| Short protein/gene name | Commercial Kit                                                                 | Sample dilution | Standard curve range | Company                                      |
|------------------------|--------------------------------------------------------------------------------|-----------------|----------------------|----------------------------------------------|
| EC-SOD                 | Human SOD3 (Extracellular superoxide dismutase [Cu-Zn]) ELISA Kit               | 1:50\(^a\)      | 0.625–40 ng/ml       | Nordic Biosite, Täby, Sweden                 |
| LCN-15                 | LCN15 (Lipocalin-15) ELISA Kit (Human) (OKCA01335)                              | 1:10\(^b\)      | 18.75–1200 pg/mL    | Aviva systems biology, San Diego, CA, USA    |
| MFAP4                  | Human MFAP4 (Microfibril-associated glycoprotein 4) ELISA Kit                   | 1:10\(^c\)      | 0.313–20 ng/ml       | Nordic Biosite, Täby, Sweden                 |
| NGAL                   | Human Lipocalin-2/NGAL Immunoassay                                             | 1:200\(^d\)     | 0.003–0.040 ng/mL    | R&D Systems, Inc., Minneapolis, MN, USA    |
| PAI-1                  | Human Serpin E1/PAI-1, DuoSet R&D kit                                          | 1:10            | 0.31–20 ng/mL        | R&D Systems, Inc., Minneapolis, MN, USA    |
| U-II                   | Human UTS2/Urotensin II ELISA Kit                                              | 1:20\(^e\)      | 15.6–1000 pg/ml      | LSBio, LifeSpan, Seattle, WA Bioscience, Inc., USA |
