker: Anthony McLean (Sydney, Australia)  
09:15

**Basic views for a cardiac study (demonstration using a simulator: Simultaneous display of 2D views and corresponding 3D model of the heart)**  
Speaker: Yanick Beaulieu (Montreal, Canada)  
09:30
Scientific Programme

Master Class
09:00 - 10:40  Glasgow

Septic shock management: Sepsis, the syndrome
#sepsis

Update on sepsis biomarkers
Speaker: Yasser Sakr (Jena, Germany)  09:00

Molecular sepsis diagnostics, real tools?
Speaker: Michael Bauer (Jena, Germany)  09:25

Steroids again and again
Speaker: Daniel De Backer (Braine L'Alleud, Belgium)  09:50

Therapies in the pipeline
Speaker: Nathan D. Nielsen (New Orleans, United States)  10:15

Mechanical Ventilation: From basics to advanced treatment
#lung

Controlled mechanical ventilation settings: Basics
Speaker: Giacomo Bellani (Monza, Italy)  09:00

How to assess respiratory mechanics at the bedside
Speaker: Claude Guérin (Lyon, France)  09:20

Strategies to set PEEP and to achieve lung recruitment
Speaker: Luigi Camporota (London, United Kingdom)  09:40

Clinical case history: Respiratory mechanics to guide ventilatory settings
Speaker: Alain Mercat (Angers, France)  10:10

Advanced course in echocardiography: Critical care echocardiography
#cardio

Overview of critical care echocardiography
Speaker: Daniel De Backer (Braine L'Alleud, Belgium)  09:00
Master Class
09:30 - 13:30

**Advanced course in echocardiography: LV systolic function**

#cardio

**Echo parameters**
Speaker: Philippe Vignon (Limoges, France) 09:30

**Coffee break** 10:15

**What is known in the different clinical situations in the ICU?**
Speaker: Antoine Vieillard-Baron (Boulogne, France) 10:30

**Cases/discussion**
Speaker: Michel Slama (Amiens, France) 11:15

**Lunch break** 11:45

**European Diploma: How does it work?**
Speaker: Daniel De Backer (Braine L'Alleud, Belgium) 13:00

Master Class
10:00 - 10:45

**Anti**otic PK/PD in ICU clinical practice: PK/PD optimisation (interactive rapid-fire sessions)

#micro

**Continuous vs. extended infusion: Why and when?**
Speaker: Fredrik Sjövall (Malmo, Sweden) 10:00

**Antibiotic bolus: When and how?**
Speaker: Claire Roger (Nimes, France) 10:15

**When to increase the dose**
Speaker: Jeffrey Lipman (Brisbane, Australia) 10:30

Master Class
10:40 - 12:40

**EDIC I Refresher course: Respiratory & airways management**

#LIVES2018

Chair: Carl Waldmann (Reading, United Kingdom)
Chair: Hans Ulrich Rothen (Bern, Switzerland)

**Role of NIV/High-flow-nasal oxygen therapy**
Speaker: Luigi Camporota (London, United Kingdom) 10:40

**Discussion** 11:00
Scenieal Programme

Weaning from mechanical ventilation
Speaker: Davide Chiumello (Milan, Italy)

Discussion

Update on ARDS
Speaker: Claude Guérin (Lyon, France)

Discussion

Rescue of refractory hypoxia
Speaker: Francesca Rubulotta (London, United Kingdom)

Discussion

Challenge yourself: Respiratory MCQs with interactive discussion and voting
Speaker: Stephen Shepherd (London, United Kingdom)

Master Class
10:50 - 13:30

ICM Research: Everything you need for a cracking start! - Performing the study
#ESICMNEXT

Grant writing: What needs to go into an application, what funders want, how grant panels think
Speaker: Roland Francis (Berlin, Germany)

Establishing the endpoint - what (if any) is the best one to use in ICM research?
Speaker: Lui Forni (Surrey, United Kingdom)

Sample size calculation: A balance between power and feasibility
Speaker: Giacomo Bellani (Monza, Italy)

Randomisation strategies and alternatives
Speaker: Hannah Wunsch (Toronto, Canada)

Discussion / Lunch break

Master Class
11:00 - 12:45

Antibiotic PK/PD in ICU clinical practice: PK/PD in special situations (rotating workshops)
#micro

AKI and RRT
Speaker: Jeffrey Lipman (Brisbane, Australia)

ECMO and liver support systems
Speaker: Hendrik Bracht (Ulm, Germany)
Scientific Programme

**AMR**
Speaker: Jordi Rello (Barcelona, Spain)
11:50

**Obesity**
Speaker: Claire Roger (Nimes, France)
12:15

---

Master Class
11:00 - 13:00  
Lisbon II

**Metabolism, nutrition: Challenges at the bedside - Clinical cases: Challenges for feeding in special conditions**

#metabolic

**Intestinal fistulae**
Speaker: Joel Starkopf (Tartu, Estonia)
11:00

**Severe diarrhea**
Speaker: Annika Reintam Blaser (Tartu, Estonia)
11:30

**Liver failure**
Speaker: Valentin Fuhrmann (Hamburg, Germany)
12:00

**Pancreatitis**
Speaker: Joel Starkopf (Tartu, Estonia)
12:30

---

Master Class
11:00 - 12:30  
Athens

**Basic course in echocardiography: Group B**

#cardio

**How to recognize severe left ventricular dysfunction (hypo & hyperkinesia)?**
Speaker: Bernard Cholley (Paris, France)
11:00

**Pericardial effusion & tamponade**
Speaker: Armand Mekontso Dessap (Créteil, France)
11:15

**How to recognize a failing right ventricle?**
Speaker: Antoine Vieillard-Baron (Boulogne, France)
11:30

**Massive valvular regurgitation: How to identify the problem?**
Speaker: Diane Zlotnik (Paris, France)
11:45

**Wall motion abnormalities**
Speaker: Gorazd Voga (Celje, Slovenia)
12:00

**Inferior vena cava: How to measure? How to interpret? Limits**
Speaker: Bernard Cholley (Paris, France)
12:15
Master Class
11:00 - 12:30  

**Basic course in echocardiography: Group A**

#cardio

**Hands-on**
Speaker: Eric Maury (Paris, France)

**Hands-on**
Speaker: Daniel Lichtenstein (Paris, France)

**Hands-on**
Speaker: Yanick Beaulieu (Montreal, Canada)

**Hands-on**
Speaker: Filippo Sanfilippo (Catania, Italy)

**Hands-on**
Speaker: Laurent Zieleskiewicz (Paris, France)

**Hands-on**
Speaker: Samy Figueiredo (Paris, France)

**Hands-on**
Speaker: Belaïd Bouhemad (Dijon, France)

**Hands-on**
Speaker: Martin Balik (Prague, Czech Republic)

Master Class
11:00 - 12:30  

**Basic course in echocardiography: Group C**

#cardio

**Clinical case on severe LV dysfunction**
Speaker: Nick Fletcher (London, United Kingdom)

**Clinical cases showing images of normal and failing RV**
Speaker: Xavier Repesse (Paris, France)

**Regional wall motion abnormalities, obvious cases, major territories (anterior, inferior, lateral)**
Speaker: Michelle Chew (Malmö, Sweden)

**Clinical cases of pericardial effusion, tamponade or not?**
Speaker: Nick Fletcher (London, United Kingdom)

**Clinical cases on valvular regurgitation (TTE, 2D and color Doppler only)**
Speaker: Fernando Clau-Terré (Barcelona, Spain)

**Clinical cases with inferior vena cava**
Speaker: Michel Slama (Amiens, France)
Scientific Programme

Master Class
11:00 - 12:40

Septic shock management: Sepsis, case-based discussions
#sepsis

Source control - A key issue
Speaker: Ricard Ferrer Roca (Barcelona, Spain) 11:00

The failing liver
Speaker: Michael Bauer (Jena, Germany) 11:25

The failing kidney
Speaker: Marlies Ostermann (London, United Kingdom) 11:50

The failing immune system
Speaker: Peter Pickkers (Nijmegen, Netherlands) 12:15

Master Class
11:00 - 13:00

Mechanical Ventilation: From basics to advanced treatment
#lung

Hands-on session 1 - Controlled ventilation: The basics
Speaker: Guillaume Carteaux (Paris, France)
Speaker: Giacomo Grasselli (Milan, Italy)
Speaker: Martin Dres (Paris, France)
Speaker: Luigi Camporota (London, United Kingdom)
Speaker: Giuseppe Foti (Monza, Italy) 11:00

Practical examples waveform interpretation 1
Speaker: Ewan Goligher (Toronto, Canada) 12:00

Assisted mechanical ventilation settings: Basics
Speaker: Leo Heunks (Neimegen, Netherlands) 12:20

Heart lung interaction during controlled ventilation
Speaker: Antoine Vieillard-Baron (Boulogne, France) 12:40

Master Class
12:15 - 14:05

EDIC II Preparation course
#LIVES2018

Introduction (How EDIC II works)
Speaker: Francesca Rubulotta (London, United Kingdom) 12:15

Exam statistics
Speaker: Petr Waldauf (Prague, Czech Republic) 12:40
31st Annual Congress of the European Society of Intensive Care Medicine, 20 - 24 October 2018, Paris, France

**Scientific Programme**

**CBA Video**
13:00

**Curves 1: ECG**
Speaker: Adrian Wong (London, United Kingdom)
13:15

**Curves 2: Pressure waves**
Speaker: Hans Flaatten (Bergen, Norway)
13:45

**Master Class**
12:15 - 14:30
iLumens Paris Descartes

*When ICU enhances postoperative recovery*  
#periop

This Master Class will be held at:

iLumens Site Paris 5  
Université Paris Descartes  
45 rue des Saints Pères  
75006 Paris, France

**Introduction and welcome**
Speaker: Ib Jammer (Bergen, Norway)
12:15

**How to set up a Periop ERAS programme**
Speaker: Aarne Feldheiser (Berlin, Germany)
12:30

**How to stimulate the brain to enhance recovery**
Speaker: Arjen Slooter (Utrecht, Netherlands)
13:00

**Team training in periop ICU - CRM and simulation tools**
Speaker: Antoine Tesnière (Paris, France)
13:30

**Patient and hospital factors that influence short and long term survival after surgery**
Speaker: Mike Gillies (Edinburgh, United Kingdom)
14:00

**Master Class**
13:30 - 15:30
Stockholm

**EDIC I Refresher course: Sepsis & Inflammation**
#LIVES2018

Chair: Francesca Rubulotta (London, United Kingdom)  
Chair: Ignacio Martin-Loeches (Dublin, Ireland)

**Infections in the immunocompromised patient**
Speaker: Pascale Gruber (London, United Kingdom)
13:30

**Discussion**
13:50
Scientific Programme

**Optimising antibiotic dosing**
Speaker: Despoina Koulenti (Brisbane, Australia)  
13:55

**Discussion**
14:15

**Applying and monitoring source control in infections**
Speaker: Ahmed ElHaddad (London, United Kingdom)  
14:20

**Discussion**
14:40

**Update on sepsis**
Speaker: Yasser Sakr (Jena, Germany)  
14:45

**Discussion**
15:05

**Challenge yourself: Sepsis MCQs with interactive discussion and voting**
Speaker: Armand Girbes (Amsterdam, Netherlands)  
15:10

---

Master Class  
13:30 - 14:45

**Antibiotic PK/PD in ICU clinical practice: Outcomes of PK/PD interventions**  
#micro

**Target non-attainment**
Speaker: Jan De Waele (Ghent, Belgium)  
13:30

**Therapeutic drug monitoring**
Speaker: Lennie Derde (Utrecht, Netherlands)  
13:55

**Population pharmacokinetic modelling**
Speaker: Claire Roger (Nimes, France)  
14:20

---

Master Class  
13:30 - 15:00

**Metabolism, nutrition: Challenges at the bedside - Interactive session: Endocrine dysfunctions in ICU**  
#metabolic

**Adrenal gland**
Speaker: Karim Asehnoune (Nantes, France)  
13:30

**Thyroid gland**
Speaker: Michael Casaer (Leuven, Belgium)  
14:00

**ADH inappropriate secretion**
Speaker: Hervé Quintard (Nice, France)  
14:30
Scientific Programme

Master Class
13:30 - 15:00

Basic course in echocardiography: Group C

#cardio

**How to recognize severe left ventricular dysfunction (hypo & hyperkinesia)?**
Speaker: Bernard Cholley (Paris, France)  
13:30

**How to recognize a failing right ventricle?**
Speaker: Antoine Vieillard-Baron (Boulogne, France)  
13:45

**Pericardial effusion & tamponade**
Speaker: Armand Mekontso Dessap (Créteil, France)  
14:00

**Massive valvular regurgitation: How to identify the problem?**
Speaker: Diane Zlotnik (Paris, France)  
14:15

**Wall motion abnormalities**
Speaker: Gorazd Voga (Celje, Slovenia)  
14:30

**Inferior vena cava: How to measure? How to interpret? Limits**
Speaker: Bernard Cholley (Paris, France)  
14:45

Master Class
13:30 - 15:00

Basic course in echocardiography: Group B

#cardio

**Hands-on**
Speaker: Eric Maury (Paris, France)

**Hands-on**
Speaker: Daniel Lichtenstein (Paris, France)

**Hands-on**
Speaker: Yanick Beaulieu (Montreal, Canada)

**Hands-on**
Speaker: Laurent Zieleskiewicz (Paris, France)

**Hands-on**
Speaker: Filippo Sanfilippo (Catania, Italy)

**Hands-on**
Speaker: Samy Figueiredo (Paris, France)

**Hands-on**
Speaker: Belaïd Bouhemad (Dijon, France)

**Hands-on**
Speaker: Martin Balik (Prague, Czech Republic)
Scientific Programme

Master Class  
13:30 - 15:00  
Brussels

**Basic course in echocardiography: Group A**  
#cardio

**Clinical case on severe LV dysfunction**  
Speaker: Nick Fletcher (London, United Kingdom)  
13:30

**Clinical cases showing images of normal and failing RV**  
Speaker: Xavier Repesse (Paris, France)  
13:45

**Regional wall motion abnormalities, obvious cases, major territories (anterior, inferior, lateral)**  
Speaker: Michelle Chew (Malmö, Sweden)  
14:00

**Clinical cases of pericardial effusion, tamponade or not?**  
Speaker: Nick Fletcher (London, United Kingdom)  
14:15

**Clinical cases on valvular regurgitation (TTE, 2D and color Doppler only)**  
Speaker: Fernando Clau-Terré (Barcelona, Spain)  
14:30

**Clinical cases with inferior vena cava**  
Speaker: Michel Slama (Amiens, France)  
14:45

Master Class  
13:30 - 15:10  
Glasgow

**Septic shock management: Sepsis, therapeutics**  
#sepsis

**Antimicrobial PK and PD**  
Speaker: Jeffrey Lipman (Brisbane, Australia)  
13:30

**Precision medicine in treating sepsis**  
Speaker: Ricard Ferrer Roca (Barcelona, Spain)  
13:55

**Multidrug resistance - Epidemiology - Implications for practice**  
Speaker: Jeroen Schouten (Radboud, Netherlands)  
14:20

**Adjunct therapies**  
Speaker: Massimo Girardis (Modena, Italy)  
14:45

Master Class  
13:30 - 15:50  
BM1

**ICM Research: Everything you need for a cracking start! - Analysis**  
#ESICMNEXT

**Planning statistical analysis**  
Speaker: Daniele Poole (Belluno, Italy)  
13:30
**Scientific Programme**

**Data collection: What, how and when**
Speaker: Felix Balzer (Berlin, Germany)  
14:00

**Big Data (cooperation with the TechLounge)**
Speaker: Felix Balzer (Berlin, Germany)  
14:30

**Defining the right population**
Speaker: Howard Bauchner (Boston, United States)  
15:00

**Discussion / Coffee break**  
15:30

**Advanced course in echocardiography: LV diastolic function**
#cardio

**Echo parameters**
Speaker: Michel Slama (Amiens, France)  
13:30

**What is known in the different clinical situations in the ICU?**
Speaker: Anthony McLean (Sydney, Australia)  
14:15

**Coffee break**  
14:30

**Cases/discussion**
Speaker: Philippe Vignon (Limoges, France)  
15:00

**Pericardial disease and echo**
Speaker: Armand Mekontso Dessap (Créteil, France)  
15:45

**Mechanical Ventilation: From basics to advanced treatment**
#lung

**How to assess respiratory mechanics and patient’s effort during assisted mechanical ventilation**
Speaker: Antonio Pesenti (Milan, Italy)  
14:00

**Patient-ventilator interaction during assisted mechanical ventilation**
Speaker: Laurent Brochard (Toronto, Canada)  
14:20

**Impact of mechanical ventilation on respiratory muscles**
Speaker: Samir Jaber (Montpellier, France)  
14:40

**Non conventional forms of ventilation: APRV/PAV/NAVA**
Speaker: Lise Piquilloud (Lausanne, Switzerland)  
15:00
Scientific Programme

**Hands-on session 2 - Assisted ventilation: The basics**  15:20
Speaker: Luigi Camporota (London, United Kingdom)
Speaker: Martin Dres (Paris, France)
Speaker: Guillaume Carteaux (Paris, France)
Speaker: Giacomo Grasselli (Milan, Italy)
Speaker: Giuseppe Foti (Monza, Italy)

**Master Class**
14:20 - 15:45  
**EDIC II Preparation course**
#LIVES2018

**Curves 3: Ventilator screens**  14:20
Speaker: Petr Waldauf (Prague, Czech Republic)

**Biochemistry 1: Advanced acid-base**  15:00
Speaker: Frantisek Duska (Prague, Czech Republic)

**Antibiotic PK/PD in ICU clinical practice: Applying PK/PD concepts: How to use...**
#micro

**Betalactams - Focus on Piperacillin/tazobactam**  15:00
Speaker: Barbara Borgatta (Oxford, United Kingdom)

**Carbapenems- Focus on Meropenem**  15:20
Speaker: Hendrik Bracht (Ulm, Germany)

**Glycopeptides - Focus on Vancomycin**  15:40
Speaker: Marc Leone (Marseille, France)

**Aminoglycosides**  16:00
Speaker: Lennie Derde (Utrecht, Netherlands)

**Colistin**  16:20
Speaker: Gennaro De Pascale (Rome, Italy)

**Antifungals - Focus on fluconazole and voriconazole**  16:40
Speaker: Philippe Montravers (Paris, France)
Scientific Programme

Master Class
15:00 - 16:30
iLumens Paris Descartes

When ICU enhances postoperative recovery
#periop

This Master Class will be held at:

iLumens Site Paris 5
Université Paris Descartes
45 rue des Saints Pères
75006 Paris, France

Crisis resource management and emergency training: Group 1
Speaker: Marit Habicher (Berlin, Germany)
Speaker: Philipp Dussmann (Berlin, Germany)
Speaker: Philipp Landgraf (Berlin, Germany)

Airway management: Group 2
Speaker: Ib Jammer (Bergen, Norway)
Speaker: Michael Sander (Giessen, Germany)
Speaker: Bernardo Bollen Pinto (Geneva, Switzerland)
Speaker: Sophie Ruhrmann (Giessen, Germany)

Master Class
15:30 - 17:20
Lisbon II

Metabolism, nutrition: Challenges at the bedside - Remaining questions: How to deal with...
#metabolic

Chair: Elisabeth De Waele (Brussels, Belgium)

...the timing dilemma: Is early best for nutrition? 15:30
Speaker: Arthur van Zanten (Ede, Netherlands)

...more or less calories & proteins? 15:50
Speaker: Elisabeth De Waele (Brussels, Belgium)

...the optimal micronutrients and vitamins delivery 16:20
Speaker: Kenneth Christopher (Boston, United States)

...pragmatic nutritional management overtime 16:40
Speaker: Mette Berger (Lausanne, Switzerland)

...refeeding syndrome 17:00
Speaker: Carole Ichai (Nice, France)
Scientific Programme

Master Class
15:30 - 17:00

Basic course in echocardiography: Group A

#cardio

**How to recognize severe left ventricular dysfunction (hypo & hyperkinesia)?**
Speaker: Bernard Cholley (Paris, France)

**How to recognize a failing right ventricle?**
Speaker: Antoine Vieillard-Baron (Boulogne, France)

**Pericardial effusion & tamponade**
Speaker: Bernard Cholley (Paris, France)

**Massive valvular regurgitation: How to identify the problem?**
Speaker: Diane Zlotnik (Paris, France)

**Wall motion abnormalities**
Speaker: Gorazd Voga (Celje, Slovenia)

**Inferior vena cava: How to measure? How to interpret? Limits**
Speaker: Bernard Cholley (Paris, France)

Master Class
15:30 - 17:00

Basic course in echocardiography: Group C

#cardio

**Hands-on**
Speaker: Eric Maury (Paris, France)

**Hands-on**
Speaker: Daniel Lichtenstein (Paris, France)

**Hands-on**
Speaker: Yanick Beaulieu (Montreal, Canada)

**Hands-on**
Speaker: Xavier Repesse (Paris, France)

**Hands-on**
Speaker: Filippo Sanfilippo (Catania, Italy)

**Hands-on**
Speaker: Laurent Zieleskiewicz (Paris, France)

**Hands-on**
Speaker: Samy Figueiredo (Paris, France)

**Hands-on**
Speaker: Belaïd Bouhemad (Dijon, France)
Master Class  
15:30 - 17:00  

**Basic course in echocardiography: Group B**

#cardio

**Clinical case on severe LV dysfunction**  
Speaker: Nick Fletcher (London, United Kingdom)  
15:30

**Clinical cases showing images of normal and failing RV**  
Speaker: Olfa Hamzaoui (Clamart, France)  
15:45

**Regional wall motion abnormalities, obvious cases, major territories (anterior, inferior, lateral)**  
Speaker: Michelle Chew (Malmö, Sweden)  
16:00

**Clinical cases of pericardial effusion, tamponade or not?**  
Speaker: Nick Fletcher (London, United Kingdom)  
16:15

**Clinical cases on valvular regurgitation (TTE, 2D and color Doppler only)**  
Speaker: Fernando Clau-Terré (Barcelona, Spain)  
16:30

**Clinical cases with inferior vena cava**  
Speaker: Michel Slama (Amiens, France)  
16:45

Master Class  
15:30 - 16:30  

**Septic shock management: Workshops**

#sepsis

**Sepsis stewardship programmes**  
Speaker: Massimo Girardis (Modena, Italy)  

**Implementing antibiotic stewardship in my ICU**  
Speaker: Jeroen Schouten (Radboud, Netherlands)

Master Class  
15:50 - 17:30  

**ICM Research: Everything you need for a cracking start! - Presentation & publication**

#ESICMNEXT

**Where and how to present your research: What I look for in a poster & oral presentation**  
Speaker: Julia Wendon (London, United Kingdom)  
15:50

**Where and how to publish your research: What you should know, what journal editors think and want**  
Speaker: Giuseppe Citerio (Monza, Italy)  
16:20
**Scientific Programme**

**Answering reviewers’ comments**
Speaker: Elie Azoulay (Paris, France)

**Discussion / Break**

**Master Class**
16:00 - 17:35

**EDIC I Refresher course: Trauma & surgery**
#LIVES2018
Chair: Marco Maggiorini (Zurich, Switzerland)
Chair: Ahmed ElHaddad (London, United Kingdom)

**Trauma management**
Speaker: Jacques Duranteau (Kremlin-Bicetre, France)

**Discussion**

**A survival guide to managing high risk surgical patients**
Speaker: Rupert Pearse (London, United Kingdom)

**Discussion**

**Burns**
Speaker: Hans Flaatten (Bergen, Norway)

**Discussion**

**Challenge yourself: Trauma and surgery MCQs with interactive discussion and voting**
Speaker: Adrian Wong (London, United Kingdom)

**Master Class**
16:00 - 18:15

**EDIC II Preparation course**
#LIVES2018

**Biochemistry 2: Vignette, ions and patterns**
Speaker: Paul Elbers (Amsterdam, Netherlands)

**CBA Images 1: CXR/AXR**
Speaker: Rajnish Saha (Harlow, United Kingdom)

**CBA Images 2: CT/US**
Speaker: Ravindra Kumar (Redhill, United Kingdom)
Scientific Programme

Master Class
16:30 - 18:00  
iLumens Paris Descartes

**When ICU enhances postoperative recovery**

#periop

This Master Class will be held at:

iLumens Site Paris 5
Université Paris Descartes
45 rue des Saints Pères
75006 Paris, France

**Crisis resource management and emergency training: Group 2**
Speaker: Marit Habicher (Berlin, Germany)
Speaker: Philipp Dussmann (Berlin, Germany)
Speaker: Philipp Landgraf (Berlin, Germany)

**Airway management: Group 1**
Speaker: Ib Jammer (Bergen, Norway)
Speaker: Michael Sander (Giessen, Germany)
Speaker: Bernardo Bollen Pinto (Geneva, Switzerland)
Speaker: Sophie Ruhrmann (Giessen, Germany)

Master Class
16:40 - 17:40  
Amsterdam

**Mechanical Ventilation: From basics to advanced treatment**

#lung

**Practical examples waveform interpretation 2**
Speaker: Gennaro De Pascale (Rome, Italy)

**Role of non-invasive ventilation in acute hypoxaemic respiratory failure**
Speaker: Giuseppe Foti (Monza, Italy)

**High Flow Nasal Cannula: theoretical and practical aspects**
Speaker: Samir Jaber (Montpellier, France)

Master Class
17:00 - 17:15  
Lisbon I

**Antibiotic PK/PD in ICU clinical practice: What's next?**

#micro

**Challenges and future perspectives in PK/PD**
Speaker: Jeffrey Lipman (Brisbane, Australia)
31st Annual Congress of the European Society of Intensive Care Medicine,  
20 - 24 October 2018,  
Paris, France

Scientific Programme

Master Class  
17:15 - 17:40 

**Antibiotic PK/PD in ICU clinical practice: Closure**

#micro  

**CME exam and final remarks**  
Speaker: Barbara Borgatta (Oxford, United Kingdom)  

Master Class  
17:30 - 18:00  

**ICM Research: Everything you need for a cracking start! - Study challenge**

#ESICMNEXT  

**How ESICM and NEXT can help with your research**  
Speaker: Burcin Halacli (Ankara, Turkey)  

**Setting the Challenge**  
Speaker: Jean-Daniel Chiche (Paris, France)
Sunday, 21 October 2018

Master Class
08:00 - 10:15

**EDIC II Preparation course**

#LIVES2018

**How to go through CCS 1 Medical**
Speaker: Pascale Gruber (London, United Kingdom)

**CCS Video**

**How to go through CCS 2 Cardiotoracic**
Speaker: Carl Waldmann (Reading, United Kingdom)

Master Class
08:30 - 10:05

**EDIC I Refresher course: Nephrology, electrolytes & fluid management**

#LIVES2018

Chair: Jerome Cockings (Reading, United Kingdom)
Chair: Hans Flaatten (Bergen, Norway)

**Acute kidney injury**
Speaker: Lui Forni (Surrey, United Kingdom)

**Discussion**

**Renal replacement therapies**
Speaker: John Prowle (London, United Kingdom)

**Discussion**

**Acid base for the expert**
Speaker: Paul Elbers (Amsterdam, Netherlands)

**Discussion**

**Challenge yourself: Nephrology MCQs with interactive discussion and voting**
Speaker: Frantisek Duska (Prague, Czech Republic)

Master Class
08:30 - 09:00

**ECMO: From big bang to black holes - powered by NEXT: Welcoming & introduction**

#ESICMNEXT
Scientific Programme

Big bang - Welcome to the ECMO Master Class
Speaker: Jozef Kesecioglu (Utrecht, Netherlands) 08:30

Research track on ARDS and ECMO: From Fellowship to Master Class and vice versa
Speaker: Gennaro De Pascale (Rome, Italy) 08:45

Master Class
09:00 - 10:30
Lisbon I

Facing the emergency & secondary brain damage
#neuro
Chair: Mauro Oddo (Lausanne, Switzerland)

The approach to the comatose patient
Speaker: Matthew J. Rowland (Oxford, United Kingdom) 09:00

Seizures and status epilepticus: How to detect and treat
Speaker: Déborah Pugin (Geneva, Switzerland) 09:30

Ischaemic stroke management: Facing the revolution
Speaker: Giuseppe Citerio (Monza, Italy) 10:00

Master Class
09:00 - 10:00
Lisbon II

Practical aspects of RRT in ICU patients
#renal

Welcome
Speaker: Eric Hoste (Ghent, Belgium) 09:00

Introduction to RRT and terminology
Speaker: Antoine Schneider (Lausanne, Switzerland) 09:05

RRT: Principles and modalities
Speaker: John Prowle (London, United Kingdom) 09:30

Master Class
09:00 - 10:35
Athens

Basic course in echocardiography: Group B
#cardio

Echo signs of pneumothorax
Speaker: Laurent Zieleskiewicz (Paris, France) 09:00

Pleural effusion
Speaker: Belaïd Bouhemad (Dijon, France) 09:20
Scientific Programme

**Lung condensation: Pneumonia, atelectasis,...**
Speaker: Daniel Lichtenstein (Paris, France) 09:40

**Diaphragmatic function: How to evaluate?**
Speaker: Nadia Aissaoui (Paris, France) 10:00

**Respiratory distress: Basic approach using US**
Speaker: Philippe Vignon (Limoges, France) 10:15

**Master Class**
09:00 - 10:30 Vienna

**Basic course in echocardiography: Group A**
#cardio

**Hands-on**
Speaker: Bernard Cholley (Paris, France)

**Hands-on**
Speaker: Gorazd Voga (Celje, Slovenia)

**Hands-on**
Speaker: Matthieu Legrand (Paris, France)

**Hands-on**
Speaker: Olfa Hamzaoui (Clamart, France)

**Hands-on**
Speaker: Xavier Repesse (Paris, France)

**Hands-on**
Speaker: Filippo Sanfilippo (Catania, Italy)

**Hands-on**
Speaker: Diane Zlotnik (Paris, France)

**Hands-on**
Speaker: Benjamin Glenn Chousterman (Paris, France)

**Basic course in echocardiography: Group C**
#cardio

**Clinical case pneumothorax (pleural sliding present and absent, 2D and M-mode, lung point)**
Speaker: Samy Figueiredo (Paris, France) 09:00

**Clinical cases of pleural effusion, various importances**
Speaker: Samy Figueiredo (Paris, France) 09:20
Scientific Programme

Clinical cases of lung condensation 09:40
Speaker: Yanick Beaulieu (Montreal, Canada)

Practical approach to Respiratory Distress 10:00
Speaker: Yanick Beaulieu (Montreal, Canada)

Examples of diaphragmatic evaluation, pitfalls in measurement 10:20
Speaker: Eric Maury (Paris, France)

Septic shock management: Sepsis, mechanism of hypotension

Hypovolemia 09:00
Speaker: Xavier Monnet (Paris, France)

Cardiac depression 09:25
Speaker: Daniel De Backer (Braine L’Alleud, Belgium)

Vasoplegia 09:50
Speaker: Bruno Levy (Vandoeuvre les Nancy, France)

Mechanical Ventilation: From basics to advanced treatment

A basic introduction to the pathophysiology of ARDS 09:00
Speaker: Luigi Camporota (London, United Kingdom)

Advanced respiratory monitoring: Transpulmonary pressure and lung volumes 09:20
Speaker: Luciano Gattinoni (Milan, Italy)

Prone position theoretical and practical aspects 09:40
Speaker: Alain Mercat (Angers, France)

Role of ECMO in the treatment of acute respiratory failure 10:00
Speaker: Alain Combes (Paris, France)

Hands-on session 3 - Ventilation of an ARDS patient 10:20
Speaker: Giacomo Grasselli (Milan, Italy)
Speaker: Martin Dres (Paris, France)
Speaker: Guillaume Carteaux (Paris, France)
Speaker: Luigi Camporota (London, United Kingdom)
Speaker: Giuseppe Foti (Monza, Italy)
Master Class
09:00 - 11:00

**ECMO: From big bang to black holes - powered by NEXT: ECMO basics**

#ESICMNEXT

Chair: Cristina Santonocito (Palermo, Italy)
Chair: Gennaro De Pascale (Rome, Italy)

**The ABC of ARDS treatment: The basic, case-based principles**
Speaker: Giacomo Bellani (Monza, Italy)

09:00

**Stay and play or scoop and run? ARDS/ECMO-center contact**
Speaker: Steffen Weber-Carstens (Berlin, Germany)

09:30

**VV-ECMO: Which patients benefit most?**
Speaker: Michael Quintel (Göttingen, Germany)

10:00

**Cannulation and complication**
Speaker: Nadia Aissaoui (Paris, France)

10:30

Master Class
09:00 - 12:00

**Advanced course in echocardiography: Fluid management**

#cardio

**Static echo parameters**
Speaker: Michel Slama (Amiens, France)

09:00

**Echo and fluid responsiveness evaluation**
Speaker: Philippe Vignon (Limoges, France)

09:30

**Cases/discussion**
Speaker: Antoine Vieillard-Baron (Boulogne, France)

10:00

**Coffee break**

10:30

**How to do it in practice?**
Speaker: Anthony McLean (Sydney, Australia)

11:00

**TEE: Main views, interest, side effects and contraindications**
Speaker: Antoine Vieillard-Baron (Boulogne, France)

11:30
# When ICU enhances postoperative recovery

**iLumens Paris Descartes**

This Master Class will be held at:

iLumens Site Paris 5  
Université Paris Descartes  
45 rue des Saints Pères  
75006 Paris, France

**ERAS and goal directed haemodynamic management**  
09:00  
Speaker: Michael Sander (Giessen, Germany)

**NIV/HFNO to avoid postoperative pulmonary complications**  
09:30  
Speaker: Rupert Pearse (London, United Kingdom)

**How to reduce the risk of cardiac complications after surgery**  
10:00  
Speaker: Bernardo Bollen Pinto (Geneva, Switzerland)

**Team communication**  
10:30  
Speaker: Antoine Tesnière (Paris, France)

**Perioperative ICU admission - risk stratification**  
11:00  
Speaker: Daniel A. Reuter (Rostock, Germany)

# Practical aspects of RRT in ICU patients

**Lisbon II**

**Hands-on section: Setup up of CRRT machines / RRT circuit**  
10:20  
Speaker: Antoine Schneider (Lausanne, Switzerland)  
Speaker: Thomas Rimmelé (Lyon, France)  
Speaker: Olivier Joannes-Boyau (Pessac, France)  
Speaker: John Prowle (London, United Kingdom)  
Speaker: Marlies Ostermann (London, United Kingdom)  
Speaker: Michael Darmon (Saint-Etienne, France)  
Speaker: Michael Joannidis (Innsbruck, Austria)  
Speaker: Patrick Honoré (Brussels, Belgium)

**Vascular access**  
11:30  
Speaker: Thomas Rimmelé (Lyon, France)

**How to keep the filter patent?**  
12:00  
Speaker: Olivier Joannes-Boyau (Pessac, France)
31st Annual Congress of the European Society of Intensive Care Medicine,
20 - 24 October 2018,
Paris, France

Scientific Programme

Master Class
10:30 - 12:05

**EDIC I Refresher course: Nervous system**

#LIVES2018

Chair: Lara Prisco (Oxford, United Kingdom)
Chair: Stephen Shepherd (London, United Kingdom)

**Traumatic brain injury: From physiology to treatment**
Speaker: Nino Stocchetti (Milan, Italy)

**Discussion**

**Practical issues of subarachnoid haemorrhage management**
Speaker: David Menon (Cambridge, United Kingdom)

**Discussion**

**Managing spinal injuries**
Speaker: Matthew J. Rowland (Oxford, United Kingdom)

**Discussion**

**Challenge yourself: Nervous system MCQs with interactive discussion and voting**
Speaker: Lars Hein (Copenhagen, Denmark)

Master Class
10:30 - 16:20

**EDIC II Preparation course**

#LIVES2018

**Mock exams**
Speaker: Pascale Gruber (London, United Kingdom)
Speaker: Ravindra Kumar (Redhill, United Kingdom)
Speaker: Carl Waldmann (Reading, United Kingdom)
Speaker: Francesca Rubulotta (London, United Kingdom)
Speaker: Jerome Cockings (Reading, United Kingdom)
Speaker: Petr Waldau (Prague, Czech Republic)
Speaker: Arindam Kar (Kolkata, India)
Speaker: Paul Elbers (Amsterdam, Netherlands)
Speaker: Frantisek Duska (Prague, Czech Republic)
Speaker: Martin Balik (Prague, Czech Republic)
Speaker: Rajnish Saha (Harlow, United Kingdom)
Speaker: Ahmed ElHaddad (London, United Kingdom)
Speaker: Hans Flaattten (Bergen, Norway)
Speaker: Adrian Wong (London, United Kingdom)

**Tips and guide to educational resources**
Speaker: Frantisek Duska (Prague, Czech Republic)
 Scientific Programme

Master Class
10:35 - 12:50

Septic shock management: Sepsis, haemodynamic therapy
#sepsis

Treating hypovolemia
Speaker: Bernd Saugel (Hamburg, Germany) 10:35

Treating cardiac depression
Speaker: Iwan Van der Horst (Groningen, Netherlands) 11:00

Treating vasoplegia
Speaker: Jean-Louis Teboul (Kremlin-Bicetre, France) 11:25

What do the guidelines say?
Speaker: Steve Hollenberg (Camden, United States) 12:00

What are the best endpoints?
Speaker: Claude Martin (Marseille, France) 12:25

Master Class
11:00 - 12:30

Facing the emergency & secondary brain damage
#neuro

Intracranial haemorrhage
Speaker: Chiara Robba (Cambridge, United Kingdom) 11:00

Subarachnoid haemorrhage: Management in the first 72 hours
Speaker: Raimund Helbok (Innsbruck, Austria) 11:30

SAH - The conundrum of managing systemic complications
Speaker: Geert Meyfroidt (Leuven, Belgium) 12:00

Master Class
11:00 - 12:35

Basic course in echocardiography: Group C
#cardio

Echo signs of pneumothorax
Speaker: Laurent Zieleskiewicz (Paris, France) 11:00

Pleural effusion
Speaker: Belaïd Bouhemad (Dijon, France) 11:20

Lung condensation: Pneumonia, atelectasis,...
Speaker: Daniel Lichtenstein (Paris, France) 11:40
**Scientific Programme**

**Respiratory distress: Basic approach using US**
Speaker: Philippe Vignon (Limoges, France)

**Diaphragmatic function: How to evaluate?**
Speaker: Nadia Aissaoui (Paris, France)

**Basic course in echocardiography: Group B**
#cardio

**Hands-on**
Speaker: Bernard Cholley (Paris, France)

**Hands-on**
Speaker: Gorazd Voga (Celje, Slovenia)

**Hands-on**
Speaker: Matthieu Legrand (Paris, France)

**Hands-on**
Speaker: Xavier Repesse (Paris, France)

**Hands-on**
Speaker: Olfa Hamzaoui (Clamart, France)

**Hands-on**
Speaker: Filippo Sanfilippo (Catania, Italy)

**Hands-on**
Speaker: Diane Zlotnik (Paris, France)

**Hands-on**
Speaker: Benjamin Glenn Chousterman (Paris, France)

**Basic course in echocardiography: Group A**
#cardio

**Clinical case pneumothorax (pleural sliding present and absent, 2D and M-mode, lung point)**
Speaker: Samy Figueiredo (Paris, France)

**Clinical cases of pleural effusion, various importances**
Speaker: Samy Figueiredo (Paris, France)

**Clinical cases of lung condensation**
Speaker: Yanick Beaulieu (Montreal, Canada)
Scientific Programme

**Practical approach to Respiratory Distress**
Speaker: Yanick Beaulieu (Montreal, Canada)
12:00

**Examples of diaphragmatic evaluation, pitfalls in measurement**
Speaker: Eric Maury (Paris, France)
12:20

**Master Class**
11:20 - 13:00
Amsterdam

**Mechanical Ventilation: From basics to advanced treatment**
#lung

**Patients with severe asthma: Unfrequent but nasty!**
Speaker: Lise Piquilloud (Lausanne, Switzerland)
11:20

**Pathophysiological alterations and ventilation in COPD patients**
Speaker: Alexandre Demoule (Paris, France)
11:40

**Heart-lung interaction during assisted ventilation**
Speaker: Michael Pinsky (Pittsburgh, United States)
12:00

**Weaning from mechanical ventilation**
Speaker: Laurent Brochard (Toronto, Canada)
12:20

**Practical examples waveform interpretation 2**
Speaker: Giacomo Bellani (Monza, Italy)
12:40

**Master Class**
11:20 - 12:10
BM1

**ECMO: From big bang to black holes - powered by NEXT: Case-based scenario (digivote)**
#ESICMNEXT

Chair: Claudia Spies (Berlin, Germany)
Chair: Burcin Halacli (Ankara, Turkey)

**Challenging decisions - ECMO in critical cases**
Speaker: Brijesh Patel (London, United Kingdom)
11:20
Scientific Programme

Master Class  
12:00 - 13:00  
*iLumens Paris Descartes*

**When ICU enhances postoperative recovery**  
#periop

This Master Class will be held at:

*iLumens Site Paris 5*
Université Paris Descartes  
45 rue des Saints Pères  
75006 Paris, France

**Questionnaire: Group 1 & 2**

**Wrap-up**  
Speaker: Michael Sander (Giessen, Germany)

---

Master Class  
12:10 - 13:00  
*BM1*

**ECMO: From big bang to black holes - powered by NEXT: Keynote**  
#ESICMNEXT

Chair: Victoria Bennett (London, United Kingdom)  
Chair: Nishkantha Arulkumaran (London, United Kingdom)

**The way from residency to EOLIA**  
Speaker: Alain Combes (Paris, France)

---

Master Class  
13:00 - 14:35  
*Stockholm*

**EDIC I Refresher course: GI system**  
#LIVES2018

Chair: Lars Hein (Copenhagen, Denmark)  
Chair: Rajnish Saha (Harlow, United Kingdom)

**Pancreatitis**  
Speaker: Ravindra Kumar (Redhill, United Kingdom)

**Discussion**  

**Chronic liver disease and liver transplantation**  
Speaker: Julia Wendon (London, United Kingdom)

**Discussion**  

**Nutrition: What, when and how?**  
Speaker: Marlies Ostermann (London, United Kingdom)
Scientific Programme

Discussion 14:10
Endocrine emergencies 14:15
Speaker: Hans Ulrich Rothen (Bern, Switzerland)

Master Class
13:00 - 14:30 Lisbon I

Facing the emergency & secondary brain damage
#neuro
Chair: Lara Prisco (Oxford, United Kingdom)

TBI- a changing scenario 13:00
Speaker: Mauro Oddo (Lausanne, Switzerland)

TBI-medical management of increased intracranial volumes 13:30
Speaker: Nino Stocchetti (Milan, Italy)

TBI-surgical management of increased intracranial volumes 14:00
Speaker: David Menon (Cambridge, United Kingdom)

Master Class
13:00 - 16:00 BM6

Advanced course in echocardiography: RV function
#cardio

Echo parameters 13:00
Speaker: Anthony McLean (Sydney, Australia)

What is known in the different clinical situations in the ICU? 13:45
Speaker: Antoine Vieillard-Baron (Boulogne, France)

Cases/discussion 14:15
Speaker: Michel Slama (Amiens, France)

Coffee break 14:45

How do I perform in practice an echo examination at the bedside and the report 15:00
Speaker: Anthony McLean (Sydney, Australia)

Pitfalls and mimickers 15:30
Speaker: Philippe Vignon (Limoges, France)
Scientific Programme

Master Class
13:15 - 14:55

Practical aspects of RRT in ICU patients
#renal

**Workshop I: Alarms / Troubleshooting (3 machines 3 groups) (45’ + 5’ rotation)**
(groups 2-3-4)
Speaker: John Prowle (London, United Kingdom)
Speaker: Patrick Honoré (Brussels, Belgium)
Speaker: Michael Darmon (Saint-Etienne, France)
Speaker: Michael Joannidis (Innsbruck, Austria)

**Workshop II: Citrate anticoagulation pitfalls (3 machines 3 groups) (45’ + 5’ rotation)**
(groups 1-5-6)
Speaker: Antoine Schneider (Lausanne, Switzerland)
Speaker: Olivier Joannes-Boyau (Pessac, France)
Speaker: Thomas Rimmelé (Lyon, France)

**Workshop I: Alarms / Troubleshooting (3 machines 3 groups) (45’ + 5’ rotation)**
(groups 1-5-6)
Speaker: John Prowle (London, United Kingdom)
Speaker: Patrick Honoré (Brussels, Belgium)
Speaker: Michael Darmon (Saint-Etienne, France)
Speaker: Michael Joannidis (Innsbruck, Austria)

**Workshop II: Citrate anticoagulation pitfalls (3 machines 3 groups) (45’ + 5’ rotation)**
(groups 2-3-4)
Speaker: Antoine Schneider (Lausanne, Switzerland)
Speaker: Olivier Joannes-Boyau (Pessac, France)
Speaker: Thomas Rimmelé (Lyon, France)

Master Class
13:30 - 15:10

Septic shock management: Sepsis, what else?
#sepsis

**What about the microcirculation?**
13:30
Speaker: Can Ince (Amsterdam, Netherlands)

**What about tissue perfusion?**
13:55
Speaker: Jan Bakker (Rotterdam, Netherlands)

**How to integrate macro and microcirculation?**
14:20
Speaker: Christiaan Boerma (Lieuwaarden, Netherlands)

**Pressure orientated or flow oriented therapy?**
14:45
Speaker: Didier Payen de la Garanderie (Paris, France)
Scientific Programme

Master Class
14:00 - 15:35

Basic course in echocardiography: Group A

#cardio

**Echo signs of pneumothorax**
Speaker: Laurent Zieleskiewicz (Paris, France)  
14:00

**Pleural effusion**
Speaker: Belaid Bouhemad (Dijon, France)  
14:20

**Lung condensation: Pneumonia, atelectasis,...**
Speaker: Daniel Lichtenstein (Paris, France)  
14:40

**Respiratory distress: Basic approach using US**
Speaker: Philippe Vignon (Limoges, France)  
15:00

**Diaphragmatic function: How to evaluate?**
Speaker: Nadia Aissaoui (Paris, France)  
15:20

Master Class
14:00 - 15:30

Basic course in echocardiography: Group C

#cardio

**Hands-on**
Speaker: Bernard Cholley (Paris, France)

**Hands-on**
Speaker: Gorazd Voga (Celje, Slovenia)

**Hands-on**
Speaker: Matthieu Legrand (Paris, France)

**Hands-on**
Speaker: Xavier Repesse (Paris, France)

**Hands-on**

15:20
Scientific Programme

Master Class
14:00 - 14:30

ECMO: From big bang to black holes - powered by NEXT: Ethical discussion

#ESICMNEXT

Chair: Paul Abraham (Lyon, France)
Chair: Cristina Santonocito (Palermo, Italy)

Overtreatment and staff burnout
Speaker: Rik Gerritsen (Leeuwarden, Netherlands)
Speaker: Christiane Hartog (Jena, Germany)

Master Class
14:40 - 16:40

ECMO: From big bang to black holes - powered by NEXT: ARDS Fellowships Revisited

#ESICMNEXT

Chair: Laura Galarza Barrachina (Castellon, Spain)
Chair: Stefan Schaller (Munich, Germany)

Rotterdam - Sedation management in ECMO patients
Speaker: Jan Bakker (Rotterdam, Netherlands)

Vienna - Walking ECMO
Speaker: Björn Weiss (Berlin, Germany)

Berlin - Experimental studies on ECMO
Speaker: Roland Francis (Berlin, Germany)

London - ECMO retrieval
Speaker: Brijesh Patel (London, United Kingdom)

Paris - ECCO2R: New insights, new ideas
Speaker: Alain Combes (Paris, France)

Monza - NIV and ECMO
Speaker: Giuseppe Foti (Monza, Italy)

Master Class
15:00 - 16:10

EDIC I Refresher course: Others

#LIVES2018

Chair: Jacobus Preller (Cambridge, United Kingdom)
Chair: Matthew J. Rowland (Oxford, United Kingdom)

Sedation and delirium
Speaker: Claudia Spies (Berlin, Germany)
31st Annual Congress of the European Society of Intensive Care Medicine, 20 - 24 October 2018, Paris, France

Scientific Programme

Discussion 15:20
Poisoning and toxicology 15:25
Speaker: Armand Girbes (Amsterdam, Netherlands)

Discussion 15:45
Top hardest MCQs of the year 15:50
Speaker: Christian Sitzwohl (Vienna, Austria)

Master Class 15:00 - 16:30  Lisbon I

Facing the emergency & secondary brain damage 15:00
#neuro

Chair: Pedro Kurtz (Rio de Janeiro, Brazil)

Managing post-anoxic brain injury 15:30
Speaker: Fabio Silvio Taccone (Brussels, Belgium)

Metabolic encephalopathy 15:30
Speaker: Romain Sonneville (Paris, France)

CNS infections 16:00
Speaker: Pedro Kurtz (Rio de Janeiro, Brazil)

Master Class 15:15 - 16:30  Lisbon II

Practical aspects of RRT in ICU patients 15:15
#renal

Interactive case presentation: RRT timing and modality 15:15
Speaker: Patrick Honoré (Brussels, Belgium)

Conclusions and answers to the test 16:15
Speaker: Marlies Ostermann (London, United Kingdom)

Master Class 15:30 - 16:30  Glasgow

Septic shock management: Workshops (rotation) 15:30
#sepsis

Case-based discussions 15:30
Speaker: Jean-Louis Teboul (Kremlin-Bicetre, France)
Scientific Programme

Case-based discussions
Speaker: Jan Bakker (Rotterdam, Netherlands)

Case-based discussions
Speaker: Thomas Scheeren (Groningen, Netherlands)

Thematic Session
17:00 - 18:10

Opening Session
#LIVES2018

Welcome & presentation of the Society’s achievements 17:00
Speaker: Massimo Antonelli (Rome, Italy)

Presentation of ESICM Honorary Membership to Flavia R. Machado & Didier Payen de la Garanderie 17:10
Speaker: Jozef Kesecioglu (Utrecht, Netherlands)

Presentation of ESICM Medal to Elie Azoulay 17:15
Speaker: Massimo Antonelli (Rome, Italy)

Wanted: Rebel talent 17:20
Speaker: Francesca Gino (Boston, United States)

31st Congress highlights 17:35
Speaker: Maurizio Cecconi (Milan, Italy)

Social and affective dimensions in spoken interactions 17:45
Speaker: Laurence Devilliers (Paris, France)

Vision for the Society by the Incoming President 18:00
Speaker: Jozef Kesecioglu (Utrecht, Netherlands)
Scientific Programme

Monday, 22 October 2018

Keynote Lecture
08:00 - 08:20

Changing the paradigm: Personalised antibiotic dosing for the critically ill
#micro

Chair: Pedro Povoa (Lisbon, Portugal)

Presentation
Speaker: Jeffrey Lipman (Brisbane, Australia)

Thematic Session
08:30 - 09:30

Regional perfusion in shock
#cardio

Chair: Jan Bakker (Rotterdam, Netherlands)
Chair: Iwan Van der Horst (Groningen, Netherlands)

Gastro-intestinal perfusion in shock
Speaker: Glenn Hernandez (Santiago, Chile)

Discussion

Kidney perfusion in shock
Speaker: Can Ince (Amsterdam, Netherlands)

Discussion

Brain perfusion in shock
Speaker: Fabio Silvio Taccone (Brussels, Belgium)

Discussion

Thematic Session
08:30 - 09:30

Questioning perioperative haemodynamic targets
#periop

Chair: Bernd Saugel (Hamburg, Germany)
Chair: Arnaldo Dubin (La Plata, Argentina)

The response to a fluid challenge should be assessed by oxygen delivery and not by cardiac output
Speaker: Michael Sander (Giessen, Germany)

Discussion
31st Annual Congress of the European Society of Intensive Care Medicine, 20 - 24 October 2018, Paris, France

Scientific Programme

The impact of acute haemodilution on the response to a fluid challenge 08:50
Speaker: Azriel Perel (Tel Aviv, Israel)

Discussion 09:05

Vasoplegia in the recovery room 09:10
Speaker: Aarne Feldheiser (Berlin, Germany)

Discussion 09:25

Thematic Session
08:30 - 09:30
Stockholm

ICM Year in Review: Learning from recent papers
#LIVES2018

Chair: Jean-François Timsit (Paris, France)
Chair: Giuseppe Citerio (Monza, Italy)

Infectious diseases in ICM 08:30
Speaker: Jean-François Timsit (Paris, France)

Discussion 08:45

Short and long-term outcomes 08:50
Speaker: Laurent Papazian (Marseille, France)

Discussion 09:05

Systematic reviews and meta-analysis 09:10
Speaker: Anders Perner (Copenhagen, Denmark)

Discussion 09:25

From Bench to Bedside Session
08:30 - 09:30
Lisbon

ICM Experimental 1: Concepts of critical illness
#LIVES2018

Chair: Mervyn Singer (London, United Kingdom)
Chair: Peter Radermacher (Ulm, Germany)

Inflammatory balance and imbalance 08:30
Speaker: Peter Pickkers (Nijmegen, Netherlands)

Discussion 08:45

To attack or to tolerate? Novel concepts in host response 08:50
Speaker: Michael Bauer (Jena, Germany)

Discussion 09:05
Scientific Programme

Host stress and strain  09:10
Speaker: Mervyn Singer (London, United Kingdom)

Discussion  09:25

Thematic Session  08:30 - 09:30
Athens

Research in ethics

#ethic

Chair: Rik Gerritsen (Leeuwarden, Netherlands)
Chair: Charles L. Sprung (Jerusalem, Israel)

PARTNER Trial  08:30
Speaker: Derek Angus (Pittsburgh, United States)

Discussion  08:45

ETHICUS II  08:50
Speaker: Charles L. Sprung (Jerusalem, Israel)

Discussion  09:05

DISPROPRICUS  09:10
Speaker: Dominique Benoit (Ghent, Belgium)

Discussion  09:25

Interactive Debates  08:30 - 09:30
Interactive Debates

Any intensivist can do cardiac intensive care

#periop

Chair: Stephen Shepherd (London, United Kingdom)

Debate  08:30
Speaker: Alain Vuylsteke (London, United Kingdom)
Speaker: Christina Agvald-Öhman (Stockholm, Sweden)
Speaker: Yatin Mehta (India)

Clinical Challenges Session  08:40 - 09:30

How do I manage ventilation in severe asthma or COPD patients?

#lung

Chair: Alain Mercat (Angers, France)
Scientific Programme

Presentation
Speaker: Lise Piquilloud (Lausanne, Switzerland)

Clinical Challenges Session
08:40 - 09:30
Geneva

**How do I manage ECMO in my cardiac arrest patients?**
#trauma
Chair: Jerry Nolan (Bath, United Kingdom)

Presentation
Speaker: Alain Combes (Paris, France)

Clinical Challenges Session
08:40 - 09:30
Rome

**How do I manage refractory status epilepticus?**
#neuro
Chair: Raimund Helbok (Innsbruck, Austria)

Presentation
Speaker: Mauro Oddo (Lausanne, Switzerland)

Clinical Challenges Session
08:40 - 09:30
Vienna

**How do I manage refeeding syndrome?**
#metabolic
Chair: Mette Berger (Lausanne, Switzerland)

Presentation
Speaker: Pierre Singer (Petah Tiqva, Israel)

Clinical Challenges Session
08:40 - 09:30
Glasgow

**How do I create a great working atmosphere?**
#ethic
Chair: Steve Hollenberg (Camden, United States)

Presentation
Speaker: Freda DeKeyser Ganz (Jerusalem, Israel)
**Scientific Programme**

**Tech Lounge**
09:00 - 09:50

**What has technology ever done for us?**

#tech

Chair: Marius Terblanche (London, United Kingdom)
Chair: Theodoros Kyprianou (Nicosia, Cyprus)

- **Introduction to the ESICM Tech Lounge**
  Speaker: Marius Terblanche (London, United Kingdom)
  09:00

- **Using data to support biomedical research**
  Speaker: Charlotte Summers (Cambridge, United Kingdom)
  09:05

- **Data: What is all the hype about?**
  Speaker: Ari Ercole (Cambridge, United Kingdom)
  09:20

- **Interprofessional communication in tech-rich environments: For better or for worse?**
  Speaker: Theomary Karamanis (New York, United States)
  09:35

**NEXT Lounge**
09:00 - 10:00

**NEXT Blackboard Lecture**

#ESICMNEXT

Chair: Laura Galarza Barrachina (Castellon, Spain)
Chair: Björn Weiss (Berlin, Germany)

- **Understanding hypotension in the ICU**
  Speaker: Maurizio Cecconi (Milan, Italy)
  09:00

**Arena**
09:10 - 10:20

**Spontaneous breathing: Good or bad?**

Chair: Leo Heunks (Neimegen, Netherlands)
Chair: Ewan Goligher (Toronto, Canada)

- **Spontaneous breathing in early acute respiratory distress syndrome: insights from the LUNG SAFE study**
  Abstract Presenter: Frank van Haren (Canberra, Australia)

- **The effect of neurally adjusted ventilatory assist on sedation score and sedation load**
  Abstract Presenter: Daniel Hadfield (London, United Kingdom)

- **Integrated ultrasound protocol in predicting weaning success and failure: a prospective observational study**
  Abstract Presenter: Riddhi Kundu (New Delhi, India)
Scientific Programme

Evaluation of diaphragmatic function using Tissue Doppler Imaging (TDI) - correlation with transdiaphragmatic (Pdi) parameters
Abstract Presenter: Eleni Soilemezi (Thessaloniki, Greece)

Using ultrasound of heart, lungs and diaphragm to predict weaning success: a prospective observational study
Abstract Presenter: Mark Evert Haaksma (Amsterdam, Netherlands)

Prolonged ICU stays and difficult-to-wean-patients: first year of experience in a french Post ICU Rehabilitation Center
Abstract Presenter: Morgane Faure (Paris, France)

Lung and diaphragm ultrasound in post-surgical patients to predict weaning failure
Abstract Presenter: Andrea Colombo (Dijon, France)

Application of the SpO2/FiO2 index as an indicator of the necessity and failure of Non-Invasive mechanical Ventilation (NIV) in the critical care setting
Abstract Presenter: Juliana Gonzalez Londoño (Girona, Spain)

Gas conditioning during noninvasive ventilation with helmet interface
Abstract Presenter: Valeria Raggi (Roma, Italy)

Current use of pain and sedation management on noninvasive mechanical ventilation in a pilot Korean multi-center observational study
Abstract Presenter: Jaehwa Cho (Seoul, Korea, Republic of)

Simulation Centre
09:15 - 10:15

Simulation Centre - Mechanical Ventilation Area

Mechanical ventilation area

#lung

Case scenario - Measurement of respiratory mechanics at the bedside: 09:15
From basics to advanced
Speaker: Giuseppe Foti (Monza, Italy)
Speaker: Guillaume Carteaux (Paris, France)

Simulation Centre
09:15 - 10:15

Simulation Centre - TEE/TOE Area

TEE/TOE area

#cardio

Hands-on 09:15
Speaker: Olfa Hamzaoui (Clamart, France)
Speaker: Anthony McLean (Sydney, Australia)
Simulation Centre 
09:15 - 10:45 
Simulation Centre - Basics of Bronchoscopy in ICU Area

Basics of bronchoscopy in ICU area 
#lung

**Hands-on**
Speaker: Paul Abraham (Lyon, France)
Speaker: Gennaro De Pascale (Rome, Italy)
Speaker: Brijesh Patel (London, United Kingdom)

Simulation Centre 
09:15 - 10:45 
Simulation Centre - ECMO Area

ECMO area 
#cardio

**Hands-on**
Speaker: Emric Besnard (Paris, France)
Speaker: Hugo Guillou (Paris, France)
Speaker: Sabine Valera (Marseille, France)
Speaker: Dinis Reis Miranda (Groningen, Netherlands)
Speaker: Anne-Sophie Lequeulx (Paris, France)

Oral Presentations 
09:40 - 10:55 
Paris

Acute respiratory failure, clinical studies

Chair: Luigi Camporota (London, United Kingdom)
Chair: Antonio Pesenti (Milan, Italy)

Prediction model for nosocomial pulmonary aspiration in patients needing ICU admission
Abstract Presenter: Emir Festic (Jacksonville, United States)
09:40

Protocol driven management improves outcomes in acute respiratory distress syndrome
Abstract Presenter: Abhijit Duggal (Cleveland, United States)
09:55

Respiratory system compliance, plateau pressure and driving pressure during spontaneous assisted breathing: association with clinical outcomes
Abstract Presenter: Alice Grassi (Monza, Italy)
10:10

The effect of using airway pressure release ventilation (APRV) mode on physiological dead space in comparison to Biphasic positive airway pressure (BiPAP) mode. A randomized controlled trial
Abstract Presenter: Ahmed Kahwagy (Cairo, Egypt)
10:25

Nebulisation during nasal high flow therapy: a randomized clinical trial
Abstract Presenter: Stephan Ehrmann (Tours, France)
10:40
**Scientific Programme**

**Oral Presentations**
09:40 - 10:55  

**Cardiovascular experimental studies**
Chair: Mervyn Singer (London, United Kingdom)  
Chair: Fernando Clau-Terré (Barcelona, Spain)

- **Comparison of global enddiastolic volume index (GEDVI), extravascular lung water index (EVLWI) and cardiac index (CI) derived from transpulmonary thermodilution (TPTD) during high flow vs. low/no flow ECMO: the HEUREKA-III animal study**  
  Abstract Presenter: Wolfgang Huber (Munich, Germany)

- **Performance comparison of central and peripheral Eadyn for the evaluation of the coupling between left ventricle and arterial system**  
  Abstract Presenter: Manuel Ignacio Monge García (Jerez de la Frontera, Spain)

- **Implication of Vasopressin in the vascular response to myocardial infarction and cardiogenic shock in a rat model**  
  Abstract Presenter: Philippe Gaudard (Montpellier, France)

- **Acute heart failure and renal resistive index assessed by Doppler: application to a murine model**  
  Abstract Presenter: Alice Blet (Paris, France)

- **Effects of hyperoxia on vascular tone in animal models: systematic review and Meta-analysis**  
  Abstract Presenter: Bob Smit (Amsterdam, Netherlands)

**Trauma care**
Chair: Luke Leenen (Utrecht, Netherlands)  
Chair: Sophie Hamada (Paris, France)

- **Reporting the largest long term experience with diaphragm pacing for traumatic spinal cord injury: successfully decreasing mechanical ventilation**  
  Abstract Presenter: Raymond Onders (Cleveland, United States)

- **Copeptin improve the outcome prediction of blunt trauma patients by trauma triage scores**  
  Abstract Presenter: Chien-Chang Lee (Taipei, Taiwan, Province of China)

- **Serial analysis of the immune cells in severe trauma patients**  
  Abstract Presenter: Do Wan Kim (Gwangju, Korea, Republic of)

- **Infection after gunshot wound trauma in ICU: preliminary results from the EpiTAF study**  
  Abstract Presenter: Sébastien Tanaka (Paris, France)

- **Incidence, risk factors and outcome of late hypercoagulability in trauma as measured by viscoelastic haemostatic assays**  
  Abstract Presenter: Mathijs R Wirtz (Amsterdam, Netherlands)
Oral Presentations
09:40 - 10:55

**Optimising the management of severe infections in the ICU**

Chair: Liesbet De Bus (Gent, Belgium)
Chair: Jeroen Schouten (Radboud, Netherlands)

- **Effect on ICU-mortality of early therapy with oseltamivir in critically ill patients with severe influenza pneumonia**
  09:40
  Abstract Presenter: Gerard Moreno (Tarragona, Spain)

- **Continuous infusion piperacillin in critically ill patients: predicting concentrations using published population pharmacokinetic models**
  09:55
  Abstract Presenter: Sofie Dhaese (Ghent, Belgium)

- **Efficacy and pharmacokinetics of aerosolized vancomycin in methicillin-resistant Staphylococcus aureus pneumonia under mechanical ventilation**
  10:10
  Abstract Presenter: Jun Yeon Cho (Seongnam, Korea, Republic of)

- **Elaboration of consensus endpoints to evaluate antimicrobial treatment efficacy in future HABP/VABP clinical trials**
  10:25
  Abstract Presenter: Emmanuel Weiss (Clichy, France)

- **Does dosing of piperacillin-tazobactam in critically ill patients on ECMO need to change? A pharmacokinetics study**
  10:40
  Abstract Presenter: Vesa Cheng (Brisbane, Australia)

**Sepsis pathobiology**

Chair: Didier Payen de la Garanderie (Paris, France)
Chair: Luciano Gattinoni (Milan, Italy)

- **Cytokine profile of pediatric sepsis patients: preliminary results of a cohort study**
  09:40
  Abstract Presenter: Vanessa S. Lanziotti (Rio de Janeiro, Brazil)

- **Blood genomic profile in hypothermic sepsis differs from febrile sepsis patients**
  09:55
  Abstract Presenter: Matthew Harmon (Amsterdam, Netherlands)

- **Composition of alveolar myeloid cells is altered and their phagocytic capacity is decreased in septic shock patients**
  10:10
  Abstract Presenter: Tomasz Skirecki (Warsaw, Poland)

- **Metabolic profiles in sepsis evolve over time**
  10:25
  Abstract Presenter: David B Antcliffe (London, United Kingdom)

- **Blockade of beta-3 adrenergic receptor ameliorates septic cardiomyopathy through the improvement of cardiac fatty acid oxidation**
  10:40
  Abstract Presenter: Satoshi Kawaguchi (Asahikawa, Japan)
Scientific Programme

Oral Presentations
09:40 - 10:55

ECMO

Chair: Alain Combes (Paris, France)
Chair: Morten Hylander Møller (Copenhagen, Denmark)

The train ECMO international survey: hemoglobin trigger and approach to RBC transfusions during veno-venous extracorporeal membrane oxygenation
Abstract Presenter: Gennaro Martucci (Palermo, Italy) 09:40

Combination of prone position during veno venous extracorporeal membrane oxygenation: effects on extra corporeal membrane oxygenation weaning and ICU survival
Abstract Presenter: Christophe Guervilly (Marseille cedex 20, France) 09:55

Cardiac index during ECMO derived from conventional transpulmonary thermodilution vs. transpulmonary thermodilution with pulmonary arterial indicator injection: the HEUREKA-I animal study
Abstract Presenter: Wolfgang Huber (Munich, Germany) 10:10

A systematic review of the effectiveness of extracorporeal membrane oxygenation (ECMO) to treat severe acute respiratory failure in adults
Abstract Presenter: Eduardo Cabral Camacho (São Paulo, Brazil) 10:25

How much airway pressure to apply while resting the lungs in severe ARDS supported with ECMO?
Abstract Presenter: Alejandro Bruhn (Santiago, Chile) 10:40

Sedation & delirium

Chair: Claudia Spies (Berlin, Germany)
Chair: Mathieu van der Jagt (Rotterdam, Netherlands)

Preoperative cognitive dysfunction and the incidence of postoperative delirium in elderly oncologic patients
Abstract Presenter: Irina Ristescu (Iasi, Romania) 09:40

Effectiveness and safety of a flexible family visitation model for delirium prevention in adult intensive care units: a cluster-randomized, crossover trial (The ICU Visits Study)
Abstract Presenter: Regis Goulart Rosa (Porto Alegre, Brazil) 09:55

Delirium, expectation and mortality
Abstract Presenter: Ahmed Al-Hindawi (London, United Kingdom) 10:10

Calculating PRE-DELIRIC model with SAPS II for early detection of delirium in ICU Patients
Abstract Presenter: Marco Sampaio (Porto, Portugal) 10:25

Conscious sedation versus general anesthesia for thrombectomy in acute ischemic stroke. Does it really make a difference?
Abstract Presenter: Sara Alcántara Carmona (Majadahonda, Spain) 10:40
Oral Presentations
09:40 - 10:55

Nutrition in specific conditions
Chair: Steffen Weber-Carstens (Berlin, Germany)
Chair: Pierre Singer (Petah Tiqva, Israel)

- **Metabolomic basis for clinical response to high dose vitamin D in critical illness**
  Abstract Presenter: Kenneth Christopher (Boston, United States)

- **Prognostic relationship between the Maximum Acute Gastrointestinal Injury score and caloric intake in critically ill patients requiring vasopressors: a multicenter cohort study from the Sociedad Argentina de Terapia Intensiva (SATI)**
  Abstract Presenter: Cecilia Inés Loudet (La Plata, Argentina)

- **Liver steatosis in brain-dead donors, progressing pattern and affecting factors**
  Abstract Presenter: KyuHyouck Kyoung (Ulsan, Korea, Republic of)

- **Prevalence, nutrition risk evaluation and resource use of frail critically ill patients undergoing nutrition support therapy in a Brazilian tertiary hospital**
  Abstract Presenter: Leandro Taniguchi (Sao Paulo, Brazil)

- **Prospective observational study on vitamin D levels in liver transplantation recipients. DLiverX study**
  Abstract Presenter: Gennaro Martucci (Palermo, Italy)

Information systems in the ICU
Chair: Paul Elbers (Amsterdam, Netherlands)
Chair: Peter van der Voort (Amsterdam, Netherlands)

- **Reducing length of stay in ICU patients and workload of the care team members by implantation of information system and care bundle in ICU**
  Abstract Presenter: Chun-Chieh Chao (Taipei, Taiwan, Province of China)

- **Factors associated to poor outcome and management in critically ill elderly patients**
  Abstract Presenter: Ane Marculeta Juanicorena (Galdakao-Usansolo, Spain)

- **ABO blood group and short-term and long-term mortality in a large cohort of ICU patients**
  Abstract Presenter: M.W.N. Nijsten (Groningen, Netherlands)

- **Association of the Modified Frailty Index (MFI) with resource use and short-term outcomes in 129,680 critically ill patients**
  Abstract Presenter: Fernando Zampieri (São Paulo, Brazil)

- **Validity of a modified sequential organ failure assessment using the Richmond agitation-sedation scale in an international multicenter cohort**
  Abstract Presenter: Shayan Rakhit (Nashville, United States)
Scientific Programme

Oral Presentations
09:40 - 10:55
Glasgow

End-of-life practices
Chair: Rik Gerritsen (Leeuwarden, Netherlands)
Chair: Nancy Kentish-Barnes (Paris, France)

09:40
Ethical decision-making climate and intent to jobleave in the ICU
Abstract Presenter: Bo Van den Bulcke (Gent, Belgium)

09:55
Timing is everything: early DNR in the ICU matters for patient outcomes
Abstract Presenter: Lindsay Lief (New York, United States)

10:10
A quarter of cardiac arrest survivors admitted to an ICU in Greece should not have been resuscitated. The need for a Do Not Attempt Resuscitation (DNAR) policy
Abstract Presenter: Ioannis Andrianopoulos (Ioannina, Greece)

10:25
Identifying improvement opportunities for patient- and family-centered care in the ICU: using qualitative methods to understand family perspectives
Abstract Presenter: Matty Koopmans (Leuuwarden, Netherlands)

10:40
Ethical decisions in patients with severe acute respiratory failure: determining factors, time of decision and impact on outcome: the eDecide project An ancillary analysis of LUNG SAFE study
Abstract Presenter: Marie Berleur (Colombes, France)

Interactive Debates
09:45 - 10:45
Interactive Debates

Endpoints of fluid resuscitation
#cardio

What is fluid responsiveness? Variables to assess fluid responsiveness, the physiology of being fluid responsive/unresponsive, clinical use and advantage of using fluid unresponsiveness as a clinical end-point, the sense/nonsense of fluid resuscitation
Chair: Azriel Perel (Tel Aviv, Israel)

Debate
09:45
Speaker: Xavier Monnet (Paris, France)
Speaker: Sheldon Magder (Montreal, Canada)
Speaker: Manu Malbrain (Antwerp, Belgium)

Tech Lounge
10:00 - 11:00
Tech Lounge

Technology by the bedside: Bringing humans & technology together
#tech
Chair: Theodoros Kyprianou (Nicosia, Cyprus)
Chair: Carole Boulanger (Exeter, United Kingdom)
Scientific Programme

**Bringing humans & technology together in the ICU**
Speaker: Geert Meyfroidt (Leuven, Belgium)

"Alexa, can you order a FBC, please?"
Speaker: Matthieu Komorowski (London, United Kingdom)

Waveform data - Making it useful by the bedside
Speaker: Ari Ercole (Cambridge, United Kingdom)

Discussion

NEXT Lounge
10:00 - 11:00

**NEXT 2025: The future of Intensive Care**

#ESICMNEXT

Chair: Stefan Schaller (Munich, Germany)
Chair: Victoria Bennett (London, United Kingdom)

**Delirium - the era post scoring?**
Speaker: Geeta Mehta (Toronto, Canada)
Speaker: Arjen Slooter (Utrecht, Netherlands)

Poster Corner
10:10 - 12:10

**Acute Kidney Injury, clinical studies**

Chair: Michael Darmon (Saint-Etienne, France)
Chair: Michael Joannidis (Innsbruck, Austria)

**Influence of contrast media on patient with septic acute kidney injury**
Abstract Presenter: Yuya Goto (Tochigi, Japan)

**Impact of dexmedetomidine on acute kidney injury following living donor liver transplantation: a randomized controlled pilot study**
Abstract Presenter: Kyeo-Woon Jung (Seoul, Korea, Republic of)

**Is CKD-EPI equation appropriate for the estimation of glomerular filtration in critically ill patients with augmented renal clearance?**
Abstract Presenter: Yaiza Rovira (Badalona, Spain)

**Perioperative use of 6% balanced hydroxyethyl starch following cardiopulmonary bypass: perspectives of renal function**
Abstract Presenter: Ju Yong Lim (Seoul, Korea, Republic of)

**Augmented renal clearance: an epidemiological multicentre study**
Abstract Presenter: Yaiza Rovira (Badalona, Spain)

**The use of renal doppler ultrasonography in critically ill patients with acute kidney injury**
Abstract Presenter: Rogério Passos (Salvador, Brazil)
Scientific Programme

Base deficit is a predictive factor of AKI in major trauma patients
Abstract Presenter: Jin Young Lee (Cheongju-si, Korea, Republic of)

Description of nephrotoxicity and infections associated with colistin in a intensive care unit
Abstract Presenter: Nadia Pires (Rosario, Argentina)

Renal ischemia-reperfusion injury in cardiac arrest survivors: a retrospective, observational study
Abstract Presenter: Silvia De Rosa (Vicenza, Italy)

Evaluation of high oxygen affinity of bovine PEGylated Carboxyhemoglobin (PEG-COHb) on the renal oxygenation and function in septic rats
Abstract Presenter: Bulent Ergin (Amsterdam, Netherlands)

Exploring early diagnostic markers of acute kidney injury in sepsis by metabolomics methods
Abstract Presenter: Yingchuan Li (Shanghai, China)

Metabolomic characteristics and expression of urinary biomarkers in patients developing acute kidney injury after cardiopulmonary bypass
Abstract Presenter: Baptiste Fohlen (Paris, France)

Calculating kinetic glomerular filtration rate in the intensive care unit as an early way to detect acute kidney injury
Abstract Presenter: Eduardo Nájera (Mexico City, Mexico)

Using serum creatinine to estimate glomerular filtration rate (GFR) may be inadequate in patients with rapidly-changing renal function
Abstract Presenter: Maria Dolores Arias-Verdu (Málaga, Spain)

Right dose, right now: volume-based urine collection to assess creatinine clearance in the critically ill
Abstract Presenter: Lucas Fleuren (Amsterdam, Netherlands)

### Poster Corner

10:10 - 12:10

Weaning from mechanical ventilation

Chair: Jordi Mancebo Cortes (Barcelona, Spain)
Chair: Cesare Gregoretti (Palermo, Italy)

Epidemiology of weaning outcomes according to the WIND classification
Abstract Presenter: Ryoung-Eun Ko (Seoul, Korea, Republic of)

The use of the WIND classification for weaning from mechanical ventilation applied to Brazilian critically ill patients
Abstract Presenter: Alessandra Fabiane Lago (Ribeirão Preto, Brazil)

Age and mental status influence on extubation success
Abstract Presenter: Chamali Aluwihare (London, United Kingdom)

Thoracic fluid content: a novel parameter for predicting failure of weaning from mechanical ventilation
Abstract Presenter: Mohamed Raafat (Cairo, Egypt)
**Scientific Programme**

A pilot study to develop the feasibility of patient-controlled ventilatory weaning using neutrally adjusted ventilatory assist
Abstract Presenter: Daniel Hadfield (London, United Kingdom)

Role of lung aeration pattern using ultrasonography in predicting failure of spontaneous breathing trial in mechanically ventilated patients
Abstract Presenter: Akram Fayed (Alexandria, Egypt)

Clinical outcome of difficult-to-wean patients with ventilator dependency at intensive care unit discharge
Abstract Presenter: Joo Han Song (Seoul, Korea, Republic of)

Changes over time in the liberation from mechanical ventilation 1998-2016
Abstract Presenter: Oscar Peñuelas (Getafe, Spain)

Heart rate variability evaluation during weaning from mechanical ventilation
Abstract Presenter: Bocher Simon (Brest, France)

Long-term mechanical ventilation-dependent patients in ICU transferred to a home mechanical ventilation unit
Abstract Presenter: Olga Moreno Romero (Granada, Spain)

A comparison between five predicting tests; the search for an ideal weaning predictor continues
Abstract Presenter: Christina Spyridonidou (Thessaloniki, Greece)

Physiologic comparison of the diaphragm behavior on spontaneous breathing (SB), pressure support ventilation (PSV) and proportional assisted ventilation with load-adjustable gain factor (PAV +) on acute increase of the ventilatory demand
Abstract Presenter: Patricia Nery de Souza (São Paulo, Brazil)

Liberation from the ventilator: an observational study of extubation failure in a district general hospital in Scotland
Abstract Presenter: Jonathan Neil (Paisley, United Kingdom)

Carbon dioxide production and ventilatory inefficiency along a T-piece spontaneous breathing trial are associated with difficult weaning
Abstract Presenter: René López (Santiago, Chile)

**Cardiovascular epidemiology & outcome**

Chair: Alain Cariou (Paris, France)
Chair: Alexandre Mebazaa (Paris, France)

Sex-related differences in patients who suffered an acute coronary syndrome
Abstract Presenter: Alejandro Ubeda (Algeciras, Spain)

Trends and outcome of patients with complicated infective endocarditis in intensive care unit; a 20 years retrospective study
Abstract Presenter: Farook Ahmad (Kuala Lumpur, Malaysia)
Diagnostic process of acute heart failure in the ICU, impact on mortality (ICAUCI study group)
Abstract Presenter: Samuel Fernandez (Sabadell, Spain)

Predictive model for shock in patients with acute coronary syndrome
Abstract Presenter: Alejandro Ubeda (Algeciras, Spain)

A retrospective observational cohort study of patients admitted to a mixed medical and surgical intensive care unit in the United Kingdom with atrial fibrillation: incidence, risk factors and treatment efficacy
Abstract Presenter: Brian Johnston (Liverpool, United Kingdom)

Combination copeptin with troponin for early exclusion of myocardial infarction in the emergency department: a systematic review and meta-analysis
Abstract Presenter: Chien-Chang Lee (Taipei, Taiwan, Province of China)

Effect of diabetes mellitus on heart rate variability and blood pressure variability in patients with acute ischemic stroke
Abstract Presenter: Enas Hasen (Minia, Egypt)

Predictive model of mortality for patients with acute coronary syndrome
Abstract Presenter: Alejandro Ubeda Iglesias (Algeciras, Spain)

Prognostic value of admission blood glucose level in critically ill patients admitted to cardiac intensive care unit according to the presence or absence of diabetes mellitus
Abstract Presenter: Sua Kim (Ansan, Korea, Republic of)

Advanced age as a risk factor for postoperative bleeding in the intensive care unit after left ventricular assist device implantation
Abstract Presenter: Ryota Sakaguchi (Suita, Japan)

Atrial fibrillation incidence and prophylaxis adherence post cardiac surgery
Abstract Presenter: Hannah Burns (London, United Kingdom)

High sensitive troponin T predicts myocardial ischemia and mortality in medical-surgical ICU
Abstract Presenter: Gloria Kotnik (Ljubljana, Slovenia)

LOS and mortality evolution in the acute myocardial infarction in a polyvalent ICU across 15 years
Abstract Presenter: Jessica Ruiz (Terrassa. Barcelona, Spain)

Intensive care outcome of left main stem disease surgery
Abstract Presenter: Amr Omar (Doha, Qatar)

The association of circadian mean arterial pressure variation with mortality: an retrospective cohort study
Abstract Presenter: Gang Wang (Xi’an, China)

Autonomic system evaluation in critically ill patient and its relation with ICU mortality
Abstract Presenter: Carmen Hernandez Cardenas (Tlalpian, Mexico)
Outcomes of the ICU

Chair: Hans Flaatten (Bergen, Norway)
Chair: Bertrand Guidet (Paris, France)

**Outcome of NIV in critical care setting: 5-year experience from a tertiary care center**
Abstract Presenter: Maria Esteves Brandão (Vila Real, Portugal)

**Factors predicting mortality for acute exacerbation of chronic obstructive pulmonary disease (AE/COPD) in a Tunisian ICU**
Abstract Presenter: Mohamed Boussarsar (Sousse, Tunisia)

**Economic impact of an outbreak of extensively drug-resistant bacteria in an intensive care unit**
Abstract Presenter: Enora Atchade (Paris, France)

**Analysis of patients older than 80 years admitted in intensive care unit**
Abstract Presenter: Maria Dolores Pola-Gallego-de-Guzmán (Jaen, Spain)

**Factors related to delayed ICU admission from emergency department**
Abstract Presenter: Mia Aitavaara (Oulu, Finland)

**Readmissions in ICU during same hospitalisation: risk factors, reasons and outcome**
Abstract Presenter: Kapil Zirpe (Pune, India)

**Retrospective study of use of glucometrics to compare glucose control in medical and surgical intensive care units**
Abstract Presenter: Subhal Dixit (Pune, India)

**Patient selection and attendance/non-attendance at critical care rehabilitation clinic**
Abstract Presenter: Piero Morino (Kingston-upon-Thames, United Kingdom)

**Measurement and analysis of noise levels in ICU**
Abstract Presenter: Georgia Vasileiadou (Thessaloniki, Greece)

**How much does sepsis cost? Economic impact of sepsis in Catalonia**
Abstract Presenter: Carol Lorencio (Girona, Spain)

**Hyperoxia effects on intensive care unit mortality: a retrospective pragmatic cohort study**
Abstract Presenter: Mathilde Ruggiu (Paris, France)

**Elderly patients admitted to intensive care units: descriptive analysis and mortality related factors. Data from the 2013-2016 ENVIN-HELICS Registry**
Abstract Presenter: Naia Mas Bilbao (Galdakao, Spain)

**Implementing specialized Intensivist lead multidisciplinary critical care in allogeneic hematopoietic stem cell transplantation patients improves ICU survival**
Abstract Presenter: Tobias Liebregts (Essen, Germany)

**A tailored multicomponent program for discomfort reduction in the ICU decreases the incidence of PTSD at one year: a case-control multicenter study**
Abstract Presenter: Pierre Kalfon (Chartres, France)

**Can we predict weaning outcome in multiple trauma patients by using diaphragmatic rapid shallow breathing index (D-RSBI)?**
Abstract Presenter: Golnar Sabetian (Shiraz, Iran, Islamic Republic of)
**Scientific Programme**

**Agreement between chest radiography and lung ultrasound in the existence of concomitant pneumonia and pleural effusion in ICU patients**  
Abstract Presenter: Gul Gursel (Ankara, Turkey)

**Relationship between sonographic measurement of rectus femoris and vastus intermedius muscles with conventional biochemical parameters to assess the nutritional status in the intensive care unit**  
Abstract Presenter: Alma E. Hernández-Plata (León, Mexico)

**Managing ICU infections**

Chair: Despoina Koulenti (Brisbane, Australia)  
Chair: Hendrik Bracht (Ulm, Germany)

- **Important changes in clinical presentation and outcomes of patients treated for severe malaria in a referral French university hospital from 2004 to 2017**  
  Abstract Presenter: Jordane Lebut (Paris, France)

- **Diagnostic and prognostic value of HMGB1 for patients with late-onset ventilator-associated pneumonia**  
  Abstract Presenter: Liang Dong (Wuxi, China)

- **Catheter associated urinary tract infections in an intensive care unit of a teaching hospital in Istanbul**  
  Abstract Presenter: Asuman Inan (Istanbul, Turkey)

- **Diagnostic and prognostic value of HMGB1 for patients with abdominal infection of severe acute pancreatitis**  
  Abstract Presenter: Liang Dong (Wuxi, China)

- **Outcome of influenza related intensive care unit admissions in 2017-2018 flu season: a multicenter study from Turkey**  
  Abstract Presenter: Ebru Ortac Ersoy (Ankara, Turkey)

- **Intensive care in tetanus: management, complications and mortality in 13 cases**  
  Abstract Presenter: Sabrine Bradai (Sfax, Tunisia)

- **Multidrug-resistant pattern in a tertiary hospital ICU in Spain**  
  Abstract Presenter: Maria Carmen Molina De la torre (Jaen, Spain)

- **MDR colonization: what’s the matter in the perioperative setting?**  
  Abstract Presenter: Annalisa Lerose (Verona, Italy)

- **A point prevalence study of ventilator associated pneumonia (VAP) across four London ICUs**  
  Abstract Presenter: Nirav Shah (London, United Kingdom)

- **Hospital-acquired infections due to Enterobacteriaceae in critical care**  
  Abstract Presenter: Mohamed Ahmed Boujelbène (Ben Arous, Tunisia)

- **The rate of the catheter-related urinary system infection after constructive training to the staff in the intensive care unit**  
  Abstract Presenter: Cetin Kaymak (Ankara, Turkey)
Scientific Programme

Clinical outcome, microbiological spectrum and antibiotic susceptibility of clinical isolates from adult intensive care unit in a tertiary care hospital in India
Abstract Presenter: Arijit Sardar (New Delhi, India)

Nosocomial bacterial meningitis (NBM) in the ICU: a two year retrospective study
Abstract Presenter: Maria Panagiota Almyroudi (Athens, Greece)

The unrecognized in-ICU days of TB patients without isolation in South Korea
Abstract Presenter: Eun Lee (Incheon, Korea, Republic of)

Evolution of the microbial flora in patients of a Greek ICU over two decades
Abstract Presenter: Athina Lavrentieva (Thessaloniki, Greece)

Acinetobacter baumannii patterns and course in a tertiary-care mixed-type ICU
Abstract Presenter: Volkan Inal (Edirne, Turkey)

Association of ABO Rh blood group with dengue fever & thrombocytopenia
Abstract Presenter: Kapil Borawake (Pune, India)

Epidemiology and prognosis of ICU nosocomial ventilator-associated pneumonia
Abstract Presenter: Nasreddine Foudhaili (Tunis, Tunisia)

Ventilator-associated pneumonia in an intensive care unit of a teaching hospital in Istanbul
Abstract Presenter: Asu Ozgultekin (Istanbul, Turkey)

Poster Corner

10:10 - 12:10

Endocrine disorders - Liver failure
Chair: Valentin Fuhrmann (Hamburg, Germany)
Chair: Jean-Charles Preiser (Brussels, Belgium)

Hyperglycemia was not a risk factor for mortality in malnourished critically ill patients
Abstract Presenter: Marina Viana (Porto Alegre, Brazil)

The association of age and steroid use with insulin resistance in ICU patients: a cohort study
Abstract Presenter: Ioana E. Drogt-Bilaseschi (Groningen, Netherlands)

Features and monitoring of liver transplants from donation after cardiac death in a Spanish hospital
Abstract Presenter: Elena Trujillo García (Málaga, Spain)

Prediction of outcome in severe acute pancreatitis: a prospective comparison of the BISAP-, APACHE-II- and Ranson-Score with the “quick-BISAP-score”
Abstract Presenter: Wolfgang Huber (Munich, Germany)

Glycemic variability and infections in critically ill patients
Abstract Presenter: Sandra Mulet Mascarell (Valencia, Spain)

Impact of chloride level on outcome in critically ill patients
Abstract Presenter: Ziad Abdelhalim (Alexandria, Egypt)
Scientific Programme

Evaluation of glycemic status in critically ill Indian patients: a prospective observational study
Abstract Presenter: Vijay Sundarsingh S (Lucknow, India)

Acute pancreatitis in critical care area: epidemiology of 127 cases in a Spanish hospital
Abstract Presenter: Alvaro Nieto García (A Coruña, Spain)

Fucoidan, a natural sulfated polysaccharide, attenuates uptake of advanced glycation end-products by macrophages
Abstract Presenter: Shinichi Hamasaki (Osakasayama, Japan)

Sodium input in intensive care
Abstract Presenter: Nik Samal (Newcastle upon Tyne, United Kingdom)

Influence of complications of diabetic ketoacidosis treatment on length of stay in intensive care unit
Abstract Presenter: Laura Jazokaitę (Kaunas, Lithuania)

Nutrition in pancreatitis: a tertiary centre experience
Abstract Presenter: Sarah Milton-White (Birmingham, United Kingdom)

Risk factors for raised glycosylated hemoglobin at ICU admission
Abstract Presenter: Danielle Prevedello (Brussels, Belgium)

Serum S100B is associated with the severity of liver cirrhosis, rather than the severity of hepatic encephalopathy
Abstract Presenter: Changhwan Kim (Jeju-si, Korea, Republic of)

Efficacy of coupled plasma filtration adsorption (CPFA) in patients with liver disease
Abstract Presenter: Maria Dolores Arias-Verdu (Málaga, Spain)

Severe acute liver injury: etiologies and outcome
Abstract Presenter: Nasreddine Foudhaili (Tunis, Tunisia)

Poster Corner
10:10 - 12:10

Acute brain injury
Chair: Tarek Sharshar (Paris, France)
Chair: Romain Sonneville (Paris, France)

Association between use of mannitol and hypertonic saline on mortality in patients with moderate to severe traumatic brain injury
Abstract Presenter: Markus Skrifvars (Helsinki, Finland)

Evolution of the quality of life after traumatic brain injury between two monitoring periods of 1 and 3-4 years
Abstract Presenter: Maria Guerrero-Marín (Jaen, Spain)

Safety of a neuromuscular electrostimulation protocol in patients with traumatic brain injury submitted to invasive mechanical ventilation
Abstract Presenter: Lorraine Nunes (Brasília, Brazil)

Tracheostomy in patients with acute brain injury: a prospective observational study
Abstract Presenter: Edoardo Picetti (Parma, Italy)
Barbiturate coma vs secondary decompressive craniectomy in traumatic intracranial hypertension treatment: a retrospective 6-year trial in a tertiary hospital
Abstract Presenter: João Francisco Martins (Coimbra, Portugal)

Effect of antibiotic-impregnated external ventricular drains versus standard ones, in increasing number of free infection days in patients of a general intensive care unit
Abstract Presenter: Athanasia Tsirogianni (Lamia, Greece)

Does physical therapy care provided within 24 hours improve outcomes compared to physical therapy provided within 18 hours in trauma intensive care unit? A cohort study
Abstract Presenter: Lara Rocha (Brasilia, Brazil)

Glycemic variability in patients admitted to the ICU due to TBI and its relationship with morbidity and mortality
Abstract Presenter: Juan Francisco Martínez Carmona (Málaga, Spain)

Milrinone as a rescue therapy for refractory cerebral vasospasm after subarachnoid hemorrhage: a 5 years review
Abstract Presenter: François Alves (Santa Maria da Feira, Portugal)

Effects of acute subdural hematoma on cerebral nitrosative stress in a porcine resuscitated model
Abstract Presenter: Tamara Merz (Ulm, Germany)

Role of H2S enzymes in a porcine resuscitation model of traumatic brain injury
Abstract Presenter: Sarah Unmuth (Ulm, Germany)

Intracranial pressure monitoring with a ventricular device is not gold standard due to the zero reference point
Abstract Presenter: Jesús Cabrera-Arrocha (Las Palmas de Gran Canaria, Spain)

Acute energy metabolism in patients after severe traumatic brain injury
Abstract Presenter: Jelmer Joost Lenstra (Groningen, Netherlands)

New prognostic marker in traumatic brain injury patients: pBT02/pAO2 ratio
Abstract Presenter: Rafael Badenes (Valencia, Spain)

Leucocyte profiles as simple immunomonitoring tools and their association with outcome in subarachnoid hemorrhage: a retrospective cohort study
Abstract Presenter: Charles L Francoeur (Québec, Canada)

Preserve encephalus in surgery of trauma: online survey (P.E.S.T.O.)
Abstract Presenter: Edoardo Picetti (Parma, Italy)

The role of brain tissue PtO2 monitoring after severe subarachnoid haemorrhage (SAH)
Abstract Presenter: Eleni Lazoudi (Thessaloniki, Greece)

Poster Corner
10:10 - 12:10

Biomarkers in sepsis
Chair: Pedro Povoa (Lisbon, Portugal)
Chair: Jean Chastre (Paris, France)
Scientific Programme

The role of hepcidin in innate immune response and survival during septic shock in critically ill adults
Abstract Presenter: Ralph Fuchs (Gisborne, New Zealand)

Lower serum kallistatin level is associated with 28-day mortality in patients with septic shock
Abstract Presenter: Hwain Jeong (Seoul, Korea, Republic of)

The effects of septic state on plasma orexin concentrations in human: a preliminary study
Abstract Presenter: Masahiro Akaishi (Hirosaki-shi, Japan)

Study of the changes and roles of BMP-2 and BMP-4 in early phase of sepsis
Abstract Presenter: Yan Wen (Xiamen, China)

Prognostic value of serum cholinesterase activity in septic shock
Abstract Presenter: Sabrine Bradai (Sfax, Tunisia)

MR proadrenomedulin, procalcitonin, C-reactive protein as prognostic biomarkers of mortality in abdominal sepsis after surgery admitted to the ICU
Abstract Presenter: Francisco Valenzuela-Sánchez (Jerez de la Frontera, Spain)

N-terminal pro-B-type natriuretic peptide is a good predictor of mortality in patients with sepsis admitted to the ICU
Abstract Presenter: Francisco Valenzuela-Sánchez (Jerez de la Frontera, Spain)

Role of novel biomarker MR-proADM in diagnosis and prognosis of sepsis
Abstract Presenter: Ramón Cicuéndez (Valladolid, Spain)

Apelin-13 and ELABELA-induced metabolic signature during experimental sepsis
Abstract Presenter: Eugénie Delile (Sherbrooke, Canada)

NanoSepsis: nanoparticle based biomarker discovery in sepsis
Abstract Presenter: Andrew Claxton (Manchester, United Kingdom)

Cholesterol oxidation in sepsis
Abstract Presenter: Anna Kleyman (London, United Kingdom)

The effects of epinephrine and propranolol on the expression of tumor necrosis factor-α mRNA induced by lipopolysaccharide in RAW 264.7 cells
Abstract Presenter: Yoshihiro Fujiwara (Nagakute, Japan)

Inflammatory markers and lung injury in an ovine model of 0.9% saline resuscitated endotoxemic shock
Abstract Presenter: Margaret Passmore (Chermside, Brisbane, Australia)

Comparison between procalcitonin and C-reactive protein as sepsis diagnostic marker
Abstract Presenter: Silvia Zampieri (Verona, Italy)

Association between plasma cell-free hemoglobin and mortality in patients with sepsis
Abstract Presenter: Do Yun Kim (Seongnam-si, Gyeonggi-do, Korea, Republic of)

Time-dependent changes of soluble CD14 subtype (presepsin) after uncomplicated major surgery: comparison with procalcitonin, CRP, and leukocytes
Abstract Presenter: Marek Protuš (Prague, Czech Republic)
Unplugged Session
10:30 - 11:00

**Derek Angus Unplugged**

#outcomes

Chair: Lui Forni (Surrey, United Kingdom)

**Yet another negative ICU trial. What are we doing wrong and what will the future of ICU research look like?**

Speaker: Derek Angus (Pittsburgh, United States)

Simulation Centre
10:30 - 11:30

**Mechanical ventilation area**

#lung

**Case scenario - Alveolar recruitment and PEEP setting based on respiratory mechanics**

Speaker: Lise Piquilloud (Lausanne, Switzerland)
Speaker: Claude Guérin (Lyon, France)

Simulation Centre
10:30 - 11:30

**TEE/TOE area**

#cardio

**Hands-on**

Speaker: Armand Mekontso Dessap (Créteil, France)
Speaker: Xavier Repesse (Paris, France)

Clinical Challenges Session
11:00 - 11:50

**How do I manage post resuscitation care following cardiac arrest?**

#trauma

Chair: Claudio Sandroni (Rome, Italy)

**Presentation**

Speaker: Markus Skrifvars (Helsinki, Finland)
31st Annual Congress of the European Society of Intensive Care Medicine, 
20 - 24 October 2018, 
Paris, France

**Scientific Programme**

Clinical Challenges Session
11:00 - 11:50  
**Berlin**

**How do I use lactate levels in clinical practice?**  
#cardio

Chair: Jean-Louis Vincent (Brussels, Belgium)

**Presentation**  
Speaker: Jan Bakker (Rotterdam, Netherlands)

Clinical Challenges Session
11:00 - 11:50  
**Barcelona**

**How do I investigate the cause of AKI?**  
#renal

How do I assess the cause of AKI (including rare causes like AIN, vasculitis, ...). What tools do I use, e.g. lab/urine, biomarkers, ultrasound, HD assessment (PPV, CVP, CI, ...). Use of automated urine meters.

Chair: John Prowle (London, United Kingdom)

**Presentation**  
Speaker: Antoine Schneider (Lausanne, Switzerland)

Thematic Session
11:00 - 12:00  
**Geneva**

**Ventilator induced dyaphragmatic dysfunction**  
#lung

Chair: Giacomo Bellani (Monza, Italy)  
Chair: Samir Jaber (Montpellier, France)

**Is dysfunction simply weakness?**  
Speaker: Samir Jaber (Montpellier, France)

**Discussion**  
11:15

**How to monitor it**  
Speaker: Ewan Goligher (Toronto, Canada)

**Discussion**  
11:35

**How to deal with it**  
Speaker: Leo Heunks (Neimegen, Netherlands)

**Discussion**  
11:55
Clinical Challenges Session
11:00 - 11:50

**How do I understand pulse pressure variation 20 years later?**

#cardio

Chair: Simon Vistisen (Aarhus, Denmark)

**Presentation**
Speaker: Frederic Michard (Lausanne, Switzerland)

---

Clinical Challenges Session
11:00 - 11:50

**How do I manage fever in patients with severe infections?**

#micro

Chair: Jordi Rello (Barcelona, Spain)

**Presentation**
Speaker: Frédérique Schortgen (Paris, France)

---

Thematic Session
11:00 - 12:00

**Critical care biomarkers**

#renal#sepsis#lung

Chair: John Laffey (Toronto, Canada)
Chair: Thomas Rimmelé (Lyon, France)

**Biomarkers in acute kidney injury**
Speaker: Eric Hoste (Ghent, Belgium)

**Discussion**

**Biomarkers in sepsis**
Speaker: Ludhmila Hajjar (Sao Paulo, Brazil)

**Discussion**

**Biomarkers in acute respiratory failure**
Speaker: Danny McAuley (Belfast, Ireland)

**Discussion**
Thematic Session
11:00 - 12:00

**Antimicrobial stewardship**

#micro

Chair: José Garnacho-Montero (Seville, Spain)
Chair: Claire Roger (Nimes, France)

**Antibiotic stewardship: A team sport**  
Speaker: Paula Ramirez (Valencia, Spain)

**Discussion**

**Essential tools in antibiotic stewardship**  
Speaker: José Artur Paiva (Porto, Portugal)

**Discussion**

**Challenges in implementation**  
Speaker: Jeroen Schouten (Radboud, Netherlands)

**Discussion**

Thematic Session
11:00 - 12:00

**Battling burnout**

#ethic

Chair: Christiane Hartog (Jena, Germany)
Chair: Mitchell Levy (Providence, United States)

**Do psychological interventions work?**  
Speaker: Bara Ricou Arita (Geneva, Switzerland)

**Discussion**

**The benefit of mindfulness**  
Speaker: Ruth Endacott (Plymouth, United Kingdom)

**Discussion**

**Lessons from Magnet Hospitals**  
Speaker: Freda DeKeyser Ganz (Jerusalem, Israel)

**Discussion**
Scientific Programme

Clinical Challenges Session
11:00 - 11:50  Glasgow

How do I drive a quality improvement programme in my ICU?
#LIVES2018
Chair: Geoffrey Bellingan (London, United Kingdom)

Presentation 11:00
Speaker: Julian Bion (Birmingham, United Kingdom)

Interactive Debates 11:00 - 12:00  Interactive Debates

Individualising therapy in traumatic brain injury
#neuro

Limitations of guidelines - which are the variables to target in the treatment of these patients? - how to individualise brain perfusion - in which patients? Other potential "individualised" therapies
Chair: Nino Stocchetti (Milan, Italy)

Debate 11:00
Speaker: Mauro Oddo (Lausanne, Switzerland)
Speaker: David Menon (Cambridge, United Kingdom)
Speaker: Louis Puybasset (Paris, France)

Simulation Centre 11:00 - 12:30  Simulation Centre - ECMO Area

ECMO area
#cardio

Hands-on 11:00
Speaker: Emric Besnard (Paris, France)
Speaker: Hugo Guillou (Paris, France)
Speaker: Sabine Valera (Marseille, France)
Speaker: Dinis Reis Miranda (Groningen, Netherlands)
Speaker: Anne-Sophie Lequeulx (Paris, France)

Tech Lounge 11:00 - 11:45  Tech Lounge

Break-Networking-Brainstorming
NEXT Lounge
11:00 - 12:00

NEXT Research Workshop

#ESICMNEXT

Chair: Burcin Halaci (Ankara, Turkey)
Chair: Stefan Schaller (Munich, Germany)

**Study design workshop - Build a study today!**
11:00

Speaker: Claudia Spies (Berlin, Germany)
Speaker: Geert Meyfroidt (Leuven, Belgium)
Speaker: Hannah Wunsch (Toronto, Canada)

Arena
11:10 - 12:20

AKI in different clinical scenarios

Chair: Patrick Honoré (Brussels, Belgium)
Chair: Julia Wendon (London, United Kingdom)

**The incidence and associations of acute kidney injury in trauma patients admitted to critical care: a systematic review and meta analysis**
Abstract Presenter: Ryan Haines (London, United Kingdom)

**Doppler-based renal resistive index is independently associated with acute kidney injury stages and outcome in ICU patients**
Abstract Presenter: Georgia Fotopoulou (Athens, Greece)

**The value of clinical examination and cardiac ultrasonography to forecast acute kidney injury in critically ill patients: a sub-study of the Simple Intensive Care Studies-I**
Abstract Presenter: Renske Wiersema (Groningen, Netherlands)

**Effects of perioperative dexmedetomidine infusion on microcirculation and kidney and intestinal injury in kidney transplant recipients**
Abstract Presenter: Yin-Chin Wang (Taipei, Taiwan, Province of China)

**Modification of sequential organ failure assessment score using acute kidney injury classification**
Abstract Presenter: Yuki Kotani (Kamogawa, Japan)

**Frailty is an important confounder of creatinine levels when studying acute kidney injury in the ICU**
Abstract Presenter: Patrick James Gleeson (Bruxelles, Belgium)

**Heme oxygenase 1 repeat polymorphism in septic acute kidney injury**
Abstract Presenter: Laura M. Vilander (Helsinki, Finland)

**Citrate versus heparin lock for non-tunneled hemodialysis catheters in critically ill patients: a multicentre randomized double-blind controlled trial (the VERROU-REA study)**
Abstract Presenter: Rémi Bruyère (Bourg-en-Bresse, France)
Impact of renal replacement therapy in patients with acute respiratory distress syndrome: insights from the LUNG SAFE study
Abstract Presenter: Bairbre A. McNicholas (Galway, Ireland)

Association between use of mannitol and acute kidney injury in patients with moderate to severe traumatic brain injury
Abstract Presenter: Markus Skrifvars (Helsinki, Finland)

Simulation Centre
11:30 - 13:00
Simulation Centre - Basics of Bronchoscopy in ICU Area

Basics of bronchoscopy in ICU area
#lung

Hands-on 11:30
Speaker: Paul Abraham (Lyon, France)
Speaker: Manuel Mendoza Ruano (Las Palmas de Gran Canaria, Spain)
Speaker: Sheila Nainan Myatra (Mumbai, India)

NEXT & Professional Development
#ESICMNEXT

Chair: Cristina Santonocito (Palermo, Italy)
Chair: Victoria Bennett (London, United Kingdom)

The challenges of learning in the new era
Speaker: Francesca Rubulotta (London, United Kingdom)
Speaker: Adrian Wong (London, United Kingdom)
Speaker: Kelly Underman (Philadelphia, United States)

Arena
14:00 - 15:10

Infections
Chair: Jan De Waele (Ghent, Belgium)
Chair: Pedro Povoa (Lisbon, Portugal)

Healthcare associated infections (HAI) in critically ill cardiac patients (CICP): a categorical principal components analysis (CATPCA) study in Spanish ICU based on ENVIN-HELICS National Registry
Abstract Presenter: Emilio Renes Carreño (Madrid, Spain)

Development of a clinical prediction rule to exclude catheter-related bloodstream infections in patients with new-onset fever during central venous catheter placement
Abstract Presenter: Won Sup Oh (Chuncheon, Korea, Republic of)

Nebulized amikacin as adjunctive therapy for multi-drug resistant P. aeruginosa right-sided pneumonia: an experimental study
Abstract Presenter: Andrea Meli (Milan, Italy)

Evaluation of steady-state pharmacokinetic and pharmacodynamic properties of intravenous colistimethate sodium in cystic fibrosis and critically ill patients
Abstract Presenter: Tyree H. Kiser (Aurora, United States)
The prevalence of suspected ventilator-associated pneumonia in Scottish intensive care units: a prospective analysis
Abstract Presenter: Robert Hart (Glasgow, United Kingdom)

Avian anti-Pseudomonas aeruginosa IgY-antibodies can reduce tracheal colonization with P. aeruginosa in mechanically ventilated piglets
Abstract Presenter: Alexander Otterbeck (Uppsala, Sweden)

Accuracy of the Clinical Pulmonary Infection score to differentiate ventilator-associated tracheobronchitis from ventilator-associated pneumonia: a retrospective analysis from the TAVeM study
Abstract Presenter: Alexandre Gaudet (Lille, France)

Patients with digestive colonization with Extended-Spectrum β-Lactamase-producing Enterobacteriaceae (ESBLE): how to predict the risk of ESBLE infection following liver transplantation
Abstract Presenter: Emmanuel Weiss (Clichy, France)

Accuracy of T2MR in diagnosing candidemia in critically ill patients: a prospective observational study
Abstract Presenter: Olivier Pouly (Lille, France)

Risk factors of being a carrier of multiresistant bacteria upon admission to ICU
Abstract Presenter: Mercedes Palomar (Lleida, Spain)

Poster Corner
14:00 - 16:00

CRRT & RRT for AKI
Chair: Miet Schetz (Leuven, Belgium)
Chair: Antoine Schneider (Lausanne, Switzerland)

Acute kidney injury and renal replacement therapy in patients on ECMO: a single center experience
Abstract Presenter: Rafael Avila (Santa Fe, Argentina)

Urinary liver-type fatty acid-binding protein point-of-care kit for the prediction of renal replacement therapy requirement in critically ill patients with acute circulatory failure
Abstract Presenter: Kei Ishimura (Osaka, Japan)

Urinary L-FABP level predicts initiation of renal replacement therapy and prognosis in patients with septic shock
Abstract Presenter: Ayumu Tsuruoka (Kyoto, Japan)

Predictors of 90 day survival in CRRT patients
Abstract Presenter: Chee Hong Loh (Singapore, Singapore)

Comparison of hemodynamic parameters among continuous, intermittent and hybrid renal replacement therapy in acute kidney injury: a systematic review of randomized clinical trials
Abstract Presenter: Diana Russo (Porto Alegre, Brazil)
Scientific Programme

Antibiotic dosage in the critically ill patients in continuous renal replacement therapy: are we sure that a lesser posology is the best for the patient?
Abstract Presenter: Alberto Corona (Milano, Italy)

Renal replacement therapy with citrate in different doses (CiDoSes) study
Abstract Presenter: Alexandre Baptista (Portimão, Portugal)

Renal replacement therapy under extracorporeal membrane oxygenation
Abstract Presenter: Nicolas Tsekouras (Saint Etienne, France)

Extracorporeal chloride removal to treat acidemia: in vitro evaluation of three techniques
Abstract Presenter: Emanuele Rezoagli (Monza, Italy)

Continuous renal replacement therapy during veno-venous ECMO: a retrospective study on regional citrate anticoagulation
Abstract Presenter: Marco Giani (Monza, Italy)

The relationship between base excess unmeasured anions and mortality in patients with acute kidney injury receiving continuous renal replacement therapy
Abstract Presenter: Bulent Gucyetmez (Istanbul, Turkey)

Regional citrate anticoagulation for CRRT in critical patients with liver failure
Abstract Presenter: Màrius Sánchez Satorra (Badalona, Spain)

Hemodinamic monitoring during continuous renal replacement therapy (CRRT) with oXiris filter in septic shock patients
Abstract Presenter: Marco Tengattini (Ponderano, Italy)

Citrate anticoagulant does not influence CO2 extraction during CRRT
Abstract Presenter: Joop Jonckheer (Jette, Belgium)

Retrospective analysis of different CVVH-substitution fluids and their effects on the acid-base-metabolism
Abstract Presenter: Sebastian J. Klein (Innsbruck, Austria)

Quality improvement project on efficacy of haemo-filters in intensive care care (ITU) by analysing various factors influencing the prescription in patients requiring RRT (renal replacement therapy) at Northampton General Hospital, ITU
Abstract Presenter: Ahalya Parthasarathy (Northampton, United Kingdom)

Can plasma nucleoproteins be removed with continuous renal replacement therapy?
Abstract Presenter: Mónica Crespo Gómez (Valencia, Spain)

Poster Corner

Pneumonia, COPD and other causes of acute respiratory failure

Chair: Danny McAuley (Belfast, Ireland)
Chair: Davide Chiumello (Milan, Italy)

Pneumonia determines readmissions and mortality of lung transplant patients in the ICU: beyond the perioperative period
Abstract Presenter: Alberto Sandiumenenge (Barcelona, Spain)
Etiology and prognosis of acute respiratory failure in patients with primary malignant brain tumors admitted to the intensive care unit
Abstract Presenter: Maxens Decavèle (Paris, France)

Distribution of pulmonary ventilation and inflammation before and after intubation in acute hypoxemic respiratory failure patients: a preliminary report
Abstract Presenter: Jaime Retamal (Santiago, Chile)

Six-minute walk test as a predictor of changes in basic functional dyspnea assessed by the modified medical research council scale in ICU COPD survivors
Abstract Presenter: Mohamed Boussarsar (Sousse, Tunisia)

Pulmonary embolism among ICU population: prevalence, delay of onset, diagnostic features and prognosis
Abstract Presenter: Olfa Turki (Sfax, Tunisia)

Factors associated with intra-abdominal hypertension in mechanically ventilated patients with acute exacerbation of chronic obstructive pulmonary disease (AE/COPD): a retrospective study
Abstract Presenter: Mohamed Boussarsar (Sousse, Tunisia)

Evaluation of inflammatory markers with a routine blood test, for the identification of patients with severe exacerbation of chronic obstructive pulmonary disease, in intensive care unit
Abstract Presenter: Mariana Portilla-Botelho (Ciudad Real, Spain)

Prone positioning in severe acute respiratory failure not fulfilling Berlin definition ARDS criteria: a case series
Abstract Presenter: Mohamed Boussarsar (Sousse, Tunisia)

Is the routine use of antipseudomonal antibiotics as empiric treatment of AECOPD in ICU indicated? A retrospective study
Abstract Presenter: Florian Marcy (Berlin, Germany)

Compared prognosis of acute exacerbation of chronic obstructive pulmonary disease (AE/COPD) with and without intra-abdominal hypertension in mechanically ventilated patients
Abstract Presenter: Mohamed Boussarsar (Sousse, Tunisia)

Management of intra-abdominal hypertension in acute exacerbation of chronic obstructive pulmonary disease (AE/COPD): experience of a medical Tunisian ICU
Abstract Presenter: Mohamed Boussarsar (Sousse, Tunisia)

Factors affecting cost of patients with severe community-acquired pneumonia in intensive care unit
Abstract Presenter: Ayca Gumus (Antalya, Turkey)

Frequency, characteristics and prognosis of acute exacerbation of chronic obstructive pulmonary disease (AE/COPD) patients presenting with intra-abdominal hypertension in a Tunisian medical ICU: a retrospective study
Abstract Presenter: Mohamed Boussarsar (Sousse, Tunisia)

Severe Acute Respiratory Infection (SARI): frequency and microbiology in a Tunisian medical ICU
Abstract Presenter: Mohamed Boussarsar (Sousse, Tunisia)

The effect of the ventilator care bundle on ventilator acquired pneumonia, length of stay and mortality rate: a systematic review and meta-analysis
Abstract Presenter: Leanne Dolman (London, United Kingdom)
Influence of hypophosphatemia at ICU admission on the duration of mechanical ventilation in sepsis
Abstract Presenter: Jun Shima (Shimotsuke city, Japan)

Association between time to intubation and outcomes in a unselected population of mechanically ventilated ICU patients
Abstract Presenter: Roberto Jiménez (Cartagena, Spain)

Microcirculation & organ injury
Chair: Jacques Duranteau (Kremlin-Bicetre, France)
Chair: Can Ince (Amsterdam, Netherlands)

Cardiac hyaluronan may be associated with the persistence of atrial fibrillation
Abstract Presenter: Yuichiro Kashima (Matsumoto, Japan)

A reduction in skin perfusion can reliably predict tissue hypoperfusion during ultrafiltration
Abstract Presenter: Wasineenart Mongkolpun (Brussels, Belgium)

Cardiac function in critically ill patients with traumatic brain injury: preliminary results of a prospective study
Abstract Presenter: Victor Martin Moles (Santa Fe, Argentina)

Non-invasive administration of inhaled nitric oxide in critically ill adults - a retrospective cohort study
Abstract Presenter: Jan-Alexis Tremblay (Montreal, Canada)

Prognostic factors are useful in pulmonary thromboembolism in an intensive care unit?
Abstract Presenter: Xiana Taboada Fraga (A Coruña, Spain)

Systemic and tissue response to fluid challenge
Abstract Presenter: Paolo De Santis (Brussels, Belgium)

Renal involvement during cardio-renal syndrome type 2: predictive factors and prognosis
Abstract Presenter: Emna Rachdi (La Marsa, Tunisia)

MINOCA (myocardial infarction with nonobstructive coronary atherosclerosis)
Abstract Presenter: Elena Trujillo García (Málaga, Spain)

Acute systemic microcirculatory effects of high frequency neuromuscular electrical stimulation in critically ill patients
Abstract Presenter: Asu Ozgultekin (Istanbul, Turkey)

Eight years building bridges in cardiogenic shock
Abstract Presenter: Isaías Martín Badía (Madrid, Spain)

Veno-arterial extracorporeal membrane oxygenation blood flow affects left ventricular contractility in cardiogenic shock
Abstract Presenter: Petr Ostadal (Prague, Czech Republic)

A software tool to quantify capillary blood volume and absolute red blood cell velocity in sublingual incident dark field microscopy video clips
Abstract Presenter: Matthias Peter Hilty (Amsterdam, Netherlands)
Scientific Programme

A method to derive local blood flow and local vascular resistance from tissue haemoglobin oxygen saturation
Abstract Presenter: Christopher Smart (London, United Kingdom)

Microvascular reactivity at the early stage of ischemic cardiogenic shock: a preliminary observational study
Abstract Presenter: Timothée Jouitteau (Montpellier, France)

Ivabradine effect on tissue perfusion in critical patients
Abstract Presenter: Eder Ivan Zamarron Lopez (Tampico, Mexico)

Calculating cardiac output during veno-venous ECMO using indirect calorimetry and blood gas analysis
Abstract Presenter: Michael Christian Müller (Berlin, Germany)

Does airway pressure cause right ventricular dysfunction in septic patients undergoing mechanical ventilation?
Abstract Presenter: David Pérez-Torres (Valladolid, Spain)

Poster Corner
14:00 - 16:00

Quality improvement
Chair: Mette Berger (Lausanne, Switzerland)
Chair: Bruno Mégarbane (Paris, France)

The quality improvement of unplanned extubation among patients with mechanical ventilator in a medical center
Abstract Presenter: Chin-Ming Chen (Tainan, Taiwan, Province of China)

Collecting family feedback by digital survey
Abstract Presenter: Joke H. Coobs (Amsterdam, Netherlands)

Geographic distribution of intensive care audit in Europe
Abstract Presenter: Jan Krzysztof Adamski (Pori, Finland)

Care beyond the ICU - using a novel level of care protocol for critical care support of the terminally ill patient
Abstract Presenter: Rohit Gupta (New York, United States)

Specialized group implementation for in-hospital transport
Abstract Presenter: Miguel Cenacchi Garcia Pereira (São Paulo, Brazil)

Early rehabilitation in the ICU - reality in a large neurocritical care unit
Abstract Presenter: Miguel Cenacchi Garcia Pereira (São Paulo, Brazil)

The effects of music therapy on the level of depression and anxiety in family caregivers of critically ill patients
Abstract Presenter: Kim Jeong Min (Seoul, Korea, Republic of)

Factors affecting consultant review of patients after admission to intensive care
Abstract Presenter: Nicholas Dobson (Aylesbury, United Kingdom)

Influence of an open-door policy on the noise generated in an intensive care unit (ICU)
Abstract Presenter: Alberto Touceda (Vigo, Spain)
Social media in critical care is the hype worth the effort: a 3-year analysis and modelling for the future
Abstract Presenter: Adrian Wong (London, United Kingdom)

Evaluation in the hospitalary management of the high commitment human resource practices from the perspective of the ICU healthcare personnel
Abstract Presenter: Paula Vega Ocaña (Las Palmas de Gran Canaria, Spain)

Change of hospital and critical care unit - does it influence outcome?
Abstract Presenter: Marko Strube (Göteborg, Sweden)

Challenges associated with critically ill patients admitted to the intensive care unit following international repatriation: retrospective case study and analysis
Abstract Presenter: Dominic Johnpillai (Glasgow, United Kingdom)

Analysis of unplanned transferences from intermediate care units to intensive care units: a cohort study
Abstract Presenter: João Gabriel Rosa Ramos (Salvador, Brazil)

Audit of oral cavity assessment for patients with endotracheal tube in Neuro ICU
Abstract Presenter: Arlene Kwan (London, United Kingdom)

Yeast in the urine predicts longer hospitalization in liver transplant patients
Abstract Presenter: Qin Gui Chen (Guangzhou, China)

Compliance of the initial resuscitation bundle in patients with sepsis and septic shock in a catalan tertiary hospital
Abstract Presenter: Victor Daniel Gumucio Sanguino (Hospitalet de Llobregat, Spain)

Acute cerebrovascular diseases
Chair: Raimund Helbok (Innsbruck, Austria)
Chair: Victoria McCredie (Toronto, Canada)

Impact of assignment of stroke specialist to the stroke care system on reducing in-hospital delay in reperfusion therapy
Abstract Presenter: Hong-Kyun Park (Goyang-si, Korea, Republic of)

Stroke in elderly population: a descriptive study of patients admitted for reperfusion treatment in the ICU
Abstract Presenter: Daniela García Huertas (Granada, Spain)

Selective cerebral hypothermia is an effective component of neuroprotection in patients with ischemic stroke
Abstract Presenter: Bagrat Torosyan (Moscow, Russian Federation)

Elevated cardiac troponin I is associated with lower blood pressure on the first admission day after aneurysmal subarachnoid hemorrhage
Abstract Presenter: Marilyn Hravnak (Pittsburgh, United States)

Morbidity and mortality after acute ischemic stroke: differences upon age
Abstract Presenter: Paula Matía Almudévar (Madrid, Spain)
Scientific Programme

**Frequency of brain death in acute cerebrovascular disease related mortality**
Abstract Presenter: Anantha R Vellipuram (El Paso, United States)

**Impact of hyperoxia and hypocapnia on neurological outcome in patients with aneurysmal subarachnoid hemorrhage**
Abstract Presenter: Kin Chio Li (Hong Kong, Hong Kong, China)

**Clinical predictors of outcome of acute stroke patients requiring invasive mechanical ventilation**
Abstract Presenter: Etienne de Montmollin (Paris, France)

**Incidence, diagnosis and burden of sepsis on subarachnoid haemorrhage**
Abstract Presenter: Fernando Bozza (Rio de Janeiro, Brazil)

**The effect of daily fluid balance on mechanical ventilation in the subarachnoid hemorrhage patient population in the ICU**
Abstract Presenter: Avinash B Kumar (Nashville, United States)

**Perimesencephalic subarachnoid haemorrhage: is there enough evidence to change our attitude?**
Abstract Presenter: Sofia Dias (Lisboa, Portugal)

**In-hospital complications following acute neurological injuries**
Abstract Presenter: Anantha R Vellipuram (El Paso, United States)

**Some characteristics of hormonal status in patients in the acute period after spontaneous intracerebral hemorrhage**
Abstract Presenter: Liubov Tsentsiper (St-Petersburg, Russian Federation)

**Glycaemia in patients with ischemic stroke**
Abstract Presenter: Alexey Gritsan (Krasnoyarsk, Russian Federation)

**Neutrophil-to-lymphocyte ratio as a predictor of poor prognosis after intracerebral haemorrhage**
Abstract Presenter: Diana Latasa (Rosario, Argentina)

**Frequency of severe hypocapnia in patients in the acute period of non-traumatic subarachnoid hemorrhages with various clinical outcomes**
Abstract Presenter: Alexander Solodov (Moscow, Russian Federation)

**Maintenance of cerebral perfusion pressure (CPP) determines neurology - a traumatic brain injury (TBI) model in swine**
Abstract Presenter: Martin Wepler (Ulm, Germany)

---

**Outcome in perioperative medicine**

Chair: Arnaldo Dubin (La Plata, Argentina)
Chair: Morten Hylander Møller (Copenhagen, Denmark)

**Usefulness of presepsin for the early detection of infectious complications after elective colorectal surgery, compared with C-reactive protein and procalcitonin**
Abstract Presenter: Erika Amanai (Hirosaki, Japan)
The impact of goal-directed fluid therapy during major abdominal surgery on postoperative oxygenation and extravascular lung water
Abstract Presenter: Ahmed Hasanin (Cairo, Egypt)

Lactate levels in predicting in-hospital mortality after surgery for intestinal perforation
Abstract Presenter: Seung-Young Oh (Seoul, Korea, Republic of)

Indications and outcomes of emergency laparotomy in patients on extracorporeal membrane oxygenation
Abstract Presenter: Claire McCann (London, United Kingdom)

Intraoperative positive end-expiratory pressure setting guided by esophageal pressure measurement during laparoscopic gynecologic surgery: a pilot study
Abstract Presenter: Annop Piriyapatsom (Bangkok, Thailand)

Electrolytes disorders and kidney complications in immediate postoperative after cytoreductive surgery and hyperthermic intraperitoneal chemotherapy
Abstract Presenter: Alejandra Acha (Alcala de Henares, Spain)

Outcome of extreme oncology digestive surgery at intensive care unit
Abstract Presenter: Orville Victoriano Báez-Pravia (Madrid, Spain)

Norton score: a useful tool for identifying high risk patients prior to emergency surgery
Abstract Presenter: Galia Karp (Rehovot, Israel)

Effects of perioperative high inspired oxygen fraction on surgical site infection in the patients with gastrointestinal surgery
Abstract Presenter: Airi Kumasaka (Sakatashi, Yamagata, Japan)

Prevalence and risk factors of preoperative sarcopenia and malnutrition in elderly cancerous patients
Abstract Presenter: Onuma Chaiwat (Bangkok, Thailand)

Regional cerebral oxygen saturation changes monitored during spinal neurosurgery in prone position and postoperative cognitive dysfunction evaluation
Abstract Presenter: Sniedze Murniece (Riga, Latvia)

Genetic polymorphism of pleiotrophine is associated with severity of cancer pain but not postoperative pain
Abstract Presenter: Yoshika Sudo (Tokyo, Japan)

Frequency of occurrence of arterial hypotension in anesthesia, including alpha2-adrenoagonists in neurooncological patients
Abstract Presenter: Marina Rumiantceva (Saint Petersburg, Russian Federation)

Sedatives for use during gastrointestinal endoscopic procedures
Abstract Presenter: Yijun Seo (Seoul, Korea, Republic of)

Effect of transfusion ratio on mortality in patients undergoing massive transfusion during cytoreductive surgery: a retrospective cohort study
Abstract Presenter: Swapnil Pawar (Sydney, Australia)

Do statins help prevent VTE in hemorhagic stroke during the acute period?
Abstract Presenter: Kwangwook Jo (Bucheon, Korea, Republic of)
Antibiotic therapy in septic patients

Chair: Jean-François Timsit (Paris, France)
Chair: George Dimopoulos (Athens, Greece)

Clinical impact of the use of procalcitonin-based algorithms for duration of antibiotic treatment in critical adult patients: a meta analysis of randomized clinical trials
Abstract Presenter: José Garnacho-Montero (Seville, Spain)

Delayed antibiotic therapy and deterioration of organ dysfunction in critically-ill septic patients in the emergency department
Abstract Presenter: Jae Min Kim (Seoul, Korea, Republic of)

Relationship between antibiotic desescalation and microbiological documentation. Influence on outcome of sepsis patients detected by a sepsis team in a teaching hospital
Abstract Presenter: Rafael Zaragoza (Valencia, Spain)

Early empirical antimicrobial therapy does not prevent sepsis development in critically ill surgical patients with suspected nosocomial infection
Abstract Presenter: Bruno Martins Tomazini (São Paulo, Brazil)

Time to antibiotic as a mortality factor in patients with sepsis and septic shock: a multicentric, point prevalence study
Abstract Presenter: Graciela Merinos-Sánchez (Cuauhtémoc, Mexico)

Association of antibiotic pharmacodynamic indices with survival in human septic shock
Abstract Presenter: Gloria Vázquez-Grande (Winnipeg, Canada)

The implementation of antibiotic therapy as part of sepsis six bundle: a twelve month single centre study of compliance with antibiotic therapy and outcomes
Abstract Presenter: Rangaswamy Mothukuri (Swansea, United Kingdom)

Adherence to antibiotic guidelines in patients admitted to ICU with severe sepsis and septic shock: does it affect clinical outcome?
Abstract Presenter: Oscar Lindberg (Linköping, Sweden)

Ceftazidime-avibactam to treat severe deep-seated infections due to KPCp in the critically ill
Abstract Presenter: Alberto Corona (Milano, Italy)

High-speed antibiotic susceptibility testing of blood-culture isolates of septicemia with surface-enhanced Raman spectroscopy
Abstract Presenter: Yin-Yi Han (Taipei, Taiwan, Province of China)

Molecular regulation of acute Tie2 suppression in sepsis
Abstract Presenter: Sascha David (Hannover, Germany)

Right dose, right now. developing autokinetics for personalised, real time, big data driven, antibiotic dosing
Abstract Presenter: L.F. Roggeveen (Amsterdam, Netherlands)

Variability of plasma concentrations of meropenem and piperacillin / tazobactam in standard doses in patients with severe infections
Abstract Presenter: Adela Fernández Galilea (Sevilla, Spain)

Prevalence of insufficient plasma concentration of β-lactam antibiotics in ICU patients: a one-year retrospective single centre study
Abstract Presenter: Sacha Sarfati (Rouen, France)
What is the most important clinical determinant of procalcitonin?
Abstract Presenter: Silvia Zampieri (Verona, Italy)

Use of procalcitonin levels to guide the efficacy and safety in reducing the duration of antibiotic treatment in critically ill patients
Abstract Presenter: Samuel Fernández Vilches (Sabadell, Barcelona, Spain)

Impact of appropriate empirical antibiotics on clinical outcome in Klebsiella pneumoniae bacteraemia in the intensive care unit
Abstract Presenter: Kin Chio Li (Hong Kong, Hong Kong, China)

Poster Corner
14:00 - 16:00
Poster corner

Cardiac arrest and post resuscitation care
Chair: Alain Cariou (Paris, France)
Chair: Cornelia Genbrugge (Genk, Belgium)

Interaction effects between targeted temperature management and hypertension on survival outcomes after out-of-hospital cardiac arrest
Abstract Presenter: Hyunho Ryu (Gwangju, Korea, Republic of)

Prediction of neurologic outcome after return of spontaneous circulation in out-of-hospital cardiac arrest: retrospective analysis using fast and frugal tree
Abstract Presenter: So Mi Shin (Seoul, Korea, Republic of)

Optimum chest compression point for cardiopulmonary resuscitation in children revisited using a three-dimensional coordinate system imposed on computed tomography: a retrospective, cross-sectional study
Abstract Presenter: Sung-Bin Chon (Seongnam, Korea, Republic of)

Impact of ischemic etiology-based difference on extracorporeal cardiopulmonary resuscitation in patients with refractory out-of-hospital cardiac arrest underlying cardiac diagnosis
Abstract Presenter: Kanako Takeshige (Matsumoto, Japan)

Gray matter to the white matter ratio for predicting neurological outcomes in patients treated with target temperature management after cardiac arrest: a systematic review and meta analysis
Abstract Presenter: Wonhee Kim (Seoul, Korea, Republic of)

Survival following witnessed out-of-hospital cardiac arrests during nights and weekends
Abstract Presenter: Hyunho Ryu (Gwangju, Korea, Republic of)

Chest compression-only vs conventional CPR by laypersons for unwitnessed out-of-hospital cardiac arrest
Abstract Presenter: Kunihiko Maekawa (Sapporo, Japan)

Effect of selenium supplementation on oxidative stress in patient after cardiac arrest
Abstract Presenter: Marek Janotka (Prague, Czech Republic)

Outcomes of in-Hospital cardiac arrest in a British District General Hospital
Abstract Presenter: Eric Landymore (Redhill, United Kingdom)
Scientific Programme

Changes in cardiac arrest profile after rapid response team implementation
Abstract Presenter: Marina Viana (Porto Alegre, Brazil)

Extracorporeal cardiopulmonary resuscitation for cardiac arrest patients: a propensity-matched study
Abstract Presenter: Daniel Patricio (Bruxelles, Belgium)

Evaluation of ECLS management in cardiogenic shock after cardiac arrest in myocardial infarction
Abstract Presenter: Romain Zunarelli (La Tronche, France)

Routine use of continuous insufflation of oxygen without tracheal intubation improves quality of cardio-pulmonary resuscitation
Abstract Presenter: Vincent Peigne (Meythet, France)

Is NIRO Pulse a useful monitor for cardiopulmonary resuscitation?
Abstract Presenter: Kento Sakaguchi (Yamagata, Japan)

Analysis of relationship between body temperature and survival rate of patients of in-hospital cardiac arrest
Abstract Presenter: Eunjoo Choi (Seoul, Korea, Republic of)

Long term follow up after out of hospital cardiac arrest: survival and performance status comparison between therapeutic hypothermia and targeted temperature management
Abstract Presenter: Tamim Akbari (London, United Kingdom)

NEXT Lounge
14:00 - 15:00

NEXT My case reviewed by an expert
#ESICMNEXT

Chair: Gennaro De Pascale (Rome, Italy)

Case 1 (Adjunctive Treatment in Sepsis) 14:00
Speaker: Bernardo Bollen Pinto (Geneva, Switzerland)
Speaker: Massimo Girardis (Modena, Italy)

Thematic Session
14:15 - 15:45

Monitoring the ventilated patient
#lung

Chair: Alexandre Demoule (Paris, France)
Chair: John Laffey (Toronto, Canada)

How to guide treatment with transpulmonary pressure 14:15
Speaker: Laurent Brochard (Toronto, Canada)

Discussion 14:30
### Scientific Programme

| Session                                           | Time   |
|---------------------------------------------------|--------|
| **Monitoring and managing respiratory drive**     | 14:33  |
| Speaker: Leo Heunks (Neimegen, Netherlands)       |        |
| **Discussion**                                    | 14:48  |
| **Plateau and driving pressure during assisted ventilation** | 14:51  |
| Speaker: Giacomo Bellani (Monza, Italy)           |        |
| **Discussion**                                    | 15:06  |
| **Monitoring response to PEEP: Gas exchange and respiratory mechanics** | 15:09  |
| Speaker: Ewan Goligher (Toronto, Canada)          |        |
| **Discussion**                                    | 15:24  |
| **Integrating physiology and imaging at the bedside** | 15:27  |
| Speaker: Michael Quintel (Göttingen, Germany)     |        |
| **Discussion**                                    | 15:42  |

### Joint Session
14:15 - 15:45

**Joint with ISF - Sepsis in 2018: What's hot?**

#sepsis

Chair: Charles L. Sprung (Jerusalem, Israel)
Chair: Mervyn Singer (London, United Kingdom)

| Topic                                                      | Time   |
|------------------------------------------------------------|--------|
| **Sepsis and ARDS are outdated concepts**                  | 14:15  |
| Speaker: John Marshall (Toronto, Canada)                    |        |
| **Do people die of or with sepsis?**                       | 14:35  |
| Speaker: Mervyn Singer (London, United Kingdom)             |        |
| **Biomarkers for infection and sepsis: Are we making any headway?** | 14:55  |
| Speaker: Derek Angus (Pittsburgh, United States)            |        |
| **I like a 1-hour sepsis bundle: Pro**                      | 15:15  |
| Speaker: Flavia R. Machado (São Paulo, Brazil)              |        |
| **I like a 1-hour sepsis bundle: Con**                      | 15:25  |
| Speaker: Jean-Louis Vincent (Brussels, Belgium)             |        |
| **Discussion**                                              | 15:35  |
Scientific Programme

Thematic Session
14:15 - 15:45

The haemodynamic physiology we must know

#cardio

Chair: Sheldon Magder (Montreal, Canada)
Chair: Michael Pinsky (Pittsburgh, United States)

Significance of Critical Closing pressures (Starling resistors) in arterial circulation 14:15
Speaker: Michael Pinsky (Pittsburgh, United States)

Discussion 14:30

Arterial load and dynamic arterial elastance 14:33
Speaker: Manuel Ignacio Monge García (Jerez de la Frontera, Spain)

Discussion 14:48

How does the venous system respond to changes in arterial pressure? 14:51
Speaker: Sheldon Magder (Montreal, Canada)

Discussion 15:06

How to monitor the venous tone at the bedside? 15:09
Speaker: Hollmann Aya Bernal (London, United Kingdom)

Discussion 15:24

Reaction of different territories in shock (kidney, gut, sublingual) 15:27
Speaker: Vanina Edul (Buenos Aires, Argentina)

Discussion 15:42

Thematic Session
14:15 - 15:45

Perioperative cardiac intensive care

#periop

Chair: Aarne Feldheiser (Berlin, Germany)
Chair: Isabelle Michaux (Namur, Belgium)

Perioperative ultrasounds: Gains and pitfalls 14:15
Speaker: Mike Gillies (Edinburgh, United Kingdom)

Discussion 14:30

Postoperative mechanical support: Too early or too far? 14:33
Speaker: Alain Vuylsteke (London, United Kingdom)

Discussion 14:48

Postoperative AKI: Watch or replace? 14:51
Speaker: John Prowle (London, United Kingdom)

Discussion 15:06
Scientific Programme

Vasopressors and vasodilators: New and old
Speaker: Isabelle Michaux (Namur, Belgium)
Discussion
The pros and cons of extracorporeal cytokine adsorption therapy
Speaker: Matthias Derwall (Aachen, Germany)
Discussion

State of the Art Session
14:15 - 15:45
Rome

How do I estimate the chances of survival?
#outcomes
Chair: Hannah Wunsch (Toronto, Canada)
Chair: Christiaan Boerma (Lleuwaarden, Netherlands)
Risk assessment: The basics
Speaker: Rui Paulo Moreno (Lisbon, Portugal)
Discussion
External validation of severity of illness models
Speaker: Hannah Wunsch (Toronto, Canada)
Discussion
Predicting quality of life in survivors
Speaker: Philipp Metnitz (Graz, Austria)
Discussion
Long term cognitive impairment in ICU survivors
Speaker: Arjen Slooter (Utrecht, Netherlands)
Discussion
Predicting outcome after one week of admission
Speaker: Rui Paulo Moreno (Lisbon, Portugal)
Discussion

Joint Session
14:15 - 15:45
Stockholm

Joint with ESA - What’s hot in trauma management?
#trauma
Chair: Kjetil Sunde (Oslo, Norway)
Chair: Cesare Gregoretti (Palermo, Italy)
Communication within the trauma team 14:15
Speaker: Sharon Einav (Jerusalem, Israel)

Discussion 14:30

Does HEMS improve outcome in major trauma? 14:33
Speaker: Jacob Steinmetz (Copenhagen, Denmark)

Discussion 14:48

Trauma induced coagulopathy - pathophysiology and early management 14:51
Speaker: Sophie Hamada (Paris, France)

Discussion 15:06

Damage Control Resuscitation - implications for intensive care 15:09
Speaker: Luke Leenen (Utrecht, Netherlands)

Discussion 15:24

Surgical complications after trauma - diagnosis and management 15:27
Speaker: Christina Gaarder (Oslo, Norway)

Discussion 15:42

Thematic Session
14:15 - 15:45 Lisbon

Blood products in sepsis: Risks & benefits
#sepsis

Chair: Nathan D. Nielsen (New Orleans, United States)
Chair: Ricard Ferrer Roca (Barcelona, Spain)

Red blood cell transfusion 14:15
Speaker: Ludhmila Hajjar (Sao Paulo, Brazil)

Discussion 14:30

Platelets 14:33
Speaker: Nathan D. Nielsen (New Orleans, United States)

Discussion 14:48

Plasma 14:51
Speaker: John Marshall (Toronto, Canada)

Discussion 15:06

IVIG 15:09
Speaker: Didier Payen de la Garanderie (Paris, France)

Discussion 15:24

Albumin 15:27
Speaker: Luciano Gattinoni (Milan, Italy)
Scientific Programme

Discussion

Thematic Session
14:15 - 15:45

Intra-abdominal infections

#micro

Chair: Lennie Derde (Utrecht, Netherlands)
Chair: Ignacio Martin-Loeches (Dublin, Ireland)

Epidemiology of IAI in critically ill patients
Speaker: Stijn Blot (Ghent, Belgium)
14:15

Discussion
14:30

Optimising strategies in source control
Speaker: Philippe Montravers (Paris, France)
14:33

Discussion
14:48

New antibiotics and how to use them in IAI
Speaker: José Artur Paiva (Porto, Portugal)
14:51

Discussion
15:06

The role of candida
Speaker: José Garnacho-Montero (Seville, Spain)
15:09

Discussion
15:24

Duration of antibiotic therapy and de-escalation: Dos and don’ts
Speaker: Liesbet De Bus (Gent, Belgium)
15:27

Discussion
15:42

Thematic Session
14:15 - 15:45

Oxygen: The most misused drug

#LIVES2018#sepsis

Chair: Anders Perner (Copenhagen, Denmark)
Chair: Fabio Silvio Taccone (Brussels, Belgium)

Oxygen pathways and metabolism in stressful conditions
Speaker: Peter Radermacher (Ulm, Germany)
14:15

Discussion
14:30

Hyperoxia and ischaemia reperfusion syndrome during cardiac arrest
Speaker: Fabio Silvio Taccone (Brussels, Belgium)
14:33

Discussion
14:48
Scientific Programme

Which oxygen strategy in critically ill patient?  
Speaker: Phillip Dellinger (Camden, United States)  
14:51

Discussion  
15:06

Oxygen in the brain: Friend or foe?  
Speaker: Giuseppe Citerio (Monza, Italy)  
15:09

Discussion  
15:24

Liberal, restrictive or super-restrictive oxygen targets: Data from clinical trials  
Speaker: Massimo Girardis (Modena, Italy)  
15:27

Discussion  
15:42

Thematic Session  
14:15 - 15:45  
Glasgow

The ICU environment: What matters?  
#outcomes

Regional economics, state and health insurance  
Speaker: Peter van der Voort (Amsterdam, Netherlands)  
14:15

Discussion  
14:30

Do ICU size and layout impact on outcome?  
Speaker: Andreas Valentin (Schwarzach, Austria)  
14:33

Discussion  
14:48

The influence of step down units on hospital mortality  
Speaker: Rui Paulo Moreno (Lisbon, Portugal)  
14:51

Discussion  
15:06

Academic versus non-academic ICUs: Does it have an impact on outcome?  
Speaker: Michelle Chew (Malmö, Sweden)  
15:09

Discussion  
15:24

Specialist coverage and patient-to-staff ratios  
Speaker: Christina Agvald-Öhman (Stockholm, Sweden)  
15:27

Discussion  
15:42
Interactive Debates
14:15 - 15:15

**Safely stopping antibiotics - Guidelines, biomarkers or common sense?**

#micro

Identify determinants of antibiotic duration; apply guidelines on antibiotic duration in clinical practice; discuss the role of biomarkers in determining the optimal duration of antibiotic therapy

Chair: Jeroen Schouten (Radboud, Netherlands)

**Debate**  
14:15
Speaker: Jean Chastre (Paris, France)  
Speaker: Jeffrey Lipman (Brisbane, Australia)  
Speaker: Claire Roger (Nimes, France)

Tech Lounge  
14:15 - 14:30

**Break-Networking-Brainstorming**

Tech Lounge  
14:30 - 16:00

**Practical demonstration session: Crafting data for your needs**

#tech

Chair: Marius Terblanche (London, United Kingdom)  
Chair: Charlotte Summers (Cambridge, United Kingdom)

**Attendees will obtain knowledge of techniques to prepare data for analysis**  
14:30  
Speaker: Ari Ercole (Cambridge, United Kingdom)

NEXT Lounge  
15:00 - 16:00

**NEXT Young Lecturer Award**

#ESICMNEXT

Chair: Laura Galarza Barrachina (Castellon, Spain)  
Chair: Julian Bion (Birmingham, United Kingdom)  
Chair: Kelly Underman (Philadelphia, United States)  
Chair: Matthew J. Rowland (Oxford, United Kingdom)  
Chair: Victoria Bennett (London, United Kingdom)
Scientific Programme

Arena
15:20 - 16:30

New insights into post resuscitation care

Chair: Theresa Olasveengen (Oslo, Norway)
Chair: Claudio Sandroni (Rome, Italy)

Targeting normoxia vs. mild hyperoxia after cardiac arrest and resuscitation: a randomized pilot trial (NCT02698917)
Abstract Presenter: Pekka Jakkula (Helsinki, Finland)

Comparison of two sedation regimens during targeted temperature management after cardiac arrest
Abstract Presenter: Marine Paul (Paris, France)

Extracorporeal cardiopulmonary resuscitation for cardiac arrest patients: a multi-centric cohort study
Abstract Presenter: Lorenzo Calabro (Bruxelles, Belgium)

EEG reactivity for prognosis in patients after cardiac arrest
Abstract Presenter: Janneke Horn (Amsterdam, Netherlands)

Long-term changes in quality of life after out-of-hospital cardiac arrest
Abstract Presenter: Henning Wimmer (Oslo, Norway)

Platelet dysfunction post cardiac arrest. Results from the Platelets in out of Hospital Cardiac ARrest (PoHCAR) study
Abstract Presenter: Agnieszka Skorko (Bristol, United Kingdom)

Late awakening in survivors of post-anoxic coma: early neurophysiological predictors and association with ICU and long-term neurological recovery
Abstract Presenter: Arnaud Rey (Lausanne, Switzerland)

Intravascular versus surface cooling for targeted temperature management after out-of-hospital cardiac arrest: an analysis of the TTH48 study
Abstract Presenter: Chiara De Fazio (Brussels, Belgium)

Functional recovery and quality of life after in-hospital cardiac arrest - Preliminary results. Australia and New Zealand Cardiac Arrest Outcome Determinants and ECMO suitability study (ANZ-CODE): a multi-centre prospective observational study of in-hospital cardiac arrests
Abstract Presenter: Gemma Pound (Melbourne, Australia)

Combination of NSE and Synek score to predict poor neurological outcome in post anoxic comatose patients treated with induced hypothermia
Abstract Presenter: Dimitri Titeca Beauport (Amiens, France)
Scientific Programme

Interactive Debates
15:30 - 16:30

Lung recruitment: Let's stop talking about that!
#lung

Highlighting the need (if any) to keep focusing research on the role of recruitment during ARDS, based on recent literature data.

Chair: Laurent Papazian (Marseille, France)

Debate
15:30
Speaker: Marco Ranieri (Rome, Italy)
Speaker: Eddy Fan (Toronto, Canada)
Speaker: Alain Mercat (Angers, France)

Simulation Centre
15:30 - 16:30

Simulation Centre - Mechanical Ventilation Area

Mechanical ventilation area
#lung

Case scenario - Setting the ventilator in pressure controlled and volume controlled ventilation
15:30
Speaker: Lise Piquilloud (Lausanne, Switzerland)
Speaker: Giacomo Bellani (Monza, Italy)

Thematic Session
16:00 - 18:15

Presidents’ Ground Breaking Research Release
#LIVES2018

Chair: Massimo Antonelli (Rome, Italy)
Chair: Jozef Kesecioglu (Utrecht, Netherlands)

Global Sepsis Alliance Award 2018
16:00
Speaker: Konrad Reinhart (Jena, Germany)

ALIVE, the ESICM Fund
16:01
Speaker: Martin Dünser (Linz, Austria)
Speaker: Mervyn Mer (Johannesburg, South Africa)

The TARGET Trial
16:07
Speaker: Marianne Chapman (Adelaide, Australia)
Speaker: Sandra Peake (Adelaide, Australia)

Comments
16:19
Speaker: Jerry Zimmerman (Seattle, United States)

Discussion
16:21
Randomised controlled trial of protocolised extubation to non-invasive versus invasive weaning from mechanical ventilation in acute respiratory failure: The Breathe Study
Speaker: Gavin Perkins (Coventry, United Kingdom)

Comments
Speaker: Jean-Michel Constantin (Clermont-Ferrand, France)

Discussion

Decontamination strategies in Intensive Care Units: A multinational cluster RCT
Speaker: Bastiaan H. Wittekamp (Utrecht, Netherlands)

Comments
Speaker: Yatin Mehta (India)

Discussion

Psychological Outcomes following a nurse-led Preventative Psychological Intervention for critically ill patients (POPPI) trial
Speaker: Kathy Rowan (London, United Kingdom)

Comments
Speaker: María Cruz Martín Delgado (Madrid, Spain)

Discussion

MIND-USA: Phase III RCT of antipsychotics vs. placebo for delirium and other ICU outcomes
Speaker: Wes Ely (Nashville, United States)

Comments
Speaker: Carl Waldmann (Reading, United Kingdom)

Discussion

Effect of targeted polymyxin B haemoperfusion on 28-day mortality in patients with septic shock and elevated endotoxin level: the EUPHRATES randomised clinical trial
Speaker: Phillip Dellinger (Camden, United States)

Comments
Speaker: Diederik Gommers (Rotterdam, Netherlands)

Discussion

INTEREST Trial results
Speaker: Marco Ranieri (Rome, Italy)

Comments
Speaker: Ciro Leite Mendes (João Pessoa, Brazil)

Discussion 18:13

Thematic Session 16:00 - 18:00 Berlin

ECMO for respiratory failure #lung

Chair: Paolo Pelosi (Genova, Italy)
Chair: Jean-Daniel Chiche (Paris, France)

When (not) to start VV ECMO 16:00
Speaker: Michael Quintel (Göttingen, Germany)

Discussion 16:15

When to switch to VA 16:20
Speaker: Alain Combes (Paris, France)

Discussion 16:35

Monitoring patients during VV ECMO 16:40
Speaker: Antonio Pesenti (Milan, Italy)

Discussion 16:55

What should we target? 17:00
Speaker: Marco Ranieri (Rome, Italy)

Discussion 17:15

Mechanical ventilation during ECMO 17:20
Speaker: Eddy Fan (Toronto, Canada)

Discussion 17:35

Managing coagulation 17:40
Speaker: Beverley Hunt (London, United Kingdom)

Discussion 17:55

Thematic Session 16:00 - 18:00 Barcelona

Top tips for the golden hours of septic shock #sepsis

Chair: Michael Bauer (Jena, Germany)
Chair: Claude Martin (Marseille, France)

Avoiding too much fluid 16:00
Speaker: Yasser Sakr (Jena, Germany)

Discussion 16:15
Scientific Programme

High doses of catecholamines?  
Speaker: Daniel De Backer (Braine L’Alleud, Belgium)  
16:20

Discussion  
16:35

A place for non-adrenergic vasopressors  
Speaker: Elio Antonucci (Piacenza, Italy)  
16:40

Discussion  
16:55

How to evaluate cardiac dysfunction  
Speaker: Sebastian Stehr (Leipzig, Germany)  
17:00

Discussion  
17:15

Positive inotropic drugs: Which, when, how?  
Speaker: Alexandre Mebazaa (Paris, France)  
17:20

Discussion  
17:35

Oxygen metabolism, ScvO2? Lactate? PCO2 gap? Others?  
Speaker: Arnaldo Dubin (La Plata, Argentina)  
17:40

Discussion  
17:55

State of the Art Session
16:00 - 18:00  
Geneva

Cardiovascular monitoring
#cardio

Chair: Thomas Scheeren (Groningen, Netherlands)  
Chair: Bernd Saugel (Hamburg, Germany)

How to monitor Blood Pressure  
Speaker: Olfa Hamzaoui (Clamart, France)  
16:00

Discussion  
16:15

How to monitor Central Venous Pressure  
Speaker: Sheldon Magder (Montreal, Canada)  
16:20

Discussion  
16:35

How to monitor Cardiac Output  
Speaker: Thomas Scheeren (Groningen, Netherlands)  
16:40

Discussion  
16:55

How to monitor Microcirculation  
Speaker: Can Ince (Amsterdam, Netherlands)  
17:00

Discussion  
17:15

What about physical examination?  
Speaker: Iwan Van der Horst (Groningen, Netherlands)  
17:20
Scientific Programme

Discussion
How to individualise monitoring
Speaker: Bernd Saugel (Hamburg, Germany)
Discussion

Thematic Session
16:00 - 18:00
Rome

Few positive trials in Sepsis: Is it the treatment or the trial?
#ethic
Chair: Andrej Michalsen (Tettnang, Germany)
Chair: Charlotte Summers (Cambridge, United Kingdom)

Asking the right research question
Speaker: Christiaan Boerma (Lieuwaarden, Netherlands)
Discussion

Testing the right population
Speaker: Flavia R. Machado (São Paulo, Brazil)
Discussion

There is no such thing as a negative trial
Speaker: Marlies Ostermann (London, United Kingdom)
Discussion

Sepsis Trials: We did it all wrong!
Speaker: Armand Girbes (Amsterdam, Netherlands)
Discussion

Improving quality of care from the evidence we have
Speaker: Geoffrey Bellingan (London, United Kingdom)
Discussion

The right outcomes that really matter to patients. Do we know them?
Speaker: Kenneth Christopher (Boston, United States)
Discussion

Continuous Professional Education Session
16:00 - 18:00
Stockholm

Improving ARDS outcome
#lung
Chair: Danny McAuley (Belfast, Ireland)
Chair: Carolyn Calfee (San Francisco, United States)
**Scientific Programme**

**Overall mortality is not the right outcome measure for ARDS**
Speaker: Jesus Villar (Las Palmas de Gran Canaria, Spain)

16:00

**Discussion**
16:15

**What are the relevant outcomes for ventilation trials?**
Speaker: Bronagh Blackwood (Belfast, United Kingdom)

16:20

**Discussion**
16:35

**Precision medicine for ARDS treatment**
Speaker: Carolyn Calfee (San Francisco, United States)

16:40

**Discussion**
16:55

**Improving ventilation practice**
Speaker: Luigi Camporota (London, United Kingdom)

17:00

**Discussion**
17:15

**Pharmacologic therapies**
Speaker: Danny McAuley (Belfast, Ireland)

17:20

**Discussion**
17:35

**Cell based therapies**
Speaker: John Laffey (Toronto, Canada)

17:40

**Discussion**
17:55

Joint Session
16:00 - 18:00

**Joint with ERC - State of the art in cardiac arrest management**

#trauma

Chair: Kjetil Sunde (Oslo, Norway)
Chair: Jerry Nolan (Bath, United Kingdom)

**Differences between IHCA and OHCA**
Speaker: Alain Cariou (Paris, France)

16:00

**Discussion**
16:15

**Sex and resuscitation outcomes**
Speaker: Sharon Einav (Jerusalem, Israel)

16:20

**Discussion**
16:35

**Oxygen: Friend or foe?**
Speaker: Markus Skrifvars (Helsinki, Finland)

16:40

**Discussion**
16:55

**Refractory cardiac arrest**
Speaker: Claudio Sandroni (Rome, Italy)

17:00
Scientific Programme

Discussion 17:15
When to terminate resuscitation? 17:20
Speaker: Theresa Olasveengen (Oslo, Norway)

Discussion 17:35
Cardiac arrest centres: Do they make a difference? 17:40
Speaker: Jerry Nolan (Bath, United Kingdom)

Discussion 17:55

Thematic Session
16:00 - 18:00 Athens

Outcome in...
#outcomes
Chair: Michelle Chew (Malmö, Sweden)
Chair: Elie Azoulay (Paris, France)

... high-risk surgical patients 16:00
Speaker: Michelle Chew (Malmö, Sweden)

Discussion 16:15
... frail patients 16:20
Speaker: Bertrand Guidet (Paris, France)

Discussion 16:35
... intoxicated patients 16:40
Speaker: Dylan de Lange (Utrecht, Netherlands)

Discussion 16:55
... pneumonia patients 17:00
Speaker: Ignacio Martin-Loeches (Dublin, Ireland)

Discussion 17:15
... neutropenic patients 17:20
Speaker: Elie Azoulay (Paris, France)

Discussion 17:35
... ECMO treated patients 17:40
Speaker: Dirk Donker (Utrecht, Netherlands)

Discussion 17:55
Antibiotic PK/PD in the critically ill
#micro
Chair: Barbara Borgatta (Oxford, United Kingdom)
Chair: José Artur Paiva (Porto, Portugal)

**Prolonged infusion of beta-lactam antibiotics**
Speaker: Barbara Borgatta (Oxford, United Kingdom)

**Discussion**

**How to optimise empirical therapy using PK/PD**
Speaker: Fredrik Sjövall (Malmo, Sweden)

**Discussion**

**PK/PD based therapy of MDR infections**
Speaker: Hendrik Bracht (Ulm, Germany)

**Discussion**

**Barriers to applying PK/PD in clinical practice**
Speaker: Pedro Povoa (Lisbon, Portugal)

**Discussion**

**Therapeutic drug monitoring for antibiotics: Finally there?**
Speaker: Jan De Waele (Ghent, Belgium)

**Discussion**

**Antifungal PK/PD: What an intensivist needs to know**
Speaker: Claire Roger (Nimes, France)

**Discussion**

Perioperative quality improvement outside of the ICU
#periop
Chair: Ib Jammer (Bergen, Norway)
Chair: Hannah Wunsch (Toronto, Canada)

**ICU style management outside the ICU**
Speaker: Ib Jammer (Bergen, Norway)

**Discussion**

**Enhanced perioperative care for high-risk surgical patients**
Speaker: Mike Gillies (Edinburgh, United Kingdom)

**Discussion**
Scientific Programme

Postoperative non-invasive ventilation
Speaker: Roland Francis (Berlin, Germany)
Discussion

Individualising perioperative haemodynamic therapy
Speaker: Aarne Feldheiser (Berlin, Germany)
Discussion

The deteriorating patient on the ward: How to rescue
Speaker: Rupert Pearse (London, United Kingdom)
Discussion

Hypoactive delirium: Why should I care?
Speaker: Tarek Sharshar (Paris, France)
Discussion

Thematic Session
16:00 - 18:00

N&AHP research & networking: What's new?
#LIVES2018#rehab

Chair: Carole Boulanger (Exeter, United Kingdom)
Chair: Johannes Mellinghoff (London, United Kingdom)

Palliative care in ICU
Speaker: Freda DeKeyser Ganz (Jerusalem, Israel)
Discussion

Person-centred care: A challenge in daily practice!
Speaker: Margo Van Mol (Rotterdam, Netherlands)
Discussion

Early rehabilitation programs: What’s the evidence saying?
Speaker: Peter Nydahl (Kiel, Germany)
Discussion

Awake or not awake during MV? Psychological Impact
Speaker: Eva Laerkner (Odense C, Denmark)
Discussion

Meet the Team Q&A Speaker
Speaker: Carole Boulanger (Exeter, United Kingdom)

N&AHP Abstract Awards 2018
Networking
Epidemiology & diagnosis of AKI

Chair: Marjel van Dam (Utrecht, Netherlands)
Chair: Patrick Honoré (Brussels, Belgium)

- Hospital-acquired and community-acquired acute kidney injury in critically ill patients with renal replacement therapy requirements: an observational study
  Abstract Presenter: Erika P. Plata-Menchaca (L'Hospitalet de Llobregat, Spain)

- Usefulness of NephroCheck™ test for the therapeutic approach of acute kidney injury in critically ill patients
  Abstract Presenter: Gemma Echarri (Pamplona, Spain)

- Preoperative prediction of acute kidney injury requiring renal replacement therapy after left ventricular assist device implantation: comparison of three clinical risk scores
  Abstract Presenter: Kevin Pilarczyk (Rendsburg, Germany)

- Acute kidney injury after Kasai portoenterostomy for biliary atresia
  Abstract Presenter: Jin Ha Park (Seoul, Korea, Republic of)

- Predicting factors of mortality during the first 24 hours of continuous renal replacement therapy in patients with acute renal injury stage 3 in an intensive care unit
  Abstract Presenter: Norma Elizabeth Carrillo Molina (México, Mexico)

- Acute kidney injury in a medical ICU: a prospective observational study
  Abstract Presenter: Burcin Halacli (Ankara, Turkey)

- Epidemiology study of patients with advanced chronic kidney disease admitted in intensive care
  Abstract Presenter: Maria Guerrero Marin (Jaen, Spain)

- Mortality prediction in patients with severe dialysis - dependent acute kidney injury
  Abstract Presenter: Dalia Adukauskiene (Kaunas, Lithuania)

- Early detection of acute kidney injury in politrauma patients who admitted to the Emergency Department of Dr. Hasan Sadikin Hospital, Bandung, Indonesia
  Abstract Presenter: Tinni Trihartini Maskoen (Bandung, Indonesia)

- Prospective study of patients with acute kidney injury with co-morbidities with respect to their outcomes
  Abstract Presenter: Subhal Dixit (Pune, India)

- Performance of two scales in the detection of renal failure progression and need for renal replacement therapy
  Abstract Presenter: Jorge Cruz Lopez (Mexico, Mexico)

- Urinary TIMP2 and IGFBP7 identifies high risk patients of progression from mild and moderate to severe acute kidney injury during septic shock
  Abstract Presenter: Julien Maizel (Amiens, France)

- Bioelectrical impedance measurements for assessment of kidney function in critically ill patients
  Abstract Presenter: Lutea A.A. van Gendt - de Jong (Apeldoorn, Netherlands)

- Postoperative level of urine neutrophilic gelatinase-associated lipocalin (u-NGAL) can predict acute renal injury, MODS and outcome in cardiovascular surgery patients
  Abstract Presenter: Aleksandr Eremenko (Moscow, Russian Federation)
Scientific Programme

Investigating the association between in-hospital mortality and age in patients receiving continuous veno-venous haemofiltration during their hospital admission
Abstract Presenter: Nicola Raeside (Redhill, United Kingdom)

Descriptive analysis of patients with AKI admitted in ICU
Abstract Presenter: Núria Ramon Coll (Lleida, Spain)

The comparison of urinary kidney injury molecule 1 as a biomarker of renal function to creatinine in critically ill patients under colistin treatment at intensive care units in two referral teaching hospitals
Abstract Presenter: Afsaneh Vazin (Shiraz, Iran, Islamic Republic of)

Poster Corner
16:00 - 18:00

ARDS management
Chair: Fekri Abroug (Monastir, Tunisia)
Chair: Antonio Artigas (Barcelona, Spain)

Bedside ultrasound assessment of lung reaeration in patients receiving veno-venous extracorporeal membrane oxygenation
Abstract Presenter: Lu Xiao (HangZhou, China)

The predictive factors for success of high flow nasal cannula in acute hypoxemic respiratory failure patients in a regional hospital in Hong Kong
Abstract Presenter: Chung-Tat Lun (Hong Kong, Hong Kong, China)

High-flow nasal cannula in adults with acute respiratory failure and after extubation: a systematic review and meta analysis
Abstract Presenter: Zhiheng Xu (Guangzhou, China)

Switch to spontaneous breathing during nearly total extracorporeal CO2 removal: a novel test to assess severity of ARDS patients on ECMO
Abstract Presenter: Elena Spinelli (Milano, Italy)

High flow oxygen therapy for the treatment of acute respiratory failure outside the intensive care unit: feasibility, safety and efficacy
Abstract Presenter: Giacomo Grasselli (Milan, Italy)

Bedside ultrasound assessment of lung reaeration in patients with blunt thoracic injury receiving high-flow nasal cannula therapy: a retrospective study
Abstract Presenter: Lu Xiao (HangZhou, China)

High flow nasal oxygen therapy in patients with acute exacerbations of COPD
Abstract Presenter: Burcin Halaci (Ankara, Turkey)

Pulmonary vasodilators use before ECMO initiation in lung transplantation affects mortality?
Abstract Presenter: Marta López Sánchez (Santander, Spain)

Management of venovenous extracorporeal membrane oxygenation with moderate-target anticoagulation: a retrospective study
Abstract Presenter: Luca Bastia (Monza, Italy)
Scientific Programme

Use of high flow nasal cannula therapy for acute hypoxemic respiratory failure: a review of predictors of success and outcomes
Abstract Presenter: Ken, Jun Yang Goh (Singapore, Singapore)

Use of prone positioning and airway pressure release ventilation (APRV) for patients with acute respiratory distress syndrome (ARDS) in intensive care units in London and the South-East of England
Abstract Presenter: Rohan Dinash Lakhani (Redhill, United Kingdom)

A retrospective observational study of prone positioning practices in the management of acute respiratory distress syndrome (ARDS) over a 2 year period in a single adult district general hospital (DGH) intensive care unit (ICU)
Abstract Presenter: Adaeze Fiona Nwamarah (Surrey, United Kingdom)

Effects of set flow rate on the ROX index in acute hypoxemic respiratory failure patients undergoing high flow therapy
Abstract Presenter: Donatella Tortolani (Ferrara, Italy)

Effects of spontaneous breathing during ECMO in a severe ARDS experimental model
Abstract Presenter: Alejandro Bruhn (Santiago, Chile)

Initial ECCO2R experience in the great Paris area: the REXECOR observatory
Abstract Presenter: Jean Loup Augy (Paris, France)

Physiological evaluation of high flow oxygen therapy versus standard oxygen therapy effects in tracheostomized patients
Abstract Presenter: Rosa Di mussi (Bari, Italy)

Poster Corner
16:00 - 18:00

Advanced haemodynamic monitoring
Chair: Xavier Monnet (Paris, France)
Chair: Simon Vistisen (Aarhus, Denmark)

Follow-up evaluation of patients with heart failure: prognostic role of ambulatory blood pressure monitoring
Abstract Presenter: Ana María González González (Malaga, Spain)

Study of left ventricular diastolic dysfunction in critically chronic obstructive pulmonary disease patients with and without corpulmonale
Abstract Presenter: Osama Momtaz (Fayoum City, Egypt)

Thyrotoxic burden in the ICU and the value of bedside thyroid ultrasound in the diagnosis of thyrotoxicosis and thyrotoxic cardiac emergencies in critically-ill patients
Abstract Presenter: Osama Momtaz (Fayoum City, Egypt)

Fluid challenge definitions and fluid responsiveness: an epidemiological study on passive leg raising
Abstract Presenter: Antonio Messina (Novara, Italy)

Changes in central venous pressure during passive leg raising do not allow predicting preload unresponsiveness in critically ill patients
Abstract Presenter: Corentin Gouëzel (Clamart, France)
**Scientific Programme**

**Optimal atrio-ventricular (AV) interval election in dual-chamber pacemaker implantation by two bedside echocardiographic technics in an intensive care unit**
Abstract Presenter: Olga Moreno Romero (Granada, Spain)

**A modified intracavitary electrocardiographic method to localise the tip of central venous access devices in atrial fibrillation**
Abstract Presenter: Daniele Biasucci (Rome, Italy)

**Routine versus triggered echocardiography in the intensive care unit- an audit of clinical practice**
Abstract Presenter: Olusegun Oladele Olusanya (Aylesbury, United Kingdom)

**Estimation of thermodilution derived cardiac index (CI_{TD}) by combined information from the uncalibrated devices ClearSight, FloTrac and a completely non-invasive assessment of CI (CI_CNI) derived from surface temperatures and biometrics: a prospective observational study**
Abstract Presenter: Wolfgang Huber (Munich, Germany)

**Effects of inspiratory flow waveforms on arterial pulse pressure variation and inferior vena cava distensibility in mechanically ventilated patients: a randomized cross-over study**
Abstract Presenter: Zied Hajjej (Tunis, Tunisia)

**Assessment of 24-hour ambulatory blood pressure monitoring in nonhypertensive patients with chronic heart failure**
Abstract Presenter: Ana María González González (Malaga, Spain)

**Guiding ultrafiltration with echocardiography**
Abstract Presenter: Sharad Patel (Philadelphia, United States)

**Predictive assessment of Baroreflex in the ICU**
Abstract Presenter: Riccardo Barbieri (Milano, Italy)

**Correlation between the measurement of cardiac output by magnetic cardiac pulsepessimeter (PPC) and fick method in critical patients**
Abstract Presenter: Alba Hernández-Gutiérrez (Leon, Mexico)

**Disagreement between FloTrac®/Vigileo® system and BioZ® system for stroke volume variation measurement for determining of fluid administration: a preliminary study**
Abstract Presenter: Seungyong Park (Jeonju, Korea, Republic of)

**Choices of ultrasonographic fluid evaluation measurement methods and their applicability in medical ICU patients**
Abstract Presenter: Burhan Sami Kalın (Ankara, Turkey)

---

**Can we improve our ICU system?**

Chair: Lennie Derde (Utrecht, Netherlands)
Chair: Peter van der Voort (Amsterdam, Netherlands)

**Platelets count and serum calcium could be two important parameter for artificial intelligent decisions in fluid resuscitation**
Abstract Presenter: Zhang Qin (Shanghai, China)
Identification of patients with septic shock using natural language processing on electronic health records
Abstract Presenter: Joris Vermassen (Ghent, Belgium)

Association between postoperative 30-day mortality and night and weekend postoperative admissions to the surgical intensive care unit in a setting with day-time intensivist coverage
Abstract Presenter: JeongPyo Hong (Seongnam, Korea, Republic of)

Visit of minors in an intensive care unit: what do the health personnel believe?
Abstract Presenter: Elia Calvet Gonzalez (Terrassa, Spain)

Are machine learning techniques better suited for outcome prediction than classic statistical methods?
Abstract Presenter: Niklas Keller (Berlin, Germany)

Can quadriceps femoris muscle thickness measured by ultrasonography predict fluid and malnutrition status in critically ill patient?
Abstract Presenter: Uğur Özdemir (Ankara, Turkey)

Prospective study of optic nerve sheath diameter by ocular ultrasonography in adult Indian patients admitted to ICU
Abstract Presenter: Subhal Dixit (Pune, India)

UltraNurse: teaching bedside ultrasound to ICU nurses
Abstract Presenter: Amy Morreale-Tulleken (Amsterdam, Netherlands)

The additional value of strain imaging to detect right ventricular dysfunction in critically ill patients: a sub-study of the Simple Intensive Care Studies-I
Abstract Presenter: M.E. Vos (Groningen, Netherlands)

Diagnostic performance of the BLUE-lung ultrasound protocol in critically ill patients undergoing thoracic CT: a prospective observational study
Abstract Presenter: Mark Evert Haaksma (Amsterdam, Netherlands)

Development of an intensive care advanced echo course
Abstract Presenter: Jonathan Aron (London, United Kingdom)

Comparison of bedside ultrasound with Chest X-ray to detect CVC related mechanical complications: a prospective observational study (COMBUX-study)
Abstract Presenter: Jasper Martijn Smit (Amsterdam, Netherlands)

Comparison between percutaneous drainage and open surgery for acute pancreatitis in intensive care medicine. Which is the best option?
Abstract Presenter: Natalia Mejuto Montero (A Coruña, Spain)

Chest sonography in intensive care unit (ICU): comparison of computerized scanning findings with sonographing findings performed by intensivist and radiologist in patients with pleural effusion
Abstract Presenter: Behzad Maghsoudi (Shiraz, Iran, Islamic Republic of)

Monobacterial versus polibacterial multidrug-resistant A.baumannii ventilator-associated pneumonia: prognostic factors of mortality
Abstract Presenter: Ausra Ciginskiene (Kaunas, Lithuania)
Scientific Programme

Poster Corner
16:00 - 18:00

Making the best of antibiotic use
Chair: Marc Leone (Marseille, France)
Chair: Saad Nseir (Lille, France)

- Impact of AST meetings on antimicrobial therapy decisions in the ICU
  [Abstract Presenter: Sofie Dhaese (Ghent, Belgium)]

- Bactericidal effects of telavancin in comparison with linezolid for the treatment of severe MRSA pneumonia: an experimental study
  [Abstract Presenter: Andrea Meli (Milan, Italy)]

- Clinical impact of an Antimicrobial Stewardship Program in critical patients based on early antibiotic adequacy
  [Abstract Presenter: Filipe Sousa Amado (São Luís, Brazil)]

- Postoperative intra-abdominal infections with positive cultures of staphylococci: epidemiology, clinical relevance and prognosis
  [Abstract Presenter: Philippe Montravers (Paris, France)]

- Incidence and time dependence of inadequate and supratherapeutic vancomycin levels in critically ill: a retrospective study
  [Abstract Presenter: J.E. van der Mast (Groningen, Netherlands)]

- Prevalence and role of respiratory viruses in ICU patients with community acquired-pneumonia (CAP): a one-year retrospective single center study
  [Abstract Presenter: Marion Giry (Rouen, France)]

- Risk factors for multiresistant bacterias in critical patients. Are there differences between the previous acquisition or during the stay in ICU?
  [Abstract Presenter: Mercedes Palomar (Lleida, Spain)]

- Diagnostic performance of a rapid detection test (PCR) for multiresistant bacteria (MRB) in patients admitted to the ICU
  [Abstract Presenter: Antonio Carranza Pinel (Granada, Spain)]

- Bronchial colonization from multidrug-resistant pathogens and ventilator-associated pneumonia in ICU during a 3-years period. Preventive measures and innovation
  [Abstract Presenter: Antigoni Karathanou (Volos, Greece)]

- Does dosing of ceftriaxone in critically ill patients on ECMO need to change? A pharmacokinetics study
  [Abstract Presenter: Vesa Cheng (Brisbane, Australia)]

- The first experience of targeted antibiotics for the regulation of the metabolic activity of the gut microbiota (MAGM) in critically ill patients with pneumonia or abdominal infection
  [Abstract Presenter: Natalia Beloborodova (Moscow, Russian Federation)]

- Appropriate empirical antibiotic treatment rate in multirresistant ESKAPE bacteria in a critical care unit
  [Abstract Presenter: Olga Moreno Romero (Granada, Spain)]

- Effects of antibiotic prophylaxis on ventilator-associated pneumonia in severe traumatic brain injury. A post hoc analysis of two trials
  [Abstract Presenter: Florian Reizine (Rennes, France)]
Scientific Programme

The effects of intervention by a ward pharmacist on vancomycin blood level control in the emergency medical center
Abstract Presenter: Koichi Takahashi (Kita, Japan)

Antifungal treatment in peritonitis: do we need it?
Abstract Presenter: Susana Mendes Fernandes (Lisboa, Portugal)

Target controlled infusion for dose optimization of cefepime in critically ill patients
Abstract Presenter: Arthur Grigoryan (Aalst, Belgium)

Rehabilitation & outcomes

Hygiene and safety for both your patient and yourself: how to improve the compliance with three of the five moments of hand hygiene on the ICC unit of the VU Medical Centre?
Abstract Presenter: Reina Al (Amsterdam, Netherlands)

Effects on oral intake by supporting HDU patients with a nutrition assistant
Abstract Presenter: Anna J. M. Dobber-Lambalk (Amsterdam, Netherlands)

Short-term and long-term impact of training for ICU nurses on incompatibilities and drug interactions
Abstract Presenter: Mohamed Sabri Kochat (Sousse, Tunisia)

Predictors and outcomes of delirium within a multi-specialty United kingdom based ICU: a single centre retrospective cohort study
Abstract Presenter: David McWilliams (Birmingham, United Kingdom)

Current situation of rehabilitation in a polyvalent ICU before the implementation of a program of early mobilization
Abstract Presenter: Maria del Mar Fernandez (Barcelona, Spain)

Worldwide qualitative investigation of nursing after death rituals
Abstract Presenter: Julie Benbenishty (Jerusalem, Israel)

Freedom from physical restraints in ICU: result from a scoping review
Abstract Presenter: Elisa Mattiussi (Udine, Italy)

The effect of an informatics system on use of informal/ad hoc critical care nursing notes as an adjunct to formal systems of communication, work flow support and documentation in a central London teaching hospital
Abstract Presenter: Harriet Rook (London, United Kingdom)

Sedation assessment and management in ICUs in Australia and England
Abstract Presenter: Ruth Endacott (Plymouth, United Kingdom)

Early mobilisation of critically ill patients in Singapore - a quality improvement project
Abstract Presenter: Diana Sani (Singapore, Singapore)
Scientific Programme

**Trauma outcome - quality of life, Injury perception, dream recall and symptom severity over time trajectory from 2 weeks to 5 years post hospital discharge**
Abstract Presenter: Julie Benbenishty (Jerusalem, Israel)

**Better estimation of height in ICU is essential for effective lung protective ventilation**
Abstract Presenter: Victoria Edwards* (Oxford, United Kingdom)

**Physiotherapy outcome measure use on adult intensive care units in the United Kingdom (UK)**
Abstract Presenter: Claire Purkiss (London, United Kingdom)

**Does functional ability improve for patients in the intensive care unit (ICU) with a structural physiotherapy indication using the patient mobility framework (PMF) protocol?**
Abstract Presenter: Niamh L O’Sullivan (Rotterdam, Netherlands)

**The benefits of a specialist physiotherapist in ICU rehabilitation clinic**
Abstract Presenter: Victoria Robinson (Kingston Upon Thames, United Kingdom)

**Interactive gaming for evaluating dysphagia in ICU patients**
Abstract Presenter: Jonneke Lut (Apeldoorn, Netherlands)

Pearls in Neurocritical Care

Chair: Mauro Oddo (Lausanne, Switzerland)
Chair: Pierre Bouzat (Grenoble, France)

**Using of dexmedetomidine in term neonates with hypoxic-ischemic encephalopathy**
Abstract Presenter: Denys Surkov (Dnipro, Ukraine)

**The use of automated pupillometry to assess cerebral autoregulation**
Abstract Presenter: Armin Alvaro Quispe-Cornejo (Brussels, Belgium)

**N-terminal pro-brain natriuretic peptide as a bio-marker of the acute brain injury**
Abstract Presenter: Liubov Tsentsiper (St-Petersburg, Russian Federation)

**Multicenter retrospective study of early in-ICU anesthetic drugs’ management in convulsive status epilepticus**
Abstract Presenter: Sinéad Zeidan (Paris, France)

**Validation of a new clinical tool to help diagnose Minimally Conscious State patients: the Disorders of Consciousness [DoC] - feeling scale**
Abstract Presenter: Bertrand Hermann (Paris, France)

**Is impairment similar between upper and lower limbs measured using ultrasonography in critically ill traumatic brain injury patients**
Abstract Presenter: Vinicius Maldaner (Brasília, Brazil)

**A comparison of mortality with hypertonic saline versus mannitol in severe traumatic brain injury - The TBI Collaborative**
Abstract Presenter: James Anstey (Melbourne, Australia)
Scientific Programme

Inspiratory muscular training in non-collaborative patients using mechanical ventilation in the ICU
Abstract Presenter: Priscilla Melo (Brasilia, Brazil)

A prognostic prediction model for critically ill patients with status epilepticus
Abstract Presenter: Jamil Cedeño Mora (Madrid, Spain)

Effects of acute subdural hematoma on cerebral mitochondrial respiration in a porcine resuscitated model
Abstract Presenter: Tamara Merz (Ulm, Germany)

Neurophysiological fluctuations in patients with disorders of consciousness impact conscious processing
Abstract Presenter: Pauline Perez (Paris, France)

Intra- and postoperative effects of remifentanil and fentanyl infusion in patients with elective brain tumour surgery
Abstract Presenter: Dragana Loncar Stojiljkovic (Belgrade, Serbia)

Assessment of quality measures after implementation of treatment guidelines with an electronic health record order set for the treatment of status epilepticus: a single center experience
Abstract Presenter: Keaton S Smetana (Columbus, United States)

Piperacillin concentrations and neurological toxicity in septic patients
Abstract Presenter: Federica Montanaro (Bruxelles, Belgium)

Evaluation of the diameter of the optic nerve in patients with TBI and its correlation with intracranial pressure
Abstract Presenter: Juan Francisco Martínez Carmona (Málaga, Spain)

Systemic hemodynamics and lung mechanics during increased positive end-expiratory pressure levels in critically ill neurosurgical patients with different baseline intracranial pressure levels
Abstract Presenter: Alexander Solodov (Moscow, Russian Federation)

Cardiac arrest - Aspects before and after ROSC
Chair: Cornelia Genbrugge (Genk, Belgium)
Chair: Jacob Steinmetz (Copenhagen, Denmark)

Effect of hypertension across the age group on survival outcomes in out-of-hospital cardiac arrest
Abstract Presenter: Ryu Hyunho (Gwangju, Korea, Republic of)

Perioperative cardiac arrest & major non cardiac surgery admitting to the general surgical ICU
Abstract Presenter: Suneerat Kongsayreepong (Bangkok, Thailand)

Oxygen and carbon dioxide in patients after cardiac arrest
Abstract Presenter: Lorenzo Peluso (Bruxelles, Belgium)
Scientific Programme

Urine biomarkers may early predict acute kidney injury and outcome after out-of-hospital cardiac arrest
Abstract Presenter: Sigrid Beitland (Oslo, Norway)

Transcranial doppler flow pattern during and after target temperature management for outcome prediction after out-of-hospital cardiac arrest
Abstract Presenter: Antje Reichenbach (Lørenskog, Norway)

The clinical outcome of patients with refractory cardiac arrest treated with extracorporeal cardiopulmonary resuscitation
Abstract Presenter: Andreas Krüger (Prague, Czech Republic)

ICU characteristics and outcome after cardiac arrest in patients ≥ 90 years old
Abstract Presenter: Kevin Roedl (Hamburg, Germany)

Dynamic changes in coagulation and fibrinolysis during percutaneous cardiopulmonary support in patients after out-of-hospital cardiac arrest
Abstract Presenter: Takumi Tsuchida (Sapporo-shi, Hokkaido, Japan)

Neuron specific enolase as a prognostic biomarker after cardiac arrest
Abstract Presenter: Jennifer Worthy (Brighton, United Kingdom)

Clinical neurological examination in prediction of late outcome after cardiac arrest - the Neuro-NORCAST sub-study
Abstract Presenter: Julia Henriksen (Oslo, Norway)

Optic nerve sheath diameter measured using early unenhanced brain computed tomography shows no correlation with neurological outcomes in patients undergoing targeted temperature management after cardiac arrest
Abstract Presenter: Dong Hoon Lee (Seoul, Korea, Republic of)

Prolonged transport of patients after out-hospital cardiac arrest (OHCA) primarily to regional cardiac arrest center (CAC) doesn’t affect initial hemodynamic parameters and outcomes
Abstract Presenter: Jiri Karasek (Liberec, Czech Republic)

“School of relatives”, basic CPR training for laymen. Where do we start?
Abstract Presenter: Jesús Priego Sanz (Ourense, Spain)

“School of relatives”, basic CPR training for laymen. How much and what do our attendants remain?
Abstract Presenter: Jesús Priego Sanz (Ourense, Spain)

Streamlined infrastructure reduces time-to-extracorporeal life support for in-hospital cardiac arrest
Abstract Presenter: Martje Martha Suverein (Maastricht, Netherlands)

What happens after cardiorespiratory arrest? Description of the neurological population and prognosis
Abstract Presenter: Esmoris Arijon Ines (A CORUÑA, Spain)

Tech Lounge
16:00 - 16:15

Break-Networking-Brainstorming
31st Annual Congress of the European Society of Intensive Care Medicine, 20 - 24 October 2018, Paris, France

**NEXT Challenging debate**  
#ESICMNEXT  
Chair: Nishkantha Arulkumaran (London, United Kingdom)

- **Overtreatment and staff burnout**  
  Speaker: Ruth Kleinpell (Chicago, United States)  
  Speaker: Dominique Benoit (Ghent, Belgium)

**Tech Lounge**  
16:15 - 17:30

**Roundtable expert discussion: Telemedicine models in European ICUs - Why & how?**  
#tech  
Chair: Marius Terblanche (London, United Kingdom)  
Chair: Theodoros Kyprianou (Nicosia, Cyprus)

- **What has telemedicine ever done for us?**  
  Speaker: Marius Terblanche (London, United Kingdom)

- **A safety net, or a lever for change?**  
  Speaker: Robert Gatherer (London, United Kingdom)

- **Communication between remote teams: Doing it well, and doing it badly**  
  Speaker: Theomary Karamanis (New York, United States)

- **Making the financial case**  
  Speaker: Richard Beale (London, United Kingdom)

- **Discussion**

**Arena**  
16:40 - 17:50

**Cardiovascular dynamics**

Chair: Jean-Louis Teboul (Kremlin-Bicetre, France)  
Chair: Sheila Nainan Myatra (Mumbai, India)

- **Biological scoring system for early prediction of acute bowel ischemia after cardiac surgery: the PALM score**  
  Abstract Presenter: Elie Zogheib (Amiens, France)

- **Clinical and epidemiological characteristics of acute heart failure in the critically ill patient (ICACU study group)**  
  Abstract Presenter: Maria Consuelo Guia (Sabadell, Spain)

- **Effects of adjustment of blood flow of venoarterial extracorporeal membrane oxygenation life support on microcirculation**  
  Abstract Presenter: Tzu Jung Wei (Taipei, Taiwan, Province of China)
**Scientific Programme**

**Dynamic assessment of fluid challenge in critically ill patients**  
Abstract Presenter: Antonio Messina (Novara, Italy)

**Systemic and tissue response to fluid challenge**  
Abstract Presenter: Paolo De Santis (Brussels, Belgium)

**Differences in EVLWi’s behaviour among survivors and not survivors critically ill patients in a mexican intensive care unit**  
Abstract Presenter: Mario Arturo Carrasco Flores (Mexico City, Mexico)

**Acute heart failure treatment in critically ill patients**  
Abstract Presenter: Rocio Gomez (Pontevedra, Spain)

**The values from continual monitoring of arterial dP/dt max correlate with left ventricular contractility assessed by echocardiography in patients with advanced heart failure**  
Abstract Presenter: Dagmar Vondrakova (Prague, Czech Republic)

**Fluid responsiveness depend on arterial load and vasopressor use in ICU patients**  
Abstract Presenter: Maxime Nguyen (Dijon, France)

**Model based estimation of instability severity level in continuously monitored patients**  
Abstract Presenter: Marilyn Hravnak (Pittsburgh, United States)

---

**Interactive Debates**

16:45 - 17:45

**The ideal workplace is just a dream**

#ethic

You know what your ideal workplace looks like; you can name staffing requirements; you can draw a sketch of the ideal ICU building

Chair: Rik Gerritsen (Leeuwarden, Netherlands)

**Debate**  
16:45

Speaker: Victoria Metaxa (London, United Kingdom)  
Speaker: Freda DeKeyser Ganz (Jerusalem, Israel)  
Speaker: Adrian Wong (London, United Kingdom)

---

Scientific Programme

Tuesday, 23 October 2018

Keynote Lecture
08:00 - 08:20

**ARDS phenotyping: A new era for clinical trials?**

Chair: Antonio Pesenti (Milan, Italy)

**Presentation** 08:00
Speaker: Carolyn Calfee (San Francisco, United States)

Thematic Session
08:30 - 09:30

**Advanced life support**

Chair: Alain Cariou (Paris, France)
Chair: Markus Skrifvars (Helsinki, Finland)

**Airway management** 08:30
Speaker: Jerry Nolan (Bath, United Kingdom)

**Discussion** 08:45

**NIRS and ETCO2 during resuscitation** 08:50
Speaker: Cornelia Genbrugge (Genk, Belgium)

**Discussion** 09:05

**Vasopressors and antiarrhythmics** 09:10
Speaker: Theresa Olasveengen (Oslo, Norway)

**Discussion** 09:25

Thematic Session
08:30 - 09:30

**CNS infections**

Chair: Geert Meyfroidt (Leuven, Belgium)
Chair: Giuseppe Citerio (Monza, Italy)

**Infection of the central nervous system: what's new** 08:30
Speaker: Lara Prisco (Oxford, United Kingdom)

**Discussion** 08:45
Scientific Programme

How to abolish EVD associated infection
Speaker: Raimund Helbok (Innsbruck, Austria)

08:50

Discussion

09:05

Management of cerebral complications of endocarditis
Speaker: Romain Sonneville (Paris, France)

09:10

Discussion

09:25

Thematic Session
08:30 - 09:30
Lisbon

Too old for the ICU!

#outcomes
Chair: Bertrand Guidet (Paris, France)
Chair: Hans Flaatten (Bergen, Norway)

Predicting futility in elderly patients
Speaker: Dylan de Lange (Utrecht, Netherlands)

08:30

Discussion

08:45

Can we select elderly patients that survive ICU
Speaker: Bertrand Guidet (Paris, France)

08:50

Discussion

09:05

Healthcare associated costs associated with elderly
Speaker: Rui Paulo Moreno (Lisbon, Portugal)

09:10

Discussion

09:25

Thematic Session
08:30 - 09:30
Vienna

New insights on glycaemic control

#metabolic
Chair: Valentin Fuhrmann (Hamburg, Germany)
Chair: Karim Asehnoune (Nantes, France)

Continuous monitoring
Speaker: Karim Asehnoune (Nantes, France)

08:30

Discussion

08:45

Individualised targets
Speaker: Mette Berger (Lausanne, Switzerland)

08:50

Discussion

09:05
Scientific Programme

Assessment of performance
Speaker: Jean-Charles Preiser (Brussels, Belgium)
Discussion

09:10

09:25

Thematic Session
08:30 - 09:30
Glasgow

Interdisciplinary working & learning: How to get together
#LIVES2018

Chair: Johannes Mellinghoff (London, United Kingdom)
Chair: Margo Van Mol (Rotterdam, Netherlands)

Ingredients to create chemistry: Is IT the solution?
Speaker: Pascale Gruber (London, United Kingdom)
Discussion

08:30

08:45

08:30

08:45

08:50

09:05

09:25

Free speech? M&M meetings exposed!
Speaker: Anne-Sophie Debue (Paris, France)
Discussion

Professional identity in advanced roles: Where do I belong?
Speaker: Carole Boulanger (Exeter, United Kingdom)
Discussion

Interactive Debates
08:30 - 09:30

Interactive Debates

Nutrition: The sooner the better?
#metabolic

Does data from the literature support utilising early nutrition in critically ill patients? What is the most appropriate delay of initiative nutrition in ICU?

Chair: Todd Rice (Nashville, United States)

Debate
08:30

Speaker: Annika Reintam Blaser (Tartu, Estonia)
Speaker: Michael Hiesmayr (Vienna, Austria)
Speaker: Jan Wernerman (Stockholm, Sweden)
Scientific Programme

Clinical Challenges Session
08:40 - 09:30
How do I manage haemodynamics in the ventilated patient?
#cardio
Chair: Michael Pinsky (Pittsburgh, United States)
Presentation
Speaker: Jean-Louis Teboul (Kremlin-Bicetre, France)

Clinical Challenges Session
08:40 - 09:30
How do I manage a very agitated patient?
#outcomes
Chair: Geeta Mehta (Toronto, Canada)
Presentation
Speaker: Arjen Slooter (Utrecht, Netherlands)

Clinical Challenges Session
08:40 - 09:30
How do I identify the pathogenic microorganisms in septic patients early?
#sepsis
Chair: Jan De Waele (Ghent, Belgium)
Presentation
Speaker: Michael Bauer (Jena, Germany)

Clinical Challenges Session
08:40 - 09:30
How do I use antibiotics in obese patients?
#micro
Chair: Jean Chastre (Paris, France)
Presentation
Speaker: Jeffrey Lipman (Brisbane, Australia)
Clinical Challenges Session
08:40 - 09:30 Athens

How do I diagnose & manage vasculitis in ICU?
#renal
Intended for the non-systemic disease specialist.
Chair: Michael Joannidis (Innsbruck, Austria)

Presentation
Speaker: Marlies Ostermann (London, United Kingdom)

Tech Lounge
09:00 - 09:50 Tech Lounge

Machine learning & deep networks: An introduction
#tech
Chair: Cecilia Akerlund (Stockholm, Sweden)
Chair: Robert Gatherer (London, United Kingdom)

Artificial intelligence and machine learning - An overview 09:00
Speaker: Ari Ercole (Cambridge, United Kingdom)

Creating a predictive deep network - An introduction 09:25
Speaker: Marius Terblanche (London, United Kingdom)

NEXT Lounge
09:00 - 10:00 NEXT Lounge

NEXT Blackboard Lecture
#ESICMNEXT
Chair: Bernardo Bollen Pinto (Geneva, Switzerland)
Chair: Brijesh Patel (London, United Kingdom)

Understanding acute brain injury in critical illness 09:00
Speaker: Wes Ely (Nashville, United States)

Arena
09:10 - 10:20 Arena

Sepsis: From genetics to therapeutics
Chair: Richard Beale (London, United Kingdom)
Chair: Mitchell Levy (Providence, United States)

Vasopressin versus norepinephrine for the management of septic shock
in cancer patients (VANCS II)
Abstract Presenter: Ludhmila Hajjar (Sao Paulo, Brazil)
Scientific Programme

Relationship between time to positivity of blood culture and mortality according to the site of infection
Abstract Presenter: Young Woo Um (Seongnam, Korea, Republic of)

Obstructive sleep apnea increases risk of sepsis, but with improved survival
Abstract Presenter: Augustine Lee (Jacksonville, United States)

The effect of antibiotics duration on mortality and infectious complications in critically-ill septic patients - a meta-analysis
Abstract Presenter: Muska Khpal (London, United Kingdom)

A prospective and external validation of quick sequential organ failure assessment versus systemic inflammatory response syndrome criteria in patients with suspected infection in the emergency department
Abstract Presenter: Atsushi Shiraishi (Kamogawa, Japan)

Combining procalcitonin with the quick SOFA score improves sepsis mortality prediction
Abstract Presenter: Chien-Chang Lee (Taipei, Taiwan, Province of China)

The effects of human chorionic gonadotropin hormone-derivative EA-230 on the systemic inflammatory response and renal function following on-pump cardiac surgery, a randomized double-blind placebo-controlled phase II study
Abstract Presenter: Roger van Groenendael (Nijmegen, Netherlands)

Epigenome-wide DNA methylation profiling of sepsis
Abstract Presenter: Alexandra Binnie (Faro, Portugal)

Performance-based assessment of capillary leak index as mortality predictor in septic patients
Abstract Presenter: Paul Palacios Moguel (Mexico City, Mexico)

Clinical usefulness of modified CRB-65 score compared to SIRS and qSOFA as a screening tool for sepsis in initial emergency department: a propensity score matching study
Abstract Presenter: Hyunjoo Oh (Jeju-si, Korea, Republic of)

Simulation Centre
09:15 - 10:15

Mechanical ventilation area

Case scenario - Measurement of respiratory mechanics at the bedside: From basics to advanced
Speaker: Lise Piquilloud (Lausanne, Switzerland)
Speaker: Alain Mercat (Angers, France)
Simulation Centre
09:15 - 10:15
Simulation Centre - TEE/TOE Area

**TEE/TOE area**

#cardio

**Hands-on**
Speaker: Filippo Sanfilippo (Catania, Italy)
Speaker: Michelle Chew (Malmö, Sweden)

Simulation Centre
09:15 - 10:45
Simulation Centre - Basics of Bronchoscopy in ICU Area

**Basics of bronchoscopy in ICU area**

#lung

**Hands-on**
Speaker: Sheila Nainan Myatra (Mumbai, India)
Speaker: Cristina Santonocito (Palermo, Italy)
Speaker: Massimo Antonelli (Rome, Italy)

Simulation Centre
09:15 - 10:45
Simulation Centre - ECMO Area

**ECMO area**

#cardio

**Hands-on**
Speaker: Emric Besnard (Paris, France)
Speaker: Hugo Guillou (Paris, France)
Speaker: Sabine Valera (Marseille, France)
Speaker: Dinis Reis Miranda (Groningen, Netherlands)
Speaker: Anne-Sophie Lequeuix (Paris, France)

Oral Presentations
09:40 - 10:55
Paris

**Abstract award winning session**

| #LIVES2018 |
|------------|
| Chair: Maurizio Cecconi (Milan, Italy) |
| Chair: Armand Girbes (Amsterdam, Netherlands) |
Scientific Programme

Comparison of two opposite strategies of weaning: high vs. low work of breathing: a multicentre randomised controlled trial
Abstract Presenter: Carles Subirà (Manresa, Spain) 09:40

Targeting low-normal vs. high-normal carbon dioxide after cardiac arrest and resuscitation: a randomized pilot trial (NCT02698917)
Abstract Presenter: Pekka Jakkula (Helsinki, Finland) 09:55

Target attainment of empirically dosed continuous infusion of piperacillin/tazobactam and meropenem in critically ill patients
Abstract Presenter: Sofie Dhaese (Ghent, Belgium) 10:10

Translational studies into the immunomodulatory effects of norepinephrine and alternative vasopressors
Abstract Presenter: Roeland Stolk (Nijmegen, Netherlands) 10:25

Painful intensive care unit (ICU) stay reported by ICU survivors: influence of chest tube removal, intrahospital transport, and other events occurring during the stay in the ICU
Abstract Presenter: Pierre Kalfon (Chartres, France) 10:40

Oral Presentations
09:40 - 10:55

Sepsis identification & prognosis
Chair: John Marshall (Toronto, Canada)
Chair: Laura Evans (New York, United States)

Association of septic shock definitions and standardized mortality ratio in a contemporary cohort of critically ill patients
Abstract Presenter: Phillipe Bauer (Rochester, United States) 09:40

Hospital pre-alerting in a cohort of potentially septic patients brought into the emergency department by ambulance, is associated with more rapid delivery of antibiotics and improvement in physiological parameters at hospital admission
Abstract Presenter: Duncan Hargreaves (Worthing, United Kingdom) 09:55

Diagnostic accuracy of a novel multiplex real-time PCR on whole blood for pathogen identification in critically ill patients with presumed sepsis
Abstract Presenter: Kirsten van de Groep (Utrecht, Netherlands) 10:10

Role of Interleukin-6 on critically ill patients outcome: a post-hoc analysis of the FROG-ICU study
Abstract Presenter: Benjamin Glenn Chousterman (Paris, France) 10:25

Global trends in sepsis mortality between 1985 and 2015: a temporal analysis of the WHO mortality database
Abstract Presenter: Justin Salciccioli (Cambridge, United States) 10:40
### Oral Presentations

#### Barcelona

**Mechanical ventilation monitoring**

Chair: Giacomo Bellani (Monza, Italy)
Chair: Carolyn Calfee (San Francisco, United States)

| Time  | Title                                                                 | Abstract Presenter                      |
|-------|-----------------------------------------------------------------------|----------------------------------------|
| 09:40 | Transpulmonary pressures measurements as a mean to optimize mechanical ventilation in an unique series of patients combining ARDS and very severe morbid obesity | Damien Vimpere (Paris, France)          |
| 09:55 | Early changes of end expiratory lung volume and lung strain predict lung collapse after PEEP decrement in recovering ARDS patients | Napplika Kongpolprom (Pathumwan, Thailand) |
| 10:10 | Diaphragmatic Tissue Doppler Imaging: a new technique to evaluate diaphragmatic dysfunction? A preliminary study | Eleni Soilemezi (Thessaloniki, Greece) |
| 10:25 | Effects of timing of tracheostomy on mortality in a heterogeneous population of critically ill patients admitted to Italian ICUs | Massimiliano Greco (Rozzano, Italy) |
| 10:40 | Assessment of reverse triggering during mechanical ventilation: validation of an automatic detection software | Tai Pham (Toronto, Canada) |

#### Geneva

**Neurocritical Care**

Chair: Fabio Silvio Taccone (Brussels, Belgium)
Chair: Victoria McCredie (Toronto, Canada)

| Time  | Title                                                                 | Abstract Presenter                      |
|-------|-----------------------------------------------------------------------|----------------------------------------|
| 09:40 | Cerebral ketone metabolism at the acute phase of traumatic brain injury in humans: implications for glycemic and nutritional control | Adriano Bernini (Lausanne, Switzerland) |
| 09:55 | Results of the implementation of a protocol and clinical pathway for the cerebral reperfusion of the acute ischemic stroke | Josep Trenado Alvarez (Terrassa, Spain) |
| 10:10 | Imaging predictors of early recovery of consciousness after intracerebral hemorrhage | Benjamin Rohaut (New York, United States) |
| 10:25 | Neurological symptoms in cirrhotic patients in ICU: hepatic or drug-induced encephalopathy? a metabolomic study | Nicolas Weiss (Paris, France) |
| 10:40 | Impact of tolvaptan on osmolar efficacy of hypertonic saline in severe traumatic brain injury: a single centric, prospective, double blind, investigator initiated, randomized controlled clinical trial | Badri Prasad Das (Varanasi, India) |
Scientific Programme

Oral Presentations
09:40 - 10:55

Delirium biomarkers and treatment

Chair: Roland Francis (Berlin, Germany)
Chair: Stijn Blot (Ghent, Belgium)

Reduction effect of ramelteon, a melatonin receptor agonist, for delirium in ICU patients: a subgroup analysis from MELIt trial
Abstract Presenter: Yuma Yasuda (Nagoya city, Japan) 09:40

Serum orexin-A concentration and acute brain dysfunction in critically ill patients
Abstract Presenter: Jun Oto (Tokushima, Japan) 09:55

Haloperidol serum concentrations in critically ill patients included in the REDUCE study
Abstract Presenter: Anne van Schijndel (Amsterdam, Netherlands) 10:10

Pharmacological interventions for the treatment of delirium in critically ill patients: a network meta analysis
Abstract Presenter: Lisa Burry (Toronto, Canada) 10:25

Efficacy of dexmedetomidine in reducing duration of mechanical ventilation in patients with severe burn injury
Abstract Presenter: Athina Lavrentieva (Thessaloniki, Greece) 10:40

Oral Presentations
09:40 - 10:55

Stockholm

Weaning from mechanical ventilation: New ideas

Chair: Leo Heunks (Neimegen, Netherlands)
Chair: Laurent Brochard (Toronto, Canada)

The Weaning score to predict duration of weaning from readiness to extubation
Abstract Presenter: Martin Dres (Paris, France) 09:40

The effects of pressure support and proportional assist ventilation on metabolic parameters during weaning
Abstract Presenter: Murat Arslan (Izmir, Turkey) 09:55

Sleep depth before a weaning test from mechanical ventilation
Abstract Presenter: Martin Dres (Paris, France) 10:10

Indices of diaphragm ultrasound during voluntary cough and extubation outcome: an interim report
Abstract Presenter: Takushi Santanda (Chiba, Urayasu city, Japan) 10:25

Ventilator-induced diaphragm dysfunction in brain-dead and Maastricht III donors
Abstract Presenter: Irene Dot Jordana (Barcelona, Spain) 10:40
Scientific Programme

Oral Presentations
09:40 - 10:55

Preventive strategies in critical care infections

Chair: Paula Ramirez (Valencia, Spain)
Chair: Jean-François Timsit (Paris, France)

Impact of enteral nutrition on microaspiration of gastric contents in intubated critically ill patients with shock: a planned ancillary study of a randomized controlled trial
Abstract Presenter: Saad Nseir (Lille, France)

Impact of selective digestive decontamination on nosocomial infections and multiresistant bacteria in two intensive care units: one with versus another without selective digestive decontamination
Abstract Presenter: Catalina Sánchez Ramírez (Las Palmas de Gran Canaria, Spain)

Influence of tracheostomies, sub-glottic suction endotracheal tubes and routine chlorhexidine on the rate of suspected ventilator-associated pneumonia in Scottish intensive care units
Abstract Presenter: Robert Hart (Glasgow, United Kingdom)

The introduction of a policy of chlorhexidine washing is not associated with a reduction in rates of intensive care associated bloodstream infections, blood culture contamination, and colonisation or infection with multidrug-resistant microorganisms: an interrupted time series analysis
Abstract Presenter: Frank van Haren (Canberra, Australia)

Value of semi-quantitative throat and rectal swabs to predict ESBL-VAP in ESBL carriers: a prospective cohort study
Abstract Presenter: Olivier Andremont (Paris, France)

Outcomes in critical illness

Chair: Derek Angus (Pittsburgh, United States)
Chair: Arjen Slooter (Utrecht, Netherlands)

Memories: what the patient remembers after ICU discharge
Abstract Presenter: Amaury Cesar Jorge (Cascavel, Brazil)

Moral Distress, Burnout, and Coping among Intensive Care Professionals in Japanese ICUs
Abstract Presenter: Tomoko Fujii (Kyoto, Japan)

Association between delirium in the ICU and post-ICU functional dependency status
Abstract Presenter: Amaury Cesar Jorge (Cascavel, Brazil)

Evaluation of sleep architecture in patients recovering from critical care illness (CCI) in intensive care unit (ICU) and step down unit (SDU)
Abstract Presenter: Brijesh Prajapat (Rohtak, India)
Scientific Programme

**Long-term developmental effects of withholding parenteral nutrition in PICU**
Abstract Presenter: Sören Verstraete (Leuven, Belgium)

**Monitoring in sepsis**

Chair: Bruno Levy (Vandoeuvre les Nancy, France)
Chair: Antonio Artigas (Barcelona, Spain)

- *Early identification of the microorganism causing bacteremia by metabolomic study in urine of patients diagnosed with sepsis and septic shock*
  Abstract Presenter: Francisco Jose Rosa (Valencia, Spain)

- *Neuroimaging findings in sepsis-induced brain dysfunction: association with clinical and laboratory findings*
  Abstract Presenter: Gunseli Orhun (İstanbul, Turkey)

- *Defining optimal dosing of ciprofloxacin in patients with septic shock*
  Abstract Presenter: Fredrik Sjövall (Malmo, Sweden)

- *Evaluating the response to volume administration in septic shock patients. Time to move from the Frank-Starling “Responder”?*
  Abstract Presenter: Jaume Mesquida (Sabadell, Spain)

- *Utility of brain natriuretic peptide levels to predict left ventricular systolic dysfunction in septic patients admitted to the intensive care unit*
  Abstract Presenter: David Pérez-Torres (Valladolid, Spain)

**Improving quality and ICU outcomes**

Chair: Bertrand Guidet (Paris, France)
Chair: Rik Gerritsen (Leeuwarden, Netherlands)

- *Less is more: "Not to do" recommendations in the intensive care unit*
  Abstract Presenter: M. Dolores Bosque (Sant Cugat del Vallés, Spain)

- *Association between aging and the prevalence of systemic inflammatory response syndrome (SIRS) signs in patients admitted to the ICU with severe infection: a retrospective cohort study*
  Abstract Presenter: Fernando Zampieri (São Paulo, Brazil)

- *A nudge to improve protective lung ventilation strategies*
  Abstract Presenter: Luke Hodgson (Southampton, United Kingdom)

- *Clinical examination for estimating low cardiac output in critically ill patients: a SICS-I substudy*
  Abstract Presenter: Thomas Kaufmann (Groningen, Netherlands)
Scientific Programme

**Lung ultrasound reliably predicts loss of aeration and ARDS morphology**  
Abstract Presenter: Irene Steinberg (Turin, Italy)  
10:40

**Interactive Debates**  
09:45 - 10:45

**Advanced non-medical practitioners: Do they have a place in ICU?**  
#LIVES2018

This discussion is centred around the impact of non medical roles on the medical monopoly. Is it good or bad? Where are we globally with the development of new advanced roles? What framework should be used and which stakeholders should be involved in this context?

Chair: Peter Nydahl (Kiel, Germany)

**Debate**  
09:45

Speaker: Carole Boulanger (Exeter, United Kingdom)
Speaker: David McWilliams (Birmingham, United Kingdom)
Speaker: Pascale Gruber (London, United Kingdom)

**Tech Lounge**  
10:00 - 12:00

**Demonstration session: Deep learning neural networks in action**  
#tech

Chair: Ari Ercole (Cambridge, United Kingdom)

**Attendees will obtain introductory knowledge of data preprocessing, model design, fitting, and interpreting outputs**  
10:00

Speaker: Marius Terblanche (London, United Kingdom)

**NEXT Lounge**  
10:00 - 11:00

**NEXT 2025: The future of Intensive Care**  
#ESICMNEXT

Chair: Gennaro De Pascale (Rome, Italy)
Chair: Nishkantha Arulkumaran (London, United Kingdom)

**Super bugs of the future? What are we facing?**  
10:00

Speaker: Jan De Waele (Ghent, Belgium)
Speaker: Despoina Koulenti (Brisbane, Australia)
Speaker: José Garnacho-Montero (Seville, Spain)
Scientific Programme

Poster Corner
10:10 - 12:10

**Acute respiratory failure, experimental studies**

Chair: Paolo Pelosi (Genova, Italy)
Chair: Jesus Villar (Las Palmas de Gran Canaria, Spain)

- **Effects of Hippo signaling on anti-oxidative stress of mesenchymal stem cells in vitro**
  Abstract Presenter: Liang Dong (Wuxi, China)

- **Silencing of circHIPK3 ameliorates fibroblast myofibroblast differentiation**
  Abstract Presenter: Jiaxiang Zhang (Shanghai, China)

- **Magnetic resonance 4d flow evaluation of pulmonary vascular dysfunction in a porcine model of acute respiratory distress syndrome**
  Abstract Presenter: Arnoldo Santos (Madrid, Spain)

- **Effect of hypercapnia in in vitro human primary culture of alveolar cells**
  Abstract Presenter: Luis Morales-Quinteros (Barcelona, Spain)

- **Antioxidative effect of human adult adipose derived mesenchymal stem cells in pulmonary epithelial damage induced by mechanical stretch**
  Abstract Presenter: Oscar Peñuelas (Getafe, Spain)

- **Global and regional strain increase in extubated subjects on spontaneous ventilation after experimental lung injury. Preliminary results**
  Abstract Presenter: Pablo Cruces (Santiago, Chile)

- **Effects of acute hyperoxia exposure in lipopolysaccharide (LPS) lung injury mouse model**
  Abstract Presenter: Sei Won Kim (Seoul, Korea, Republic of)

- **Respiratory enthalpy is not affected by acute manipulations of the ventilation-perfusion-ratio in a porcine model**
  Abstract Presenter: Maximilian Edlinger-Stanger (Vienna, Austria)

- **Small airway hyperreactivity in an experimental model of acute lung injury**
  Abstract Presenter: Roque Basoalto (Santiago, Chile)

- **The washout of CO2 from anatomical dead space is the same with Hi-VNI and Optiflow**
  Abstract Presenter: Yu Onodera (Yamagata, Japan)

- **Alkaline phosphatase does not affect pulmonary inflammation and coagulation in a two-hit lung injury model**
  Abstract Presenter: Jenny Juschten (Amsterdam, Netherlands)

- **Transpulmonary thermodilution during ECMO: detection of a potential loss of indicator by a second, extra-corporeal thermodilution catheter within the ECMO-circuit: the HEUREKA-IV animal study**
  Abstract Presenter: Wolfgang Huber (Munich, Germany)

- **Modulation of Hippo signaling promotes mesenchymal stem cells to optimize lung injury repair in murine lipopolysaccharide induced ARDS**
  Abstract Presenter: Liang Dong (Wuxi, China)

- **Intravenous analysis (IVA) detects right heart failure during respiratory arrest in a rat model**
  Abstract Presenter: Susan Eagle (Nashville, United States)
Scientific Programme

Poster Corner
10:10 - 12:10

Monitoring during respiratory support

Chair: Claude Guérin (Lyon, France)
Chair: Hannah Wunsch (Toronto, Canada)

**Prevalence of atypical sleep and pathological wakefulness in patients with acute respiratory failure in respiratory care unit**
Abstract Presenter: Nuttapol Rittayamai (Bangkok, Thailand)

**Customized spontaneous breathing trials determined by electrical impedance tomography improved successful weaning rate in prolong mechanical ventilated patients**
Abstract Presenter: Yeong-Long Hsu (New Taipei City, Taiwan, Province of China)

**Comparison of mechanical and electronic devices to prevent underinflation of tracheal tube cuff pressure in mechanically ventilated patients**
Abstract Presenter: Nicolas Adam (Paris, France)

**Ventilation free hours in cardiac surgery: new proposal prognosis measure**
Abstract Presenter: Montserrat Gómez Orozco (Ciudad de México, Mexico)

**Accuracy of the functional residual capacity (FRC) of a lung simulator (TestChest®) using a modified nitrogen washout/washin technique by using an agreement analysis with an ICU ventilator**
Abstract Presenter: Joana Berger-Estilita (Bern, Switzerland)

**A description of the structure and contractile activity of the diaphragm during the course of mechanical ventilation**
Abstract Presenter: Susan Hanekom (Stellenbosch, South Africa)

**Lung recruitment volume assessed by traditional pressure-volume curve and electrical impedance tomography**
Abstract Presenter: Jian-Xin Zhou (Beijing, China)

**Evaluation of the immediate effect of different metered dose inhalers on mechanical ventilator patients with acute exacerbation of obstructive pulmonary diseases by using a non-invasive electrical impedance tomography**
Abstract Presenter: Mei Yun Chang (New Taipei City, Taiwan, Province of China)

**The measurement of the hysteresis in a pressure-volume curve, with a post tracheal tube pressure sensor, during a PEEP trial could allow to evaluating the variation of the recruited pulmonary volume by the tidal volume at each level of PEEP**
Abstract Presenter: Jean Francois Georger (Villeneuve Saint Georges, France)

**Monitoring diaphragmatic ultrasound in acute hypoxic-hypercapnic respiratory failure: a pilot feasibility study**
Abstract Presenter: Gianmario Cammarota (Novara, Italy)

**Electrical impedance tomography compared to biomechanical based on computed tomography (CT) for the measurement of regional lung strain in ARDS patients. Preliminary results**
Abstract Presenter: Rodrigo Cornejo (Santiago, Chile)

**Accuracy of pulse oximetry for INTELLiVENT-ASV®: a prospective observational study**
Abstract Presenter: Shinshu Katayama (Shimotsuke, Tochigi, Japan)

**Application of adaptive support ventilation in Korean patients with acute lung injury**
Abstract Presenter: Wou Young Chung (Suwon, Korea, Republic of)
Scientific Programme

Tuning the ventilator using diaphragmatic ultrasonography
Abstract Presenter: Eleni Soilemezi (Thessaloniki, Greece)

MOTIVE: MOonitoring TIdal VolumEs. A feasibility trial measuring the tidal volume of every breath during invasive ventilation
Abstract Presenter: Melvin J Leong (Alverstoke, United Kingdom)

Aeration changes induced by high flow nasal cannula are more homogeneous than those generated by non-invasive ventilation in healthy subjects
Abstract Presenter: Irene Dot (Barcelona, Spain)

Heart surgery
Chair: Alexandre Mebazaa (Paris, France)
Chair: Christiaan Boerma (Lleuwaarden, Netherlands)

Perioperative risk factors of deteriorating lung oxygenation after cardiac surgery
Abstract Presenter: Hiroki Taenaka (Suita-shi, Osaka, Japan)

Surgery of congenital heart disease in adults predictive factors of re-entry and mortality
Abstract Presenter: María Dolores Fernández Zamora (Málaga, Spain)

Statins prevent bleeding in patients undergoing myocardial revascularization surgery
Abstract Presenter: María Dolores Fernández Zamora (Málaga, Spain)

Surgery for infective endocarditis are there differences between prosthetic and native valves?
Abstract Presenter: Nora Palomo-López (Sevilla, Spain)

Our 20 years experience with complicated infective endocarditis in intensive care unit: early vs late surgical intervention
Abstract Presenter: Farook Ahmad (Kuala Lumpur, Malaysia)

A 20 years retrospective study of complicated infective endocarditis in intensive care unit; medical treatment versus surgical intervention
Abstract Presenter: Farook Ahmad (Kuala Lumpur, Malaysia)

Bleeding and need of polytransfusion in obese population who has undergone heart surgery
Abstract Presenter: Elena Trujillo García (Málaga, Spain)

Study of complications and mortality in patients older than 70 years undergoing myocardial revascularization surgery collected in the ARIAM Registry of Andalusia
Abstract Presenter: María Dolores Fernández Zamora (Málaga, Spain)

Post-operative follow-up of patients who underwent surgery for congenital cardiopathies of adults in the ICU
Abstract Presenter: María Dolores Fernández Zamora (Málaga, Spain)

Analysis of the impact of early surgery on in-hospital mortality in patients with infective endocarditis
Abstract Presenter: Sara Escalona Rodriguez (Seville, Spain)
Scientific Programme

**Dexmedetomidine for delirium after cardiac surgery in high risk patients: friend or foe?**
Abstract Presenter: Aristea Petroulaki (Heraklion, Greece)

**Dialysis-dependent chronic renal failure is a risk factor for post-cardiac surgery vasoplegic syndrome**
Abstract Presenter: Suga Masafumi (Kobe, Japan)

**Evolution of ruptured abdominal aortic aneurysm treatment: a ten-year overview in ICU**
Abstract Presenter: Olga Moreno Romero (Granada, Spain)

**Analysis of effective responders by inhaled nitric oxide in adult cardiovascular surgery with pulmonary hypertension**
Abstract Presenter: Hidenobu Kamohara (Kumamoto, Japan)

**Pulmonary hypertension and heart disease after pneumonectomy: the key role of pulmonary endothelial cells**
Abstract Presenter: Pierre Sentenac (Montpellier, France)

**Interaction of ventricular arterial coupling in postoperative aortic valve replacement**
Abstract Presenter: Ivan Lima Lucero (Mexico City, Mexico)

**Fluid therapy after elective coronary artery bypass surgery: a retrospective analysis of maintenance, resuscitation and unintended fluids**
Abstract Presenter: Tina Maes (Jette, Belgium)

**Poster Corner**
10:10 - 12:10

"**Food & thoughts**"
Chair: Christina Agvald-Öhman (Stockholm, Sweden)
Chair: Margo Van Mol (Rotterdam, Netherlands)

**Long-term mechanical ventilation patients in intensive care units, what to do**
Abstract Presenter: Manuel Muñoz Garach (Granada, Spain)

**End-of-life practices (EOLP) in worldwide intensive care units (ICUs): the Ethicus II study**
Abstract Presenter: Alex Avidan (Jerusalem, Israel)

**Don‘t write off the liver! 20 year retrospective analysis of patients with decompensated alcoholic liver disease (ALD) admitted to a single district general hospital (DGH) intensive care unit (ICU)**
Abstract Presenter: Nicola Raeside (Redhill, United Kingdom)

**Acute-on-chronic liver failure score in acute decompensated cirrhosis: measurement and prognostic value**
Abstract Presenter: Nasreddine Foudhaili (Tunis, Tunisia)

**Prognostic value of albumin-to-bilirubin score in decompensated cirrhosis**
Abstract Presenter: Nasreddine Foudhaili (Tunis, Tunisia)

**Metabolic differences during normothermic regional preservation in donation after circulatory death type II and type III**
Abstract Presenter: Nora Palomo-López (Sevilla, Spain)
**Scientific Programme**

**Actual and potential organ donation procedures after successfully resuscitated cardiac arrest in a French general ICU**
Abstract Presenter: Yacine Arrahmane (Paris, France)

**Uncontrolled donation after circulatory death (uDCD) in Donostia University Hospital, 2015-2018**
Abstract Presenter: Mariana De Almeida e Silva (Donostia - San Sebastian, Spain)

**Admission conditioned to organ donation in a hospital without on site neurosurgical facilities**
Abstract Presenter: Noemi Arriero Fernández (Guadalajara, Spain)

**Ethical evaluation before living kidney donation: a pilot study**
Abstract Presenter: Karine Hadaya (Geneva, Switzerland)

**Analysis of potential organ donors (explantation of abdominal organs) in ≥ 75-year-old brain dead patients in an intensive care unit (medical ICU) in a secondary-level university hospital**
Abstract Presenter: Esther Moreno Lopez (Ferrol, Spain)

**Iconographic (brain CT-scan) and clinical characteristics of patients with acute cerebrovascular disease (ACVD), hemorrhagic or ischemic, who were declared brain dead in a secondary-level university hospital in a six-year period**
Abstract Presenter: Esther Moreno Lopez (Ferrol, Spain)

**Brain dead donors (BDD) following cerebral gunshot wounds: renal allografts’ validity**
Abstract Presenter: Belén Estébanez Montiel (Madrid, Spain)

**Depression and anxiety symptoms among living donor liver transplantation patients’ relatives**
Abstract Presenter: Hakan Korkut Atalan (Istanbul, Turkey)

**Analysis of preconditioning factors influencing immediate graft function after deceased donor kidney transplantation**
Abstract Presenter: Jin Joo Kim (Seoul, Korea, Republic of)

**DCD process in Italy: a growing experience**
Abstract Presenter: Paola Fassini (Legnano, Italy)

**Causes of failure during the management process from identification of brain-dead potential organ donors to actual donation in Korea - 5-year data analysis (2012-2016)**
Abstract Presenter: Jae-Myeong Lee (Seoul, Korea, Republic of)

---

**Poster Corner**

10:10 - 12:10

**What can we do to influence the outcome in our patients?**
Chair: Dylan de Lange (Utrecht, Netherlands)
Chair: Kenneth Christopher (Boston, United States)

**Long-term survival and causes of death in alcohol misuse patients after ICU discharge**
Abstract Presenter: Siiri Hietanen (Oulu, Finland)
Scientific Programme

Length of stay in the intensive care unit (ICU) and associated critical care outcomes: a retrospective review of 12,975 patients
Abstract Presenter: Stefan Weetman (Redhill, United Kingdom)

One-year follow up of high-risk patients admitted in ICU after elective surgery from 2011 to 2016
Abstract Presenter: Andrea Forastieri Molinari (Lecco (LC), Italy)

ICU follow-up clinic: which patients benefit the most?
Abstract Presenter: Ana Rita Costa (Porto, Portugal)

SAHUCI: results of the first Spanish multicenter study about satisfaction in ICU
Abstract Presenter: Maria Soledad Holanda Peña (Santander, Spain)

Analysis of prognostic scoring systems used in critically ill patients with status epilepticus
Abstract Presenter: Sara Casanova Prieto (Madrid, Spain)

Prevalence and impact of frailty in patients over 65 years of age admitted to intensive care unit
Abstract Presenter: Sonia Lopez-Cuenca (Getafe, Spain)

Compared airway pressures’ discriminative properties in the prediction of mortality in non-COPD patients
Abstract Presenter: Mohamed Boussarsar (Sousse, Tunisia)

The outcomes and prognostic factors of patients with acute respiratory failure and prolonged intensive care unit stay
Abstract Presenter: Kuo-Chen Cheng (Tainan, Taiwan, Province of China)

Incidence and mortality of multiple organ failure (MOF) in septic patients. An 11 year review in Catalonia
Abstract Presenter: Carol Lorencio (Girona, Spain)

Outcome of oncology patients in intensive care unit: 5 year experience
Abstract Presenter: Vasiliki Psallida (Athens, Greece)

What happens after sepsis? A review of sepsis patient outcomes in Catalonia
Abstract Presenter: Carol Lorencio (Girona, Spain)

Intensive care and the post-intensive care syndrome: a prospective cohort study
Abstract Presenter: Inês Furtado (Porto, Portugal)

Poster Corner
10:10 - 12:10

Quality interventions
Chair: Anne-Sophie Debue (Paris, France)
Chair: Andreas Valentin (Schwarzach, Austria)

Incidence and risk factors associated with ocular surface disorders in ventilated ICU patients and impact of protocolised eye care
Abstract Presenter: Vikas Bhagat (Mumbai, India)
Scientific Programme

Multicenter binational investigation of necrotizing soft tissue infections from diagnosis and to six months: patient and family perspective. A presentation of three sub-studies
Abstract Presenter: Ingrid Egerod (Copenhagen, Denmark)

Nurse perception of support for young children during their visit of an adult beloved one in the ICU
Abstract Presenter: E.M. van Hooff (Amsterdam, Netherlands)

Nursing model of end of life care: from curative interventions to palliative measures
Abstract Presenter: Julie Benbenishty (Jerusalem, Israel)

Embedding clinical research into the culture of clinical practice within the critical care environment
Abstract Presenter: Sarah Bean (Truro Cornwall, United Kingdom)

Patients' experience regarding night time and sleep deprivation in ICU: results from a metasynthesis
Abstract Presenter: Matteo Danielis (Udine, Italy)

Accuracy and precision of non-invasive thermometers in comparison to pulmonary artery temperature: a systematic review and meta-analysis
Abstract Presenter: Rafael Lima Rodrigues Carvalho (Belo Horizonte, Brazil)

The impact of follow-up visits and diaries on patient outcome after ICU discharge: a descriptive and explorative study
Abstract Presenter: Eva Åkerman (Stockholm, Sweden)

Nurse leaded intravenous (IV) team in a post surgical critical care unit: evaluation of the insertion technique of peripherally inserted central catheters (PICC)
Abstract Presenter: Noemi Cortes Rey (A Coruña, Spain)

Sustainability in critical care practice
Abstract Presenter: Heather Baid (Brighton, United Kingdom)

A concept analysis of discomfort: differentiating pain and discomfort
Abstract Presenter: Shelly Ashkenazy (Jerusalem, Israel)

The challenge in decreasing central line associated bloodstream infections (CLABSI)
Abstract Presenter: Tanya Sonin Yehuda (Ramat Gan, Israel)

A comparison of international ICU nurse involvement in EOL decisions: 2002 versus 2017
Abstract Presenter: Julie Benbenishty (Jerusalem, Israel)

Organised nurse teaching program by senior ICU nurses improves nurse led cardiac output monitor guided management of severe septic shock
Abstract Presenter: Michela Di Pierro (Cambridge, United Kingdom)

An investigation of the cultural perspectives of a group of patients and relatives on blood donation and blood transfusion in Turkey
Abstract Presenter: Aynur Koyuncu (Gaziantep, Turkey)

Comparison of endotracheal tube cuff pressure values before and after training seminar in ICU
Abstract Presenter: Tomasz Skladzien (Cracow, Poland)

Using a structured judgement review methodology to evaluate care following discharge from ICU
Abstract Presenter: Sarah Vollam (Oxford, United Kingdom)
Endotoxaemia & blood purification in sepsis

Chair: Marc Leone (Marseille, France)
Chair: Peter Schellongowski (Vienna, Austria)

The effects of genistein supplementation to oral/enteral nutrition solutions on inflammatory cytokines in septic ICU patients: prospective, single-center, randomized controlled, a pilot study
Abstract Presenter: Murat Sungur (Kayseri, Turkey)

Multivariate analysis of cytokines in septic shock predicts outcome
Abstract Presenter: David B Antcliffe (London, United Kingdom)

The clinical application of extracorporeal membrane oxygenation for sepsis related non pulmonary associated infection
Abstract Presenter: Taehwa Hong (Anyang-si, Korea, Republic of)

Effects of polymyxin B hemoperfusion on septic shock in patients after liver surgery: a pilot study
Abstract Presenter: A Lan Lee (Seoul, Korea, Republic of)

Endotoxin and cytokin reduction function of the oXiris filter in a prospective double-blinded cross-over setting in patients with critical Gram- septic shock and continuous renal replacement therapy requiring acute kidney injury
Abstract Presenter: Marcus Ewert Broman (Lund, Sweden)

The affecting factors for EAA (Endotoxin Activity Assay) are important in safety and efficacy of polymyxin B hemoperfusion (PMX) for septic shock (EUPHRATES) trial
Abstract Presenter: Miri Kang (Tokyo, Japan)

Hemoadsorption by extracorporeal cytokine adsorption therapy (CytoSorb®) in the management of sepsis: a retrospective observational study
Abstract Presenter: Yogendra Pal Singh (New Delhi, India)

Cytokine and DAMP adsorption in septic acute kidney injury
Abstract Presenter: Clara Maria Laubach (Munich, Germany)

Early therapeutic plasma exchange as rescue therapy in septic shock
Abstract Presenter: Sascha David (Hannover, Germany)

The combination of AN69ST-CRRT and PMX-DHP reduces the dosage of vasopressors needed and fluid infusion in patients with septic AKI
Abstract Presenter: Hiromichi Narumiya (Kyoto, Japan)

The selection criteria for blood purification as a mediator modulator in critical care: a single-center case-control study
Abstract Presenter: Yoshitaka Hara (Toyoake, Japan)

Polymyxin hemoperfusion in gramnegative septic shock
Abstract Presenter: Jose-Maria Bonell Goytisolo (Palma de Mallorca, Spain)

Not only endotoxin values but also coagulopathy and renal failure could contribute to 28 day mortality in septic shock after PMX-DHP therapy
Abstract Presenter: Mihoko Tsunoda (Tokyo, Japan)
Scientific Programme

Initial experience of using polymyxin B hemoperfusion in abdominal septic shock: things to consider for better outcome
Abstract Presenter: Jin Joo Kim (Seoul, Korea, Republic of)

Fever control reduces the severity of diffuse intravascular dissemination in human endotoxemia, associated with inhibition of endothelial activation
Abstract Presenter: Matthew Harmon (Amsterdam, Netherlands)

Circulating evil humours cause mitochondrial dysfunction in sepsis. Does size matter?
Abstract Presenter: Sean Pollen (London, United Kingdom)

Human endotoxemia and hypoxia increase dicarbonyl stress in healthy men
Abstract Presenter: Rob Driessen (Maastricht, Netherlands)

Cardiac arrest & trauma - Experimental studies
Chair: Markus Skrifvars (Helsinki, Finland)
Chair: Jerry Nolan (Bath, United Kingdom)

Omecamtiv mecarbil treatment improves post-resuscitation cardiac output and neurological outcome in an animal model
Abstract Presenter: Chien-Hua Huang (Taipei, Taiwan, Province of China)

Exploring optimal mean arterial pressure at various temperatures in a porcine cardiac arrest model
Abstract Presenter: Theresa Olasveengen (Oslo, Norway)

Commencing one-handed chest compressions while activating emergency medical system by handheld mobile device in lone rescuer basic life support: a randomised crossover simulation study
Abstract Presenter: Donggun Lee (Anyang si, Korea, Republic of)

Plasmatic glucose and insulin levels in the porcine model of experimental cardiac arrest
Abstract Presenter: Roman Skulec (Hradec Kralove, Czech Republic)

Comparison of different resuscitation algorithms regarding hand-on time and algorithm adherence
Abstract Presenter: Timur Sellmann (Wuppertal, Germany)

Cardiac effects of beta1-adrenergic receptor blockade (esmolol) during extracorporeal cardiopulmonary resuscitation (VA-ECMO) in pigs
Abstract Presenter: Hilde Karlsen (Oslo, Norway)

Impact of training on quality of cardiopulmonary resuscitation
Abstract Presenter: Karolina Kaunaite (Vilnius, Lithuania)

Comparison of quality of chest compressions during cardiopulmonary resuscitation with two models of automated external defibrillator
Abstract Presenter: Vincent Peigne (Meythet, France)
Scientific Programme

Evaluation of the quality of cardiopulmonary resuscitation according to vehicle driving pattern, using a virtual reality ambulance driving system: a prospective, crossover, randomised study
Abstract Presenter: Yoo Seok Park (Seoul, Korea, Republic of)

Low perfusion ECMO can provide appropriate therapeutic hypothermia for post cardiac arrest syndrome
Abstract Presenter: Hideki Arimoto (Osaka, Japan)

Crew resource management: is it lacking in basic life support training? - CRM study
Abstract Presenter: André Correia (Faro, Portugal)

Therapeutic application of recombinant human ADAMTS-13 to improve deranged coagulation in a trauma-transfusion rat model
Abstract Presenter: Mathijs R Wirtz (Amsterdam, Netherlands)

Therapeutic effect of xanthine oxidase (XO) inhibitors on animal models of haemorrhagic shock: a systematic review
Abstract Presenter: Karen Azouri (Montréal, Canada)

Impairment of glucocorticoid receptor function aggravates hypotension and lung injury in mice after hemorrhagic shock
Abstract Presenter: Martin Wepler (Ulm, Germany)

Myeloid-derived suppressor cells infiltrate the brain and suppress neuroinflammation in a mouse model of traumatic brain injury
Abstract Presenter: Sanae Hosomi (Suita, Japan)

High (2:1) versus standard (1:1) platelet:RBC dose in a rat polytrauma transfusion model
Abstract Presenter: Derek J.B. Kleinveld (Amsterdam, Netherlands)

Unplugged Session
10:30 - 11:00

**Mervyn Singer Unplugged**

#sepsis

Chair: Flavia R. Machado (São Paulo, Brazil)

Sepsis-3: Good? Very good? Bad? Or Ugly?  
10:30  
Speaker: Mervyn Singer (London, United Kingdom)

Simulation Centre
10:30 - 11:30

**Mechanical ventilation area**

#lung

Case scenario - Ventilating a patient with obstructive disease  
10:30  
Speaker: Jordi Mancebo Cortes (Barcelona, Spain)  
Speaker: Lise Piquilloud (Lausanne, Switzerland)
Scientific Programme

Simulation Centre
10:30 - 11:30

**TEE/TOE area**

#cardio

**Hands-on**

10:30

Speaker: Nick Fletcher (London, United Kingdom)
Speaker: Bernard Cholley (Paris, France)

Clinical Challenges Session
11:00 - 11:50

**How do I manage my patient during non-invasive ventilation?**

#lung

Chair: Jean-Daniel Chiche (Paris, France)

**Presentation**

Speaker: Alexandre Demoule (Paris, France)

Thematic Session
11:00 - 12:00

**Does my patient have AKI?**

#renal

The specifics of diagnosing AKI by the classic tools, biomarkers or an e-alert and the strengths and limitations of the different methods for diagnosing AKI

Chair: Eric Hoste (Ghent, Belgium)
Chair: Suvi Vaara (Helsinki, Finland)

**Serum creatinine, urine output and urine biochemistry are enough**

11:00

Speaker: Marjel van Dam (Utrecht, Netherlands)

**Discussion**

11:15

**New biomarkers**

11:20

Speaker: Michael Joannidis (Innsbruck, Austria)

**Discussion**

11:35

**An AKI e-alert**

11:40

Speaker: Miet Schetz (Leuven, Belgium)

**Discussion**

Ethical issues 11:36
Speaker: J. Randall Curtis (Seattle, United States)

Discussion 11:51

The three best 2017 ICM papers 11:54
Speaker: Elie Azoulay (Paris, France)

Thematic Session
11:00 - 12:00
Stockholm

Point of care tests: Closer to an answer or just to the bed?
#sepsis

Microbiological diagnosis of sepsis: Blood culture vs. PCR 11:00
Speaker: Michael Bauer (Jena, Germany)

Discussion 11:15

Biochip point of care device for sepsis diagnostics 11:20
Speaker: Pedro Povoa (Lisbon, Portugal)

Discussion 11:35

The use of multiplex PCR for the pathogen 11:40
Speaker: Karim Asehnoune (Nantes, France)

Discussion 11:55

Thematic Session
11:00 - 12:00
Lisbon

Critical emergencies: Burns & toxicology
#trauma

Fluid resuscitation in the burn patient: Fluid restriction vs standard management 11:00
Speaker: Jean-Louis Teboul (Kremlin-Bicetre, France)

Discussion 11:15

Infections in burn patients: Epidemiology, prevention and treatment 11:20
Speaker: Matthieu Legrand (Paris, France)

Discussion 11:35

An update on toxicology: Hot topics and management 11:40
Speaker: Bruno Mégarbane (Paris, France)
Scientific Programme

Discussion 11:55

From Bench to Bedside Session 11:00 - 12:00 Athens

ICM Experimental 2: Lessons from the lab #LIVES2018
Chair: Mervyn Singer (London, United Kingdom)
Chair: Peter Radermacher (Ulm, Germany)

**How do stem cells work?**
Speaker: John Laffey (Toronto, Canada) 11:00

Discussion 11:15

**How do kidneys fail?**
Speaker: Nishkantha Arulkumaran (London, United Kingdom) 11:20

Discussion 11:35

**How does the microcirculation respond to different shock states?**
Speaker: Arnaldo Dubin (La Plata, Argentina) 11:40

Discussion 11:55

Clinical Challenges Session 11:00 - 11:50 Vienna

**How do I implement early mobilisation & exercise?** #metabolic
Chair: Jan Wernerman (Stockholm, Sweden)

Presentation
Speaker: Heleen Oudemans-van Straaten (Amsterdam, Netherlands)

Clinical Challenges Session 11:00 - 11:50 Glasgow

**How do I humanise patient care?** #LIVES2018
Chair: Silvia Calvino Günther (Grenoble, France)

Presentation
Speaker: Nancy Kentish-Barnes (Paris, France)
Interactive Debates
11:00 - 12:00

**We still need colloids in our ICUs**

#### #sepsis

1) To highlight the benefits and risks of colloid therapy; 2) To discuss the evidence & pros and cons of colloid therapy in sepsis; 3) To discuss the practical aspects of using colloids in patients with sepsis

Chair: Claude Martin (Marseille, France)

**Debate**

11:00

Speaker: Djillali Annane (Garches, France)
Speaker: Yasser Sakr (Jena, Germany)
Speaker: Josef Briegel (München, Germany)

Simulation Centre
11:00 - 12:30

**ECMO area**

#### #cardio

**Hands-on**

11:00

Speaker: Emric Besnard (Paris, France)
Speaker: Hugo Guillou (Paris, France)
Speaker: Sabine Valera (Marseille, France)
Speaker: Dinis Reis Miranda (Groningen, Netherlands)
Speaker: Anne-Sophie Lequeulx (Paris, France)

NEXT Lounge
11:00 - 12:00

**NEXT Research Workshop**

#### #ESICMNEXT

Chair: Stefan Schaller (Munich, Germany)
Chair: Burcin Halacli (Ankara, Turkey)

**Critical literature appraisal workshop**

11:00

Speaker: Howard Bauchner (Boston, United States)
Speaker: Massimo Antonelli (Rome, Italy)
Speaker: Marlies Ostermann (London, United Kingdom)

Arena
11:10 - 12:20

**Nutrition**

Chair: Michael Casaer (Leuven, Belgium)
Chair: Carole Ichai (Nice, France)
Scientific Programme

Predictor of developing type 2 diabetes mellitus: glycosylated hemoglobin in patients with coronary disease and without known diabetes
Abstract Presenter: Ana María González González (Malaga, Spain)

Feasibility of intervention delivery for a Phase 2 randomised clinical trial to investigate the effect of intermittent versus continuous enteral nutrition on muscle wasting in critical illness
Abstract Presenter: Angela McNelly (London, United Kingdom)

Safety and efficacy of volume-based feeding in critically ill, mechanically ventilated adults: a before-and-after study
Abstract Presenter: Sue Brierley-Hobson (Rhyl, United Kingdom)

Glucocorticoid receptor expression in critically ill patients
Abstract Presenter: Alice G. Vassiliou (Athens, Greece)

Optimized caloric-protein nutrition in critically ill patients. Impact on short and long-term outcomes
Abstract Presenter: José Azevedo (São Luís, Brazil)

Early vs. late parenteral nutrition in patients with cancer undergoing major gastrointestinal surgery: a randomized and clinical study
Abstract Presenter: Patricia Camargo (Sao Paulo, Brazil)

Supplemental parenteral nutrition does not alter substrate metabolism but improves immunity: the SPN2 randomized trial
Abstract Presenter: Mette Berger (Lausanne, Switzerland)

Diarrhea: interventions, consequences and epidemiology in the ICU (DICE-ICU) study
Abstract Presenter: Joanna Dionne (Hamilton, Canada)

Does parenteral nutrition affect liver function in the critically ill patient: a retrospective study
Abstract Presenter: Alice Lunt (London, United Kingdom)

Postoperative hypometabolic state persists in non-survivors after major surgery
Abstract Presenter: Lisa Füreder (Vienna, Austria)

Outcome comparison of mechanically ventilated Guillain-Barre syndrome versus Myasthenia gravis in US hospitals
Abstract Presenter: Anantha R Vellipuram (El Paso, United States)

Migraine and its relation to other risk factors in patients with acute ischemic stroke and acute coronary syndrome
Abstract Presenter: Hasen Enas (Minia, Egypt)

Evolution of the functional situation after trauma brain injury between two monitoring periods of 1 and 3-4 years
Abstract Presenter: Maria Guerrero-Marin (Jaen, Spain)

Does physical therapy care provided within 24 hours improve outcomes compared to physical therapy provided within 18 hours in clinical cardiac intensive care unit? A cohort study
Abstract Presenter: Rocha Lara (Brasilia, Brazil)

Apnea test in brain death determination using oxygen diffusion method is safe
Abstract Presenter: Ali Daneshmand (Rochester, United States)

Analysis of factors associated with disability and mortality in patients with decompressive craniectomy six months after discharge, along five years in a neurotraumatic ICU
Abstract Presenter: Catalina Sánchez Ramírez (Las Palmas de Gran Canaria, Spain)

The frontal bone window for transcranial Doppler ultrasonography in intensive care units: a new approach
Abstract Presenter: Pierre Sentenac (Montpellier, France)

Poster Corner
14:00 - 16:00

Mechanical ventilation, experimental studies
Chair: Antonio Artigas (Barcelona, Spain)
Chair: Geoffrey Bellingan (London, United Kingdom)

The HME filter resistance after drug nebulisation, experimental study
Abstract Presenter: Vaclav Zvonicke (Brno, Czech Republic)

Standardization of a sampling technique for evaluating airway inflammation in mechanically ventilated patients
Abstract Presenter: Rodopi Stamatiou (Larisa, Greece)

Respiratory PaO2 oscillations and their relationship to dynamic atelectasis measured by CT during tidal ventilation in a surfactant depletion model of ARDS
Abstract Presenter: Douglas Crockett (Oxford, United Kingdom)

Development of an ex vivo invasive mechanical ventilation model for preclinical aerosol studies
Abstract Presenter: Quentin Georges (Saint Priest en Jarez, France)

Not only pendelluft: multifold local inspiratory air-redistribution events continuously occur in collapsible lungs. An experimental study
Abstract Presenter: G. Perchiazi (Uppsala, Sweden)
Re-thinking mechanical ventilation: technological simplicity meets physiological complexity  
Abstract Presenter: Jamie Mccanny (London, United Kingdom)

Lateral decubitus worsens lung ultrasound score of dependent lungs in an experimental model of right-sided pneumonia  
Abstract Presenter: Andrea Meli (Milan, Italy)

Positive end-expiratory pressure ventilation induces longitudinal atrophy in diaphragm fibers  
Abstract Presenter: Marloes van den Berg (Amsterdam, Netherlands)

Effect of invasive mechanical ventilation (IMV) on sleep architecture in intensive care unit (ICU) using 24 hour polysomnography  
Abstract Presenter: Brijesh Prajapat (Rohtak, India)

Impact of different positive end-expiratory pressure levels on lung mechanics, gas exchange and circulation in the setting of moderate intraabdominal hypertension: a pig model  
Abstract Presenter: Mascha Fiedler (Heidelberg, Germany)

Asynchronies using a simulator of artificial ventilation (SimVA) in virtual COPD patients, effects of reducing pressure support or increasing expiratory trigger  
Abstract Presenter: Hadrien Roze (Pessac, France)

Cellular profiles in bronchial airways of mechanically ventilated patients: a comparison of two types of macroscopically visible bronchial aspirates  
Abstract Presenter: Vasiliki Tsolaki (Larisa, Greece)

Performance of continuous positive airway pressure (CPAP) systems based on air-entrainment mask. Bench test  
Abstract Presenter: Purificación Carmona Sánchez (Córdoba, Spain)

Poster Corner
14:00 - 16:00

Acute respiratory failure & mechanical ventilation clinical studies

Chair: Giuseppe Foti (Monza, Italy)
Chair: Ewan Goligher (Toronto, Canada)

The incidence of ICU-acquired swallowing disorders after prolonged intubation in the elderly: an endoscopic evaluation  
Abstract Presenter: Misuzu Nakanishi (Kurashiki, Japan)

Lung aeration score and the role of lung ultrasound in patients with acute respiratory distress syndrome on veno-venous extracorporeal membrane oxygenation: a prospective observational study  
Abstract Presenter: Stefanie Curry (Papworth Everard, Cambridge, United Kingdom)

Conventional vs Transpulmonary pressure drive ventilation during uro-gynecological pelvic robotic surgery: preliminary data  
Abstract Presenter: Gianmaria Cammarota (Novara, Italy)

Incidence and risk factors for the occurrence of Expiratory Flow Limitation (EFL) in ICU patients  
Abstract Presenter: Savino Spadaro (Ferrara, Italy)
Scientific Programme

The effect of serum phosphate level and correction of hypophosphataemia on the duration of mechanical ventilation
Abstract Presenter: Ping Wu (Hong Kong, China)

Addressing diaphragm dysfunction in cardiac surgery patients: successful therapeutic use with current technology and future prophylactic use of temporary diaphragm pacing utilizing intramuscular electrodes
Abstract Presenter: Raymond Onders (Cleveland, United States)

Functional residual capacity, respiratory system compliance, and lung stress and strain recordings in a PEEP INview trial in mechanically ventilated children - a pilot study
Abstract Presenter: Elisavet Geromarkaki (Heraklion, Greece)

Identifying patients at risk of pulmonary complications post cardiac surgery using static compliance and clinical risk factors
Abstract Presenter: Hannah Burns (London, United Kingdom)

Esophageal pressure guided PEEP optimization significantly improves oxygenation and intrapulmonary shunt without increasing driving pressure in obese and pregnant patients
Abstract Presenter: Elizabeth Rohrs (Burnaby, Canada)

Predict evolution of lung transplantation according to the respiratory mechanics of the early postoperative. Elastance based on transpulmonary pressure versus pulmonary artery occlusion pressure
Abstract Presenter: Purificación Carmona Sánchez (Córdoba, Spain)

The impact of using Echinacea as a complementary modality with use of ventilator care bundle to prevent ventilator-associated pneumonia
Abstract Presenter: Amr Wahdan (Cairo, Egypt)

Additional inspiratory load of breathing imposed by endotracheal tubes. Dynamic study in patient during pressure support ventilation
Abstract Presenter: Purificación Carmona Sánchez (Córdoba, Spain)

Effects of inspiratory airflow on transpulmonary pressure and lung heterogeneity: preliminary results in mild and moderate ARDS patients
Abstract Presenter: Donatella Tortolani (Ferrara, Italy)

Use of regional pressure-volume curves from electrical impedance tomography to set mechanical ventilation in acute hypoxic respiratory failure and acute respiratory distress syndrome: a feasibility study
Abstract Presenter: Gaetano Scaramuzzo (Ferrara, Italy)

Establishing reliability in providing lung protective ventilation to all mandatory ventilated patients in a general ICU
Abstract Presenter: Claire McCue (Glasgow, United Kingdom)

Patients' characteristics influence ICU results, or do they?
Chair: Dirk Donker (Utrecht, Netherlands)
Chair: Michael Broomé (Stockholm, Sweden)
Quality of life after ICU discharge: a prospective observational study from a tertiary care centre in North India
Abstract Presenter: Afzal Azim (Lucknow, India)

Epidemiology and early prediction of long stays in ICU
Abstract Presenter: Bertrand Hermann (Paris, France)

What is associated with quality of life after the ICU - a prospective cohort study
Abstract Presenter: Ana Rita Costa (Porto, Portugal)

Elderly donor and gender impact on cumulative survival rates of liver graft recipient in 20 years of experience in Santiago de Compostela, Spain
Abstract Presenter: Rita Fernández Garda (Santiago de Compostela, Spain)

Changing practices - impact in outcome concerning intra-abdominal infections after ICU reorganization
Abstract Presenter: Gloria Campello (Portimão, Portugal)

Mortality of patients discharged in-hours and out-of-hours from a British ICU: are functional ICU practices to blame?
Abstract Presenter: Julian Cumberworth (Brighton, United Kingdom)

Risk factors for one-year mortality at ICU discharge in patients with free flap reconstruction due to cancer of the head and neck
Abstract Presenter: Sanna Lahtinen (Oulu, Finland)

A single centre retrospective study: can lactate be used to predict increased length of stay in post-operative surgical patients admitted to the intensive care unit (ICU)?
Abstract Presenter: Elina Ahmad (Redhill, United Kingdom)

Patients with chronic critical illness admitted to the intensive care unit: influence of age under versus over 60 years
Abstract Presenter: Renata Fumis (São Paulo, Brazil)

Intensive care follow-up study: cognitive, mood and quality of life outcomes following an acute critical illness
Abstract Presenter: John Gordon Boyd (Kingston, Canada)

Predictive value of physical functioning preceding ICU admission to 1 year survival
Abstract Presenter: Jose Hofhuis (Apeldoorn, Netherlands)

The patient experience of recovery from critical illness: a systematic review and meta-synthesis of qualitative studies across the continuum of recovery
Abstract Presenter: Bronwen Connolly (London, United Kingdom)

Detect Discomfort 1: perceived discomfort in patients admitted to intensive care: a prospective observational study
Abstract Presenter: Theresa Jacques (Sydney, Australia)

Risk factors associated with vasopressor use in patients admitted to the intensive care unit after major orthopedic surgery
Abstract Presenter: Bruno Martins Tomazini (São Paulo, Brazil)
Influence of nutrition support therapy on readmission among patients with acute heart failure in the intensive care unit: a single-center observational study
Abstract Presenter: Isao Miyajima (Nankoku, Japan)

Impact of calorie intake in the first week and severity measured by SOFA score in the hospital mortality of critically ill patients
Abstract Presenter: Guilherme Duprat Ceniccola (Brasilia, Brazil)

Contents of vitamin D, uric acid in the blood serum and characteristics of epidural analgesia for labor in parturient women with preeclampsia
Abstract Presenter: Evgeny Oreshnikov (Cheboksary, Russian Federation)

Vitamin d levels of patients in intensive care unit and its association with nutritional risk screening 2002 score
Abstract Presenter: Avsar Zerman (Adana, Turkey)

The refeeding syndrome in critical care patients: a challenge
Abstract Presenter: Yaiza Rovira Valles (Badalona, Spain)

The effect of dexmedetomidine versus midazolam sedation on resting energy expenditure in critically-ill ventilated patients: a randomized controlled study
Abstract Presenter: Ayman Abougabal (Cairo, Egypt)

Differences in critically ill patients with severe acute pancreatitis between a district general hospital and a tertiary referral hospital in Scotland, UK
Abstract Presenter: Claire McCue (Glasgow, United Kingdom)

Metabolic monitoring of patients in chronic critical illness after brain damage: a pilot study
Abstract Presenter: Kirill Krylov (Moscow, Russian Federation)

Effect of glutamine supplementation in polytrauma patients
Abstract Presenter: Flavia Marchese (Foggia, Italy)

A comparative study of advantages of using separate bottle T.P.N. formulae and the 3-in-1 admixture of T.P.N. in critically ill pediatric patients
Abstract Presenter: Amr Wahdan (Cairo, Egypt)

Association of energy adequacy with 28-day mortality in mechanically ventilated critically ill patients
Abstract Presenter: Beliz Bilgili (Istanbul, Turkey)

Thiamine status in adults receiving chronic diuretic therapy prior to admission to a medical intensive care unit: a pilot study
Abstract Presenter: Kursat Gundogdu (Kayseri, Turkey)

Comparison of the ‘Malnutrition Universal Screening Tool’ (MUST) and ‘Nutritional Risk Screening 2002’ (NRS-2002) for prognosis in the intensive care unit
Abstract Presenter: Hülya Sungurtekin (Denizli, Turkey)

Risk factors for severe vitamin D deficiency in critically ill patient at ICU admission
Abstract Presenter: Amina Khaldi (Anderlecht, Belgium)
Scientific Programme

Clinical relevance of calcium measurements in ICU patients: a practice survey
Abstract Presenter: Frederic Jacobs (Clamart, France)

Descriptive study of patients with hepatic failure treated with molecular adsorbent recirculating system (MARS) during the period 2007-2014
Abstract Presenter: Alejandro Cortes Herrera (Barcelona, Spain)

Poster Corner

Delirium in the ICU
Chair: Wes Ely (Nashville, United States)
Chair: Davide Chiumello (Milan, Italy)

- Nighttime slow wave activity in recovery from ICU delirium: a pilot study
  Abstract Presenter: Jukka Kortelainen (Oulu, Finland)

- Impact of a multifaceted nursing engagement intervention on pain, agitation, and delirium assessment in a community intensive care unit
  Abstract Presenter: Carolyn Michelle Tan (St. Catharines, Canada)

- Incidence and risk factors of postoperative delirium in adult patients after elective craniotomy: a prospective cohort study
  Abstract Presenter: Jian-Xin Zhou (Beijing, China)

- Impact of dexmedetomidine on the time to extubation when used for the treatment of hyperactive delirium
  Abstract Presenter: César Santis (Santiago, Chile)

- Effects of nocturnal dexmedetomidine on sleep quality in critically ill patients equipped with high flow nasal cannula
  Abstract Presenter: Yoshitoyo Ueno (Tokushima, Japan)

- Challenges and barriers to optimising sedation in intensive care: a qualitative study nested within a cluster randomised quality improvement trial in eight Scottish intensive care units
  Abstract Presenter: Kalliopi Kydonaki (Edinburgh, United Kingdom)

- Serum noradrenaline levels can predict the occurrence of delirium in the ICU in catecholamine-free patients
  Abstract Presenter: Mitsuaki Nishikimi (Nagoya, Japan)

- Observational analysis of the incidence and factors related to delirium in the critical patient
  Abstract Presenter: Jordi Codina Calero (Lleida, Spain)

- Analysis of results and costs after the implementation of a sedation protocol in intensive care patients on mechanical ventilation
  Abstract Presenter: Nadia Pires (Rosario, Argentina)

- Benzodiazepine use during ICU stay is associated with benzodiazepine dependence after discharge
  Abstract Presenter: Masaaki Sakuraya (Hatsukaichi, Japan)

- The impact of difficult sedation on the evolution of patients hospitalized in intensive care unit
  Abstract Presenter: Diana Gil Castillejos (Tarragona, Spain)
Scientific Programme

The prevalence, risk factors and outcomes of ICU delirium among Chinese patients in an intensive care unit in Hong Kong
Abstract Presenter: Candice Yin Yin Lee (Hong Kong, Hong Kong, China)

Analysis of analgesia, sedation and delirium practices in critically ill patients through a simulation course survey
Abstract Presenter: Nuria Martinez Sanz (Madrid, Spain)

Incidence, risk factors and outcomes of delirium in a Tunisian intensive care unit (ICU)
Abstract Presenter: Mohamed Boussarsar (Sousse, Tunisia)

Relationship between near-infrared spectroscopy (NIRS) derived cerebral oxygenation and delirium in critically ill patients: a systematic review
Abstract Presenter: John Gordon Boyd (Kingston, Canada)

Assessment and documentation of delirium in a single district general hospital intensive care unit (ICU) using the Confusion Assessment Method in ICU (CAM-ICU)
Abstract Presenter: Carys Fleming (Redhill, United Kingdom)

Poster Corner
14:00 - 16:00

Immune system & sepsis
Chair: Peter Pickkers (Nijmegen, Netherlands)
Chair: Xavier Monnet (Paris, France)

Assessment of postoperative lymphopenia as risk factor for postoperative infections: EVALYMPH study
Abstract Presenter: Guillaume Dupont (Saint Etienne, France)

Effect of experimental sepsis and fluid resuscitation on the expression of micro RNAs involved in the inflammatory response
Abstract Presenter: Lorena Oteiza (Madrid, Spain)

Analysis of lipoproteins in septic shock
Abstract Presenter: Francesco Fiorini (London, United Kingdom)

Secondary hemophagocytic lymphohistiocytosis in sepsis: two sides of the same coin?
Abstract Presenter: Frantzeska Frantzeskaki (Athens, Greece)

Delta Neutrophil Index (DNI) at 72 hours can be a good prognostic marker of mortality in pneumonia sepsis
Abstract Presenter: So Young Park (Daejeon, Korea, Republic of)

Lack of association between neutrophil-to-lymphocyte ratio and ICU stay in patients with sepsis: a retrospective cohort study
Abstract Presenter: Yoshihito Fujita (Nagakute, Japan)

Association between soluble Toll-like receptor 2 levels and sepsis on admission to the ICU: results of a case-control study
Abstract Presenter: Yin Lim (Cardiff, United Kingdom)

Circulating monocyte counts and its impact on outcomes in patients with severe sepsis or septic shock
Abstract Presenter: HyungLan Chang (Seongnam-si, Korea, Republic of)
Research of leukocyte, TNF-alpha, IL-10, IL-4 and procalcitonin levels in mortality and morbidity in patients with sepsis, severe sepsis and septic shock
Abstract Presenter: Elif Kızılmese (Kocaeli, Turkey)

Role of neutrophil-to-lymphocyte ratio in the prognosis of severe community-acquired pneumonia
Abstract Presenter: Atzin Ruiz-Hernández (Mexico City, Mexico)

Survivin variants mRNA expression and protein activity in sepsis
Abstract Presenter: Marianna Miliaraki (Heraklion, Greece)

Defining the role of monocytes in sepsis
Abstract Presenter: Kate Colette Tatham (London, United Kingdom)

Resistin exerts differential immunomodulatory effects on neutrophils and macrophages in sepsis

Scientific Programme

**Negotiated mobilization: an ethnographic exploration of the nurse-patient interaction in the intensive care unit**
Abstract Presenter: Eva Laerkner (Odense C, Denmark)

**Comparative evaluation of the efficiency of using hygienic washcloths for skin care in severely ill patients**
Abstract Presenter: Tatyana Beznosyuk (Moscow, Russian Federation)

**Effect of institutional case volume on mortality after pediatric liver transplantation: analysis of cases of the last decade in Korea**
Abstract Presenter: Hannah Lee (Seoul, Korea, Republic of)

**Subtherapeutic antimicrobial plasma concentrations with standard amoxicillin-clavulanate dosing regimens in paediatric cardiac surgery patients**
Abstract Presenter: Evelyn Dhont (Ghent, Belgium)

**Focal status epilepticus hemispheric(rC(SO2 reading’s correlative analysis to seizure complexity, anticonvulsant therapy and possible prediction trends in a PED**
Abstract Presenter: Thomas Abramo MD,FAAP,FACEP (Little Rock, United States)

Interactive Debates
15:30 - 16:30

**When, why & how to treat fever**
#neuro

Role of fever; where and how to monitor; when to start therapy; in which patient; how to treat; for how long

Chair: Victoria McCredie (Toronto, Canada)

**Debate**
Speaker: Fabio Silvio Taccone (Brussels, Belgium)
Speaker: Mathieu van der Jagt (Rotterdam, Netherlands)
Speaker: Chiara Robba (Cambridge, United Kingdom)

Tech Lounge
15:30 - 17:30

**Making the most of the EMR**
#tech

Chair: Theodoros Kyprianou (Nicosia, Cyprus)
Chair: Cecilia Akerlund (Stockholm, Sweden)

**Setting the stage - Opportunities & challenges**
Speaker: Carl Waldmann (Reading, United Kingdom)

**Implementing a hospital EMR: Implications for ICU**
Speaker: Richard Beale (London, United Kingdom)
The role of ESICM - Outlining a vision 16:10
Speaker: Armand Girbes (Amsterdam, Netherlands)

Strategic discussion - The next steps 16:30
Speaker: Theodoros Kyprianou (Nicosia, Cyprus)

Thematic Session
16:00 - 18:08

Clinical Trials in the ICU #LIVES2018

L/KG/MIN: More efficient than 2 L/KG/MIN to support young infants with severe viral bronchiolitis using high-flow nasal cannulae? Multicentre randomised controlled trial (TRAMONTANE 2 Study) 16:00
Speaker: Christophe Milesi (Montpellier, France)

Comments 16:12
Speaker: Miet Schetz (Leuven, Belgium)

Discussion 16:14

A multicentre randomised pilot trial on the effectiveness of different levels of cooling in comatose survivors of out-of-hospital cardiac arrest: The FROST-I trial 16:16
Speaker: Esteban Lopez-de-Sa (Madrid, Spain)

Comments 16:28
Speaker: Giuseppe Citerio (Monza, Italy)

Discussion 16:30

Terlipressin versus norepinephrine as infusion in patients with septic shock: A multicentre, randomised, double-blinded trial 16:32
Speaker: Zi-Meng Liu (China)

Comments 16:44
Speaker: Ignacio Martin-Loeches (Dublin, Ireland)

Discussion 16:46

Plasma angiopoietin-2 as a potential causal marker in sepsis-associated ARDS development: Evidence from mendelian randomisation and mediation analysis 16:48
Speaker: John P Reilly (Philadelphia, United States)

Comments 17:00
Speaker: Laurent Papazian (Marseille, France)

Discussion 17:02

Safety and tolerability of a single administration of AR-301, a human monoclonal antibody, in ICU patients with severe pneumonia caused by Staphylococcus aureus: First-in-human trial 17:04
Speaker: Pierre-François Laterre (Louvain, Belgium)
Scientific Programme

**Comments**
Speaker: Samir Jaber (Montpellier, France) 17:16

**Discussion** 17:18

**Small volume resuscitation with 20% albumin in intensive care: Physiological effects**
Speaker: Johan Mårtensson (Stockholm, Sweden) 17:20

**Comments**
Speaker: Anders Perner (Copenhagen, Denmark) 17:32

**Discussion** 17:34

**Questions to improve family-staff communication in the ICU: A randomised controlled trial**
Speaker: Elie Azoulay (Paris, France) 17:36

**Comments**
Speaker: Giuseppe Citerio (Monza, Italy) 17:48

**Discussion** 17:50

**Impact of a multifaceted prevention programme on ventilator-associated pneumonia including selective oropharyngeal decontamination**
Speaker: Jérome Pugin (Geneva, Switzerland) 17:52

**Comments**
Speaker: Laurent Papazian (Marseille, France) 18:04

**Discussion** 18:06

---

**Joint Session**
16:00 - 18:00

**Joint with SCCM - Surviving sepsis in low & middle resource settings**

**#sepsis**

**Chair:** Jerry Zimmerman (Seattle, United States)
**Chair:** Massimo Antonelli (Rome, Italy)

**The WHO resolution on sepsis**
Speaker: Janet Victoria Diaz (Geneva, Switzerland) 16:00

**Discussion** 16:14

**Surviving Sepsis Campaign - Research priorities for sepsis and septic shock**
Speaker: Craig Coopersmith (Atlanta, United States) 16:17

**Discussion** 16:31

**Achieving high quality despite low resources: The Brazilian experience**
Speaker: Flavia R. Machado (São Paulo, Brazil) 16:34

**Discussion** 16:48
Scientific Programme

What can we do for Africa?  
Speaker: Arthur Kwizera (Kampala, Uganda)  
Discussion  
Progressing the SSC for limited resource settings  
Speaker: Laura Evans (New York, United States)  
Discussion  
Current bundles: What’s working and what’s missing?  
Speaker: Martin Dünser (Linz, Austria)  
Discussion  
Children with sepsis and limited resources: What must we do?  
Speaker: Pierre Tissieres (Paris, France)  
Discussion

State of the Art Session
16:00 - 18:00  
Barcelona

Weaning from mechanical ventilation
#lung

Classification of weaning: How and why?  
Speaker: Laurent Brochard (Toronto, Canada)  
Discussion  
Indices of weaning: Are they useful?  
Speaker: Paolo Pelosi (Genova, Italy)  
Discussion  
Do we need weaning protocols?  
Speaker: Bronagh Blackwood (Belfast, United Kingdom)  
Discussion  
Is it possible to retrain respiratory muscles?  
Speaker: Leo Heunks (Neimegen, Netherlands)  
Discussion  
Automated weaning systems  
Speaker: Lise Piquilloud (Lausanne, Switzerland)  
Discussion  
Heart failure during weaning  
Speaker: Michael Pinsky (Pittsburgh, United States)
Scientific Programme

Discussion 17:55

Thematic Session
16:00 - 18:00

Medical management of AKI
#renal
Chair: Thomas Rimmelé (Lyon, France)
Chair: Michael Joannidis (Innsbruck, Austria)

Fluid therapy 16:00
Speaker: Michael Joannidis (Innsbruck, Austria)

Discussion 16:15

Haemodynamics 16:20
Speaker: Marlies Ostermann (London, United Kingdom)

Discussion 16:35

Drug dosing 16:40
Speaker: Claire Roger (Nimes, France)

Discussion 16:55

Nutrition 17:00
Speaker: Michael Darmon (Saint-Etienne, France)

Discussion 17:15

Use of contrast 17:20
Speaker: Miet Schetz (Leuven, Belgium)

Discussion 17:35

Long-term follow up 17:40
Speaker: John Prowle (London, United Kingdom)

Discussion 17:55

Resuscitation targets in shock
#cardio
Chair: Daniel A. Reuter (Rostock, Germany)
Chair: Jacques Duranteau (Kremlin-Bicetre, France)

Resuscitation of circulatory shock should be guided by... arterial pressure 16:00
Speaker: Peter Radermacher (Ulm, Germany)

Discussion 16:15

**Scientific Programme**

**Resuscitation of circulatory shock should be guided by... central venous pressure**
Speaker: Daniel A. Reuter (Rostock, Germany)
16:20

**Discussion**
16:35

**Resuscitation of circulatory shock should be guided by... cardiac output**
Speaker: Bernd Saugel (Hamburg, Germany)
16:40

**Discussion**
16:55

**Resuscitation of circulatory shock should be guided by... lactate**
Speaker: Jan Bakker (Rotterdam, Netherlands)
17:00

**Discussion**
17:15

**Resuscitation of circulatory shock should be guided by... ScvO2 and CO2 gap**
Speaker: Vanina Edul (Buenos Aires, Argentina)
17:20

**Discussion**
17:35

**Resuscitation of circulatory shock should be guided by... microcirculation**
Speaker: Arnaldo Dubin (La Plata, Argentina)
17:40

**Discussion**
17:55

**State of the Art Session**
16:00 - 18:00

**The best IV fluid in sepsis: Does it exist?**

#sepsis

**Chair:** Luciano Gattinoni (Milan, Italy)
**Chair:** Sebastian Stehr (Leipzig, Germany)

**Crystalloids: Are they really safe?**
Speaker: Djillali Annane (Garches, France)
16:00

**Discussion**
16:15

**The risk benefit profile of gelatin**
Speaker: Christiane Hartog (Jena, Germany)
16:20

**Discussion**
16:35

**Starches: Any more to add?**
Speaker: Anders Perner (Copenhagen, Denmark)
16:40

**Discussion**
16:55

**A place for hypertonic solutions?**
Speaker: Jean-Louis Vincent (Brussels, Belgium)
17:00

**Discussion**
17:15

**Albumin: Not just volume replacement**
Speaker: Yasser Sakr (Jena, Germany)
17:20
Scientific Programme

Discussion 17:35
Blood products: When and how? 17:40
Speaker: Nathan D. Nielsen (New Orleans, United States)
Discussion 17:55

Thematic Session 16:00 - 18:00 Lisbon

Managing pneumonia in the ICU

#micro
Chairs: Despoina Koulenti (Brisbane, Australia) and Philippe Montravers (Paris, France)

VAC, VAT, iVAC, VAP - What does an intensivist need to know? 16:00
Speaker: Despoina Koulenti (Brisbane, Australia)
Discussion 16:15
Prevention - anything new? 16:20
Speaker: Jordi Rello (Barcelona, Spain)
Discussion 16:35
What antibiotics are becoming available to treat gram-negative VAP/HAP? 16:40
Speaker: Saad Nseir (Lille, France)
Discussion 16:55
The role of viruses in pneumonia 17:00
Speaker: Paula Ramirez (Valencia, Spain)
Discussion 17:15
Current evidence for rapid diagnostic tests 17:20
Speaker: Ignacio Martin-Loeches (Dublin, Ireland)
Discussion 17:35
Nebulised antibiotics for VAP 17:40
Speaker: Jean Chastre (Paris, France)
Discussion 17:55

Continuous Professional Education Session 16:00 - 18:00 Athens

Nutrition in challenging conditions

#metabolic
Chairs: Pierre Singer (Petah Tiqva, Israel) and Mette Berger (Lausanne, Switzerland)
Scientific Programme

**Nutrition in patients with CRRT**
Speaker: Pierre Singer (Petah Tiqva, Israel)  16:00

**Discussion**  16:15

**Nutrition of obese patients**
Speaker: Mette Berger (Lausanne, Switzerland)  16:20

**Discussion**  16:35

**Nutrition during non-invasive ventilation**
Speaker: Steffen Weber-Carstens (Berlin, Germany)  16:40

**Discussion**  16:55

**Nutrition in necrotising pancreatitis**
Speaker: Valentin Fuhrmann (Hamburg, Germany)  17:00

**Discussion**  17:15

**Nutrition in elderly frail patients**
Speaker: Jean-Charles Preiser (Brussels, Belgium)  17:20

**Discussion**  17:35

**Nutrition in malnourished patients**
Speaker: Michael Hiesmayr (Vienna, Austria)  17:40

**Discussion**  17:55

Thematic Session
16:00 - 18:00  Vienna

**Acid-base disorders in ICU**

#metabolic

Chair: Carole Ichai (Nice, France)
Chair: Eric Hoste (Ghent, Belgium)

**Epidemiology in ICU**
Speaker: Hervé Quintard (Nice, France)  16:00

**Discussion**  16:15

**A practical approach for diagnosis**
Speaker: Carole Ichai (Nice, France)  16:20

**Discussion**  16:35

**Diabetic ketoacidosis: What's new?**
Speaker: Hervé Quintard (Nice, France)  16:40

**Discussion**  16:55

**Metabolic alkalosis**
Speaker: Lui Forni (Surrey, United Kingdom)  17:00
31st Annual Congress of the European Society of Intensive Care Medicine,
20 - 24 October 2018,
Paris, France

Scientific Programme

Discussion  17:15
Acidosis in acute kidney injury  17:20
Speaker: Olivier Joannes-Boyau (Pessac, France)

Discussion  17:35
Alkalisation in ICU  17:40
Speaker: Samir Jaber (Montpellier, France)

Discussion  17:55

Thematic Session
16:00 - 18:00
Glasgow

Caring for the dying
#LIVES2018
Chair: Rik Gerritsen (Leeuwarden, Netherlands)
Chair: Anne-Sophie Debue (Paris, France)

Optimism & pessimism in ICU  16:00
Speaker: Mireia Llaurado Serra (Barcelona, Spain)

Discussion  16:15
Impact of dying on the family  16:20
Speaker: Jos Latour (Plymouth, United Kingdom)

Discussion  16:35
Organ donation: What's new?  16:40
Speaker: Rik Gerritsen (Leeuwarden, Netherlands)

Discussion  16:55
DNAR orders: A self-fulfilling prophecy?  17:00
Speaker: Marjel van Dam (Utrecht, Netherlands)

Discussion  17:15
Practical aspects of EoL care  17:20
Speaker: Freda DeKeyser Ganz (Jerusalem, Israel)

Discussion  17:35
Ethical Issues in ECMO therapy: When do we stop?  17:40
Speaker: Jan Bakker (Rotterdam, Netherlands)

Discussion  17:55
Scientific Programme

Poster Corner
16:00 - 18:00

Airways & NIV

Chair: Fekri Abroug (Monastir, Tunisia)
Chair: Jordi Mancebo Cortes (Barcelona, Spain)

- **Non-invasive ventilation vs. high flow nasal cannula oxygenation in pneumonia-associated acute respiratory failure. An observational retrospective study**
  Abstract Presenter: Sergio Rebollo (Cartagena, Spain)

- **Application of the ROX index as a predictor of response to high-flow nasal cannula in patients with acute hypoxemic respiratory failure**
  Abstract Presenter: Neus Guasch Boqué (Tarragona, Spain)

- **Efficacy and safety of percutaneous dilatational tracheostomy with or without bronchoscopic guidance**
  Abstract Presenter: Tae-Ok Kim (Gwangju, Korea, Republic of)

- **Perioperative factors associated with tracheostomy following oesophagogastrectomy surgery**
  Abstract Presenter: Michelle Gerstman (London, United Kingdom)

- **Endotracheal tubes with polyurethane cuffs and subglotic aspiration port - what's the evidence?**
  Abstract Presenter: Rihard Knafelj (Ljubljana, Slovenia)

- **The bedhead EndoTracheal tube airway information (BETTA-In) project**
  Abstract Presenter: Eryl Davies (Manchester, United Kingdom)

- **Surgical tracheostomy performed by a dedicated ENT surgeon in a Tunisian medical intensive care unit: early and late complications in an outcome study**
  Abstract Presenter: Wafa Zarrougui (Sousse, Tunisia)

- **Tracheostomy in a Tunisian medical ICU: practices and outcomes**
  Abstract Presenter: Mohamed Boussarsar (Sousse, Tunisia)

- **Percutaneous tracheostomy can be safely performed without bronchoscopic guidance**
  Abstract Presenter: Samuel Appavu (Rockford IL, United States)

- **The use of high flow nasal cannula oxygen outside the intensive care unit**
  Abstract Presenter: Phillip Levin (Jerusalem, Israel)

- **Timing of failure of non-invasive positive ventilation and clinical outcomes of critically ill patients**
  Abstract Presenter: Oscar Peñuelas (Getafe, Spain)

- **Non-invasive ventilation for very old patients: 5-year experience from a tertiary care center**
  Abstract Presenter: Maria Esteves Brandão (Vila Real, Portugal)

- **Cost-minimization analysis of Non-invasive and Invasive mechanical ventilation for de novo acute hypoxemic respiratory failure in an Eastern European setting**
  Abstract Presenter: Viktoria Ilieva (Sofia, Bulgaria)

- **High-flow oxygen through Nasal cannula versus Continuous Positive Airway Pressure in patients with moderate hypoxemic respiratory failure due to pneumonia**
  Abstract Presenter: Manuela Giovini (Piacenza, Italy)
The role of non-invasive ventilation in mild-to-moderate acute respiratory distress syndrome
Abstract Presenter: Maria Esteves Brandão (Vila Real, Portugal)

End-of-life & organ donation
Chair: Glenn Hernandez (Santiago, Chile)
Chair: Victoria Metaxa (London, United Kingdom)

Ethical framework of the integration of palliative care in intensive care: results from a qualitative study with professionals
Abstract Presenter: Carla Margarida Teixeira (Porto, Portugal)

Morbidity and mortality of discharge against medical advice patients in a tertiary care hospital in a developing country
Abstract Presenter: Pragyan Kumar Routray (Bhubaneswar, India)

Acceptance rates of end-of-life decisions among ICU physicians in Turkey
Abstract Presenter: Nur Baykara (İstanbul, Turkey)

Reduction of medical costs by implementing early family meeting with the decision to withdraw life-sustaining treatments in the medical intensive care unit: a propensity score-matched study in a medical center
Abstract Presenter: Hou-Tai Chang (New Taipei City, Taiwan, Province of China)

Prevalence, risk factors and clinical characteristics of burnout in critical care units from Colombia
Abstract Presenter: Stella Maria Navarro Estrada (Medellin, Colombia)

Intensive care unit (ICU) nurses’ death perception, end of life stress and end of life nursing attitudes
Abstract Presenter: Kim Sera (Seoul, Korea, Republic of)

Invasive techniques and mortality in both patients over and under 75 years old in a polyvalent ICU: a comparative study
Abstract Presenter: Ángela Hurtado (Sevilla, Spain)

Ethography in intensive care unit: the ‘Emergent ICU Body’ and two models of care
Abstract Presenter: Ioannis Anastasiou (Durham, United Kingdom)

Impact on the perception and attitudes of an on-line educative action about limitation of life sustaining treatment (LLST), donation after brain death (DBD) and donation after circulatory death (DCD) on spanish critical care doctors
Abstract Presenter: Alberto Sandiumenge (Barcelona, Spain)

Does the transcranial doppler help us in the diagnosis of brain death?
Abstract Presenter: Hugo Rodríguez Pérez (Las Palmas de Gran Canaria, Spain)

Very elderly donors as a potential source for liver transplant
Abstract Presenter: María Arís Pérez Lucendo (Madrid, Spain)
Normothermic regional perfusion as way to optimize kidney graft function in controlled cardiac death donors
Abstract Presenter: Inmaculada Fernández Simón (Madrid, Spain)

Importance of intensive care units (ICUS) in organ and tissue donation. 20-year experience in the Mexican Social Security Institute (IMSS) in León, Mexico
Abstract Presenter: Enrique Mario Olivares-Durán (León, Mexico)

Predisposing factors of failed apnea test during brain death determination in potential organ donor
Abstract Presenter: Jin Joo Kim (Seoul, Korea, Republic of)

Changes in end-of-life practices (EOLP) in European intensive care units (ICUs): the Ethicus II study
Abstract Presenter: Joerg Schefold (Bern, Switzerland)

ECMO mobile teams for normothermic regional perfusion to support cardiac death donors in hospitals of the Autonomous Community of Madrid, Spain. A one-year experience
Abstract Presenter: Marina Pérez Redondo (Majadahonda, Madrid, Spain)

Controlled donation after circulatory death (cDCD) in Donostia University Hospital, 2015-2018
Abstract Presenter: Mariana De Almeida e Silva (Donostia - San Sebastian, Spain)

Augmented renal clearance as a predictor of poor outcome in critically ill patients, preliminary results of a single centre study
Abstract Presenter: Agñel Ramos (Rosario, Argentina)

A 20 year review of outcomes for critical care patients aged over 90 years
Abstract Presenter: Claire Mearns (Redhill, United Kingdom)

High central venous pressure and cumulative fluid balance is associated with mortality in ICU
Abstract Presenter: Akhyar Hamonangan Nasution (Medan, Indonesia)

Airway pressures discriminative properties for the prediction of death in acute exacerbations of COPD (AE/COPD) patients
Abstract Presenter: Mohamed Boussarsar (Sousse, Tunisia)

Exercise capacity and muscle strength differences in working aged patients with normal or impaired physical functioning after critical illness at three months after the hospital discharge
Abstract Presenter: Miikka Niittyvuopio (Oulu, Finland)

Airway pressures and difficult weaning prediction in acute exacerbations of COPD (AE/COPD) patients
Abstract Presenter: Mohamed Boussarsar (Sousse, Tunisia)
Scientific Programme

Who is admitted, who stays, who lives and who dies? - decisions to refuse or limit treatment of intensive care patients
Abstract Presenter: Eva Joelsson-Alm (Stockholm, Sweden)

Predictors of prolonged stay in a Tunisian intensive care unit (ICU)
Abstract Presenter: Mohamed Boussarsar (Sousse, Tunisia)

Long-term outcomes in tracheoventilated patients
Abstract Presenter: Roberto Di Benedetto (Piacenza, Italy)

Impact of socioeconomic status on outcome in a neurointensive care unit
Abstract Presenter: Shady Amer (Glasgow, United Kingdom)

Cancer incidence following discharge from an intensive care unit
Abstract Presenter: Maximilian Ralston (Glasgow, United Kingdom)

ICU Frailout: a study of frailty and outcomes in ICU
Abstract Presenter: Rui Ferreira de Almeida (Faro, Portugal)

Clinical predictors of early death in critically ill medical patients
Abstract Presenter: Mohamed Boussarsar (Sousse, Tunisia)

Frailty in ICU: an unmeasured burden
Abstract Presenter: Robert Hart (Glasgow, United Kingdom)

Caring for immunocompromised patients
Chair: Peter Schellongowski (Vienna, Austria)
Chair: Dominique Benoit (Ghent, Belgium)

Endothelial toxicity of extracellular histones during tumor lysis syndrome: an experimental study
Abstract Presenter: Maud Loiselle (Paris, France)

Intensive care patients with haematological malignancy - why are they dying?
Abstract Presenter: Lene Russell (Copenhagen, Denmark)

Status performance at hospital discharge in critically ill cancer patients who survive after ICU admission
Abstract Presenter: Domingo Díaz Díaz (Madrid, Spain)

The choice of central venous catheters (CVCs) in patients (pts) undergoing allogeneic hematopoietic stem cell transplantation (allo-HSCT)
Abstract Presenter: Polina Makarova (Moscow, Russian Federation)

The influence of ICU admission of the patients (pts) with de novo acute myeloid leukemia (AML) on the long-term survival
Abstract Presenter: Aleksei Bazhenov (Moscow, Russian Federation)

Extracorporeal life support in critically ill immunocompromised adult patients
Abstract Presenter: René López (Santiago, Chile)
Scientific Programme

Usefulness of SOFA score as prognosis factor in hematopoietic stem cell transplantation recipients admitted to critical care
Abstract Presenter: Irene Romera (Barcelona, Spain)

Prognostic factors in critically ill oncological patients admitted in a tertiary ICU: the Vall d’Hebron Intensive Care Department/Vall d’Hebron Institute of Oncology cohort (VHIO)
Abstract Presenter: Cándido Díaz (Barcelona, Spain)

Outcomes of patients with haematological malignancies admitted to a specialist intensive care unit
Abstract Presenter: Cesar Cosacow (Buenos Aires, Argentina)

Hospital mortality associated factors and utility of three severity of illness scores in critically ill solid cancer patients
Abstract Presenter: María Lucía Pérez Pérez (Majadahonda, Spain)

Safety of percutaneous dilatational tracheostomy in patients with hematologic malignancy
Abstract Presenter: Jongmin Lee (Seoul, Korea, Republic of)

Mortality related with infection at the admission in the intensive care in patients with haematological disease
Abstract Presenter: Gabriela Narváez Chávez (Madrid, Spain)

Infection impact as cause of admission in intensive care in patients with bone marrow transplant in a university hospital
Abstract Presenter: Gabriela Narváez Chávez (Madrid, Spain)

Predictive factors for mortality in cancer patients undergoing chemotherapy in the intensive care unit: an analysis of 222 cases
Abstract Presenter: Ludhmila Hajjar (Sao Paulo, Brazil)

Clinical outcomes and microbiological characteristics of severe infection in critically ill cancer patients
Abstract Presenter: Domingo Díaz Díaz (Madrid, Spain)

Bacterial infection in cirrhotics: comparison of diagnostic and prognostic values of some biomarkers
Abstract Presenter: Nasreddine Foudhaili (Tunis, Tunisia)

Are antibiotics a cause of sepsis-induced immunosuppression?
Abstract Presenter: Muska Khpal (London, United Kingdom)

Poster Corner
16:00 - 18:00

Paediatrics & safety
Chair: Stijn Blot (Ghent, Belgium)
Chair: Michael Sander (Giessen, Germany)

Effect of fluid resuscitation in first 3 hours and fluid balance on the mortality in pediatric septic shock
Abstract Presenter: EunJu Ha (Seoul, Korea, Republic of)
The positive impact that a nurse led vascular access team can have on central line-associated complications
Abstract Presenter: Helen Baker (Exeter, United Kingdom)

Efficacy and safety of early high-dose rehabilitation in ICU patients
Abstract Presenter: Mikhail Bychinin (Moscow, Russian Federation)

Hemispheric cerebral oximetry (rcSO2) readings in status epilepticus in a pediatric emergency department: relationship to seizure complexity, anticonvulsant therapy and possible prediction trends
Abstract Presenter: Thomas Abramo MD, FAAP, FACEP (Little Rock, United States)

Evaluation of cerebral circulation in children with congenital heart disease—comparison of those with and without systemic oxygenated disturbance
Abstract Presenter: Masataka Yamamoto (Sapporo, Japan)

Are the parents’ statements reliable for diagnosis of serious bacterial infection among the febrile children without source?
Abstract Presenter: Ha Ni Lee (Seoul, Korea, Republic of)

Clinical profile, intensive care needs and predictors of outcome in children with drowning: a developing country perspective
Abstract Presenter: Madhusudan Samprathi (Chandigarh, India)

Diaphragm pacing in complex pediatric respiratory care can have a significant role in treating respiratory failure from spinal cord injury to multiple other diseases including spinal muscle atrophy, Pompe’s and acute flaccid myelitis
Abstract Presenter: Raymond Onders (Cleveland, United States)

Complications and mortality associated with acute varicella - infections in a pediatric intensive care unit: a ten-year experience
Abstract Presenter: Jef Willems (Gent, Belgium)

Augmented renal clearance: a common phenomenon in critically ill children
Abstract Presenter: Evelyn Dhont (Ghent, Belgium)

Higher incidence of Acinetobacter baumannii isolated from adult ICU than PICU among critically ill children
Abstract Presenter: Beomjoon Kim (Seoul, Korea, Republic of)

Complications associated with central venous catheter in neonates: what is the problem?
Abstract Presenter: Na Mi Lee (Seoul, Korea, Republic of)

Poster Corner
16:00 - 18:00

Bleeding & transfusion
Chair: Alexander Vlaar (Amsterdam, Netherlands)

Plasma exchange in a Tunisian intensive care unit (ICU): a 10 year retrospective audit
Abstract Presenter: Mohamed Boussarsar (Sousse, Tunisia)

Pneumonia in a large teaching hospital ICU in the West of Scotland
Abstract Presenter: Andrew Mackay (Glasgow, United Kingdom)
Scientific Programme

Monitoring of mitochondrial oxygen tension during a red blood cell transfusion and fluid challenge in chronic anemia patients
Abstract Presenter: Rinse Ubbink (Rotterdam, Netherlands)

Iatrogenic blood loss during an ICU admission
Abstract Presenter: Kai Koch (London, United Kingdom)

Infusion-transfusion therapy - important component of intensive therapy of hemorrhagic shock in obstetric hemorrhages
Abstract Presenter: Dinara Mambetalieva (Bishkek, Kyrgyzstan)
Abstract Presenter: Cholpon Stakeeva (Bishkek, Kyrgyzstan)

Effect of transfusion on hemodynamic and oxygen variables: systematic review and meta-analysis
Abstract Presenter: Elaine Cavalcante dos Santos (Brussels, Belgium)

Clearance mechanisms of extracellular vesicles after red blood cell transfusion in human endotoxemia
Abstract Presenter: Lisa van Manen (Amsterdam, Netherlands)

Analysis of the transfusion savings guided by tromboelastography (TEG) prior to invasive techniques in septic patients
Abstract Presenter: Yaiza Rovira Valles (Badalona, Spain)

ECLS-related coagulopathy and transfusion needs are reversed by circuit exchange
Abstract Presenter: René López (Santiago, Chile)

Major bleeding, can we identify some useful predictor of mortality?
Abstract Presenter: Esmoris Arijon Ines (A CORUÑA, Spain)

Washing of red blood cells prior to transfusion decreases trapping of donor cells in organs in a pneumosepsis rat model
Abstract Presenter: Lisa van Manen (Amsterdam, Netherlands)

The effect of an early transfusion on infection in severe trauma
Abstract Presenter: Do Wan Kim (Gwangju, Korea, Republic of)

Retrospective observational cohort study of anticoagulation practices, thromboembolic events and bleeding events in patients that develop atrial fibrillation admitted to a mixed surgical and medical ICU in the United Kingdom
Abstract Presenter: Brian Johnston (Liverpool, United Kingdom)

Introduction of massive hemorrhage protocol in II level trauma center. Analisys after one year
Abstract Presenter: Alessandro Calzolari (Milan, Italy)

Poster Corner
16:00 - 18:00

A focus on sepsis therapeutics
Chair: Anthony Gordon (London, United Kingdom)
Chair: Ludhmila Hajjar (São Paulo, Brazil)
Scientific Programme

**The effect of vitamin C on mechanically ventilated patients with severe sepsis and septic shock: a retrospective cohort study**
Abstract Presenter: Jee Hwan Ahn (Seoul, Korea, Republic of)

**The effect of magnesium sulphate on cerebral perfusion in patients with sepsis-associated encephalopathy**
Abstract Presenter: Nesreen Adel Shaban (Alexandria, Egypt)

**Administration of chemotherapy to patients with hematologic malignancies admitted to the ICU with sepsis**
Abstract Presenter: David Shaz (New York, United States)

**Clinical outcomes of septic patients with elevated cardiac troponin in Manila Doctors Hospital**
Abstract Presenter: Krislyn Panugayan (Manila, Philippines)

**Effect of fluid resuscitation with Ringer lactate versus acetate solution on correction of metabolic acidosis in critically ill patients**
Abstract Presenter: Neeru Sahni (Chandigarh, India)

**The Impact of hydrocortisone therapy on noradrenaline requirement and haemodynamics derived from transpulmonary thermodilution (TPTD) in patients with septic shock: an observational study**
Abstract Presenter: Wolfgang Huber (Munich, Germany)

**Is there a role for early administration of fixed low dose terlipressin in adult septic shock?**
Abstract Presenter: Rabea Etomi (London, United Kingdom)

**Hypotension in septic patients after intubation and sedation - shock or adverse effects from sedatives?**
Abstract Presenter: Johan Erik Larsson (Hilleroed, Denmark)

**Mesenchymal stem cells in a porcine model of progressive peritoneal sepsis**
Abstract Presenter: Jan Horak (Plzen, Czech Republic)

**Cell therapy using genetically modified mesenchymal stem cell in a murine model of sepsis**
Abstract Presenter: Josep Bringue (Sabadell, Spain)

**Effects of combined hydrocortisone and vitamin C for the treatment of sepsis**
Abstract Presenter: June Hong Ahn (Daegu, Korea, Republic of)

**Inhibition of uncoupling protein 2 exacerbates mitochondrial oxidative stress in the proximal tubular epithelial cells of a live kidney slice exposed to septic serum**
Abstract Presenter: Sean Pollen (London, United Kingdom)

**Blood transfusion for haemodynamic and volume resuscitation in endotoxaemic shock: is there a difference between fresh versus stored blood transfusion?**
Abstract Presenter: Nchafatso Obonyo (Chermside, Australia)

**Effects of platelet-activating factor and quinidine in the isolated perfused rat small intestine are related to similar MAPK pathways**
Abstract Presenter: Niklas Beckers (Kiel, Germany)

**Pentoxyphylline inhibits M1 polarization and favors M2 of murine macrophages treated with TLR4 agonist**

**Application of zero resistance project in a intensive care unit. A preliminar study**
Abstract Presenter: Francisco Molina Cabrero (Albacete, Spain)

**Collaboration between ward pharmacists and infection control team for the appropriate antimicrobial use in the emergency medical center**
Abstract Presenter: Takakiyo Tatsumichi (Kagawa, Japan)

**Application of enteral topic paromomycin to eradicate colistin and carbapenemase resistant microorganisms in rectal colonization to prevent ICU-acquired infections**
Abstract Presenter: Catalina Sánchez Ramírez (Las Palmas de Gran Canaria, Spain)

**Ventilator associated pneumonia surveillance results before and after use of closed aspiration system in intensive care unit**
Abstract Presenter: Hulya Basar (Ankara, Turkey)

**Six years of selective digestive decontamination in a mixed intensive care unit at a university hospital: impact on colonization, nosocomial infection and antibiotic consumption**
Abstract Presenter: Catalina Sánchez Ramírez (Las Palmas de Gran Canaria, Spain)

**Compliance with hand hygiene guidelines in the context of glove usage**
Abstract Presenter: Christian Siebers (Munich, Germany)

**Effectiveness of disinfectant foot mat on incidence of surface, air colonization and hospital acquired infections in ICU of a tertiary care hospital in western India**
Abstract Presenter: Ruchira Khasne (Nashik, India)

**An interventional program to reduce bacterial colonization rates of mobile phones carried by health care workers in intensive care units**
Abstract Presenter: Hernan Aguirre-Bermeo (Cuenca, Ecuador)

**A practices-in-prevention and active surveillance survey of Ventilator Associated Pneumonia (VAP) across four London ICUs**
Abstract Presenter: Nirav Shah (London, United Kingdom)

**Influence of prevention programs (ZERO projects) on the incidence of pneumonia associated with mechanical ventilation (VAP) in critically ill cardiac patients admitted to the Spanish ICU from the National Registry ENVIN-HELICS**
Abstract Presenter: Almudena Escriba Barcena (Fuenlabrada, Spain)

**Endotracheal tubes with sub-glottic suction ports to reduce suspected ventilator-associated pneumonia... are our ICU patients worth it?**
Abstract Presenter: Robert Hart (Glasgow, United Kingdom)

**Influence of the Zero protocols and their patient safety protocol in catheter-associated urinary infection**
Abstract Presenter: María Guerrero (Jaén, Spain)

**Oral model infusion of chlorhexidine. A novel method for prevention of bacterial colonization**
Abstract Presenter: Amr Omar (Doha, Qatar)
Nutrition in ICU

Chair: Michael Hiesmayr (Vienna, Austria)
Chair: Steffen Weber-Carstens (Berlin, Germany)

The predisposing factors of nutritional insufficiency for postoperative patients in surgical intensive care unit
Abstract Presenter: Jin Joo Kim (Seoul, Korea, Republic of)

Enteral nutrition in critically ill patients undergoing vasoactive drugs therapy. The nutrivad study: preliminary results
Abstract Presenter: Jose Luis Flordelís Lasierra (Leganés, Madrid, Spain)

NUTRIC core: validation of clinical nutritional score using SAPS II and c-reactive protein
Abstract Presenter: Tiago Petrucci (Lisbon, Portugal)

Risk factors of enteral feeding intolerance in the intensive care setting in US and Europe: literature review
Abstract Presenter: Jorge Puelles (London, United Kingdom)

Pectin-containing liquid enteral nutrition for critical care: a historical control and propensity score matched study
Abstract Presenter: Nakamura Kensuke (Ibaraki, Japan)

Effectiveness of early goal-directed enteral nutrition in emergency and medical intensive care unit
Abstract Presenter: Naoyuki Matsuda (Nagoya, Japan)

What about nutritional status in patients with diabetes in intensive care unit?
Abstract Presenter: Avsar Zerman (Adana, Turkey)

Fulfillment of enteral nutritional requirements before and after the implementation of ASPEN guidelines 2016 in a mexican intensive care unit
Abstract Presenter: Marco Antonio Toledo Rivera (Mexico City, Mexico)

The implementation of nutritional administration protocols in surgical intensive care unit Siriraj Hospital
Abstract Presenter: Pornrat Chinda (Bangkok, Thailand)

We could do better? Implementation of enteric nutrition protocol
Abstract Presenter: Gloria Campello (Portimão, Portugal)

Enteral nutrition delivery in a tertiary cardiothoracic ICU: a quality improvement project
Abstract Presenter: Mantej Sehmbhi (London, United Kingdom)

The impact of basic nutritional parameters on the prognosis of sepsis patients
Abstract Presenter: Ramón Cicuéndez Ávila (Valladolid, Spain)
Abstract Presenter: Gloria Renedo Sánchez-Girón (Valladolid, Spain)

Elemental vs polymeric early enteral nutrition in ICU patients: does elemental feeding improves tolerance and outcome?
Abstract Presenter: Maria Thedorakopoulou (Athens, Greece)

Aplication of a protocol for the management of constipation in the intensive care unit of the General Hospital of Albacete: analysis and results
Abstract Presenter: Elena Simón Polo (Albacete, Spain)
Scientific Programme

**Prevalence of electrolyte disorders in ICU and its correlation with mortality**  
Abstract Presenter: Jussara Gomez (Passo Fundo, Brazil)

**Nutritional therapy for patients admitted to Intensive care at Landspitali, the National University Hospital of Iceland**  
Abstract Presenter: Hrönn Birgisdóttir (Reykjavík, Iceland)

**The relationship between base excess unmeasured anions and postoperative outcomes in living donor liver transplantation candidates**  
Abstract Presenter: Hakan Korkut Atalan (Istanbul, Turkey)

**Poster Corner**  
09:10 - 11:10

Modifying sedation to improve outcome

Chair: Louise Rose (Toronto, Canada)  
Chair: Jacob Steinmetz (Copenhagen, Denmark)

**Epidural analgesia in patients who have undergone video-assisted thoracoscopic surgery prevents a breakthrough pain in the intensive care unit**  
Abstract Presenter: Jun Suzuki (Sendai, Japan)

**Changes in duration of mechanical ventilation after application of the sedation protocol in ICU**  
Abstract Presenter: Ji Wook Kim (Seongnam-si, Korea, Republic of)

**Sedation and analgesia practice variation: a meta-analysis of observational cohort studies**  
Abstract Presenter: Lara Prisco (Oxford, United Kingdom)

**The effect of melatonin administration on sedation level as adjuvant to propofol in traumatic brain injury patients**  
Abstract Presenter: Mahmoud Soliman (Cairo, Egypt)

**Depth of long term ICU sedation under 0.5 MAC isoflurane, sevoflurane or desflurane using MIRUS, an automated delivery system for volatile anaesthetics**  
Abstract Presenter: Adrian Justinj Georgievici (Bochum, Germany)

**Comparison between dexmedetomedine and fentanyl infusion for short term sedation in mechanically ventilated patients in intensive care unit**  
Abstract Presenter: G J Himaaldev (Bangalore, India)

**Pain study - correlation between objective and subjective pain assessments by the multidisciplinary team**  
Abstract Presenter: Mateus Otero (Salvador, Brazil)

**Implementation of a new sedation hold protocol**  
Abstract Presenter: Shalini Shankla (Hastings, St Leonards-on-Sea, United Kingdom)

**Factors associated with probable withdrawal syndrome in trauma intensive care unit patients**  
Abstract Presenter: Carmen Mabel Arroyo-Novoa (San Juan, Puerto Rico)

**Sevoflorane sedation in ICU ward using a Mirus™ system: an innovative methodology**  
Abstract Presenter: Flavio Bassi (Pordenone, Italy)
Scientific Programme

**Iatrogenic opioid withdrawal syndrome in critically ill patients: a retrospective cohort study**
Abstract Presenter: Dong-Gon Hyun (Seoul, Korea, Republic of)

**Scoring for sepsis identification**

Chair: Claude Martin (Marseille, France)
Chair: Konrad Reinhart (Jena, Germany)

- **Comparison of SIRS and qSOFA for predicting infection-induced organ dysfunction**
  Abstract Presenter: Sanjay Parashar (Kansas City, United States)

- **Sepsis-3 definitions of septic shock are not only associated with higher disease severity but with differences in type and origin of infection**
  Abstract Presenter: Daniel Thomas-Rüddel (Jena, Germany)

- **Comparison of capillary leak index versus traditional ICU scoring systems**
  Abstract Presenter: Paul Palacios Moguel (Mexico City, Mexico)

- **An investigation of the discriminative value of PRESEP as a pre-hospital screening tool for diagnosing sepsis or identifying high mortality risk in a cohort of infected patients identified pre-hospital**
  Abstract Presenter: Laura Smith (Hove, United Kingdom)

- **A prospective cohort study of the Quick Sequential Organ Failure Assessment (qSOFA) score versus the Systemic Inflammatory Response Syndrome (SIRS) criteria in the determination and prognostication of sepsis in a Philippine tertiary hospital**
  Abstract Presenter: Stephanie Rachel C. Ang (Pasig City, Philippines)

- **Clinical impact of body mass index and lymphocytic count on clinical outcomes in septic patients in a critical care unit: chronic inflammation as a protective factor?**
  Abstract Presenter: Alma Rosa Contreras Contreras (Mexico City, Mexico)

- **Comparison of sepsis biomarkers in critical patients upon admission to the emergency room**
  Abstract Presenter: Kenichi Katabami (Sapporo, Japan)

- **Epidemiology, patterns of care, and in-hospital mortality for patients with severe sepsis in ICUs in Japan: the FORECAST study**
  Abstract Presenter: Toshikazu Abe (Tokyo, Japan)

- **The biological evidence for the use of SOFA score on sepsis definition**
  Abstract Presenter: Ramon Costa (São Paulo, Brazil)

- **Red-flag sepsis and SOFA identify different patient populations at risk of sepsis-related deaths on the general wards**
  Abstract Presenter: Maja Kopcynska (Cardiff, United Kingdom)

- **Usefulness of hyperprocalcitonemia as a support to the decision to enter the ICU in patients with activation of the sepsis code**
  Abstract Presenter: Alejandro Cortes Herrera (Barcelona, Spain)

- **The frequency and clinical significance of thrombocytopenia complicating sepsis: a meta-analysis**
  Abstract Presenter: Ruilan Wang (Shanghai, China)
Scientific Programme

Evaluation of qSOFA and NEWS2 for sepsis detection and of the improvement of adding heparin-binding protein plasma levels to screening scores
Abstract Presenter: Lisa Mellhammar (Lund, Sweden)

Biomarkers of infection versus systemic inflammation in burn patients
Abstract Presenter: Natalia Valero (Getafe, Spain)

Evolution in the identification and early treatment of critically ill septic patients at the emergency department of a Spanish tertiary hospital
Abstract Presenter: Laura Anguela-Calvet (L'Hospitalet de Llobregat, Spain)

Sepsis-3 diagnostic criteria as a tool to predict hospital mortality in critically-ill patients: a validation study in developing country
Abstract Presenter: Petch Wacharasint (Bangkok, Thailand)

Does peripheral circulating blood flow correlate with the quick SOFA score in emergency room patients?
Abstract Presenter: Takahashi Kazunori (Yamagata, Japan)

Simulation Centre

Discussion

Oral Presentations
10:10 - 11:25

Cardiovascular monitoring
Chair: Jan Bakker (Rotterdam, Netherlands)
Chair: Filippo Sanfilippo (Catania, Italy)

10:10
Value of inferior vena cava diameter and of pulse pressure variations during tidal volume challenge to predict preload responsiveness in patients ventilated with a low tidal volume
Abstract Presenter: Temistocle Taccheri (Paris, France)

10:25
Are variations of inferior vena cava measured by a transhepatic way a good tool to predict fluid responsiveness?
Abstract Presenter: Jean Pierre Ponthus (Villeneuve Saint Georges, France)

10:40
External validation of the Smith & Madigan formula to quantify the final end-diastolic volume of the left ventricle
Abstract Presenter: Gabriela Patricia Santana Hernandez (Mexico City, Mexico)

10:55
Revisiting the limitations of respiratory variations of pulse pressure or stroke volume as predictors of fluid responsiveness: tidal volume, heart-rate-to-respiratory-rate ratio and respiratory system compliance
Abstract Presenter: Simon Vistisen (Aarhus, Denmark)

11:10
A novel mitochondrial monitor combining NADH fluorescence and tissue haemoglobin saturation within a single implantable probe
Abstract Presenter: Christopher Smart (London, United Kingdom)

Preclinical studies
Chair: John Laffey (Toronto, Canada)
Chair: Davide Chiumello (Milan, Italy)
Opposite effects in diaphragm and soleus muscle of mTOR expression and activation, in experimental resistive work of breathing model
Abstract Presenter: Pablo Cruces (Santiago, Chile) 10:10

Relationships between transpulmonary pressures and computed tomography in experimental ARDS
Abstract Presenter: Jean-Christophe Richard (Lyon, France) 10:25

Effect of three PEEP strategies on cyclic recruitment-derecruitment in experimental ARDS
Abstract Presenter: Jean-Christophe Richard (Lyon, France) 10:40

Impact of different positive end-expiratory pressure on lung mechanics, gas exchange and circulation in the setting of saline lavage induced lung injury and moderate intraabdominal hypertension: a pig model
Abstract Presenter: Emilis Simeliunas (Heidelberg, Germany) 10:55

Metabolic activity in atelectatic regions differs among mechanisms of lung injury
Abstract Presenter: Takuga Hinoshita (Boston, United States) 11:10

Management of patients with sepsis
Chair: Jean-Charles Preiser (Brussels, Belgium) Chair: Michael Bauer (Jena, Germany)

Adjunctive intravenous anti-toxin treatment with CAL02 in severe acute community-acquired pneumonia due to Streptococcus pneumoniae. A first-in-man, multicentre, double-blind, placebo-controlled study
Abstract Presenter: Pierre-François Laterre (Louvain, Belgium) 10:10

Antimicrobial combination therapy in septic patients: a systematic review and meta-analysis
Abstract Presenter: Gloria Vázquez-Grande (Winnipeg, Canada) 10:25

Lactated ringer versus albumin in early sepsis therapy (The RASP study): a randomized clinical trial
Abstract Presenter: Ludhmila Hajjar (Sao Paulo, Brazil) 10:40

The restrictive intravenous fluid trail in severe sepsis and septic shock (RIFTS): a pilot study
Abstract Presenter: Keith Corl (Providence, United States) 10:55

Blood purification and mortality in sepsis and septic shock: a systematic review and meta-analysis of randomized trials
Abstract Presenter: Alessandro Putzu (Geneva, Switzerland) 11:10
Scientific Programme

Oral Presentations
10:10 - 11:25

Haemodynamic therapy
Chair: Glenn Hernandez (Santiago, Chile)
Chair: Bernd Saugel (Hamburg, Germany)

**Epinephrine and short-term survival in cardiogenic shock: an individual data meta-analysis of 2,583 patients**
Abstract Presenter: Valentine Léopold (Paris, France)  
10:10

**Endocan and resolvin D1: two novel biomarkers for the management of acute heart failure?**
Abstract Presenter: Marta Reina-Couto (Porto, Portugal)  
10:25

**Positive end-expiratory pressure increases extravascular lung water in acute respiratory distress syndrome**
Abstract Presenter: Francesco Gavelli (Le Kremlin-Bicêtre, France)  
10:40

**The impact of connection to the extracorporeal circuit on haemodynamics (transpulmonary thermodilution (TPTD) and pulse contour analysis (PCA)) in patients treated with the ADVOS/HepaWash-device: the HAEMADVOS-I-study**
Abstract Presenter: Wolfgang Huber (Munich, Germany)  
10:55

**The Index Pressure Pulsatility: a novel useful tool to guide vasopressor therapy in septic shock patients**
Abstract Presenter: Arnoldo Santos (Madrid, Spain)  
11:10

Oral Presentations
10:10 - 11:25

Cardiac arrest management
Chair: Claudio Sandroni (Rome, Italy)
Chair: Kjetil Sunde (Oslo, Norway)

**Background EEG reactivity and neurologic outcome after cardiac arrest in a Parisian registry**
Abstract Presenter: Sarah Benghanem (Paris, France)  
10:10

**Smartphone video-assisted advanced life support for out-of-hospital cardiac arrest by emergency medical service teams under physician direction**
Abstract Presenter: Donggun Lee (Anyang si, Korea, Republic of)  
10:25

**Targeting low-normal vs. high-normal mean arterial pressure after cardiac arrest and resuscitation: a randomized pilot trial (NCT02698917)**
Abstract Presenter: Pekka Jakkula (Helsinki, Finland)  
10:40

**Hemodynamic efficiency of an hemodialysis treatment with high cut-off membrane during the early period of post-resuscitation shock: the HYPERDIA trial**
Abstract Presenter: Guillaume Geri (Paris, France)  
10:55
Survival and neurological outcome in the elderly after out-of-hospital cardiac arrest
Abstract Presenter: Tomonao Yoshida (Sapporo, Japan)

Advanced diagnosis of AKI
Chair: Marlies Ostermann (London, United Kingdom)
Chair: Eric Hoste (Ghent, Belgium)

A combined biomarker of fibroblast growth factor 23, erythropoietin and klotho predicts the development of acute kidney injury and development of chronic kidney disease in critical care patients: results of a prospective cohort
Abstract Presenter: Luis Toro (Santiago, Chile)

Downregulation of TIMP2 attenuates sepsis-induced acute kidney injury through NFκb pathway
Abstract Presenter: Yi-Ming Li (Wuhan, China)

A microRNA signature in Mesenchymal-Stromal/Stem-cell-treated septic murine kidneys
Abstract Presenter: Niall Filewod (Toronto, Canada)

Altered renal microcirculation revealed by dynamic contrast-enhanced ultrasound (CEUS) following fluid resuscitation in hemorrhagic shock in pigs
Abstract Presenter: Bulent Ergin (Amsterdam, Netherlands)

Systolic blood pressure and lactate levels can predict severe pediatric AKI after cardiac surgery: a machine learning approach
Abstract Presenter: Stefano Falini (Trieste, Italy)

Between the OR and the ICU
Chair: Mike Gillies (Edinburgh, United Kingdom)
Chair: Ib Jammer (Bergen, Norway)

Unplanned ICU admission from the operating room after major noncardiac surgery
Abstract Presenter: Suneerat Kongsayreepong (Bangkok, Thailand)

Impact of crystalloid versus colloid solutions on renal function and disability after major abdominal surgery: long-term follow-up of a double-blind randomized controlled trial
Abstract Presenter: Amelie Delaporte (Brussels, Belgium)
Scientific Programme

Evaluation of accuracy of noninvasive haemoglobin estimation by pulse-oximetry during major surgical haemorrhage
Abstract Presenter: Sheila Nainan Myatra (Mumbai, India)

Indirect measurement of respiratory quotient in non-cardiac high risk surgery is a predictor of postoperative complications
Abstract Presenter: Stéphane Bar (Amiens, France)

Results of the randomized, double-blind, placebo-controlled, Phase 3 HERCULES Study of caplacizumab in patients with acquired thrombotic thrombocytopenic purpura
Abstract Presenter: Paul Coppo (Paris, France)

Oral Presentations
10:10 - 11:25
Athens

Muscle weakness in ICU
Chair: Manu Malbrain (Antwerp, Belgium)
Chair: Stefan Schaller (Munich, Germany)

Impact of myostatin in intensive care unit acquired weakness
Abstract Presenter: Tobias Wollersheim (Berlin, Germany)

Excluding early deaths: posthoc analysis from the ViTDAL-ICU study
Abstract Presenter: Gennaro Martucci (Palermo, Italy)

Intra- and interrater reliability for ultrasound measurements of fat and muscle thickness in 120 non-critically ill patients: the USVALID prospective trial
Abstract Presenter: Arabella Fischer (Vienna, Austria)

Correlation between accumulated caloric deficit and delta of quadriceps thickness measured by ultrasound in critically ill patients
Abstract Presenter: Teresita González Contreras (Mexico City, Mexico)

Prevalence of sarcopenia in a single institution adult intensive care unit and its clinical outcome
Abstract Presenter: Fadhil Hadi Jamaluddin (Kuala Lumpur, Malaysia)

Oral Presentations
10:10 - 11:25
Vienna

Critical care organisation
Chair: Dylan de Lange (Utrecht, Netherlands)
Chair: Jerry Zimmerman (Seattle, United States)

Prevalence and risk factors for ICU burnout syndrome among Thai intensivists and ICU nurses
Abstract Presenter: Petch Wacharasint (Bangkok, Thailand)

Improving patient care

Chair: Jean-Louis Vincent (Brussels, Belgium)
Chair: Dominique Benoit (Ghent, Belgium)

**Reducing administrative burden: a core set of quality indicators for effective quality improvement and efficient accountability**
Abstract Presenter: Marieke Zegers (Nijmegen, Netherlands)

**Association between burnout syndrome, emotional stress, suicidal thought and substance abuse in critical care professionals**
Abstract Presenter: Ahtziri Yunuén Rodríguez Santos (Mexico, Mexico)

**Using patient and staff experience to maximise empathy in acute care: the Patient Experience And Reflective Learning (PEARL) project**
Abstract Presenter: Olivia Brookes (Birmingham, United Kingdom)
Scientific Programme

Gaps between the expectations and perceptions of the patients and their families about the quality of healthcare service of a dedicated weaning unit for patients with prolonged mechanical ventilation: a study to investigate the needs and experience of the patients and their families
Abstract Presenter: Jih-Shuin Jerng (Taipei, Taiwan, Province of China)

Impact of policy of extended visits at intensive care unit on the family and professionals' satisfaction
Abstract Presenter: Domingo Díaz Díaz (Madrid, Spain)

What information do ICU relatives want in the waiting room?
Abstract Presenter: Darius Zeinali (Chester, United Kingdom)

Psychological symptoms in relatives of ICU-patients: a multi-centre study
Abstract Presenter: Magdalena Hoffmann (Graz, Austria)

What is the patients' physical, cognitive and mental status before ICU admission?
Abstract Presenter: Wytske Geense (Nijmegen, Netherlands)

Prognostic relevance of increased muscle echogenicity detected by ultrasound to predict intensive care unit-acquired weakness, weaning failure and outcome in critically ill patients: a longitudinal observational study
Abstract Presenter: Johannes Ehler (Rostock, Germany)

Ultrasonography-guided post-pyloric feeding tube insertion in medical intensive care patients
Abstract Presenter: Uğur Özdemir (Ankara, Turkey)

Poster Corner
11:10 - 13:10
Poster corner

ARDS
Chair: Jesus Villar (Las Palmas de Gran Canaria, Spain)
Chair: Alexandre Demoule (Paris, France)

Optimal duration of prone positioning in patients with acute respiratory distress syndrome: a protocol for systematic review and meta-regression
Abstract Presenter: Tetsuro Kamo (Tochigi, Japan)

Videothoracoscopic lung biopsy in acute respiratory distress syndrome: a single centre experience
Abstract Presenter: Diana Latasa (Rosario, Argentina)

Neuromuscular blocking agents as adjuvant therapy in patients with severe ARDS: a systematic review and meta-analysis
Abstract Presenter: Ludhmila Hajjar (Sao Paulo, Brazil)

Impact of major comorbidities in patients with Acute Respiratory Distress Syndrome: insights from the LUNG SAFE study
Abstract Presenter: Emanuele Rezoagli (Monza, Italy)

The impact of positive intrathoracic pressure on kidney failure in patients with ARDS
Abstract Presenter: Lina Marcela Polanco (Madrid, Spain)
Scientific Programme

Comparison of three methods to measure the mechanical power in patients with the acute respiratory distress syndrome
Abstract Presenter: Bruno Louis (Creteil, France)

Predicting the presence and the impact of Diffuse Alveolar Damage Through open lung biopsy in acute respiratory distress syndrome - The PREDATOR Study
Abstract Presenter: Pablo Cardinal-Fernández (Madrid, Spain)

Efficacy of prone ventilation on ARDS in patients with abdominal surgery - therapeutic evaluation by CT findings
Abstract Presenter: Masayuki Akatsuka (Sapporo, Japan)

Review of the patients with moderate-severe acute respiratory distress syndrome in a polivalent ICU of a third level hospital
Abstract Presenter: Emilia Rosas (Madrid, Spain)

Impact of gender in patients with Acute Respiratory Distress Syndrome: insights from the LUNG SAFE study
Abstract Presenter: Emanuele Rezoagli (Monza, Italy)

High C-reactive protein as a marker of prognosis in ARDS patients
Abstract Presenter: Susana Mendes Fernandes (Lisboa, Portugal)

Acute respiratory distress syndrome diagnosis and management: assessment of current practice in a tertiary care center intensive care unit
Abstract Presenter: Michael Mikhaeil, BSc, MD (London, Canada)

Moderate and severe ARDS: hemodynamic and cardiac effects of an open lung strategy with recruitment maneuver analyzed using echocardiography
Abstract Presenter: Michel Slama (Amiens, France)

Ultrasonographic assessment of lung recruitment with two different positive end-expiratory pressure strategies in moderate to severe acute respiratory distress syndrome
Abstract Presenter: Ahmad Bagheri moghaddam (Mashhad, Iran, Islamic Republic of)

Effect of prone on PEEP-induced regional static strain in ARDS patients. Preliminary results
Abstract Presenter: Rodrigo Cornejo (Santiago, Chile)

Predicting prone withdrawal success in ARDS patients: DP/Cstat index, the role of stretch (PROWISARDS)
Abstract Presenter: Jose Obeth Montoya Rojo (Mexico City, Mexico)

11:10 - 13:10

**Severity of disease**

Chair: Arjen Slooter (Utrecht, Netherlands)  
Chair: Laurent Papazian (Marseille, France)

**Critical care follow up organisation with technology support: a feasibility survey to explore the utility of an “app” based post-critical illness support**  
Abstract Presenter: James McKenna (Belfast, United Kingdom)

**Arterial pressure and vasopressor dose as predictors of mortality in patients with distributive shock**  
Abstract Presenter: Nathan D. Nielsen (New Orleans, United States)

**Clinical, biochemical and haemodynamic variables as independent predictors of 90-day mortality: the Simple Intensive Care Studies-I**  
Abstract Presenter: Bart Hiemstra (Groningen, Netherlands)

**Influence of comorbidity on outcomes in very old patients admitted to the ICU**  
Abstract Presenter: Alejandro Ortín (Cartagena, Spain)

**Mobile ICU response team (MIRT), a novel solution to expand undelayed critical care beyond the ICU doors; outcome on mortality and length of stay**  
Abstract Presenter: Ali Omranian (Hoston, United States)

**Mean arterial pressure and catecholamine-sparing effects of vasopressin in patients with distributive shock in an academic medical center**  
Abstract Presenter: Feng Zeng (San Diego, United States)

**Lactate clearance in the burned patient, does it really clarify something?**  
Abstract Presenter: Marcelo Aviles Garcia (Madrid, Spain)

**Thriving or surviving, national targets verses regional needs: outcomes for out of hospital cardiac arrests (OHCA) from intensive care in a geographically, architecturally and economically challenged region**  
Abstract Presenter: Gemma Lee (Hull, United Kingdom)
A comparison of healthcare-associated infections caused by multidrug-resistant organism or non-multidrug-resistant organism on mortality, length of stay and hospital costs in patients admitted to the intensive care units: using propensity-score matching
Abstract Presenter: Wei-Hung Lai (Kaohsiung, Taiwan, Province of China)

Does the use of brief cognitive-behavioural and mindfulness techniques reduce psychological distress during critical care?
Abstract Presenter: Christopher Lambert (Cambridge, United Kingdom)

A feasibility study to assess pre-admission status and six month outcomes of major trauma patients admitted to an intensive care unit (ICU), using the WHO DAS 2.0 - preliminary analysis
Abstract Presenter: Rebekah Haylett (Oxford, United Kingdom)

Comparison of lung ultrasound (US) based weaning indices with RSBI: are they helpful?
Abstract Presenter: Abhinav Banerjee (Jamshedpur, India)

Ultrasound for determination of right ventricular - pulmonary artery coupling in ICU patients
Abstract Presenter: Machteld Johanna Boonstra (Amsterdam, Netherlands)

The added value of the daily presence of a pharmacist within the intensive care unit of a Dutch top-clinical hospital
Abstract Presenter: Emmy Boerrigter (Tilburg, Netherlands)

Comparing intravenous unfractionated heparin and subcutaneous low molecular weight heparin as therapeutic anticoagulation on intensive care
Abstract Presenter: Rebecca Gayner (Bristol, United Kingdom)

Modification of ICU environment is associated with reduced incidence of delirium - results from the VITALITY study
Abstract Presenter: Alawi Luetz (Berlin, Germany)

Poster Corner
11:10 - 13:10

New research in perioperative medicine
Chair: Aarne Feldheiser (Berlin, Germany)
Chair: Matthias Derwall (Aachen, Germany)

Association of perioperative variables and the acute respiratory distress syndrome in liver transplant recipients
Abstract Presenter: Juan G Ripoll (Rochester, United States)

Intraoperative use of 6% hydroxyethyl starch (130/0.4) and outcome in patients with major surgical haemorrhage: a retrospective study
Abstract Presenter: Jigeeshu Divatia (Mumbai, India)

Cerebral oxygenation evaluated by spatially resolved near-infrared spectroscopy shows a clinically small decrease during arthroscopic shoulder surgery with the patient in the beach chair position
Abstract Presenter: Yusuke Itosu (Sapporo, Japan)
Scientific Programme

Operation time of 15 hours or more increases postoperative complications: a retrospective study on extra-long hepatectomy
Abstract Presenter: Mariko Nagata (Aichi, Japan)

Intra-operative management of major pancreatic surgery: what matters most?
Abstract Presenter: Katia Donadello (Verona, Italy)

Risk factors for postoperative shallow tube depth of nasotracheal tube
Abstract Presenter: Sun Ok Kim (Suwon, Korea, Republic of)

Incidence and associated factors of successfully immediate extubation after liver transplantation
Abstract Presenter: Aphichat Suphathamwit (Bangkok, Thailand)

Cardiopulmonary exercise testing as a predictor of hospital stay in patients undergoing oesophagogastrectomy
Abstract Presenter: Michelle Gerstman (London, United Kingdom)

Evolution and complications in the immediate postoperative of citoreductive surgery and hyperthermic intraperitoneal chemotherapy (CRS-HIPEC)
Abstract Presenter: Emilia Rosas Carvajal (Madrid, Spain)

Monitoring of mitochondrial oxygen tension in the operating theatre: first experiences with the novel COMET monitor
Abstract Presenter: Mark Wefers Bettink (Rotterdam, Netherlands)

Intensive care unit management, early morbidity and mortality of patients following cytoreductive surgery with hyperthermic intraperitoneal chemotherapy
Abstract Presenter: Ana Raquel Monteiro (Coimbra, Portugal)

The influence of pre-operative physical status on morbidity and mortality of patients undergoing major pancreatic surgery
Abstract Presenter: Katia Donadello (Verona, Italy)

Unbalanced fluid administration in liver transplant correlates with postoperative acidosis and chloride load: a single centre perspective
Abstract Presenter: Anthony Yong Kheng Cordero Ng (Cambridge, United Kingdom)

Cardiac output monitoring to guide fluid therapy in perioperative renal transplantation: results from a preliminary study
Abstract Presenter: P. Gaspar da Costa (Lisbon, Portugal)

Central venous-to-arterial carbon dioxide difference combined with arterial-to-venous oxygen content difference in the early postoperative care following liver transplantation
Abstract Presenter: Ignacio Saez de la Fuente (Madrid, Spain)

Impact of vascular procedures on coagulation and fibrinolysis
Abstract Presenter: Kamil Polok (Kraków, Poland)

Poster Corner

Cardiothoracic & vascular surgery

Chair: Alain Vuylsteke (London, United Kingdom)
Chair: Manuel Ignacio Monge García (Jerez de la Frontera, Spain)
Lactate-guided therapy after cardiac surgery: a randomized and controlled trial
Abstract Presenter: Ludhmila Hajjar (Sao Paulo, Brazil)

The relationship of endothelial glycocalix with hemodynamic and metabolic parameters during perioperative period of valve surgery
Abstract Presenter: Mikhail Kirov (Arkhangelsk, Russian Federation)

Effect of cytoadsorbant device on post-cardio-pulmonary bypass inflammation
Abstract Presenter: Elettra Poli (Lausanne, Switzerland)

Factors associated with post-operative complications within a thoracic surgery enhanced recovery pathway
Abstract Presenter: Yên-Lan Nguyen (Paris, France)

Comparison of coagulation and fibrinolysis markers concentrations between patients undergoing vascular procedures for abdominal aortic aneurysm, peripheral artery disease and a control group
Abstract Presenter: Kamil Polok (Kraków, Poland)

Use of mechanical support with ECMO in refractory respiratory failure due to reperfusion edema during postoperative care of pulmonary endarterectomy
Abstract Presenter: Pablo Pagliarani Gil (Madrid, Spain)

Diaphragmatic dysfunction following thoracic surgery: an echographic assessment
Abstract Presenter: Matthieu Daniel (Paris, France)

Rhabdomyolysis after elective cardiac surgery procedures with the use of cardiopulmonary bypass: a single center study
Abstract Presenter: Fotini Ampatzidou (Thessaloniki, Greece)

The effect of ERAS fluid protocol on platelet count and neutrophil-lymphocyte ratio (COP-NLR), mortality and morbidity in resectable lung cancer cases
Abstract Presenter: Selda Sen (Aydın, Turkey)

Relationship between hemoglobin level at admission and renal injury during hospital stay and after in patients undergoing cardiac surgery
Abstract Presenter: Francisco Villagran Ramirez (Granada, Spain)

Low functional grade of mobilizing capacity predict worse survival to lung transplantation in patients receiving immediate post-transplant pulmonary rehabilitation in intensive care unit
Abstract Presenter: Nam Eun Kim (Seoul, Korea, Republic of)

Extra-corporeal membrane oxygenation (ECMO) for refractory cardiogenic shock after adult cardiac surgery: pilot experience in a new referral center
Abstract Presenter: Juan Carlos Lopez-Delgado (Barcelona, Spain)

Exploring the use of an innovative technology for pain assessment during mediastinal tube removal in cardiac surgery patients in the intensive care unit: the Nociception Level (NOL) IndexTM
Abstract Presenter: Céline Gélinas (Montreal, Canada)

Evaluation of patients with the diagnosis of vasculitis admitted to a medical ICU
Abstract Presenter: Ebru Ortac Ersoy (Ankara, Turkey)

Small-vessel vasculitides patients have the highest mortality among systemic autoimmune diseases patients in intensive care unit: a retrospective study with 5-year follow-up
Abstract Presenter: Jacek Górka (Kraków, Poland)
Scientific Programme

A global ergonomic evaluation of two new generation transport monitors in immersive simulation
Abstract Presenter: Erwan L'Her (Brest, France)

Epidemiology & outcome in sepsis
Chair: Flavia R. Machado (São Paulo, Brazil)
Chair: Philippe Montravers (Paris, France)

Epidemiology and outcome of source control procedures in critically ill patients with severe intra-abdominal infections
Abstract Presenter: Kirsten van de Groep (Utrecht, Netherlands)

Influence of fluid administration in the first ICU day on septic patients mortality. Analysis of an electronic database
Abstract Presenter: Antonio Naharro-Abellan (Majadahonda, Spain)

Sepsis-related deaths in the at-risk population on the wards: attributable fraction of mortality in a large point-prevalence study
Abstract Presenter: Maja Kopczynska (Cardiff, United Kingdom)

The comparison of infection prevalence, sepsis development, mortality and morbidity rates in traumatic brain injury
Abstract Presenter: Ilkay Saydere (Mersin, Turkey)

Differences in the outcomes of patients with sepsis and septic shock admitted to either public or private hospitals in Argentina, a low-middle income country (LMIC), using Sepsis-3 definitions
Abstract Presenter: Elisa Estenssoro (La Plata, Argentina)

Factors associated with mortality in patients with nosocomial infection in a mixed ICU after 6 years of selective digestive decontamination
Abstract Presenter: Catalina Sánchez Ramírez (Las Palmas de Gran Canaria, Spain)

Sepsis after elective surgery - a nationwide study on etiology and outcome
Abstract Presenter: Edda Vesteinsdottir (Reykjavík, Iceland)

Invasive mechanical ventilation in sepsis and outcome: an observational study
Abstract Presenter: Ting Yang (Rochester, United States)

Mortality and resource utilization in patients with community- and hospital-onset sepsis admitted to intensive care units in Japan: a nationwide discharge and administrative claim database study
Abstract Presenter: Mayuko Tounai (Kamogawa, Japan)

Association of mortality and circumferential left ventricular strain in ICU septic patients
Abstract Presenter: Ahtziri Yunuén Rodríguez Santos (Mexico, Mexico)

Influence on septic shock outcome of previous use of statins
Abstract Presenter: Rafael Zaragoza (Valencia, Spain)
Scientific Programme

Intensive care unit, surgical and medical wards acquired sepsis in a major university hospital
Abstract Presenter: Gloria Renedo Sánchez-Girón (Valladolid, Spain)

Factors associated with mortality in patients admitted for influenza A during 2012-2016
Abstract Presenter: Juan Carlos Lopez-Delgado (Barcelona, Spain)

Bacteraemia and its treatment in sepsis on the wards: results of a large point-prevalence study
Abstract Presenter: Paul McNulty (Cardiff, United Kingdom)

Risk factors associated with septic shock in the emergency department: preliminary report of a multicenter study
Abstract Presenter: Luis Antonio Gorordo-Delsol (Gustavo A. Madero, Mexico)

Mortality prediction among sepsis patients using a combination of National Early Warning Score, age, gender and serum lactate levels
Abstract Presenter: Chie Tanaka (Tokyo, Japan)

Influence of fluid balance on mortality and duration of mechanical ventilation in septic shock
Abstract Presenter: Diana Monge Donaire (Zamora, Spain)

Poster Corner
11:10 - 13:10

Monitoring tool in sepsis
Chair: Michael Sander (Giessen, Germany)
Chair: Alexandre Mebazaa (Paris, France)

Sepsis-induced myocardial dysfunction as a predictor of mortality in the adult septic patient in the intensive care unit: a prospective cohort study
Abstract Presenter: David Pérez-Torres (Valladolid, Spain)

Effect of hyperbaric oxygenation on red blood cells deformability
Abstract Presenter: Francoise Steenebruggen (Charleroi, Belgium)

Advanced glycation end products and new-onset atrial fibrillation in sepsis
Abstract Presenter: Emilio Rodriguez-Ruiz (Santiago de Compostela, Spain)

Evaluation of preload functional status and cardiac output in sepsis resuscitation
Abstract Presenter: Ivor Douglas (Denver, United States)

Bedside echocardiography to predict 28-day mortality in sepsis: the value of day 1 MAPSE
Abstract Presenter: Pedro Cavaleiro (Faro, Portugal)

The role of platelet aggregometry in predicting sepsis-induced thrombocytopenia
Abstract Presenter: Alberto Fogagnolo (Ferrara, Italy)

Acoustocerebrography in septic patients: first clinical results
Abstract Presenter: Martin Sauer (Rostock, Germany)

Ultrasound evaluation of muscle wasting in patients with sepsis and prolonged respiratory support
Abstract Presenter: Juan Francisco Martínez Carmona (Málaga, Spain)
Scientific Programme

MAP versus SBP - which parameter is more sensitive to determine an early decline in the clinical status of hospitalized patients with hypotension and comparison of hemodynamic characteristics of septic versus non-septic patients
Abstract Presenter: Tony To Hang Lui (Singapore, Singapore)

Changes in initial distribution volume of glucose in endotoxin-induced septic pig models
Abstract Presenter: Takuya Suganuma (Hirosaki, Japan)

Poor agreement in venoarterial PCO2/arteriovenous O2 content difference ratio, using central and mixed venous blood samples
Abstract Presenter: Arnaldo Dubin (La Plata, Argentina)

Decreased endothelial glycocalyx thickness is an early predictor of mortality in sepsis
Abstract Presenter: Martine Bol (Maastricht, Netherlands)

Real time assessment of tissue perfusion markers with fluid bolus in sepsis: time to change our targets???
Abstract Presenter: Jain Nikhilesh (Indore, India)

Dynamic arterial elastance as a predictor of arterial blood pressure response to fluid administration in septic patients: a prospective observational study
Abstract Presenter: Mai El-Sayed (Cairo, Egypt)

Factors influencing carotid blood flow measurements in ICU patients
Abstract Presenter: Gul Gursel (Ankara, Turkey)

Time-course of ventriculo-arterial decoupling in human sepsis
Abstract Presenter: Giacomo Errico (Foggia, Italy)

Preventive isolation in an intensive care unit
Abstract Presenter: Elena Trujillo García (Málaga, Spain)

Tech Lounge
11:15 - 12:00

Break-Networking-Brainstorming

NEXT Lounge
11:50 - 12:50

NEXT Research Studies

#ESICMNEXT
Chair: Burcin Halacli (Ankara, Turkey)
Chair: Stefan Schaller (Munich, Germany)

Presentation of research study pitches by Research Master Class teams 11:50
Thematic Session
12:00 - 14:00

**SSC: The 2018 bundles release**

#sepsis

Chair: Massimo Antonelli (Rome, Italy)
Chair: Maurizio Cecconi (Milan, Italy)

**The 2018 Surviving Sepsis Campaign bundles**
Speaker: Andrew Rhodes (London, United Kingdom)

**Guidelines and bundles, sorting through the confusion**
Speaker: Laura Evans (New York, United States)

**Should the Surviving Sepsis Campaign guidelines be retired? Pros**
Speaker: Manu Malbrain (Antwerp, Belgium)

**Should the Surviving Sepsis Campaign guidelines be retired? Cons**
Speaker: Mitchell Levy (Providence, United States)

**Open questions to the panel**
Speaker: Andrew Rhodes (London, United Kingdom)
Speaker: Laura Evans (New York, United States)
Speaker: Manu Malbrain (Antwerp, Belgium)
Speaker: Mitchell Levy (Providence, United States)

---

Thematic Session
12:00 - 14:00

**Assessing & predicting fluid responsiveness**

#cardio

Chair: Thomas Scheeren (Groningen, Netherlands)
Chair: Xavier Monnet (Paris, France)

**...by manipulating ventilator settings**
Speaker: Sheila Nainan Myatra (Mumbai, India)

**Discussion**

**...by passive leg raising**
Speaker: Xavier Monnet (Paris, France)

**Discussion**

**...by mini-/micro fluid challenges**
Speaker: Simon Vistisen (Aarhus, Denmark)

**Discussion**

**...using extra-systoles**
Speaker: Simon Vistisen (Aarhus, Denmark)

**Discussion**
Scientific Programme

...during spontaneous ventilation 13:20
Speaker: Azriel Perel (Tel Aviv, Israel)

Discussion 13:35

Putting it all together: Integrating haemodynamic variables 13:40
Speaker: Jean-Louis Teboul (Kremlin-Bicetre, France)

Discussion 13:55

State of the Art Session
12:00 - 14:00
Barcelona

Ultrasound for the intensivist
#cardio

Chair: Bernard Cholley (Paris, France)
Chair: Iwan Van der Horst (Groningen, Netherlands)

In assessing cardiac function 12:00
Speaker: Antoine Vieillard-Baron (Boulogne, France)

Discussion 12:15

In assessing the lungs 12:20
Speaker: Daniel Lichtenstein (Paris, France)

Discussion 12:35

In procedures 12:40
Speaker: Jacques Duranteau (Kremlin-Bicetre, France)

Discussion 12:55

In assessing circulatory volume 13:00
Speaker: Bernard Cholley (Paris, France)

Discussion 13:15

In assessing organ perfusion 13:20
Speaker: Martin Dünser (Linz, Austria)

Discussion 13:35

In assessing the whole body 13:40
Speaker: Iwan Van der Horst (Groningen, Netherlands)

Discussion 13:55
Scientific Programme

State of the Art Session
12:00 - 14:00

Getting to grips with antimicrobial resistance

#micro

Chair: Claire Roger (Nimes, France)
Chair: Hendrik Bracht (Ulm, Germany)

Recognising the patient at risk for antimicrobial resistance
Speaker: Lennie Derde (Utrecht, Netherlands)

12:00

Discussion
12:15

Resistant gram-positive infections
Speaker: George Dimopoulos (Athens, Greece)

12:20

Discussion
12:35

Acinetobacter: Your patient’s worst nightmare
Speaker: José Garnacho-Montero (Seville, Spain)

12:40

Discussion
12:55

Treating ESBL-producing pathogens in 2018
Speaker: Saad Nseir (Lille, France)

13:00

Discussion
13:15

Treatment options in CRE infections
Speaker: Gennaro De Pascale (Rome, Italy)

13:20

Discussion
13:35

How to reduce antibiotic resistance: What intensivists can do
Speaker: Jan De Waele (Ghent, Belgium)

13:40

Discussion
13:55

Thematic Session
12:00 - 14:00

AKI in patients with non-renal problems

#renal

Chair: Miet Schetz (Leuven, Belgium)
Chair: Antoine Schneider (Lausanne, Switzerland)

Trauma
Speaker: John Prowle (London, United Kingdom)

12:00

Discussion
12:15

ARDS
Speaker: Thomas Rimmélé (Lyon, France)

12:20

Discussion
12:35
Scientific Programme

Cardiogenic shock - Heart failure
Speaker: Eric Hoste (Ghent, Belgium)

Discussion

Septic shock
Speaker: Suvi Vaara (Helsinki, Finland)

Discussion

Liver failure
Speaker: Lui Forni (Surrey, United Kingdom)

Discussion

Hypo-/hyperNa
Speaker: Marjel van Dam (Utrecht, Netherlands)

Discussion

Thematic Session
12:00 - 14:00
Stockholm

Secondary brain damage

#neuro

Chair: Victoria McCredie (Toronto, Canada)
Chair: Chiara Robba (Cambridge, United Kingdom)

Metabolic disturbances
Speaker: Donald Griesdale (Vancouver, Canada)

Discussion

Drug-induced encephalopathy
Speaker: Pedro Kurtz (Rio de Janeiro, Brazil)

Discussion

Haepatic encephalopathy
Speaker: Romain Sonneville (Paris, France)

Discussion

Cerebral complications in the transplanted patient
Speaker: Geert Meyfroidt (Leuven, Belgium)

Discussion

Hyperthermia after neurological injury
Speaker: Chiara Robba (Cambridge, United Kingdom)

Discussion

Septic encephalopathy
Speaker: Mauro Oddo (Lausanne, Switzerland)
Scientific Programme

Discussion 13:55

Thematic Session
12:00 - 14:00  Lisbon

New therapies in ICU: Will they work?
#sepsis
Chair: Yasser Sakr (Jena, Germany)
Chair: Massimo Girardis (Modena, Italy)

Update on recent clinical trials 12:00
Speaker: Ricard Ferrer Roca (Barcelona, Spain)

Discussion 12:15

Angiotensin II 12:20
Speaker: Elio Antonucci (Piacenza, Italy)

Discussion 12:35

Trimodulin 12:40
Speaker: Antoni Torres (Barcelona, Spain)

Discussion 12:55

Immunostimulating strategies 13:00
Speaker: Peter Pickkers (Nijmegen, Netherlands)

Discussion 13:15

Stem cell therapy 13:20
Speaker: Antonio Artigas (Barcelona, Spain)

Discussion 13:35

Alkaline phosphatase 13:40
Speaker: Pedro Povoa (Lisbon, Portugal)

Discussion 13:55

Thematic Session
12:00 - 14:00  Athens

Tailored sedation use in the ICU
#neuro
Chair: Claudia Spies (Berlin, Germany)
Chair: David Menon (Cambridge, United Kingdom)

Can (and should we) avoid benzodiazepines? 12:00
Speaker: Lara Prisco (Oxford, United Kingdom)

Discussion 12:15
Has dexmedetomidine added anything to our approach to sedation?  
Speaker: Pierre Bouzat (Grenoble, France)  
Discussion  
Symptom based management: Treating pain, anxiety, and agitation sleep individually  
Speaker: Björn Weiss (Berlin, Germany)  
Discussion  
Iatrogenic opioid withdrawal syndrome  
Speaker: Pedro Kurtz (Rio de Janeiro, Brazil)  
Discussion  
Physical restraint use in critically ill patients  
Speaker: Geeta Mehta (Toronto, Canada)  
Discussion  
How to get your patient moving: Beyond early mobilisation  
Speaker: Steffen Weber-Carstens (Berlin, Germany)  
Discussion  

Thematic Session  
12:00 - 14:00  
Vienna  

Out of ICU: What now?  
#LIVES2018#rehab  
Chair: Carole Boulanger (Exeter, United Kingdom)  
Chair: Eva Laerkner (Odense C, Denmark)  
Let's standardise uniform PICS outcomes  
Speaker: Hans Flaatten (Bergen, Norway)  
Discussion  
Drive the THRIVE forward!  
Speaker: Ruth Endacott (Plymouth, United Kingdom)  
Discussion  
Nurse-led follow up clinics  
Speaker: Margo Van Mol (Rotterdam, Netherlands)  
Discussion  
Anxiety & depression as a consequence of ICU stay  
Speaker: Gisela Lilja (Lund, Sweden)  
Discussion  
Impact on family once home  
Speaker: Jos Latour (Plymouth, United Kingdom)
Scientific Programme

Discussion  13:35
Rehabilitation: What comes first?  13:40
Speaker: David McWilliams (Birmingham, United Kingdom)
Discussion  13:55

Thematic Session  12:00 - 14:00  Glasgow

Update in family centered care
#ethic
Chair: J. Randall Curtis (Seattle, United States)
Chair: Christiane Hartog (Jena, Germany)
What is family centered care?  12:00
Speaker: Rik Gerritsen (Leeuwarden, Netherlands)
Discussion  12:15
Is family satisfaction important?  12:20
Speaker: Hanne Irene Jensen (Vejle, Denmark)
Discussion  12:35
Rounding with families  12:40
Speaker: Lara Prisco (Oxford, United Kingdom)
Discussion  12:55
Improving communication  13:00
Speaker: J. Randall Curtis (Seattle, United States)
Discussion  13:15
Psychological interventions  13:20
Speaker: Bara Ricou Arita (Geneva, Switzerland)
Discussion  13:35
End-of-life care and bereavement  13:40
Speaker: Nancy Kentish-Barnes (Paris, France)
Discussion  13:55

Thematic Session  12:00 - 14:00  BM6

Workshop: Infusion pumps
Chair: Paul Klaver (Utrecht, Netherlands)
Chair: Menne Schakel (Delft, Netherlands)
Interactive Debates
12:15 - 13:15

**Prognostication in comatose cardiac arrest patients - How to proceed?**

#trauma

Chair: Claudio Sandroni (Rome, Italy)

**Presentation**

Speaker: Mauro Oddo (Lausanne, Switzerland)
Speaker: Kjetil Sunde (Oslo, Norway)
Speaker: Markus Skrifvars (Helsinki, Finland)

---

Arena
12:30 - 13:40

**Acute respiratory failure: From mechanical ventilation to ECMO**

Chair: Luciano Gattinoni (Milan, Italy)
Chair: Ewan Goligher (Toronto, Canada)

- **Transpulmonary thermodilution before and during veno-venous extra-corporeal membrane oxygenation ECMO: an observational study on a potential loss of indicator**
  - Abstract Presenter: Wolfgang Huber (Munich, Germany)

- **Epidemiology of myocardial dysfunction in patients with hypoxemic respiratory failure and acute respiratory distress syndrome: an observational cohort study**
  - Abstract Presenter: Ken Parhar (Calgary, Canada)

- **Neutrophils, L-lactate and D-lactate in the tracheal sputum from intubated patients at the intensive care unit as biomarkers for lower respiratory tract infection**
  - Abstract Presenter: Christian Dalby Sørensen (Hillerød, Denmark)

- **Can ECCO2R be the rising sun for respiratory failure?**
  - Abstract Presenter: Adriaan Sablon (Jette, Belgium)

- **Cardiac index (CI) derived from transpulmonary thermodilution (TPTD) with indicator injection into the pulmonary artery during ECMO: a comparison with indicator injection into the right atrium to derive CI from pulmonary arterial and transpulmonary thermodilution: the HEUREKA-II animal study**
  - Abstract Presenter: Wolfgang Huber (Munich, Germany)

- **Oxygen challenge test and prediction of decannulation from veno-venous extracorporeal membrane oxygenation**
  - Abstract Presenter: Emma Louise Hartley (London, United Kingdom)

- **Electrical impedance tomography reveals the loss of aeration in dependent zones during T-tube trial in weaning patients from mechanical ventilation**
  - Abstract Presenter: Brenda Fuenzalida (Santiago, Chile)
Scientific Programme

Adaptive lung-protective ventilation with automated minimization of inspiratory power
Abstract Presenter: Tobias Becher (Kiel, Germany)

Comparing measurements of the exhaled CO2 volume determined by volumetric capnography-equipped ventilators
Abstract Presenter: Kenya Yarimizu (Yamagata, Japan)

Esophageal balloon calibration improves esophageal pressure monitoring accuracy during robotic uro-gynecological surgery: feasibility study
Abstract Presenter: Gianmario Cammarota (Novara, Italy)

Simulation Centre
12:30 - 14:00
Simulation Centre - TEE/TOE Area

TTE area (for EDEC Advanced Course)
#cardio

Hands-on 12:30
Speaker: Bouchra Lamia (Rouen, France)
Speaker: Filippo Sanfilippo (Catania, Italy)
Speaker: Nick Fletcher (London, United Kingdom)
Speaker: Antoine Vieillard-Baron (Boulogne, France)

NEXT Lounge
13:00 - 14:00
NEXT Lounge

NEXT Winners (YLA & Research Workshop)
#ESICMNEXT

Chair: Jozef Kesecioglu (Utrecht, Netherlands)
Chair: Björn Weiss (Berlin, Germany)
Chair: Burcin Halaci (Ankara, Turkey)
Chair: Stefan Schaller (Munich, Germany)
Chair: Kelly Underman (Philadelphia, United States)
Chair: Matthew J. Rowland (Oxford, United Kingdom)
Chair: Julian Bion (Birmingham, United Kingdom)
Chair: Laura Galarza Barrachina (Castellon, Spain)
Chair: Cristina Santonocito (Palermo, Italy)

Hot Topics Session
14:10 - 17:20
Paris

Hot Topics Session
#LIVES2018

Chair: Howard Bauchner (Boston, United States)
Chair: Massimo Antonelli (Rome, Italy)

Award winners 14:10
Scientific Programme

Pantoprazole in patients at risk for gastrointestinal bleeding in the ICU (SUP-ICU Trial)
Speaker: Morten Hylander Møller (Copenhagen, Denmark)
Discussion

Effect of a simulation programme on the reduction of psychosocial risks in ICU nurses: A Randomised Controlled Trial
Speaker: Sabine Valera (Marseille, France)
Discussion

Effect of a low versus intermediate tidal volume strategy on ventilator-free days in Intensive Care Unit Patients without ARDS: A Randomised Clinical Trial
Speaker: Marcus Schultz (Amsterdam, Netherlands)
Discussion

High-flow nasal oxygen vs standard oxygen in immunocompromised patients with Acute Respiratory Failure: The HIGH Randomised Clinical Trial
Speaker: Elie Azoulay (Paris, France)
Discussion

Prophylactic hypothermia for severe Traumatic Brain Injury (POLAR) RCT
Speaker: Jamie Cooper (Melbourne, Australia)
Discussion

Thrombomodulin administration in sepsis-associated coagulopathy
Speaker: Jean-Louis Vincent (Brussels, Belgium)
Discussion

Human recombinant Alkaline Phosphatase for sepsis-associated acute kidney injury: A Randomised Clinical Trial
Speaker: Peter Pickkers (Nijmegen, Netherlands)
Discussion

Peripheral perfusion targeted resuscitation in early septic shock: The ANDROMEDA shock study
Speaker: Glenn Hernandez (Santiago, Chile)
Discussion
