Supplementary Index

- **Supplement methods Worksheet**
  The worksheet was used to fill in the assessments and demographic information of participant and patient. (PDF, 2 pages, 509 kB)

- **Table S4**
  Intrapersonal agreement between assessed frailty by CFS and clinical judgement. This table presents the intra-rater agreement between clinical judgement (frail/not frail) and frailty assessed by CFS (dichotomised by cut-off CFS \(\leq 4\) meaning not frail and CFS \(\geq 5\) meaning frail), expressed in percentages. (MS Word, 14kB)
