### SDC 1 — CPT Codes for surgical and conservative care of phalangeal fractures

| Category                        | Description                                                                                           | Code     |
|--------------------------------|-------------------------------------------------------------------------------------------------------|----------|
| **Closed treatment without manipulation** | Closed treatment of phalangeal shaft fracture, proximal or middle phalanx, finger or thumb; without manipulation, each | 26720    |
|                                | Closed treatment of articular fracture, involving metacarpophalangeal or proximal interphalangeal joint; without manipulation, each | 26740    |
|                                | Closed treatment of distal phalangeal fracture, finger or thumb; without manipulation, each            | 26750    |

| **Closed treatment with manipulation** | Closed treatment of phalangeal shaft fracture, proximal or middle phalanx, finger or thumb; with manipulation, with or without skin or skeletal traction, each | 26725    |
|                                | Closed treatment of articular fracture, involving metacarpophalangeal or proximal interphalangeal joint; with manipulation, each | 26742    |
|                                | Closed treatment of distal phalangeal fracture, finger or thumb; with manipulation, each               | 26755    |

| **Percutaneous fixation** | Percutaneous skeletal fixation of unstable phalangeal shaft fracture, proximal or middle phalanx, finger or thumb, with manipulation, each | 26727    |
|                            | Percutaneous skeletal fixation of distal phalangeal fracture, finger or thumb, each                   | 26756    |

| **Open treatment** | Open treatment of distal phalangeal fracture, finger or thumb, with or without internal or external fixation, each | 26765    |
|                    | Open treatment of phalangeal shaft fracture, proximal or middle phalanx, finger or thumb, with or without internal or external fixation, each | 26735    |
|                    | Open treatment of articular fracture, involving metacarpophalangeal or proximal interphalangeal joint, with or without internal or external fixation | 26746    |
